 - (b) is of such low concentration that it may, in the opinion of the Minister, be safely discarded as waste and is in fact discarded as waste.

(4) Notwithstanding any other provision of this Act, the property in any radioactive mineral—

(a) stockpiled in pursuance of conditions imposed by the Minister under subsection (2); or

- (4) The prescribed percentage must be at least 1.5 per cent but must not exceed 2.5 per cent.

- (4b) The Minister may, on application or on the Minister's own initiative—
 - (a) review and revise an earlier assessment of the value of minerals at the mine gate (and that revision will then be taken to be a new assessment for the purposes of this section);
 - (b) reduce the prescribed percentage to be applied in a particular case in order to take into account processing carried out before the minerals leave the area of the mining tenement or private mine (and the Minister may then vary this prescribed percentage if circumstances subsequently change).
- (4c) The Minister must cause notice of a decision to reduce the rate of royalty payable in a particular case to be published in the Gazette.
- (4d) A notice under subsection (4c) must—
 - (a) set out the name of the person to whom the reduction of the rate of royalty applies; and

- (b) identify the relevant mining tenement or private mine, and the relevant minerals; and

- (5) The Minister shall cause a copy of his assessment of the value of any minerals to be served—
 - (a) upon the holder of the lease in respect of the mine from which the minerals were recovered; or
 - (b) in the case of a private mine—
 - (i) on the proprietor of the private mine; and

- (6) A person upon whom a copy of an assessment is served under subsection (5) may, within one month after the date of service, appeal against the assessment to the ERD Court.
- (7) Upon the hearing of any such appeal, the ERD Court may vary the assessment of the Minister to such extent as it thinks fit.
- (8) The Minister may, with the concurrence of the person liable to pay royalty, determine that royalty shall be payable according to the weight or volume of minerals recovered or some other basis, and royalty shall thereupon be payable by that person in accordance with that determination.
- (9) Royalty may be recovered by the Minister as a debt due to him in any court of competent jurisdiction.
- (10) Royalty is only payable on precious stones if the precious stones are recovered under this Act.
- (11) The Minister may, upon the application of a person liable to pay royalty, having regard to the effect that payment of royalty as required by this section would be likely to have on the viability or profitability of mining operations, or related processing operations, carried on by that person, waive payment of royalty, or reduce the rate at which royalty is payable, on minerals recovered in the course of those operations.
- (12) If royalty payable on minerals under this section (other than extractive minerals recovered from a private mine) has remained unpaid for more than three months after the day on which it fell due, the person liable to pay the royalty is liable to pay a penalty amount, in addition to the amount of royalty unpaid, equal to \$1 000 plus \$200 for each month (or part of a month) for which the royalty remains unpaid (disregarding the first three months after the day on which the royalty fell due).
- (13) The Minister may, at the Minister's discretion, remit a penalty amount payable under subsection (12) by any amount.
- (14) Without derogating from any other right of recovery of royalty, for the purposes of the imposition of a penalty amount for unpaid royalty under this Act (including in respect of extractive minerals recovered from a private mine), royalty will be taken to have fallen due—
 - (a) in respect of minerals recovered between 1 January and 30 June (both dates inclusive) in any year—on 31 July of that year;

- (b) in respect of minerals recovered between 1 July and 31 December (both dates inclusive) in any year—on 31 January of the year immediately following, subject to the qualification that if the calculation of royalty for a particular period under paragraph (a) or (b) depends on the Minister serving a notice of assessment under subsection (5) after the expiration of the period then the royalty will not fall due until one month after the service of that notice (or, if an appeal is lodged under subsection (6), until one month after the appeal is determined).
- (15) Despite subsection (14), any royalty on minerals recovered from land within a mining tenement or private mine will be or become due and payable (including for the purposes of the imposition of a penalty amount for unpaid royalty under this Act)—
- (a) in the case of a mining tenement—
 - (i) when the mining tenement is being transferred or surrendered; or
 - (ii) when the mining tenement is suspended or cancelled; or
 - (iii) when the mining tenement expires; or
 - (b) in the case of a private mine—when the declaration of the relevant area as a private mine is revoked; or
 - (c) at any other time in accordance with the regulations (if any).
- (16) For the purposes of the assessment of royalty under this section, a reference to minerals includes a reference to processed minerals.

18—Passing of property in minerals

The property in minerals shall pass to the person by whom the minerals are lawfully mined upon, and in consideration of, payment of royalty or, if royalty is not payable in respect of the minerals, upon recovery of the minerals.

22—Rights attaching to miner's right

- (1) A miner's right shall, subject to this Act, authorise the holder to prospect for minerals and to peg out a mineral claim in accordance with the regulations.
- (1a) Subject to subsection (1b), where mineral land is divided into strata, a mineral claim may be pegged out, in accordance with the regulations, in respect of land within either the surface stratum or a subsurface stratum.
- (1b) A mineral claim shall not be pegged out in respect of land within a subsurface stratum except by a person who holds an exploration licence in respect of that land.
- (2) A miner's right does not authorise the conduct of mining operations that involve disturbance of land by machinery or explosives.
- (3) A miner's right does not authorise the pegging out of a mineral claim in respect of land within a precious stones field but, where a precious stones field consists of the surface stratum of land that is divided into strata, this subsection does not prevent the pegging out on the precious stones field of a claim in respect of land within a subsurface stratum.
- (4) Any number of claims may be pegged out by virtue of a single miner's right.

23—Area of claim

- (1) The area of a mineral claim must not exceed the maximum permissible area stipulated by the regulations.

- (3) A mining registrar shall, subject to this Act and any order of the Warden's Court, register a mineral claim upon receipt of due application for registration of the claim in the prescribed form and accompanied by the prescribed particulars.
- (4) A mining registrar may refuse to register a mineral claim (other than a claim that relates solely to extractive minerals) if satisfied that—
 - (a) before the claim was pegged out, an application had been lodged for an exploration licence for an area comprising the area of the claim or portion of the area of the claim; and
 - (b) the application has not been refused.
- (4a) A mining registrar cannot register a mineral claim if to do so would be inconsistent with a public undertaking by the Minister to the mining industry.
- (5) If application for registration of a mineral claim is not made as required by this section, or if the mining registrar lawfully refuses to register the claim, the claim shall lapse.

25—Rights conferred by ownership of mineral claim

- (1) A mineral claim confers on the owner of the claim an exclusive right, subject to the provisions of this Act—
 - (a) to prospect for minerals in the land comprised in the claim; and
 - (b) to carry out such other exploratory operations on, or in respect of, the land comprised in the claim as are approved in writing by the Director of Mines; and
 - (c) to apply for a mining lease or a retention lease in respect of the whole or part of the land comprised in the claim.
- (2) A person shall not remove from the area of a mineral claim minerals, or soil and minerals, exceeding a mass of 1 tonne unless authorised to do so by the Director of Mines.
Maximum penalty: \$750.
- (3) The ownership of a mineral claim does not confer any right—
 - (a) to sell or dispose of any minerals recovered in the course of mining operations; or
 - (b) to utilise any such minerals for any commercial or industrial purpose.

