- (3) No public notice is required in respect of—
 - (a) an application for an exemption from the application of a provision of Division 3 of Part 8; or
 - (b) an application for a licence to conduct a waste transport business (category B) as described in Part A of Schedule 1.

40—Grant of environmental authorisations

- (1) Subject to this Act, the Authority may grant an environmental authorisation to a person who has made due application for the authorisation and paid the authorisation fee prescribed or determined under the regulations.
- (2) The Authority must, by notice in writing served on the applicant, advise the applicant of its decision on the application and, in the case of a decision refusing a works approval or licence, state in the notice the reasons for the refusal.
- (3) Where the Authority grants an exemption under this Part, the Authority must forthwith cause notice of the exemption to be published in the Gazette.

41—Authorisations may be held jointly

- (1) An environmental authorisation may be held jointly by two or more persons.
- (2) Where an environmental authorisation is held jointly by two or more persons, those persons are jointly and severally liable where any civil or criminal liability attaches to the holder of the authorisation under this Act.

42—Time limit for determination of applications

- (1) If the Authority has not advised an applicant for an authorisation of its decision on the application within the prescribed period after the application is made, the applicant may, after giving 14 days notice in writing to the Authority, apply to the Environment, Resources and Development Court for an order requiring the Authority to make its decision on the application within a time fixed by the Court.
- (2) If an application for an authorisation involves an activity that requires a related approval under the *Development Act 1993* and that approval has not been obtained at the time that the application is made under this Act, the time period under subsection (1) will not commence until approval is obtained under the *Development Act 1993*.

43—Term and renewal of environmental authorisations

- (1) Subject to this Act, an environmental authorisation remains in force for a term determined by the Authority and specified in the authorisation on its grant or renewal.

- (2) An application for the renewal of an environmental authorisation must be made to the Authority in such manner and form as is determined by the Authority and must be accompanied by the prescribed application fee.
- (3) An application for renewal must be made not less than the prescribed number of days before the date of expiry of the environmental authorisation.
- (4) The Authority may, in its discretion, grant a late application for renewal provided that the applicant pays the prescribed late application fee.
- (4a) Before determining an application for renewal, the Authority may, by notice in writing served on an applicant, require the applicant—
 - (a) to undertake public consultation in relation to the application, in accordance with requirements specified in the notice; and
 - (b) to report to the Authority, at a time and in a manner specified in the notice, on the results of the consultation.
- (5) Subject to any condition of the authorisation excluding or limiting the right of renewal under this section and to the applicant complying with any notice under subsection (4a), an environmental authorisation must be renewed by the Authority on due application under this section and payment of the authorisation fee prescribed or determined under the regulations.
- (6) The Authority may, of its own initiative and without application by the holder of an environmental authorisation, renew the authorisation if the Authority is satisfied that it is necessary or appropriate for the protection or restoration of the environment that the holder of the authorisation be bound by conditions of an authorisation (and may do so notwithstanding that the activity undertaken pursuant to the authorisation has ceased but only if the activity ceases after the commencement of this subsection).
- (7) The Authority may renew an authorisation on a late application or under subsection (6) despite the fact that the authorisation has expired and, in that event, the renewal has effect from the end of the term for which the authorisation was previously granted or renewed.

44—Applicants may lodge proposed environment improvement programmes

- (1) Subject to this section, an applicant under this Part may lodge with the Authority a proposed environment improvement programme to be carried out by the applicant.
- (2) A proposed environment improvement programme may—
 - (a) be lodged in association with an application for—
 - (i) an exemption from compliance with the general environmental duty under Part 4 in relation to a specified activity; or
 - (ii) an exemption from specified mandatory provisions of an environment protection policy; and

- (3) A proposed environment improvement programme may—
- (a) be lodged in association with an application for the grant or renewal of a licence; and
 - (b) consist of a programme (the carrying out of which may be required by conditions of the licence) setting out action to be taken within specified periods—

