Declaration of mineral land, precious stones fields, etc.

8. (1) The Governor may, by proclamation—

(a) declare any land in the State (including land within any gulfs, bays, inlets and harbors of the State and within 3 nautical miles of the low water mark on the seashore) to be mineral land; or

(b) declare any mineral land to be a precious stones field; or

and the proclamation shall have effect according to its terms.

(2) The Governor may, by subsequent proclamation, vary or revoke any proclamation made pursuant to this section.

(3) The depth of strata into which mineral land is divided under this section may vary from place to place but, where the mineral land constitutes a precious stones field or part of a precious stones field, the depth of the surface stratum must be at least 50 metres.

Exempt land

9. (1) Subject to this section—

(a) land that is lawfully and genuinely used—

excluded by regulation from the operation of this subparagraph); or

(ii) within 150 metres of any factory, building, spring, well, reservoir or dam,

(not being, in either case, an improvement effected for the purpose of mining operations
pursuant to this Act), the value of which is not less than $200,

shall be exempt from mining operations in pursuance of this Act and, unless the land ceases to be
so exempt, no miner’s right, precious stones prospecting permit, claim, lease or licence shall
authorise prospecting, exploring or mining upon such land (but this section does not prevent the
pegging out of a claim upon such land).

(2) Where any land is subject to a claim, lease or licence under this Act and that land would,
but for this subsection, be land exempt from mining operations in pursuance of this Act by reason
only of a fact or circumstance occurring or arising subsequent to the pegging out, or granting, of

mining operator, waives the exemption; or

exemption,

mining operations in respect of which the agreement or determination was made or at such earlier
time as may be stipulated in that agreement or determination.

(3a) An agreement or determination under subsection (3) may be made upon such terms and
conditions as the parties or the appropriate court thinks fit.

(3b) The following persons shall, for the purposes of this section, be regarded as having the
benefit of an exemption under this section:

Mining Act 1971

PART 1

(Reprint No. 5)

(3c) An agreement or determination under subsection (3) is binding on—

(a) successors in title to those owners of land who had the benefit of the former exemption; and

(b) the holders from time to time of any mining tenement in pursuance of which mining operations (being mining operations in respect of which the agreement or determination was made) are carried out.

(5) In this section—

"mining operations" include any operations or activity for which a miscellaneous purposes licence may be granted.

Mining in respect of public roads and places

Special conditions attaching to mining of radioactive minerals

10A. (1) Subject to this section, no person shall carry out mining operations (other than exploratory operations) for the recovery of any radioactive mineral unless he is the holder of a mining lease or retention lease upon which the Minister has endorsed an authorisation to carry out mining operations for that purpose.

(2) An authorisation to carry out mining operations for the recovery of a radioactive mineral may be granted upon such conditions as the Minister thinks fit and may be revoked upon breach of any condition.

(3) This section does not prevent the recovery of any radioactive mineral in the course of mining operations carried out for the recovery of other minerals provided that the radioactive mineral—

(a) is stockpiled in accordance with conditions stipulated by the Minister; or

(b) is of such low concentration that it may, in the opinion of the Minister, be safely discarded as waste and is in fact discarded as waste.

(4) Notwithstanding any other provision of this Act, the property in any radioactive mineral—

(a) stockpiled in pursuance of conditions imposed by the Minister under subsection (2); or

(b) stockpiled in pursuance of subsection (3)(a),

does not pass from the Crown unless and until the Minister, by instrument in writing, authorises the person by whom the radioactive mineral was mined to sell and dispose of the mineral.

PART 3
RESERVATION OF MINERALS AND ROYALTY

Reservation of minerals

16. (1) Notwithstanding the provisions of any other Act or law, or of any land grant or other instrument, the property in all minerals is vested in the Crown.

(2) This section applies in respect of all mineral land and in respect of all other land (including reserved land) in the State.