26—Mineral claim not transferable etc

- (1) A mineral claim is not transferable.

- (3) Where an application is made for a mining lease or a retention lease in respect of land comprised in a mineral claim, and the application is refused, the claim shall lapse.
- (4) A mineral claim may, subject to this Act and in accordance with the regulations, be surrendered.

27—Land not to be repegged where claim lapses etc

Where a mineral claim lapses or is surrendered or forfeited, no claim covering any of the area of that previous claim shall, without the authority of the Warden's Court, be pegged out by, or on behalf of, the person who held the previous claim within 2 years of its lapse, surrender or forfeiture.

Part 5—Exploration licence

28—Grant of exploration licence

- (1) Subject to this Act, the Minister may grant an exploration licence to any person.
- (2) An exploration licence authorises the licensee to carry out exploratory operations of a kind described in the licence in respect of land described, or referred to, in the licence.
- (2a) However, an exploration licence does not (and cannot) authorise the licensee to carry out exploratory operations for precious stones on land within a precious stones field that is outside an opal development area, or on land within an exclusion zone under the *Opal Mining Act 1995*.
- (3) An exploration licence shall not be granted in respect of extractive minerals.
- (5) At least 28 days before the Minister grants an exploration licence, a notice describing the land over which the licence is to be granted and, if the licence is to relate to a particular stratum, specifying the stratum, must be published by the Minister—
 - (a) in the Gazette; and
 - (b) in a newspaper circulating generally in the State; and
 - (c) if there is a regional or local newspaper circulating in the part of the State in which the licence area is situated—in the regional or local newspaper.
- (7) The Minister must not grant an exploration licence that authorises the licensee to carry out exploratory operations for precious stones if to do so would be inconsistent with a public undertaking by the Minister to the mining industry.
- (8) If an application for an exploration licence relates to an area within the Murray-Darling Basin, the Minister must, in considering the application, take into account the objects of the *River Murray Act 2003* and the *Objectives for a Healthy River Murray* under that Act.
- (9) If an application for an exploration licence relates to an area within a River Murray Protection Area, the Minister must, before making his or her decision on the application, refer the application to the Minister for the River Murray and consult with that Minister in relation to the matter.
- (10) If an application for an exploration licence is referred to the Minister for the River Murray under subsection (9) and the Minister to whom the administration of this Act is committed and the Minister for the River Murray cannot agree—
 - (a) on whether an exploration licence should be granted; or
 - (b) if an exploration licence is granted, on the conditions to which the exploration licence should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

29—Application for exploration licence

- (1) An application for an exploration licence must be made in a manner and form determined by the Minister and must be lodged with the Director of Mines.

- (2) The applicant shall forward with an application for an exploration licence—
 - (a) the prescribed application fee; and
 - (b) a map on which are delineated the boundaries of the land in respect of which the licence is sought; and
 - (c) a statement outlining the exploratory operations that the applicant proposes to carry out in pursuance of the licence, showing the estimated expenditure to be incurred in carrying out those operations; and
 - (d) a statement of the technical and financial resources available to the applicant; and
 - (e) a statement of the nature of the minerals for which the applicant proposes to explore.
- (3) An applicant shall, at the request of the Minister, furnish such further information in relation to his application, or such evidence in support of his application, as the Minister may require.

30—Incidents of licence etc

- (1) An exploration licence shall—
 - (a) describe or delineate the lands in respect of which it is granted; and
 - (b) be subject to such conditions as may be prescribed and to such additional conditions as the Minister thinks fit and specifies in the licence.
- (2) The Minister shall, in determining the conditions subject to which a licence is to be granted under this Part, give proper consideration to the protection of—
 - (a) the natural beauty of any locality or place that may be affected by the conduct of operations in pursuance of the licence;
 - (b) flora and fauna that may be endangered or disturbed by those operations;
 - (c) buildings of architectural or historical interest, and objects and features of scientific or historical interest, that may be affected by those operations;
 - (d) any Aboriginal sites or objects within the meaning of the *Aboriginal Heritage Act 1988* that may be affected by those operations,and may take into consideration such other factors as he considers appropriate in the particular case.
- (3) It shall be a condition of an exploration licence that the Minister may, at any time, require the holder of the licence to pay to any person an amount of compensation, stipulated by the Minister, to which that person is, in the opinion of the Minister, entitled in consequence of loss or damage suffered by him as a result of operations conducted in pursuance of the licence.

30AA—Area of licence

- (1) The area of the land in respect of which an exploration licence is granted must not exceed 1 000 square kilometres unless, in the opinion of the Minister, circumstances exist that justify the grant of a licence in respect of a greater area.

- (2) However, if the exploration licence allows for exploratory operations for precious stones in an opal development area, the area of land in respect of which a licence is granted cannot exceed 20 square kilometres unless, in the opinion of the Minister, circumstances exist that justify the grant of a licence in respect of a greater area.

30A—Term of licence

- (1) An exploration licence is to be granted for a term decided by the Minister of up to five years.
- (2) If an exploration licence is granted for a term of less than five years, the licence may include a right of renewal but not so the aggregate term of the licence exceeds five years.
- (3) An exploration licence that does not include in its terms a right of renewal may be renewed at the discretion of the Minister from time to time, but not so the aggregate term of the licence exceeds five years.
- (4) An application for renewal of an exploration licence must be made to the Minister in a manner and form determined by the Minister at least one month before the date of expiry of the licence.
- (4a) An application under subsection (4) must be accompanied by—
- (a) the prescribed application fee; and
 - (b) any information that the Minister may require.
- (5) If an application for the renewal of an exploration licence is not decided before the date on which the licence is due to expire, the licence continues in operation until the application is decided and, if the licence is renewed, the renewal dates from the date on which the licence would, but for this subsection, have expired.
- (6) The Minister may, on renewing an exploration licence or, with the consent of the licensee, at any other time, alter an exploration licence in one or more of the following ways:
- (a) by adding, varying or revoking a term or condition of the licence; or
 - (b) by reducing the licence area.
- (7) If an application for the renewal of an exploration licence relates to an area within a River Murray Protection Area, the Minister must, before making his or her decision on the application, refer the application to the Minister for the River Murray and consult with that Minister in relation to the matter.
- (8) If an application for the renewal of an exploration licence is referred to the Minister for the River Murray under subsection (7) and the Minister to whom the administration of this Act is committed and the Minister for the River Murray cannot agree—
- (a) on whether a renewal should be granted; or
 - (b) if a renewal is granted, on the conditions to which the exploration licence should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