- (1) The Authority may impose conditions of an environmental authorisation with respect to such matters as are contemplated by this Act or as the Authority considers necessary or expedient for the purposes of this Act.
- (2) The Authority may impose a condition of an environmental authorisation, or vary or revoke a condition previously imposed by the Authority, by notice in writing to the person holding the authorisation.
- (3) The Authority may impose or vary a condition of an environmental authorisation—
 - (a) on the granting or renewal of the authorisation; or
 - (ab) if the authorisation is granted or renewed for a term exceeding one year—at any time during the period of three calendar months following the anniversary of the date on which the authorisation was granted or renewed (provided that such conditions may only be of a type described in section 52(1)); or
 - (b) at any time—
 - (i) with the consent of the person holding the authorisation; or
 - (ii) where the Authority considers that it is necessary to impose or vary the condition in consequence of—

46—Notice and submissions in respect of proposed variations of conditions

- (1) Subject to this section, if the Authority proposes to vary the conditions of an environmental authorisation, the Authority must first—
 - (a) give notice in writing of the proposed variation to the holder of the authorisation—
 - (i) setting out the reasons for the proposed variation; and
 - (ii) inviting the holder of the authorisation to make written submissions in relation to the proposed variation within a period specified in the notice (being not less than 14 days from the day on which the notice is given to the holder); and
 - (b) cause public notice of the proposed variation to be published in a newspaper circulating generally in the State—
 - (i) setting out the reasons for the proposed variation; and
 - (ii) inviting interested persons to make written submissions in relation to the proposed variation within a period specified in the notice (being not less than 14 days from the date of publication of the notice).
- (1a) Subject to this section, if the Authority proposes to vary the conditions of an environmental authorisation that authorises an activity for which a permit would, but for section 129 of the *Natural Resources Management Act 2004*, be required under that Act, the Authority must first give notice to the authority under that Act to whom an application for a permit for that activity would otherwise have to be made that—
 - (a) sets out the reasons for the proposed variation; and
 - (b) invites the authority to make written submissions in relation to the proposal within a period specified in the notice (being not less than 14 days after the notice is given to the authority).
- (2) The Authority must, if it considers it appropriate in the circumstances, cause the public notice to be published, in addition, in a local newspaper circulating in the area in which activity is or is to be undertaken pursuant to the environmental authorisation.
- (3) Notice of a proposed variation is not required to be given to the holder of the environmental authorisation if—
 - (a) the proposed variation is to be made with consent of the holder; or
 - (b) the proposed variation consists of the revocation of a condition.
- (4) Public notice under subsection (1)(b) and notice under subsection (1a) are not required if the proposed variation does not result in any relaxation of the requirements imposed for the protection or restoration of the environment by or under this Act on the holder of the environmental authorisation.
- (5) No notice is required in respect of—
 - (a) a proposed variation of conditions of an exemption from a provision of Division 3 of Part 8; or

- (b) a proposed variation of conditions of a licence to conduct a waste transport business (category B) as described in Part A of Schedule 1; or
 - (c) a proposed variation to be made to correct an error or make a change of form (not involving a change of substance); or
 - (d) a proposed variation of a kind prescribed by regulation.
- (6) For the purposes of this section, a reference to the *variation of conditions* includes a reference to the revocation of a condition or the imposition of a condition or further condition after the grant of the authorisation.

