 - (i) as having died of a declared exotic disease; and
 - (ii) as being livestock that would have, had they not died, been destroyed for the purposes of controlling or eradicating a declared exotic disease during a declared period; or
- (b) an owner of livestock or other property destroyed in accordance with a notice or order issued under Part 4 Division 4, or by action taken or caused to be taken by an inspector under Part 4 Division 4, for the purposes of controlling or eradicating a declared exotic disease during a declared period.

- (2) The amount of compensation that may be claimed is—
- (a) in the case of livestock that were, immediately before their death or destruction during a declared period, pastured or kept on the same holding—
- (i) the total value of the livestock immediately before the earliest of—
- (A) the date on which the existence or suspected existence of the exotic disease in livestock pastured or kept on the holding was first reported to an inspector or veterinary surgeon; or
- (B) the date on which an inspector first suspected or found livestock pastured or kept on the holding to be affected with the exotic disease; or
- (C) the date on which restrictions prohibiting livestock being moved from or to the holding were imposed under Part 4 Division 4 for the purposes of controlling or eradicating the exotic disease; or

- (b) in the case of other livestock—to be determined in a manner approved by the Minister;
- (c) in the case of other property—the value of the property immediately before destruction.

(3) Livestock or other property is to be valued—

- (a) as if it had not been affected by the exotic disease; and
- (b) in the case of livestock or livestock products—having regard to the value of comparable livestock or products at the nearest most recent markets selling livestock or products of that kind, whether those markets are in the State or in any other State or Territory of the Commonwealth; and
- (c) using a method of valuation determined by the Minister.

(4) Compensation may not include any amount for loss of profit or production, loss arising from breach of contract or other consequential loss.

(5) No further compensation is payable by the Crown for any livestock or other property for which compensation has been paid under this Part and no proceedings lie against the Crown for compensation in respect of the death or destruction of livestock or other property in connection with exotic disease other than under this Part.

(6) In this section—

"declared exotic disease" means an exotic disease declared by the Minister by notice in the *Gazette* to be a declared exotic disease for the purposes of this Part;

"declared period" means a period declared by the Minister by notice in the *Gazette* to be a declared period in relation to a declared exotic disease for the purposes of this Part, being a period that—

- (a) commences on a day specified in the notice; and

- (b) ends on a day specified in that notice or a subsequent notice in the *Gazette*;

"owner" of livestock or other property means a person who has (whether alone or jointly or severally with others) title or an interest or right to or in the livestock or other property, but does not include a mortgagee not in possession.

Procedure for making claim and determination of claim

50. (1) A claim for compensation must be made to the Chief Inspector within—

- (a) in the case of a claim relating to livestock that were, immediately before their death or destruction during a declared period, pastured or kept on the same holding—90 days after the last of those livestock died or were destroyed;
- (b) in any other case—90 days after the death or destruction of the livestock or other property the subject of the claim.

(2) Only one claim may be made in relation to all livestock in the same ownership that were, immediately before their death or destruction during a declared period, pastured or kept on the same holding.

(3) Despite any other provisions of this Part, if such a claim has been determined before the date on which the holding ceased to be subject to restrictions prohibiting restocking imposed under Part 4 Division 4 for the purposes of controlling or eradicating the exotic disease, the claimant may, within 30 days after that date, make a claim for further compensation based on the total value of the livestock at the date on which the holding ceased to be subject to the restrictions.

(4) The Chief Inspector may, if satisfied that it is just and reasonable in the circumstances to do so, dispense with the requirement that a claim be made within the period fixed by this section.

(5) A claim for compensation must be made in the form and contain or be accompanied by the information required by the Chief Inspector.

(6) The Chief Inspector may, with the approval of the Minister, determine that no compensation, or a reduced amount of compensation, is payable to a claimant if the claimant (or in the case of a body corporate claimant, a director of the body corporate) has been convicted of an offence (whether against this Act or the law of another jurisdiction) relating to the outbreak or suspected outbreak of the exotic disease in relation to which the claim for compensation has been made.

(7) The Chief Inspector may, with the approval of the Minister, delay determining a claim for compensation pending the investigation or prosecution of any suspected or alleged offence of a kind referred to in subsection (6).

(8) The Chief Inspector must, by written notice, inform the claimant of the Chief Inspector's determination of the claim (separately specifying the amount of compensation payable for particular livestock or property and the amount of any reduction under subsection (6)).

Appeal against Chief Inspector's determination of claim

51. (1) The claimant may, within 21 days after receiving notice of the Chief Inspector's determination, appeal to the Minister against the determination of the amount of compensation payable for particular livestock or property (but not against a determination that no compensation or a reduced amount of compensation is payable as a result of a conviction for an offence).

(2) If an appeal is not instituted within the time allowed, the claimant's entitlement to compensation is finally determined for the purposes of this Part.

Livestock Act 1997

(3) On receiving an appeal under this section, the Minister must establish a panel to hear and determine the appeal.

(4) The panel is to consist of—

- (a) a person nominated by the Chief Executive of the administrative unit responsible for administration of this Part; and

- (c) a person who, in the opinion of the Minister, has experience or qualifications relevant to the sector of the livestock industry affected by the outbreak or suspected outbreak of exotic disease.

(5) A decision of the majority of the members of the panel is a decision of the panel.

(6) On an appeal, the panel may affirm or quash the determination appealed against or substitute a determination that the panel thinks appropriate.

(7) A decision of the panel is final and not subject to review and a determination of the Chief Inspector is not subject to review other than by way of appeal under this section.