30AB—Subsequent exploration licence

- (1) The Minister may, on the expiration of an exploration licence the term or aggregate term of which was five years, grant to the licensee an exploration licence (a *subsequent exploration licence*) over the area of land, or a part of the area of land, to which the former licence applied.
- (2) An application for a subsequent exploration licence must include the following:
 - (a) a statement outlining the exploratory operations that the licensee has carried out in pursuance of the licence since it was granted (or since it was renewed, if the licence has been renewed), showing the expenditure incurred in carrying out those operations; and
 - (b) a statement that the licensee will—
 - (i) carry out exploratory operations of a kind and to an extent agreed between the Minister and the licensee; and
 - (ii) spend an amount of money agreed between the Minister and the licensee in carrying out those operations.
- (3) The holder of a subsequent exploration licence must spend (when considered on an annual basis) at least an amount of money agreed between the Minister and the licensee in carrying out operations under the licence.
- (4) However—
 - (a) the Minister may, subject to any terms and conditions as the Minister thinks fit, exempt a licensee from the application of subsection (2) or (3); and
 - (b) the Minister may not, in entering into an agreement with a licensee under subsection (3) require the licensee to spend—
 - (i) if the subsequent exploration licence is granted over the area of land to which the former licence applied—more than double the amount agreed between the Minister and the licensee in relation to the last year of the former licence;
 - (ii) if the subsequent exploration licence is granted over a part of the area of land to which the former licence applied—more than an amount that bears the same proportion to double the amount agreed between the Minister and the licensee in relation to the last year of the former licence as the area of land over which the subsequent exploration licence is granted bears to the area of the former licence.
- (5) To avoid doubt, section 30A extends to a subsequent exploration licence under this section.

31—Fee

- (1) The holder of an exploration licence shall pay to the Minister, annually and in advance, such fee as may be prescribed.
- (1a) A regulation made for the purposes of subsection (1) may—
 - (a) fix various methods for the calculation of a fee (including according to the total area of land in respect of which an exploration licence is granted);
 - (b) fix differential fees on a basis prescribed by the regulations.

- (2) The Minister may reduce, remit or refund a fee under this section if, in his opinion, it is necessary or expedient so to do.

32—Licensee to keep and, on request, furnish Director with geological records etc

- (1) The holder of an exploration licence shall keep complete and detailed records of the surveys and other operations conducted in pursuance of the licence and shall, at the request of the Director of Mines, produce the records for the inspection of the Director or an inspector.

Maximum penalty: \$250.

- (2) The holder of an exploration licence shall furnish the Director of Mines with such information relating to the surveys and other operations conducted by him in pursuance of the licence, and such geological samples obtained by him in the course of those operations, as the Director may require.

Maximum penalty: \$250.

33—Cancellation, suspension etc of licence

- (1) Where the holder of an exploration licence has contravened, or failed to comply with, any provision of this Act or any condition of the licence, the Minister may suspend the licence (in which case the licence shall, during the period of suspension, be of no force or effect) or cancel the licence.
- (2) Where a licence is cancelled or suspended under subsection (1), the licensee may, within 28 days after the cancellation or suspension, appeal to the ERD Court and the Court may, if it is satisfied that there is no proper ground for the cancellation or suspension, declare that cancellation or suspension void.
- (4) Where, in the opinion of the Minister, any land comprised in an exploration licence is required for a public purpose, the Minister may, by notice published in the Gazette, excise that land from the total area comprised in the licence, and the licence shall then cease to apply to that land.
- (5) Where the Minister exercises his powers under subsection (4), the holder of the licence may apply to the ERD Court for an order that the Minister compensate him for the money expended by him in prospecting for minerals in the area excised from the total area comprised in the licence, and the ERD Court, upon the hearing of any such application, may determine what amount would fairly compensate the holder of the licence for such expenditure and order that the amount so determined be paid by the Minister to the holder of the licence.
- (6) The Minister shall pay any amount that he is ordered to pay under subsection (5) out of money provided by Parliament.
- (7) The holder of an exploration licence may, with the consent of the Minister, surrender any land comprised in the licence, and the licence shall then cease to apply to that land.

33A—Minister may describe or delineate land in any manner

- (1) Subject to the requirements of this Act, the Minister may describe or delineate the land in respect of which an exploration licence is granted in such manner as the Minister deems appropriate.

- (2) Section 80 does not apply to the extent that an alteration in the manner in which land is described or delineated results in part of the licence area of one exploration licence being superimposed over land comprising part of the licence area of another licence (as described or delineated immediately before the alteration).
- (3) The regulations may, in connection with the operation of subsection (2), prescribe terms and conditions governing the coexistence of exploration licences that have been granted over the same land as a result of the Minister altering the manner in which the land is described or delineated.
- (4) If part of the licence area of one exploration licence is superimposed over land comprising part of the licence area of another licence under this section, and rights of one of the licensees in respect of the part are suspended in accordance with the regulations, the suspension of the rights will continue until either of the following occurs:
 - (a) the part ceases to comprise part of the licence area of the other licence; or
 - (b) the other licence expires.

Part 6—Mining leases

34—Grant of mining lease

- (1) Subject to Part 9B, the Minister may grant a mining lease—
 - (a) to the holder of a registered mineral claim, in respect of the whole or part of the land comprised in the claim; or
 - (b) to the holder of a retention lease, in respect of the whole or part of the land comprised in the lease.
- (1a) Where the registered mineral claim relates to a particular stratum, the lease shall, if granted, relate to the same stratum.
- (1b) A mining lease shall not be granted in respect of land within a subsurface stratum except upon the authority of a resolution passed by both Houses of Parliament.
- (3) Mining leases shall be of prescribed classes and subject to prescribed terms and conditions appropriate to each class.
- (4) A mining lease shall, in addition to such terms and conditions as may be prescribed, be subject to such additional terms and conditions (if any) as the Minister thinks fit and specifies in the lease.
- (5) The maximum permissible area of the land in respect of which a mining lease may be granted shall be as prescribed.
- (6) The Minister shall, in determining the terms and conditions subject to which a lease is to be granted under this Part, give proper consideration to the protection of—
 - (a) the natural beauty of any locality or place that may be affected by the conduct of operations in pursuance of the lease;
 - (b) flora and fauna that may be endangered or disturbed by those operations;
 - (c) buildings of architectural or historical interest, and objects and features of scientific or historical interest, that may be affected by those operations;
 - (d) any Aboriginal sites or objects within the meaning of the *Aboriginal Heritage Act 1988* that may be affected by those operations,and may take into consideration such other factors as he considers appropriate in the particular case.
- (7) It shall be a condition of a mining lease that the Minister may, at any time, require the holder of the lease to pay to any person an amount of compensation, stipulated by the Minister, to which that person is, in the opinion of the Minister, entitled in consequence of the conduct of mining operations in pursuance of the lease.