47—Criteria for grant and conditions of environmental authorisations

- (1) In determining—
- (a) whether to grant or refuse an environmental authorisation; or
 - (b) what should be the term or conditions of an environmental authorisation,
- the Authority must—
- (c) have regard to, and seek to further, the objects of this Act; and
 - (d) have regard to the general environmental duty; and
 - (e) have regard to any relevant environment protection policy, and, in relation to an application for exemption from mandatory provisions of an environment protection policy, give effect to any provisions of the policy governing the granting of such exemptions; and
 - (ea) have regard to the waste strategy for the State adopted under the *Zero Waste SA Act 2004* (if relevant); and
 - (f) have regard to any relevant reports, assessments, environmental impact statement, public environmental report, development report, Assessment Report, development authorisation or other document or requirement under the *Development Act 1993*; and
 - (g) have regard to any relevant environment improvement programme or environment performance agreement or any such proposed programme or agreement; and
 - (h) have regard to any written submissions (and any responses to such submissions) made to the Authority under this Part that are relevant to the matters to be determined; and
 - (i) in relation to any proposed variation of the conditions of an environmental authorisation, have regard to any submissions made by the holder of the authorisation to the Authority under this Part; and
 - (j) where an authority under the *Natural Resources Management Act 2004* has made submissions to the Authority in response to an invitation under section 39(1a) or 46(1a), have regard to those submissions.
- (2) Despite subsection (1) but subject to subsections (3) and (4), where a person—
- (a) has been granted—
 - (i) a works approval authorising works for the purposes of a prescribed activity of environmental significance; or

- (ii) a development authorisation under Division 1 of Part 4 of the *Development Act 1993* authorising a development for the purposes of a prescribed activity of environmental significance on each application in respect of that development referred to the Authority in accordance with that Division; or
 - (iii) a development authorisation under Division 2 of Part 4 of the *Development Act 1993* authorising a development or project for the purposes of a prescribed activity of environmental significance; and
 - (b) has complied with the conditions (if any) of the works approval or development authorisation imposed by or at the direction of the Authority,
- the Authority may not, on due application for such a licence, refuse to grant a licence authorising the person to undertake that prescribed activity of environmental significance.
- (2a) If an application for an environmental authorisation involves an activity that requires a related approval under the *Development Act 1993*, the Authority must defer its determination of the application under this Act until a relevant development authorisation is obtained under the *Development Act 1993* and the Authority receives notification of that development authorisation (and any conditions) from the applicant (and if an application for a development authorisation is refused under that Act then, subject to the regulations, the Authority must refuse the application for environmental authorisation under this Act).
- (3) The Authority may refuse an environmental authorisation if the Authority is not satisfied that the applicant is a suitable person to be granted the authorisation.
- (4) In particular, without limiting the effect of subsection (3), the Authority may refuse an environmental authorisation—
 - (a) if the applicant has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (b) if the applicant is a body corporate and a director of the body corporate—
 - (i) has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (ii) is or has been the director of another body corporate that has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (c) on any ground prescribed by regulation.
- (5) For the purposes of subsection (4), any Act including an Act that has been repealed or an Act of a place other than this State may be declared by regulation to be a prescribed Act.

48—Annual fees and returns

- (1) This section—
 - (a) applies to an environmental authorisation granted or renewed for a term of two years or more; and
 - (b) does not apply to an environmental authorisation of a prescribed class.
- (2) The holder of an environmental authorisation must—
 - (a) in each year lodge with the Authority, before the date prescribed for that purpose, an annual return containing the information required by the Authority by condition of the authorisation or by notice in writing; and
 - (b) in each year (other than a year in which the authorisation is due to expire) pay to the Authority, before the date prescribed for that purpose, the annual authorisation fee prescribed or determined under the regulations.
- (2a) The Authority may, by condition of an environmental authorisation or by notice in writing, require the holder of the authorisation to verify any information required under subsection (2) in such manner as the Authority thinks fit.
- (3) Where an annual authorisation fee is to be determined by the Authority under the regulations, the Authority must, not less than one month before the date prescribed for payment of the fee, notify the holder of the authorisation of the fee so determined.
- (4) Where the holder of an authorisation fails to lodge the annual return or pay the annual authorisation fee in accordance with subsection (2), the Authority may, by notice in writing, require the holder to make good the default and, in addition, to pay to the Authority the amount prescribed as a penalty for default.
- (5) An annual authorisation fee (including any penalty for default) payable under this section is recoverable by the Authority as a debt due to the Authority.
- (6) In this section—

holder of an environmental authorisation includes the holder of an authorisation that has been suspended.