Royalty

17. (1) Subject to this section, royalty shall be payable to the Minister on all minerals recovered from mineral land and—

(a) sold or intended for sale; or

(b) utilised, or to be utilised, for any commercial or industrial purpose.

(2) The amount of the royalty shall be 2.5 per cent of the value of the minerals as assessed for the determination of royalty.

(3) The Minister shall assess the value of minerals for the determination of royalty.

(4) The assessed value shall be such as, in the opinion of the Minister, fairly represents the amount that could reasonably be expected to be realised upon sale of the minerals, assuming that any processing that would normally be carried out by the mining operator were in fact carried out by him, or at his expense, and the minerals were delivered to a purchaser, at the expense of the mining operator, at the nearest port within the State.

(5) The Minister shall cause a copy of his assessment of the value of any minerals to be served—

(a) upon the holder of the lease in respect of the mine from which the minerals were recovered; or

(b) in the case of a private mine, upon the proprietor of the private mine.

(6) The person upon whom a copy of an assessment is served under subsection (5) may, within 60 days after the date of service, appeal against the assessment to the Land and Valuation Court.

(7) Upon the hearing of any such appeal, the Land and Valuation Court may vary the assessment of the Minister to such extent as it thinks fit.

(8) The Minister may, with the concurrence of the person liable to pay royalty, determine that royalty shall be payable according to the weight or volume of minerals recovered, and royalty shall thereupon be payable by that person in accordance with that determination.

(9) Royalty may be recovered by the Minister as a debt due to him in any court of competent jurisdiction.

(10) Royalty is not payable on precious stones.
(11) The Minister may, upon the application of a person liable to pay royalty, having regard to the effect that payment of royalty as required by this section would be likely to have on the viability or profitability of mining operations, or related processing operations, carried on by that person, waive payment of royalty, or reduce the rate at which royalty is payable, on minerals recovered in the course of those operations.

**Passing of property in minerals**

18. The property in minerals shall pass to the person by whom the minerals are lawfully mined upon, and in consideration of, payment of royalty or, if royalty is not payable in respect of the minerals, upon recovery of the minerals.

**Private mine**

19. (1) Where—

(a) a person is divested of his property in any minerals under this Act; and

(b) mining operations have been commenced before or after the commencement of this Act for the recovery of any of those minerals or for the purpose of ascertaining whether any of them may be profitably exploited; and

(c) an application is made in writing to the Minister within 3 years after the commencement of this Act for a declaration under this section, and the application is supported by such plans and information as the Minister may require,

an area determined in accordance with this section shall, subject to this section, be declared, by proclamation, to be a private mine and, where such a declaration is made, the mine shall, subject to this section and any other section that explicitly applies to a private mine or the operator of such a mine, be exempt from the provisions of this Act.

(2) The Minister may reject an application under subsection (1) where no mining operations have been conducted on the land subject to the application within a period in excess of 12 months before the date of the application, but otherwise no application shall be rejected on the ground of the discontinuance of mining operations.

(3) The Minister may reject an application under subsection (1)—

(a) where, in his opinion, the mining operations in the area to which the application relates have been insignificant or have not been genuinely conducted for the recovery of minerals or for the purpose of ascertaining whether a deposit of minerals that may be profitably exploited exists; or

(b) where the area, or any portion of the area to which the application relates was, at the commencement of this Act and at the date of the application, subject to a mining tenement.

(4) The area to be declared a private mine under this section shall be the whole of the area comprised in the application in which the prospective proprietor of the mine held property in minerals immediately before the commencement of this Act and which is reasonably required for exploitation of minerals.

(5) In the event of any difference between the Minister and the applicant for the declaration as to the area to be declared a private mine under this section, the applicant, or the Minister, may apply to the Land and Valuation Court for a determination of the difference.
(6) The Land and Valuation Court shall, upon the hearing of an application under subsection (5), determine the area to be declared a private mine in such manner as it considers just and reasonable.

(7) The Governor may, by proclamation, vary or revoke a declaration under subsection (1) if he is of the opinion that the whole or any part of the private mine is not being effectively operated.