35—Application for lease

- (1) An application for a mining lease must be in the prescribed form and must be accompanied by—
 - (a) a statement of—
 - (i) the mining operations that the applicant proposes to carry out in pursuance of the lease; and

- (2b) If an application for a mining lease relates to an area within a River Murray Protection Area, the Minister must, before making his or her decision on the application, refer the application to the Minister for the River Murray and consult with that Minister in relation to the matter.
- (2c) If an application for a mining lease is referred to the Minister for the River Murray under subsection (2b) and the Minister to whom the administration of this Act is committed and the Minister for the River Murray cannot agree—
 - (a) on whether a mining lease should be granted; or
 - (b) if a mining lease is granted, on the conditions to which the mining lease should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

- (3) The Minister shall not grant a mining lease unless he is satisfied that there is a reasonable prospect that the land in respect of which the lease is sought could be effectively and efficiently mined.

35A—Representations in relation to grant of lease

- (1) The Minister must not grant a mining lease unless he or she has caused to be published in a newspaper circulating generally throughout the State a notice—
 - (a) describing the land to which the application relates and, if relevant, the particular stratum to which a lease would relate; and
 - (b) specifying a place at which the application may be inspected; and
 - (c) inviting members of the public to make written submissions in relation to the application to the Minister within a period specified in the notice (which must be a period of at least 14 days from the date of publication of the notice).
- (1a) The Minister must, within 14 days after receiving an application for a mining lease, give written notice of the application to the owner of the land to which the application relates together with an invitation to submit written representations on the application within a specified time.
- (2) Where application is made for a mining lease in respect of land within the area of a council, the Minister shall, within 14 days after receiving the application, send a copy of the application to the council and invite it to submit written representations on the application to the Minister within a time fixed in the invitation.

- (3) In determining whether to grant or refuse an application for a mining lease and, if so, the terms and conditions on which it should be granted, the Minister shall have regard to any representations made in response to an invitation under this section.

36—Approval of application

- (1) Where a person has applied for a mining lease and has been notified in writing by or on behalf of the Minister that the Minister has approved the application, the applicant shall be liable for the payment of rent, and any other sum, payable by the holder of a mining lease of the kind for which approval has been granted, and shall be deemed to be the holder of such a lease comprising the land in respect of which the lease is sought as from the date of the notification.
- (2) Where written notification that the Minister has approved an application for a lease is given under subsection (1), the term of the lease shall commence from the date of the notification.

37—Nature of lease

- (1) A mining lease must describe or delineate the land in respect of which it is granted with as much particularity as is reasonably practicable.
- (2) A mining lease is not required to be registered under the *Real Property Act 1886*.

38—Term and renewal of mining lease

- (1) A mining lease may be granted for such term, not exceeding 21 years, as may be determined by the Minister and specified in the lease.
- (2) Subject to the terms and conditions of a mining lease, the holder of the lease shall, if he has complied with the provisions of this Act, and the terms and conditions of the lease during the term for which the lease was granted or last renewed, be entitled, at the expiration of that term, to the renewal of the lease for a further term.
- (3) Where a person who is entitled to the renewal of a mining lease under this section makes due application in the prescribed form for the renewal of the lease not more than 6 months, and not less than 3 months, before the date of its expiry, the Minister shall renew the lease for a term, not exceeding 21 years, determined by the Minister.
- (4) If an application for the renewal of a mining lease is not decided before the date of expiry, the lease continues in operation until the application is decided and, if the lease is renewed, the renewal dates from the date on which the lease would, but for this subsection, have expired.
- (5) If an application for the renewal of a mining lease relates to an area within a River Murray Protection Area, the Minister must, before making his or her decision on the application, refer the application to the Minister for the River Murray and consult with that Minister in relation to the matter.
- (6) If an application for the renewal of a mining lease is referred to the Minister for the River Murray under subsection (5) and the Minister to whom the administration of this Act is committed and the Minister for the River Murray cannot agree—
 - (a) on whether a renewal should be granted; or
 - (b) if a renewal is granted, on the conditions to which the mining lease should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

39—Rights conferred by lease

A mining lease—

- (a) confers an exclusive right upon the holder of the lease to conduct mining operations subject to the provisions of this Act and the terms and conditions of the lease for the recovery of minerals from the land comprised in the lease; and
- (b) authorises the holder of the lease to sell, or dispose of, minerals recovered in the course of mining operations conducted in pursuance of the lease or to utilise any such minerals for any commercial or industrial purpose.

40—Rental

- (1) A mining lease shall provide for the payment, by way of rental, of such sum as may be prescribed.
- (2) If a mining lease is granted over land consisting of, or including, land subject to a relevant interest (ie an estate of fee simple or native title conferring a right to exclusive possession of the land), the amount paid to the Minister by way of rental under the lease must, after deduction of 5%,¹ be dealt with in accordance with the following principles—
 - (a) the proportionate entitlement of each holder of a relevant interest in the land must be worked out by determining what proportion of the total area of the land subject to the lease is represented by land in which the holder holds a relevant interest; and
 - (b) a proportion of the net amount available for distribution, equivalent to the holder's proportionate entitlement, must be paid to each holder of a relevant interest in land subject to the lease; and
 - (c) if a balance remains after distribution under paragraph (b), the balance is to be retained by the Minister.
- (3) If no-one is registered under the law of the State or the Commonwealth as the holder of native title in native title land over which a mining lease has been granted, the Minister must establish a trust fund and pay the amount to which the holder of native title is entitled under subsection (2) into the trust fund until a determination is made of who is entitled to the payment.
- (4) If no valid claim has been made on the trust fund within five years after its establishment, the Minister may dissolve the fund and pay the amount standing to its credit into the Consolidated Account but, if the fund is dissolved, any claim that might have been made against the fund assuming that it had continued in existence may be made instead against the State.

Note—

- 1 The net amount remaining after the 5% deduction is referred to subsequently as the net amount available for distribution.

41—Suspension or cancellation of lease

- (1) The Minister may suspend or cancel a mining lease if the lessee contravenes or fails to comply with a term or condition of the lease or a provision of this Act.
- (2) Before exercising powers under subsection (1), the Minister must comply with any stipulations in the lease relating to the taking of such action.
- (3) If a mining lease is suspended or cancelled under this section, the lessee may, within 28 days of the suspension or cancellation, appeal to the ERD Court and the Court may, if satisfied that there is no proper ground for the suspension or cancellation, declare the suspension or cancellation void.

Part 6A—Retention leases

41A—Grant of retention lease

- (1) The Minister may, subject to this section and Part 9B, grant to the holder of a registered mineral claim a retention lease of the whole or part of the land comprised in the claim.
- (1a) Where the registered mineral claim relates to a particular stratum, the lease shall, if granted, relate to the same stratum.
- (2) A retention lease may, subject to subsection (3), be granted in any of the following cases:

 - (c) any other relevant matters.
- (3) The amount of the compensation shall be an amount determined by agreement between the owner and the mining operator or, in default of agreement, an amount determined, upon application by an interested party, by the appropriate court.
- (4) The appropriate court, in determining compensation under this section, shall take into consideration any work that the mining operator has carried out, or undertakes to carry out, to rehabilitate the land.
- (5) Upon the hearing of an application for compensation under this section, the appropriate court may order a mining operator to carry out such work to rehabilitate the land as the Court thinks fit.
- (6) For the purposes of this section—
 - (a) a reference to mining operations will be taken to include a reference to any investigation or survey under section 15; and
 - (b) a reference to a mining operator will be taken to include a reference to the Director (in relation to any investigation or survey under section 15).