49—Transfer of environmental authorisations

- (1) Subject to this section and any condition of the authorisation excluding or limiting the right of transfer under this section, the Authority must approve the transfer of an environmental authorisation on due application under this section.
- (2) The Authority may refuse to approve the transfer of an authorisation if the Authority is not satisfied that the proposed transferee is a suitable person to hold the authorisation.
- (3) In particular, without limiting the effect of subsection (2), the Authority may refuse to approve the transfer of an authorisation—
 - (a) if the proposed transferee has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (b) if the proposed transferee is a body corporate and a director of the body corporate—

- (i) has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (ii) is or has been the director of another body corporate that has contravened this Act or any prescribed Act, or has held an environmental authorisation or other authority that has been cancelled or suspended under this Act or any such prescribed Act; or
 - (c) on any ground prescribed by regulation.
- (4) For the purposes of subsection (3), any Act including an Act that has been repealed or an Act of a place other than this State may be declared by regulation to be a prescribed Act.
- (5) An application for approval of the transfer of an environmental authorisation must be made to the Authority in such manner and form as is determined by the Authority and must be accompanied by the prescribed fee.
- (6) Where the Authority requires further information to determine the application, the Authority may, by notice in writing served on the applicant no later than one month after the application is made, require the applicant to furnish further specified information in writing.
- (7) Where further information is required in respect of an application, the application is to be taken not to have been duly made until the information is furnished as required.
- (8) If the Authority has not advised an applicant for the transfer of an authorisation of its decision on the application within two months after the application is made, the applicant may, after giving 14 days notice in writing to the Authority, apply to the Environment, Resources and Development Court for an order requiring the Authority to make its decision on the application within a time fixed by the Court.

50—Death of person holding environmental authorisation

Where the person holding an environmental authorisation dies, a person approved by the Authority is to be taken to hold that authorisation (on the same conditions as were applicable to the deceased) as from the date of the death until the expiration of six months from that date, or until such later day as may be fixed by the Authority.

50A—Avoidance of duplication of procedures etc

- (1) The purpose of this section is to provide for the avoidance of unnecessary duplication of procedures and compliance requirements under the Commonwealth Act and this Act where an activity requires environmental authorisation under this Act and approval under the Commonwealth Act.
- (2) Despite any other provision of this Act, the Authority may—
 - (a) accept a Commonwealth Act document as an application, notice or other document for the purposes of this Act if (subject to subsection (5)) the document complies with the requirements of this Act; and

- (b) direct that a procedure taken under the Commonwealth Act in relation to a Commonwealth Act document that has been accepted by the Authority under paragraph (a) will be taken to have fulfilled the requirement for a procedure in relation to the relevant document under this Act if the requirements of this Act in relation to the procedure have been complied with; and
 - (c) instead of the Authority, or some other person, preparing a plan, report, statement, assessment or other document under this Act, adopt or accept the whole or part of a document (whether a plan, report, statement, assessment or other document of the same kind or not) used, or to be used, for the purposes of the Commonwealth Act as the document required under this Act if (subject to subsection (5)) the document has been prepared in compliance with this Act and complies with the requirements of this Act.
- (3) To avoid doubt, where a controlled action under the Commonwealth Act is an activity or part of an activity, or includes an activity, for which an environmental authorisation is required under this Act, the Authority may, when considering an application for an environmental authorisation, or for the variation of an environmental authorisation, for the activity, use information and other material provided to the Commonwealth Minister under the Commonwealth Act for the purpose of deciding whether to give his or her approval to the controlled action under that Act.
- (4) Where a controlled action under the Commonwealth Act is an activity or part of an activity, or includes an activity, for which an environmental authorisation is required under this Act, the Authority—
 - (a) must, if the Commonwealth Minister has given his or her approval to the controlled action, consider whether the conditions (if any) to be imposed on the authorisation should be consistent with the conditions (if any) attached to the Commonwealth Minister's approval under the Commonwealth Act;
 - (b) may impose a condition on the authorisation that requires compliance with all or some of the conditions attached to the Commonwealth Minister's approval under the Commonwealth Act.
- (5) A document accepted or adopted under subsection (2)—
 - (a) may be in a form that does not comply with the requirements of this Act; and
 - (b) may include information or other material that is irrelevant for the purposes of this Act.
- (6) Once a document is accepted or adopted under subsection (2) or a direction has been given in relation to a procedure under subsection (2)(b), the document or procedure will not be invalid or ineffective for the purposes of this Act because a court, tribunal or other authority has decided that it is invalid or ineffective for the purposes of the Commonwealth Act.
- (7) In this section—