(8) A declaration under this section shall not be varied or revoked unless the Warden's Court has determined that proper ground exists for the proposed variation or revocation of the declaration under subsection (7).

(9) Royalty is, subject to and in accordance with the provisions of this Act, payable upon extractive minerals recovered from a private mine, but is not payable upon any other minerals so recovered.

(10) The proprietor of a private mine who is liable to pay royalty upon extractive minerals may apply to the Land and Valuation Court for an order that any other person named in the application should indemnify him wholly or partly for the payment of that royalty.

(11) The Court may, upon an application under subsection (10), make such order for indemnity as it considers just and equitable having regard to the relative proportions in which the proprietor and the other person, or persons, named in the application derive profit from the operation of the mine.

(12) While a mine continues as a private mine under this Act, the property in any minerals recovered from the mine shall—

(a) in the case of all minerals except extractive minerals, pass to the proprietor of the mine upon recovery of the minerals; or

(b) in the case of extractive minerals, pass to the proprietor of the mine upon, and in consideration of, payment of royalty,

and any contract, agreement, assignment, mortgage, charge or other instrument in operation immediately before the commencement of this Act and relating to proprietary rights in the minerals shall, subject to its terms, apply to the minerals so recovered upon the passing of property in those minerals in accordance with this subsection.

(13) Any interested party may, by application to the Land and Valuation Court, seek the determination of any question or dispute as to the effect or enforcement of a contract, agreement, assignment, mortgage, charge or other instrument affected by the provisions of subsection (12).

(14) The Court may, upon the hearing of an application under subsection (13), make such orders as it considers necessary or expedient to give effect, consistently with the provisions of this Act, to the intentment of the contract, agreement, assignment, mortgage, charge or other instrument or to achieve a just settlement of any matters of dispute.

(15) Land comprised within a private mine shall not be subject to a mining tenement under this Act.

(16) An application for the declaration of a private mine may be made under subsection (1) by the person divested of his property in the minerals in respect of which the declaration is sought or a person who, immediately before the commencement of this Act, held any interest in those minerals in pursuance of any contract, agreement, assignment, mortgage, charge or other instrument.
(17) Where—

(a) a person is divested of his property in any minerals under this Act; and

(b) a mine is established at any time before or after the commencement of this Act for the
    recovery of the minerals; and

(c) an application is made, by the person so divested of his property in the minerals or a
    person lawfully claiming under him, to the Minister for the payment of royalty under
    this section,

the Minister shall pay all royalty collected upon such of those minerals as are recovered after the
date of the application to the person so divested of his property in the minerals or the person or
persons claiming under him.

(18) An application shall not be made under subsection (17) in respect of extractive minerals.

(19) The Minister may, subject to the rules of the Supreme Court, refer an application under
    subsection (17) to the Land and Valuation Court.

determine whether the application is valid and, if so, to whom, and in what proportions, the
royalty should be paid.

(21) Where the property in the minerals in any land was, immediately before the
commencement of this Act, vested in a person who was then the proprietor of an estate in fee
simple in the land, that person, if he remains the proprietor of an estate in fee simple in the land
or, if not, the person who is, for the time being, the successor in title to that person, shall, subject
to subsection (22), be the sole legitimate claimant to royalty under subsection (17).

(22) A person may, by instrument in writing lodged with the Director of Mines, divest
himself of any actual or potential right to claim royalty under subsection (17) in favour of any
other person named in the instrument, and thereupon that person, or a person claiming under him,
shall be the sole legitimate claimant to royalty under subsection (17).

(23) A right to claim royalty under subsection (17) shall not be transferred otherwise than in
accordance with this section.

subsection (22).

(25) The register and any such instrument shall, upon payment of the prescribed fee, be
available for inspection by any member of the public.

