**PART 3
GAS SUPPLY INDUSTRY**

DIVISION 1—LICENSING OF GAS ENTITIES

Requirement for licence

19. A person must not carry on—

- (a) the operation of a distribution system; or
- (b) the retailing of gas; or
- (c) any other operation for which a licence is required by the regulations,

unless the person holds a licence under this Part authorising the relevant operation.

Maximum penalty: \$50 000.

Application for licence

20. (1) An application for the issue or renewal of a licence must—

- (a) be made to the Technical Regulator in a form approved by the Technical Regulator; and
- (b) contain the information specified in the form.

(2) The applicant must pay to the Technical Regulator an application fee fixed by the Minister of an amount that the Minister considers appropriate to meet the reasonable costs of determining the application.

(3) The Technical Regulator may, as he or she considers appropriate, accept a single application from an applicant in respect of different operations of the applicant or operations of the applicant at different locations or may require separate applications.

(4) The applicant must give the Technical Regulator further relevant information requested by the Technical Regulator.

Consideration of application for issue of licence

21. (1) The Technical Regulator must consider an application for the issue of a licence and may, subject to this Division, issue or refuse to issue the licence.

(2) Subject to this section, the Technical Regulator may only issue a licence if satisfied that—

- (a) the applicant is a suitable person to hold the licence; and
- (b) in the case of a licence authorising the operation of a distribution system—the system has (or the proposed system will have) the necessary capacity for distributing gas safely; and
- (c) in the case of a licence authorising retailing of gas—the applicant will be able to meet reasonably foreseeable obligations under contracts for the sale of gas; and
- (d) in the case of a licence authorising other operations for which a licence is required under the regulations—the applicant meets any special requirements imposed by the regulations for the holding of the licence; and

- (e) in the case of a licence of any class—the grant of the licence would be consistent with criteria (if any) prescribed by regulation for a licence of the relevant class.

(3) In deciding whether an applicant is a suitable person to hold a licence, the Technical Regulator may consider—

- (a) the applicant's previous commercial and other dealings and the standard of honesty and integrity shown in those dealings; and
- (b) the financial, technical and human resources available to the applicant; and
- (c) the officers and, if applicable, major shareholders of the applicant and their previous commercial and other dealings and the standard of honesty and integrity shown in those dealings (including breaches of statutory and other legal obligations); and
- (d) other matters prescribed by regulation.

(4) A licence may not be issued by the Technical Regulator on or after the commencement of this subsection authorising the retailing of gas to a non-contestable consumer.

Authority conferred by licence

22. (1) A licence authorises the person named in the licence to carry on operations in accordance with the terms and conditions of the licence.

(2) The operations authorised by a licence need not be all of the same character or at the same location but may consist of a combination of different operations or operations at different locations.

Licence term and renewal

23. (1) A licence is granted for a term (not exceeding 10 years) stated in the licence.

(2) Subject to this Division and the conditions of the licence, the Technical Regulator must, on due application, renew a licence unless satisfied that the applicant—

- (a) has been guilty of a material contravention of a requirement imposed by or under this Act or any other Act in connection with the operations authorised by the licence such that the licence should not be renewed; or
- (b) would no longer for any reason be entitled to the issue of such a licence.

(3) An application for renewal of a licence must be made, in writing, to the Technical Regulator at least three months, but not more than six months, before the end of the licence term (but the Technical Regulator may grant an exemption from this requirement in an appropriate case).

Licence fees and returns

24. (1) A person is not entitled to the issue or renewal of a licence unless the person first pays to the Technical Regulator the relevant annual licence fee, or the first instalment of the relevant annual licence fee, as the case may require.

(2) The holder of a licence issued for a term of two years or more must—

- (a) in each year lodge with the Technical Regulator, before the date prescribed for that purpose, an annual return containing the information required by the Technical Regulator by condition of the licence or by written notice; and

Gas Act 1997

(b) in each year (other than a year in which the licence is due to expire) pay to the Technical Regulator, before the date prescribed for that purpose, the relevant annual licence fee, or the first instalment of the relevant annual licence fee, as the case may require.

(3) The annual licence fee is a fee fixed by the Minister of an amount that the Minister considers appropriate as a reasonable contribution towards the costs of administration of this Act and the *Gas Pipelines Access (South Australia) Act 1997* having regard to the nature and scale of the operations that are authorised by the licence.

(4) The annual licence fee may, if the Technical Regulator so determines, be paid in equal instalments at intervals fixed by the Technical Regulator.

* * * * *

(7) If the holder of a licence fails to lodge the annual return or pay the annual licence fee (or an instalment of the annual licence fee) in accordance with this section, the Technical Regulator may, by written notice, require the holder to make good the default and, in addition, to pay to the Technical Regulator the amount prescribed as a penalty for default.

(8) An annual licence fee (including any instalment of an annual licence fee or any penalty for default) payable under this section is recoverable as a debt due to the Crown.

(9) In this section—

"holder" of a licence includes the holder of a licence that has been suspended.

Licence conditions

25. (1) A licence held by a gas entity will be subject to—

- (a) conditions determined by the Technical Regulator requiring compliance with specified standards or codes or other safety or technical requirements; and
- (b) conditions determined by the Technical Regulator requiring the entity—
 - (i) to produce to the Regulator for approval plans and procedures relating to safety and technical matters; and
 - (ii) to implement the plans and procedures and conduct compliance audits as approved by the Regulator; and
- (c) conditions determined by the Technical Regulator relating to the financial or other capacity of the entity to continue operations under the licence for the term of the licence; and
- (d) any other conditions determined by the Technical Regulator.