assessment report means—

 - (a) an assessment report as defined in the Commonwealth Act by reference to section 84(3), 95, 100 or 105 of that Act; or

Division 5—Special conditions

51—Conditions requiring financial assurance to secure compliance with Act

- (1) Subject to this section, the Authority may, by conditions of an environmental authorisation, require the holder of the authorisation to lodge with the Authority a financial assurance in the form of a bond (supported by security approved by the Authority), or a specified pecuniary sum, the discharge or repayment of which is conditional on the holder of the authorisation—
 - (a) not committing any contravention of this Act of a specified kind during a specified period; or
 - (b) taking specified action within a specified period to achieve compliance with this Act.
- (2) The Authority may not impose conditions requiring the lodgement of a bond or pecuniary sum unless satisfied—
 - (a) that imposition of the conditions is justified in view of the degree of risk of environmental harm associated with the activities that may be undertaken pursuant to the environmental authorisation, or activities previously undertaken at the place to which the authorisation relates, or the likelihood of action being required to make good resulting environmental damage; or
 - (b) that—
 - (i) the holder of the authorisation has on one or more occasions contravened this Act in relation to the activity undertaken pursuant to the authorisation; and
 - (ii) the imposition of the conditions is justified in view of the nature of the contravention, or the nature, number or frequency of the contraventions; or

- (c) as to any other matters prescribed by regulation.
- (3) The Authority may not, by conditions under subsection (1), require the lodgment of a bond or a pecuniary sum of an amount greater than the amount that, in the opinion of the Authority, represents the total of the likely costs, expenses, loss and damage that might be incurred or suffered by persons as a result of failure by the holder of the authorisation to satisfy the conditions of discharge or repayment of the bond or pecuniary sum.
- (4) A pecuniary sum lodged with the Authority in accordance with conditions under subsection (1) must be paid into the Environment Protection Fund, and the amount of the pecuniary sum that has not been repaid or forfeited to the Fund must, on satisfaction of the conditions of repayment, be repaid to the holder of the authorisation together with an amount representing interest calculated in accordance with the regulations.
- (5) Where the holder of an authorisation fails to satisfy the conditions of discharge or repayment of a bond or pecuniary sum lodged with the Authority, the Authority—
- (a) may determine that the whole or part of the amount of the bond or pecuniary sum is forfeited to the Environment Protection Fund;
 - (b) may apply from the Fund any money so forfeited in payments for or towards the costs, expenses, loss or damage incurred or suffered by the Crown, a public authority or other person as a result of the failure by the holder of the authorisation;
 - (c) may, in the case of a pecuniary sum, on the expiry or termination of the authorisation and when satisfied that there is no reasonable likelihood of any or further valid claims in respect of costs, expenses, loss or damage incurred or suffered as a result of the failure of the holder of the authorisation, repay any amount of the pecuniary sum that has not been repaid or forfeited to the Fund.