(26) Where a person, upon application to the Land and Valuation Court, proves to the
satisfaction of the Court that he was, immediately before the commencement of this Act, in
adverse possession of minerals and that, on the balance of probabilities, he would, if this Act had
not been enacted, have acquired an indefeasible title to the minerals, the Court may order that the
provisions of this section shall apply to that person in all respects as if he had been divested of
property in those minerals by this Act, and thereupon the provisions of this section shall apply
accordingly.
(27) The Court may, in the course of proceedings under subsection (26), make such orders as it thinks just to ensure, as far as reasonably practicable, that adequate notice of the application is received by persons who may have had, immediately before the commencement of this Act, a better enforceable right to the minerals than the applicant, and to ensure that the interests of any such persons are adequately protected.

(2) A miner’s right does not authorise the conduct of mining operations that involve disturbance of land by machinery or explosives.

(3) A miner’s right does not authorise the pegging out of a mineral claim in respect of land within a precious stones field but, where a precious stones field consists of the surface stratum of land that is divided into strata, this subsection does not prevent the pegging out on the precious stones field of a claim in respect of land within a subsurface stratum.

(4a) A mining registrar shall not exercise his power under subsection (4) to refuse to register a claim if the claim relates solely to extractive minerals.

**Term of licence, etc.**

30A. (1) An exploration licence shall be granted for an initial term not exceeding 2 years, and that term may be extended at the discretion of the Minister from time to time but not so that the licence would remain in force for a total period exceeding 5 years.

(5) Where the Minister exercises his powers under subsection (4), the holder of the licence may apply to the Land and Valuation Court for an order that the Minister compensate him for the money expended by him in prospecting for minerals in the area excised from the total area comprised in the licence, and the Land and Valuation Court, upon the hearing of any such application, may determine what amount would fairly compensate the holder of the licence for such expenditure and order that the amount so determined be paid by the Minister to the holder of the licence.

(6) The Minister shall pay any amount that he is ordered to pay under subsection (5) out of money provided by Parliament.

(a) it is proposed that the Governor, by proclamation under section 8—

(i) declare any mineral land to be a precious stones field; or

(ii) vary or revoke a proclamation so that land reserved from the operation of this Act will form, or become part of, a precious stones field; and

(b) the Minister considers that it is appropriate that this section apply in order to facilitate orderly prospecting and pegging of claims on the land,

the Minister may, by notice published in the Gazette at the time that the Governor makes the proclamation, declare that this section applies in relation to the land.
(2) If the Minister makes a declaration under subsection (1)—

(a) the holder of a precious stones prospecting permit cannot prospect for precious stones or peg out a precious stones claim on the land to which the declaration relates until a day specified by the Minister in the notice in the Gazette (referred to in this section as "the declared day"); and

(b) a person appointed by the Minister for the purpose will carry out a ballot on the declared day in accordance with the Minister's directions to determine who may have the first opportunity to prospect for precious stones and peg out precious stones claims on the land.

(3) For the purposes of subsection (2), the Minister must—

(a) in the notice in the Gazette—

(i) set out the conditions that are to apply in relation to the ballot; and

(ii) invite interested persons (being the holders of precious stones prospecting permits) to register for inclusion in the ballot before a specified day in a manner and form determined by the Minister; and

(b) cause the land to be divided into blocks, of such dimensions as the Minister thinks fit, and ensure that each block is allocated an identifying number for the purposes of the ballot; and

(c) cause a plan of the land that clearly delineates those blocks with their identifying numbers to be made available for public inspection at the principal office of the Director, or at some other appropriate place specified by the Minister by notice in the Gazette, at least seven days before the declared day.

(4) The holder of a precious stones prospecting permit who is registered for inclusion in the ballot in accordance with subsection (3) may participate in the ballot by attending in person on the declared day at a place and time specified by the Minister in the notice given under subsection (1).