62—Bond and security

- (1) The Minister may, by notice in writing served on an applicant for, or the holder of, a mining tenement, require him to enter into a bond in such sum and subject to such terms and conditions as ensure, in the opinion of the Minister, that—
 - (a) any civil or statutory liability likely to be incurred by that person in the course of carrying out mining operations; and
 - (b) the present and future obligations of that person in relation to the rehabilitation of land disturbed by mining operations,will be satisfied.
- (2) The Minister may require such security for the satisfaction of the bond as the Minister thinks fit.

- (3) If the holder of a mining tenement fails to comply with a requirement under this section—
- (a) the Minister may, if the requirement has not been complied with at the expiration of one month from the end of the time allowed for compliance, prohibit mining operations in the area of the tenement; and
 - (b) the Minister may, if the requirement has not been complied with at the expiration of three months from the end of the time allowed for compliance, cancel the tenement.

- (4) If a person conducts mining operations in contravention of a prohibition under subsection (3), he shall be guilty of an offence.

Maximum penalty: \$1 250.

- (5) Where the Minister holds, or is entitled to, any money under a bond entered into by a mining operator, the Minister may, in his discretion, expend any portion of that money in compensating any person who has suffered, or is likely to suffer, financial loss as a result of mining operations carried out by that mining operator or in rehabilitating any land disturbed by any such operations.

- (6) No action shall lie against the Minister in respect of the expenditure of money under this section.

63—Extractive Areas Rehabilitation Fund

- (1) The Minister shall establish a fund entitled the "Extractive Areas Rehabilitation Fund".
- (2) The Minister shall pay into the fund 50 per cent of all amounts received or recovered by him by way of royalty upon extractive minerals.
- (3) The Minister may expend any portion of the fund for any of the following purposes:
- (a) the rehabilitation of land disturbed by mining operations for the recovery of extractive minerals; and
 - (b) the implementation of measures designed to prevent, or limit, damage to or impairment of, any aspect of the environment by mining operations for the recovery of extractive minerals; and
 - (c) the promotion of research into methods of mining engineering and practice by which environmental damage or impairment resulting from mining operations for the recovery of extractive minerals may be reduced.

Part 9A—Access to subsurface strata

63A—Pegging out of access claim

- (1) A person who holds a mining tenement in respect of a subsurface stratum may peg out an access claim, in accordance with the regulations, on land above the land comprised in the tenement.
- (2) The dimensions of an access claim must conform with the requirements of the regulations.
- (3) No more than 4 access claims may be held at the same time in respect of the same mining tenement.

63B—Access claim may be pegged by agreement, or by authority of the Warden's Court, over land comprised in mining tenement

- (1) Subject to subsection (2), a person is not entitled to peg out an access claim on or above land held under a mining tenement by some other person unless that other person has consented to the pegging out of the access claim or the Warden's Court has, in pursuance of subsection (2), authorised the pegging out of the claim.
- (2) Where a person desiring to peg out an access claim satisfies the Warden's Court that there is proper cause for the Court to authorise the pegging out of the claim, notwithstanding absence of the consent of the holder of a mining tenement, the Court may, on such conditions as it thinks just, authorise the pegging out of the access claim.

63C—Registration of access claim

- (1) Application for registration of an access claim—
 - (a) must be in the prescribed form; and
 - (b) must be lodged at the office of the Mining Registrar within 14 days after the day on which the claim is pegged out; and
 - (c) must be accompanied by the prescribed particulars.
- (2) A Mining Registrar shall, upon receipt of due application for registration of an access claim that has been lawfully pegged out, register the claim.
- (3) If application for registration of an access claim is not made as required by this section, or if the Mining Registrar lawfully refuses to register the claim, the claim shall lapse.

63D—Rights conferred by access claim

- (1) An access claim confers on the owner of the claim an exclusive right, subject to the provisions of this Act, to conduct mining operations of the kind authorised by the mining tenement to which the claim relates on the land comprised in the claim.
- (2) The rights conferred by an access claim are exclusive of the rights of any other person to conduct mining operations on, or in respect of, the land comprised in the claim.

63E—Term etc of access claim

- (1) An access claim has a renewable term of 12 months.

- (1a) If an application is made in accordance with the regulations for renewal of an access claim, the owner of the claim is entitled to renewal of the claim for a further term of 12 months.
- (2) An access claim shall lapse if, for any reason, the mining tenement to which it relates ceases to be in force.
- (3) The holder of an access claim may, subject to this Act, surrender the claim at any time.

Part 9B—Native title land

Division 1—Exploration

63F—Qualification of rights conferred by exploration authority

- (1) An exploration authority confers no right to carry out mining operations on native title land unless—
 - (a) the mining operations do not affect native title (ie they are not wholly or partly inconsistent with the continued existence, enjoyment or exercise of rights deriving from native title¹); or
 - (b) a declaration is made under the law of the State or the Commonwealth to the effect that the land is not subject to native title;² or
 - (c) an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) provides that statutory rights to negotiate are not intended to apply in relation to the mining operations.³
- (2) However, a person who holds an exploration authority that would, if land were not native title land, authorise mining operations on the land may acquire the right to carry out mining operations on the land (that affect native title) from an agreement or determination authorising the operations under this Part.
- (3) An agreement or determination under this Part need not be related to a particular exploration authority.
- (4) However, a mining operator's right to carry on mining operations that affect native title is contingent on the existence of an exploration authority that would, if the land were not native title land, authorise the mining operator to carry out the mining operations on the land.

Notes—

- 1 Cf. *Native Title Act 1993* (Cwth), section 227.
- 2 A declaration to this effect may be made under Part 4 of the *Native Title (South Australia) Act 1994* or the *Native Title Act 1993* (Cwth). The effect of such a declaration is that the land ceases to be native title land.
- 3 Cf. *Native Title Act* (Cwth), section 24EB(1)(c).

63G—Exploration rights to be held in escrow in certain circumstances

- (1) If an exploration authority is granted in respect of native title land, and the holder of the authority has no right or no substantial right to explore for minerals on the land because of the absence of an agreement or determination authorising mining operations on the land, the exploration authority does nevertheless, while it remains in force, prevent the grant of registration of another exploration authority for exploring for minerals of the same class within the area to which the authority relates.
- (2) The Minister may revoke an exploration authority that is granted entirely or substantially in respect of native title land if it appears to the Minister that the holder of the authority is not proceeding with reasonable diligence to obtain the agreement or determination necessary to authorise the effective conduct of mining operations on the land to which the authority relates.