52—Conditions requiring tests, monitoring or audits

- (1) Subject to this section, the Authority may, by conditions of an environmental authorisation, require the holder of the authorisation to do either or both of the following:
- (a) to carry out specified tests and environmental monitoring relating to the activity undertaken pursuant to the authorisation, or activities previously undertaken at the place to which the authorisation relates, and to make specified reports to the Authority on the results of such tests and monitoring;
 - (b) to comply with the requirements of an environmental audit and compliance programme to the satisfaction of the Authority.
- (2) An environmental audit and compliance programme may contain requirements of the following kinds:
- (a) requirements for a comprehensive evaluation of the performance of the holder of the authorisation in endeavouring to achieve compliance with this Act, including evaluation of the management practices, production processes and technical systems and equipment adopted or used by the holder of the authorisation;

- (b) requirements as to the qualifications of the person undertaking the evaluation process;
 - (c) requirements as to reporting of the results of the evaluation process to the Authority;
 - (d) requirements as to implementation of changes to management practices, production processes, technical systems or equipment or other matters recommended by the person undertaking the evaluation process or otherwise determined by the Authority to be appropriate in light of the results of the evaluation process.
- (3) The Authority may not impose conditions requiring the conduct of an environmental audit and compliance programme unless the Authority is satisfied—
- (a) that the holder of the authorisation has on one or more occasions contravened this Act in relation to the activity undertaken pursuant to the authorisation; and
 - (b) that the imposition of the conditions is justified in view of the nature of the contravention, or the nature, number or frequency of the contraventions.

52A—Conditions requiring closure and post-closure plans

- (1) The Authority may, by conditions of an environmental authorisation granted in relation to an activity, require the holder of the authorisation—
- (a) to prepare, in accordance with specified requirements and to the satisfaction of the Authority, a plan for the cessation of the activity; and
 - (b) to prepare, in accordance with specified requirements and to the satisfaction of the Authority, a plan for the management and monitoring, after cessation of the activity, of any land on which the activity was carried out; and
 - (c) to comply with any plan so prepared to the satisfaction of the Authority.
- (2) The Authority may only impose conditions under this section on an environmental authorisation if satisfied that the conditions are reasonably required for the purpose of preventing or minimising environmental harm that may result from the activity undertaken pursuant to the authorisation after the activity has ceased.
- (3) The regulations may limit the circumstances in which conditions may be imposed under this section or make any other provisions relating to the imposition of conditions under this section.
- (4) If the Authority imposes any conditions on an environmental authorisation granted in relation to an activity requiring the holder of the authorisation to prepare a plan described in subsection (1)(b), the following provisions apply:
- (a) the Authority must specify the period during which compliance with the plan will be required (which may be until a specified day or until the holder of the authorisation satisfies the Authority that a specified event has occurred or that compliance with specified standards has been achieved); and
 - (b) at the end of the specified period, the Authority must notify the holder of the authorisation, in writing, that compliance with the plan is no longer required; and

- (c) if the Authority has notified the holder of the authorisation that compliance with the plan is no longer required, the Authority may not issue an environment protection order under section 93A for the purpose of preventing or minimising environmental harm that may result from the activity.

53—Conditions requiring preparation and publication of plan to deal with emergencies

The Authority may, by conditions of an environmental authorisation—

- (a) require the holder of the authorisation to prepare, in accordance with specified requirements and to the satisfaction of the Authority, a plan of action to be taken in the event of emergencies that might foreseeably arise out of the activity undertaken pursuant to the authorisation, or activities previously undertaken at the place to which the authorisation relates, and involve the risk of material or serious environmental harm; and
- (b) specify the inquiries to be made prior to the preparation of the plan; and
- (c) specify the qualifications of the person who may be appointed or engaged by the holder of the authorisation to conduct the inquiries and prepare the plan; and
- (d) require the holder of the authorisation to publish the approved plan or an outline of the plan in a manner specified in the conditions.