(5) A person who is allocated a block by virtue of his or her participation in the ballot—

(a) may, no later than 5 p.m. on the day immediately following the day of allocation, peg out the block as a precious stones claim in accordance with directions issued by the Minister at the time of the allocation of the block; and

(b) must, if the person has pegged out the block under paragraph (a), give notice of the pegging in accordance with the regulations; and

(c) may apply to the nearest office of the Mining Registrar to the land for registration of the claim no later than 14 days after the declared day.

(6) A mining registrar must not, for 14 days immediately following the declared day, register a precious stones claim in respect of any part of the land unless the claim is made by a person under subsection (5).

(7) A person must not, for 14 days immediately following the declared day, prospect for precious stones or peg out a claim on land to which this section applies except on a block allocated to the person by virtue of his or her participation in the ballot.
(8) If—

(a) a person who has been allocated a block—

(i) fails to peg out a precious stones claim in relation to the block within the time prescribed by subsection (5)(a); or

(ii) fails to give notice of a pegging in accordance with the regulations; or

(iii) fails to apply for registration of a claim within the time prescribed by subsection (5)(c); or

(b) a block is not taken up through the ballot,

the land comprised in the block may, at any time after 14 days from the declared day, be pegged out by any other person in accordance with the provisions of this Act (other than this section).

(9) If a person prospects for precious stones or pegs out a precious stones claim in contravention of this section—

(a) the person is guilty of an offence and liable to a penalty not exceeding a division 5 fine or division 5 imprisonment; and

(b) any claim purportedly made by the person is void.

(10) The Minister may, by notice in the Gazette, fix a fee for participation in the ballot, and a person who pays the fee but is not successful in the ballot will, on application in a manner and form determined by the Minister, be refunded the fee.

(11) A person is not entitled to obtain more than one block through his or her participation in the ballot.

(12) A right to peg out a block awarded to a person through his or her participation in the ballot is not transferable.

(3) If a licence is suspended or cancelled under this section, the licensee may, within 28 days of the suspension or cancellation, appeal to the ERD Court and the Court may, if satisfied that there is no proper ground for the suspension or cancellation, declare the suspension or cancellation void.
PART 8A
SPECIAL MINING ENTERPRISES

Object of this Part
56A. The object of this Part is to facilitate the establishment, development or expansion of mining enterprises of major significance to the economy of this State by allowing greater security and flexibility of tenure.

Special mining enterprises
56B. (1) For the purposes of this Part, a mining enterprise (whether existing or proposed) is a "special mining enterprise" if—

(a) the person who conducts or proposes to establish the enterprise has made application to the Minister for the exercise of powers under this Part; and

(b) the Governor is satisfied that the enterprise is of major significance to the economy of this State; and

(c) the Minister and the applicant have entered into an agreement, ratified by the Governor, for the exercise of powers under this Part and the grant of appropriate mining tenements in relation to the enterprise.

(2) An application under subsection (1) must be made in the form approved by the Minister and must be accompanied by a written proposal containing full particulars of the mining enterprise, including—

(a) a sufficient delineation of the land to which the proposal relates; and

(b) a statement of the nature, extent and proposed scheduling of the mining operations and related or ancillary operations or works that the applicant carries out or proposes to carry out under the enterprise; and

(c) an economic analysis of the enterprise, including financial projections and details of the financial resources available to the applicant for the purposes of the enterprise; and

(d) an assessment of the benefits to the State derived or expected to be derived from the enterprise; and

(e) an assessment of the expected social and environmental effects of the enterprise; and

(f) a statement of the measures that the applicant considers appropriate to protect the environment, and to remedy environmental damage that may result on account of operations or activities carried out for the purposes of the enterprise; and

(g) a statement of the measures that the applicant considers appropriate for the protection of any Aboriginal sites or objects within the meaning of the Aboriginal Heritage Act 1988 that may be affected by the enterprise; and

(h) any other information required by the regulations.

(3) The Minister may require the applicant to provide other information or documents, and to comply with any requirement specified by the Minister.