Division 2—Production

63H—Limits on grant of production tenement

A production tenement may not be granted or registered over native title land unless—

- (a) the mining operations to be carried out under the tenement are authorised by a pre-existing agreement or determination registered under this Part; or
- (ab) an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) provides that statutory rights to negotiate are not intended to apply in relation to the mining operations to be carried out under the tenement;¹ or
- (b) a declaration is made under the law of the State or the Commonwealth to the effect that the land is not subject to native title.²

Notes—

- 1 Cf. *Native Title Act* (Cwth), section 24EB(1)(c).
- 2 A declaration to this effect may be made under Part 4 of the *Native Title (South Australia) Act 1994* or the *Native Title Act 1993* (Cwth). The effect of the declaration is that the land ceases to be native title land.

63I—Applications for production tenements

- (1) The Minister may agree with an applicant for a production tenement over native title land that the tenement will be granted or registered contingent on the registration of an agreement or determination under this Part.
- (2) The Minister may refuse an application for a production tenement over native title land if it appears to the Minister that the applicant is not proceeding with reasonable diligence to obtain the agreement or determination necessary to the grant or registration of the tenement to which the application relates (and if the application is refused, the applicant's claim lapses).

Division 3—Application for declaration

63J—Application for declaration

A person who seeks to carry out mining operations on native title land may apply to the ERD Court for a declaration that the land is not subject to native title.¹

Note—

- 1 The application is to be made under the *Native Title (South Australia) Act 1994*.

Division 4—Negotiating procedure

63K—Types of agreement authorising mining operations on native title land

- (1) An agreement authorising mining operations on native title land (a *native title mining agreement*) may—
 - (a) authorise mining operations by a particular mining operator; or
 - (b) authorise mining operations of a specified class within a defined area by mining operators of a specified class who comply with the terms of the agreement.

Explanatory note—

If the authorisation relates to a particular mining operator it is referred to as an *individual authorisation*. Such an authorisation is not necessarily limited to mining operations under a particular exploration authority or production tenement but may extend also to future exploration authorities or production tenements. If the authorisation does extend to future exploration authorities or production tenements it is referred to as a *conjunctive authorisation*. An authorisation that extends to a specified class of mining operators is referred to as an *umbrella authorisation*.

- (2) If a native title mining agreement is negotiated between a mining operator who does not hold, and is not an applicant for, a production tenement for the relevant land, and native title parties who are claimants to (rather than registered holders of) native title land, the agreement cannot extend to mining operations conducted on the land under a future production tenement.
- (3) An umbrella authorisation can only relate to prospecting or mining for precious stones over an area of 200 square kilometres or less.
- (4) If the native title parties with whom a native title mining agreement conferring an umbrella authorisation is negotiated are claimants to (rather than registered holders of) native title land, the term of the agreement cannot exceed 10 years.
- (5) The existence of an umbrella authorisation does not preclude a native title mining agreement between a mining operator and the relevant native title parties relating to the same land, and if an individual agreement is negotiated, the agreement regulates mining operations by a mining operator who is bound by the agreement to the exclusion of the umbrella authorisation.

63L—Negotiation of agreements

- (1) A person (the *proponent*) who seeks a native title mining agreement may negotiate the agreement with the native title parties.

Explanatory note—

The *native title parties* are the persons who are, at the end of the period of two months from when notice is given under section 63M, registered under the law of the State or the Commonwealth as holders of, or claimants to, native title in the land. A person who negotiates with the registered representative of those persons will be taken to have negotiated with the native title parties. Negotiations with other persons are not precluded but any agreement reached must be signed by the registered representative on behalf of the native title parties.

- (2) The proponent must be—
 - (a) if an agreement conferring an individual authorisation¹ is sought—the mining operator who seeks the authorisation;
 - (b) if an agreement conferring an umbrella authorisation¹ is sought—the Minister or an association representing the interests of mining operators approved by regulation for the purposes of this section.

Note—

¹ See the explanatory note to section 63K(1).

63M—Notification of parties affected

- (1) The proponent initiates negotiations by giving notice under this section.

- (2) The notice must—
 - (a) identify the land on which the proposed mining operations are to be carried out; and
 - (b) describe the general nature of the proposed mining operations that are to be carried out on the land.
- (3) The notice must be given to—
 - (a) the relevant native title parties; and
 - (b) the ERD Court; and
 - (c) the Minister.
- (4) Notice is given to the relevant native title parties as follows:
 - (a) if a native title declaration establishes who are the holders of native title in the land—the notice must be given to the registered representative of the native title holders and the relevant representative Aboriginal body for the land;
 - (b) if there is no native title declaration establishing who are the holders of native title in the land—the notice must be given to all who hold or may hold native title in the land in accordance with the method prescribed by Part 5 of the *Native Title (South Australia) Act 1994*.

63N—What happens when there are no registered native title parties with whom to negotiate

- (1) If, two months after the notice is given to all who hold or may hold native title in the land, there are no native title parties in relation to the land to which the notice relates, the proponent may apply *ex parte* to the ERD Court for a summary determination.
- (2) On an application under subsection (1), the ERD Court must make a determination authorising entry to the land for the purpose of carrying out mining operations on the land, and the conduct of mining operations on the land.
- (3) The determination may be made on conditions the Court considers appropriate and specifies in the determination.
- (4) The determination cannot confer a conjunctive or umbrella authorisation.¹

Note—

- 1 See the explanatory note to section 63K(1).

63O—Expedited procedure where impact of operations is minimal

- (1) This section applies to mining operations that—
 - (a) will not directly interfere with the community life of the holders of native title in the land on which the operations are to be carried out; and
 - (b) will not interfere with areas or sites of particular significance, in accordance with their traditions, to the holders of native title in the land on which the operations are to be carried out; and
 - (c) will not involve major disturbance to the land on which the operations are to be carried out.

- (2) If the proponent states in the notice given under this Division that the mining operations to which the notice relates are operations to which this section applies and that the proponent proposes to rely on this section, the proponent may apply ex parte to the ERD Court for a summary determination authorising mining operations in accordance with the proposals made in the notice.
- (3) On an application under subsection (2), the ERD Court may make a summary determination authorising mining operations in accordance with the proposals contained in the notice.
- (4) However, if within two months after notice is given, a written objection to the proponent's reliance on this section is given by the Minister, or a person who holds, or claims to hold, native title in the land, the ERD Court must not make a summary determination under this section unless the Court is satisfied after giving the objectors an opportunity to be heard that the operations are in fact operations to which this section applies.
- (5) An objection under subsection (4) must be given to the proponent and a copy given to the ERD Court.

63P—Negotiating procedure

- (1) The proponent and native title parties must negotiate in good faith and accordingly explore the possibility of reaching an agreement.
- (2) However, the obligation to negotiate does not arise if the case is one where a summary determination may be made.
- (3) If any of the negotiating parties requests the ERD Court to do so, the Court must mediate among the parties to assist in obtaining their agreement.
- (4) The Minister may (personally or by representative) intervene in negotiations under this Division.