54—Conditions requiring environment improvement programme

- (1) The Authority may, by conditions of an environmental authorisation, require the holder of the authorisation—
 - (a) to develop, in accordance with specified requirements and to the satisfaction of the Authority, an environment improvement programme containing requirements of a kind specified by the Authority in accordance with this section; and
 - (ab) to undertake public consultation, in accordance with specified requirements, in the course of developing the proposed environment improvement program; and
 - (b) to comply with the requirements of the environment improvement programme as developed by the holder of the authorisation and approved by the Authority.
- (2) An environment improvement programme may contain requirements of the following kinds:
 - (a) requirements specifying action to be taken within specified periods by the holder of the authorisation to achieve compliance with the general environmental duty under Part 4 in relation to the activity undertaken pursuant to the authorisation;
 - (b) where mandatory provisions of an environment protection policy that apply to the activity undertaken pursuant to the authorisation are to come into operation on a specified future day—requirements specifying action to be taken within specified periods by the holder of the authorisation to achieve compliance with the mandatory provisions on or before that day;

- (c) requirements specifying action to be taken within specified periods by the holder of the authorisation to give effect to non-mandatory provisions of an environment protection policy.

54A—Conditions requiring training of employees etc

The Authority may, by conditions of an environmental authorisation, require the holder of the authorisation to provide such information, instruction, training and supervision as is reasonably necessary to ensure that employees and agents of the holder of the authorisation and any other persons involved in carrying out the activity undertaken pursuant to the authorisation understand, and are able to comply with, any requirements imposed by or under this Act (including any conditions of the authorisation).

54B—Conditions requiring certificate of compliance

- (1) The Authority may, by conditions of an environmental authorisation, require the holder of the authorisation to supply to the Authority certificates of compliance that include any of the following information:
 - (a) the extent to which the conditions of the authorisation have or have not been complied with;
 - (b) particulars of any failure to comply with the conditions and the reasons for such failure;
 - (c) any action taken, or to be taken, to prevent any recurrence of that failure or to mitigate the effects of that failure.
- (2) A certificate of compliance must, if required by the Authority, be certified as correct by a person approved by the Authority.
- (3) It is not an excuse for a person to refuse or fail to provide information required to be included in a certificate of compliance on the ground that to do so might tend to incriminate the person or make the person liable to a penalty.
- (4) If compliance by a person with a requirement to include information in a certificate of compliance might tend to incriminate the person or make the person liable to a penalty, then the information included in compliance with the requirement is not admissible in evidence against the person in proceedings for an offence or for the imposition of a penalty (other than proceedings in respect of the making of a false or misleading statement).

Division 6—Suspension, cancellation and surrender of environmental authorisations

55—Suspension or cancellation of environmental authorisations

- (1) The Authority may, if satisfied that—
 - (a) the holder of an environmental authorisation obtained the authorisation improperly; or
 - (b) the holder of an environmental authorisation has contravened a requirement imposed by or under this Act in connection with an activity undertaken pursuant to the authorisation; or

- (c) in the case of an environmental authorisation of a prescribed class—the holder of the authorisation, or, if the holder is a body corporate, a director of the body corporate, has been guilty of misconduct (whether in this State or elsewhere) of a prescribed kind; or
- (d) the holder of an environmental authorisation has ceased to undertake the activity authorised by the authorisation,

suspend the authorisation or cancel the authorisation and, if the Authority thinks fit, impose a disqualification under this section.

- (2) A suspension under this section may be for a specified period, or until the fulfilment of specified conditions, or until further order of the Authority.
- (3) A disqualification under this section may disqualify the holder of the cancelled authorisation, or, if the holder is a body corporate, any director of the body corporate, from obtaining any environmental authorisation, or an environmental authorisation of a specified kind, permanently or for a specified period, or until the fulfilment of specified conditions, or until further order of the Authority.
- (4) Before the Authority acts under this section, the Authority must—