(4) An applicant must, in accordance with the regulations, pay an application fee prescribed or determined under the regulations.
(5) An application under this section—

(a) may be made in respect of an area of land of any size, and whether or not a mineral claim has been pegged out or registered over the land in relation to the enterprise; and

(b) will, in relation to any mining tenement subsequently granted to the applicant, be taken to be an application duly made under this Act for that tenement.

(6) The Minister may (at any time before entering into an agreement under this Part), by notice in writing given personally or by post to the applicant, refuse an application under this section on any reasonable ground, and an application will be taken to be refused if the Governor indicates that the Governor is not satisfied that the enterprise is of major significance to the economy of this State or refuses to ratify an agreement entered into under this Part with the applicant.

(7) No mineral claim may be pegged out by or mining tenement granted to any other person over the land to which an application under this section relates until—

(a) 28 days after the application is refused or withdrawn; or

(b) a mining tenement, or tenements, is, or are, granted to the applicant over the land.

**Power to exempt from or modify Act**

56C. (1) The Minister may, in accordance with the terms of an agreement under this Part (as ratified by the Governor)—

(a) exempt a special mining enterprise from any provision of this Act; or

(b) modify the application of a requirement of this Act in relation to the enterprise.

(2) An exemption or modification may only be granted or made under subsection (1) in respect of—

(a) the requirement to peg out or register a mineral claim; or

(b) the maximum area of land over which a mining tenement may be granted; or

(c) the maximum term for which a mining tenement may be granted; or

(d) the period within which an application for renewal of a mining tenement must be made, and the term for which the renewal may be granted; or

(e) the rate of royalty required to be paid under this Act; or

(f) the rental payable under a mining tenement; or

(g) any other prescribed requirement of this Act (except a requirement under Part 9B).

(3) An exemption or modification may be subject to conditions stipulated in the agreement.

(4) An exemption or modification may not be granted or made under this section so as to discriminate against the holders of native title in land.

(5) The Minister may vary or revoke an exemption or modification in accordance with and subject to the terms of the agreement.
(6) The Minister must cause notice of an exemption or modification, and of any subsequent variation or revocation of it, to be published in the Gazette.

(7) A person who contravenes or fails to comply with a condition of an exemption or modification under this section is guilty of an offence.

Penalty: $50,000.

Existing tenements

56D. (1) If land comprised in a mining tenement granted in relation to a special mining enterprise pursuant to an agreement under this Part was, immediately before the granting of the tenement, comprised in a lease or licence held under this Act in respect of the same enterprise—

(a) the lease or licence is, by force of this subsection, subsumed into the new mining tenement; and

(b) subject to a determination of the Minister or a court—

(i) an interest (whether legal or equitable) in, or affecting, the lease or licence so subsumed (being an interest in force immediately before the granting of the mining tenement) continues to have the same effect in respect of the mining tenement as it had before the tenement was granted; and

(ii) a liability of the holder of the mining tenement in existence immediately before the granting of the tenement is not affected by the granting of the tenement; and

(iii) an approval, consent, licence or exemption granted under another Act or law with respect to the carrying out of an operation or activity under the lease or licence will be taken to have been granted with respect to the carrying out of the same operation or activity under the new mining tenement if the extent of the operation or activity, and the area of land over which it is to be carried out, are not to be substantially increased.

(2) If—

(a) an existing lease or licence is to be subsumed into a new mining tenement under this Part; and

(b) the existing lease or licence is subject to a term or condition that has been included to protect—

(i) the natural beauty of a locality or place; or

(ii) flora or fauna; or

(iii) buildings of architectural or historical interest, or objects or features of scientific or historical interest; or

(iv) Aboriginal sites or objects within the meaning of the Aboriginal Heritage Act 1988,

then the Minister must ensure that a comparable term or condition is included in the new tenement.

(5) Upon the hearing of an application for compensation under this section, the appropriate court may order a mining operator to carry out such work to rehabilitate the land as the Court thinks fit.