63Q—Agreement

- (1) An agreement negotiated under this Division may provide for payment to the native title parties based on profits or income derived from mining operations on the land or the quantity of minerals produced.
- (2) The basis of the payment may be fixed in the agreement or left to be decided by the ERD Court or some other nominated arbitrator.
- (3) An agreement must deal with—
 - (a) notices to be given or other conditions to be met before the land is entered for the purposes of carrying out mining operations; and
 - (b) principles governing the rehabilitation of the land on completion of the mining operations.
- (4) If agreement is reached between the proponent and the native title parties authorising mining operations on the native title land, the proponent must lodge a copy of the agreement with a mining registrar and the mining registrar will, subject to this section, register the agreement.

- (5) If the Minister is of the opinion that there is reason to believe that the agreement may not have been negotiated in good faith, the Minister may, within two months after the copy of the agreement is lodged for registration with the mining registrar, make an order prohibiting registration of the agreement.
- (6) A party to an agreement may appeal against an order under subsection (5) to the ERD Court and the Court may, on appeal—
 - (a) confirm or revoke the Minister's order; and
 - (b) if the Court considers it appropriate, make a determination authorising entry on the land to carry out mining operations, and the conduct of mining operations on the land, on conditions determined by the Court.

63R—Effect of registered agreement

- (1) A registered agreement negotiated under this Division is (subject to its terms) binding on, and enforceable by or against the original parties to the agreement and—
 - (a) the holders from time to time of native title in the land to which the agreement relates; and
 - (b) the holders from time to time of any exploration authority or production tenement under which mining operations to which the agreement relates are carried out.
- (2) If a native title declaration establishes that the native title parties with whom an agreement was negotiated are not the holders of native title in the land or are not the only holders of native title in the land, the agreement continues in operation (subject to its terms) until a fresh agreement is negotiated under this Part with the holders of native title in the land, or for 2 years after the date of the declaration (whichever is the lesser).
- (3) Either the holders of native title in the land or the mining operator may initiate negotiations for a fresh agreement by giving notice to the other.
- (4) A registered agreement that authorises mining operations to be conducted under a future mining tenement is contingent on the tenement being granted or registered.

63S—Application for determination

- (1) If agreement between the proponent and the native title parties is not reached within the relevant period, any party to the negotiations or the Minister may apply to the ERD Court for a determination.

In this subsection the *relevant period* is—

- (a) if the mining operations to which the negotiations relate are merely of an exploratory nature—four months from when the negotiations were initiated; or
 - (b) in any other case—six months from when the negotiations were initiated.
- (2) On an application under this section, the ERD Court may determine—
 - (a) that mining operations may not be conducted on the native title land; or
 - (b) that mining operations may be conducted on the native title land subject to conditions determined by the Court.

-
- (3) If the ERD Court determines that mining operations may be conducted on native title land, the determination—
- (a) must deal with the notices to be given or other conditions to be met before the land is entered for the purposes of mining operations; but
 - (b) cannot provide for payment to the native title parties based on profits or income derived from mining operations on the land or the quantity of minerals produced.
- (4) The ERD Court must make its determination on an application under this section within the relevant period unless there are special reasons why it cannot do so.

In this subsection, the *relevant period* is—

- (a) if a determination is sought only for exploring—four months from when the application is made; or
 - (b) in any other case—six months from when the application is made.
- (5) The representative Aboriginal body for the area in which the land is situated is entitled to be heard in proceedings under this section.

63T—Criteria for making determination

- (1) In making its determination, the ERD Court must take into account the following:
- (a) the effect of the proposed mining operations on—
 - (i) native title in the land; and
 - (ii) the way of life, culture and traditions of any of the native title parties; and
 - (iii) the development of the social, cultural and economic structures of any of those parties; and
 - (iv) the freedom of access by any of those parties to the land concerned and their freedom to carry out rites, ceremonies or other activities of cultural significance on the land in accordance with their traditions; and
 - (v) any area or site, on the land concerned, of particular significance to the native title parties in accordance with their traditions; and
 - (vi) the natural environment of the land concerned;
 - (b) any assessment of the effect of the proposed mining operations on the natural environment of the land concerned—
 - (i) made by a court or tribunal; or
 - (ii) made, or commissioned, by the Crown in any capacity or by a statutory authority;
 - (c) the interests, proposals, opinions or wishes of the native title parties in relation to the management, use or control of the land concerned;
 - (d) the economic or other significance of the proposed mining operations to Australia and to the State;
 - (e) any public interest in the mining operations proceeding;

- (f) any other matter the ERD Court considers relevant.
- (2) This section does not affect the operation of another law of the State or the Commonwealth for the preservation or protection of areas or sites of particular significance to Aboriginal people.

63U—Limitation on powers of Court

- (1) The ERD Court cannot make a determination conferring a conjunctive or umbrella authorisation¹ unless the native title parties² are represented in the proceedings and agree to the authorisation.
- (2) A conjunctive authorisation¹ conferred by determination cannot authorise mining operations under both an exploration authority and a production tenement unless the native title parties¹ are the registered holders of (rather than claimants to) native title land.³
- (3) An umbrella authorisation¹ conferred by determination—
 - (a) can only relate to prospecting or mining for precious stones over an area of 200 square kilometres or less; and
 - (b) cannot authorise mining operations for a period exceeding 10 years unless the native title parties² are registered holders of (rather than claimants to) native title land.⁴

Notes—

- 1 See explanatory note to section 63K(1).
- 2 See explanatory note to section 63L(1).
- 3 Section 63K(2) is of similar effect in relation to native title mining agreements.
- 4 Section 63K(3) and (4) are of similar effect in relation to native title mining agreements.

63V—Effect of determination

- (1) A determination under this Division—
 - (a) must be lodged with a mining registrar; and
 - (b) must be registered two months after it was lodged for registration unless it has in the meantime been overruled by the Minister;¹ and
 - (c) takes effect on registration.
- (2) A determination registered under this Division has effect as if it were a contract between the proponent and the native title parties.
- (3) A registered determination is (subject to its terms) binding on, and enforceable by or against the original parties to the proceedings in which the determination was made and—
 - (a) the holders from time to time of native title in the land to which the determination relates; and
 - (b) the holders from time to time of any exploration authority or production tenement under which mining operations to which the determination relates are carried out.

- (4) If a native title declaration establishes that the native title parties to whom the determination relates are not the holders of native title in the land or are not the only holders of native title in the land, the determination continues in operation (subject to its terms) until a fresh determination is made, or for 2 years after the date of the declaration (whichever is the lesser).
- (5) A determination under this Part that authorises mining operations to be conducted under a future mining tenement is contingent on the tenement being granted or registered.

Note—

- 1 See section 63W.

63W—Ministerial power to overrule determinations

- (1) If the Minister considers it to be in the interests of the State to overrule a determination of the ERD Court under this Part, the Minister may, by notice in writing given to the ERD Court and the parties to the proceedings before the Court, overrule the determination and substitute another determination that might have been made by the Court.
- (2) However—
- (a) the Minister cannot overrule a determination—
 - (i) if more than two months have elapsed since the date of the determination; or
 - (ii) if the Minister was the proponent of the negotiations leading to the determination; and
 - (b) the substituted determination cannot create a conjunctive or umbrella authorisation¹ if there was no such authorisation in the original determination nor can the substituted determination extend the scope of a conjunctive or umbrella authorisation.