(2) Without limiting the effect of subsection (1), if a person holds a licence or licences authorising both—

- (a) the operation of a distribution system; and
- (b) the retailing of gas,

the Technical Regulator may make the licence or licences subject to conditions requiring that the person's affairs in relation to the operation of the distribution system be kept separate from the person's affairs in relation to the retailing of gas in the manner and to the extent specified in the conditions.

Licences authorising retailing

26. (1) If a licence authorises the retailing of gas by a gas entity—

- (a) the licence must, if the Minister so determines, confer on the entity an exclusive right to sell and supply gas to non-contestable consumers from a specified distribution system subject to specified limitations; and
- (b) the Technical Regulator may make the licence subject to conditions—
 - (i) requiring or relating to standard contractual terms and conditions to apply to the sale and supply of gas to non-contestable consumers or consumers of a prescribed class; and
 - (ii) requiring the entity to comply with specified minimum standards of service in respect of the entity's non-contestable consumers or consumers of a prescribed class, and requiring monitoring and reporting of levels of compliance with those standards; and
 - (iii) requiring a specified process to be followed to resolve disputes between the entity and consumers as to the sale and supply of gas.

(2) The Technical Regulator must, on the grant of a licence to which subsection (1) applies and before determining, varying or revoking conditions under subsection (1)(b), consult with and have regard to the advice of—

- (a) the Commissioner for Consumer Affairs; and
- (b) any advisory committee established under Part 2 for that purpose.

(3) This section does not limit the matters that may be dealt with by terms or conditions of a licence authorising retailing of gas.

Offence to contravene licence conditions

27. A gas entity must not contravene a condition of its licence.

Maximum penalty: \$50 000.

Notice of licence decisions

28. (1) The Technical Regulator must give an applicant for the issue or renewal of a licence written notice of the Technical Regulator's decision on the application.

(2) The Technical Regulator must give the holder of a licence written notice of any decision by the Technical Regulator affecting the terms or conditions of the licence.

Gas Act 1997

Variation of licence

29. (1) The Technical Regulator may vary the terms or conditions of a gas entity's licence by written notice to the entity.

(2) A variation may only be made—

(a) on application by the gas entity or with the gas entity's agreement; or

(b) after giving the gas entity reasonable notice of the proposed variation and allowing the entity a reasonable opportunity to make representations about the proposed variation.

Transfer of licence

30. (1) A licence may be transferred with the Technical Regulator's agreement.

(2) The Technical Regulator may impose conditions on the transfer of a licence, or vary the terms and conditions of the licence on its transfer.

Surrender of licence

31. (1) A gas entity may, by written notice given to the Technical Regulator, surrender its licence.

(2) The notice must be given to the Technical Regulator at least six months before the surrender is to take effect or, if the licence requires a longer period of notice, as required by the licence.

(3) The Technical Regulator may, by agreement with the gas entity, shorten the required period of notice.

Register of licences

32. (1) The Technical Regulator must keep a register of the licences issued to gas entities under this Act.

(2) The register must include—

(a) the terms and conditions of each licence; and

(b) other information required under the regulations.

(3) A person may, on payment of a fee fixed by the Technical Regulator, inspect the Register.

DIVISION 2—GAS PRICING

Gas pricing

33. (1) The Pricing Regulator may, from time to time, by notice in the *Gazette*, fix a maximum price, or a range of maximum prices, for the sale of gas to non-contestable consumers or prescribed consumers.

(2) A notice under subsection (1) may be limited in application, or have varying application, according to factors specified in the notice.

(3) The Pricing Regulator may, by notice in the *Gazette*, vary or revoke a notice under subsection (1).

(4) The Pricing Regulator may, from time to time, publish in such manner as the Pricing Regulator thinks fit, principles and guidelines that the Pricing Regulator will observe or take into account in fixing prices.

(5) A gas entity must not charge a price for the sale of gas to non-contestable consumers or prescribed consumers that exceeds an applicable maximum price fixed by the Pricing Regulator under this section.

Maximum penalty: \$50 000.

(6) For the purposes of this section, if the actual consumption of gas at a single site during the previous financial year was less than 10 terajoules, the consumer at that site is a prescribed consumer in respect of that site.

(7) The Governor may, by proclamation, fix a day on which this section expires.

DIVISION 3—STANDARD TERMS AND CONDITIONS FOR RETAILING OF GAS

Standard terms and conditions for retailing of gas

34. (1) A gas entity may, from time to time, fix standard terms and conditions governing the sale and supply of gas by the entity to non-contestable consumers or consumers of a prescribed class.

(2) A gas entity must publish in the *Gazette* and in a daily newspaper circulating in the area in which the entity is supplying gas a notice setting out any standard terms and conditions fixed by the entity.

(3) Standard terms and conditions fixed under this section—

(a) must comply with the conditions of the gas entity's licence; and

(b) must not fix prices that exceed maximum prices fixed by the Pricing Regulator under this Part; and

(c) come into force on the day specified by the gas entity in the notice of the standard terms and conditions published under this section, being a day not earlier than the day on which the notice is published; and

(d) when in force are contractually binding on the gas entity and the class of consumers to which the terms and conditions are expressed to apply.

(4) Subject to the conditions of a gas entity's licence, a standard term or condition fixed under this section may be modified or excluded by express agreement between the entity and a consumer of the entity.

DIVISION 4—PROTECTION OF PROPERTY IN GAS INFRASTRUCTURE

Gas infrastructure does not merge with land

35. In the absence of agreement in writing to the contrary, the ownership of a pipe or equipment is not affected by the fact it has been laid or installed as gas infrastructure in or under land.