Bond and security

62. (1) The Minister may, by notice in writing served on an applicant for, or the holder of, a mining tenement, require him to enter into a bond in such sum and subject to such terms and conditions as ensure, in the opinion of the Minister, that—

(3) No more than 4 access claims may be held at the same time in respect of the same mining tenement.

Access claim may be pegged by agreement, or by authority of the Warden’s Court, over land comprised in mining tenement

63B. (1) Subject to subsection (2), a person is not entitled to peg out an access claim on or above land held under a mining tenement by some other person unless that other person has consented to the pegging out of the access claim or the Warden’s Court has, in pursuance of subsection (2), authorised the pegging out of the claim.

(2) Where a person desiring to peg out an access claim satisfies the Warden’s Court that there is proper cause for the Court to authorise the pegging out of the claim, notwithstanding absence of the consent of the holder of a mining tenement, the Court may, on such conditions as it thinks just, authorise the pegging out of the access claim.

(3b) An appeal against a judgment or order of the Warden’s Court must be instituted within 1 month after publication of the judgment or order, but the Land and Valuation Court may, for proper cause, extend the period for instituting an appeal.

(4) Subject to any rules of the Supreme Court, the practice and procedure relating to an appeal from a judgment or order of the Warden’s Court shall conform as nearly as practicable to the practice and procedure applicable to an appeal under the Justices Act 1921.

66. (1) The Governor may make rules respecting the practice and procedure of the Warden’s Court.

(1a) The rules may prescribe, and provide for, the payment of fees in respect of the lodging of documents in the Court or the issuing of documents by the Court.

(2) The rules may provide for the enforcement of judgments and orders, and the punishment of contempt of the Warden’s Court and, in particular, may provide that appropriate provisions of the Justices Act 1921 and of the Local and District Criminal Courts Act 1926 shall apply, with such modifications as may be necessary or desirable and specified in the rules, in respect of judgments and orders of the Warden’s Court.

(a) an order cancelling a miner’s right or a precious stones prospecting permit;

(b) an order prohibiting a person from holding or obtaining a miner’s right or a precious stones prospecting permit for a period specified in the order or until further order of the Warden’s Court.

(2) An order shall not be made under subsection (1) unless the Warden’s Court is satisfied that the person against whom the order is made has contravened, or failed to comply with, the provisions of this Act or of any other Act or regulations regulating mining operations, and the matter is of sufficient gravity to justify the making of the order.

Forfeiture of claim

69. (1) The Warden’s Court may, upon application by any interested person, make an order for the forfeiture of any mineral claim or precious stones claim.

(2) An order shall not be made under subsection (1) unless the Court is satisfied that the requirements of this Act in relation to the claim have not been complied with in a material respect and that the matter is of sufficient gravity to justify the forfeiture of the claim.

(3) Where an order for the forfeiture of a claim is made (otherwise than upon the application of the Director) under this section, the person upon whose application the order was made shall have, for a period of 14 days after the date of the order, a preferential right to peg out a claim of the same class as the forfeited claim upon the land comprised in the forfeited claim.

(3a) After an application has been made under this section, the mineral claim or precious stones claim to which the application relates cannot be surrendered, nor will it lapse, until the application has been determined.

(4) For the purposes of this section—

“interested person” means—

(a) the Director of Mines; or

(b) where the forfeiture of a mineral claim is sought, the holder of a miner’s right or, where the forfeiture of a precious stones claim is sought, the holder of a precious stones prospecting permit.

Forfeiture and transfer of leases

70. (1) The Warden’s Court may, upon application by any interested person, adjudge that a lease under this Act is liable to forfeiture, and recommend to the Minister that the lease be forfeited.

(2) A recommendation shall not be made under subsection (1) unless the Court is satisfied that the requirements of this Act in relation to the lease have not been complied with in a material particular and that the matter is of sufficient gravity to justify the forfeiture of the lease.

(3) Where the Warden’s Court has recommended the forfeiture of a lease—

(a) the Minister may, by notice in the Gazette, forfeit the lease to the Crown; and
(b) the person on whose application the Court recommended forfeiture is then entitled to a transfer of the lease from the Crown for the balance of its term.

(4) A transfer of a lease under subsection (3)(b) takes effect on publication of a notice of transfer in the Gazette.

(a) the order of the Warden’s Court for the removal of the caveat;

(b) the withdrawal of the caveat by the caveator;

(2) When a caveat lapses, a memorial of that fact shall be entered in the register.

(3) Where the holder of a mining tenement has entered into an agreement with any person relating to the sale of an interest in the tenement, then, if the agreement so provides, either party to the agreement may lodge a caveat in accordance with this Part, together with a copy of the agreement, and the caveat shall remain in force for such period as may be specified in the agreement, unless sooner withdrawn by consent of the parties to the agreement or removed by order of the Warden’s Court or some other court that is competent to adjudicate upon the rights protected by the caveat.
(4) A transfer or other instrument that would operate in derogation of rights protected by a caveat shall not be registered by a mining registrar, and its operation shall be suspended, while the caveat remains in force, unless the Warden’s Court, or some other court that is competent to adjudicate upon the rights protected by the caveat, otherwise orders.

(5) Any person interested in the subject matter of a caveat may apply to the Warden’s Court for an order under this section.
PART 12

(b) by or to a person who held rights in respect of the land under the repealed Act immediately before the commencement of this Act, and whose rights are preserved (with or without modification) pursuant to the provisions of this Act; or

(c) in the case of a lease, to a person who held a claim in respect of such minerals under the repealed Act immediately before the commencement of this Act.

(2) The owner of land does not require a mining tenement under this Act for the recovery of extractive minerals from that land for his own personal use.

Returns

76. (1) The holder of a mining tenement must furnish the Director of Mines, in the months of January and July in each year, with a return in the prescribed form containing the prescribed information in relation to the conduct of mining operations and the minerals recovered in the course of those operations during the period of 6 months last preceding the commencement of the month in which the return must be furnished.

(2) A person who fails to comply with this section or who furnishes a return that is false or misleading in any material particular shall be guilty of an offence and liable to a penalty not exceeding $500.

(3) The Director of Mines, upon application by the holder of a mining tenement or of his own motion, may extend the time within which a return must be furnished under this section.

(3a) This section extends to the operator of a private mine as if the operator were the holder of a mining tenement.

(2) Where land is subject to a mining tenement, a further claim, lease or miscellaneous purposes licence may, with the consent of the holder of that mining tenement or the approval of the Warden’s Court, be pegged out, or granted, in respect of any portion of the land comprised in the prior tenement, and the rights conferred by the respective tenements shall then be modified according to the agreement of the parties or the order of the Warden’s Court, as the case may require.
(3) The Warden's Court shall not approve the pegging of a claim or the granting of a lease or miscellaneous purposes licence under subsection (2) unless it is satisfied that the rights of the holder of the prior tenement would not be materially diminished by the granting of such an approval.

This Act not to affect Pastoral Act or Local Government Act

(4) An application for the consent of the Minister under this section shall be accompanied by the prescribed fee.

Duplicate copy of lease or licence
84. Where the Minister is satisfied, upon application by the holder of a lease or licence under this Act, that the copy of the lease or licence to the possession of which that person is entitled has been lost or destroyed, he may issue, at the expense of the applicant, a duplicate copy of the lease or licence.

Non-payment of money due to Crown
85. A lease or licence shall be liable to forfeiture if any sum payable to the Minister by the holder of the lease or licence is not paid within 3 months after the day on which it fell due.

(3) Any such contract or agreement entered into without the consent of the Minister is void.

(4) A corporation that is a subsidiary of another corporation shall, in applying for a lease or licence under this Act, lodge with its application a written notice of the fact addressed to the Director of Mines, and shall supply him with such information in relation to the corporation of which it is a subsidiary as the Director may require.