Explanatory note—

The scope of an authorisation is extended if the period of its operation is lengthened, the area to which it applies is increased, or the class of mining operations to which it applies is expanded in any way.

Note—

- 1 See the explanatory note to section 63K(1).

63X—No re-opening of issues

If an issue is decided by determination under this Part, the parties to the proceedings in which the determination was made cannot make an agreement that is inconsistent with the terms of the determination unless the ERD Court authorises the agreement.

Division 5—Miscellaneous**63Y—Non-application of this Part to Pitjantjatjara and Maralinga lands**

Nothing in this Part affects the operation of—

- (a) the *Pitjantjatjara Land Rights Act 1981*; or

- (b) the *Maralinga Tjarutja Land Rights Act 1984*.

63Z—Compensation to be held on trust in certain cases

- (1) If a determination under this Part authorises mining operations on conditions requiring payment of compensation—
- (a) the ERD Court must decide the amount of the compensation; and
 - (b) the compensation must be paid into the ERD Court to be held on trust and applied as required by this section.
- (2) Compensation paid into the ERD Court under this section—
- (a) must, on application by the registered representative of the native title holders, be paid out to the registered representative; or
 - (b) if the Court, on application by an interested person, is satisfied that it is just and equitable to pay the compensation in some other way—must be paid out as directed by the Court.
- (3) However, if compensation is held on trust by the ERD Court under this section and—
- (a) a native title declaration is made to the effect that no part of the land is subject to native title; or
 - (b) the proponent abandons the proposal to carry out mining operations on the land before exercising the right to do so and, by notice to the Minister, relinquishes the right to do so,

the compensation must be repaid to the person who paid it.

63ZA—Non-monetary compensation

- (1) Compensation under this Part is to be given in the form of monetary compensation.
- (2) However—
- (a) if, during negotiations under this Part, a person who may be entitled to compensation requests that the whole or part of the compensation be in a form other than money,¹ the other person who may be liable to pay compensation—
 - (i) must consider the request; and
 - (ii) must negotiate in good faith on the subject; and
 - (b) the ERD Court may, at the request of a person entitled to compensation, order non-monetary compensation.¹

Example—

- 1 The non-monetary compensation might take the form of a transfer of property or the provision of goods or services.

63ZB—Review of compensation

- (1) If—
- (a) mining operations are authorised by determination under this Part on conditions requiring the payment of compensation; and

- (b) a native title declaration is later made establishing who are the holders of native title in the land,

the ERD Court may, on application by the registered representative of the holders of native title in the land, or on the application of a person who is liable to pay compensation under the determination, review the provisions of the determination providing for the payment of compensation.

- (2) The application must be made within three months after the date of the native title declaration.
- (3) The Court may, on an application under this section—
- (a) increase or reduce the amount of the compensation payable under the determination (as from the date of application or a later date fixed by the Court); and
 - (b) change the provisions of the determination for payment of compensation in some other way.
- (4) In deciding whether to vary a determination and, if so, how, the Court must have regard to—
- (a) the assumptions about the existence or nature of native title on which the determination was made and the extent to which the native title declaration has confirmed or invalidated those assumptions; and
 - (b) the need to ensure that the determination provides just compensation for, and only for, persons whose native title in land is affected by the mining operations; and
 - (c) the interests of mining operators and investors who have relied in good faith on the assumptions on which the determination was made.

63ZBA—Mining Native Title Register

- (1) The Mining Registrar must establish a distinct part of the Mining Register (which may be referred to as the *Mining Native Title Register*) for the registration of agreements and determinations under this Part.
- (2) The Mining Registrar must, in respect of each agreement or determination registered under this Part, include in the *Mining Native Title Register* details concerning—
- (a) the land to which the agreement or determination relates; and
 - (b) if relevant—the exploration authority or production tenement to which the agreement or determination relates; and
 - (c) the parties who are bound by the agreement or determination; and
 - (d) other information prescribed by the regulations.
- (3) The Mining Registrar may also note in any other part of the Mining Register any agreement or determination registered under this Part (as the Mining Registrar thinks fit).

- (4) An agreement or determination registered under this Part is not available for inspection under this Act if—
- (a) in the case of an agreement, the parties to the agreement specify in the agreement, or in some other manner determined by the Mining Registrar, that the contents of the agreement should be kept confidential under this section;
 - (b) in the case of a determination, the ERD Court specifies in the determination that the contents of the determination should be kept confidential under this section.
- (5) However, subsection (4) does not prevent the inspection of an agreement or determination registered under this Part by—
- (a) a person engaged in the administration of this Act acting in the course of official duties; or
 - (b) the Minister, or a person appointed to the Public Service acting in the course of official duties on behalf of, or with the authority of, the Minister; or
 - (c) a person who is bound by the agreement or determination; or
 - (d) a person who is acting under the joint authority of all persons who are bound by the agreement or determination (and such an authority must be given in a manner and form approved by the Mining Registrar); or
 - (e) a person who is acting under the authority of an order or determination of the ERD Court or the Supreme Court (for the purposes of this or another Act or law).
- (6) An authority under subsection (5) may be given on conditions.
- (7) A person who contravenes or fails to comply with a condition is guilty of an offence.
Maximum penalty: \$10 000.

63ZC—Saving of pre-1994 mining tenements

This Part does not apply in relation to—

- (a) a claim registered before 1 January 1994; or
- (b) a lease or licence granted under this Act before 1 January 1994; or
- (c) a renewal of a lease or licence granted under this Act before 1 January 1994 in pursuance of a legally enforceable right created before that date.

Part 10—Warden's Court and forfeiture of mining tenements

64—Establishment of Warden's Court

- (1) There shall be a court entitled the "Warden's Court".

the Warden's Court may assume that it may make a declaration under subsection (2)(a).

- (5) The Director may object to an application by the proprietor of a private mine for a declaration under this section on the grounds that a variation or revocation would effectively lead to the loss of the opportunity to recover minerals from the area of the private mine in the future.

The Governor may, on the basis of a declaration of the Warden's Court under section 73M, by proclamation vary or revoke the declaration of an area as a private mine under this Act.

- (2) If the name of the proprietor of a private mine is unknown to the Registrar, then it is not necessary to name the proprietor in a document served or given under subsection (1) (and the document may be addressed in a general way).
- (3) If a private mine has two or more proprietors, service of a document on one proprietor may be taken to constitute service on each proprietor.

- (2) Despite any other provision of this Act, the Minister or the Director of Mines may—
 - (a) accept a Commonwealth Act document as an application, notice or other document for the purposes of this Act if (subject to subsection (5)) the document complies with the requirements of this Act; and
 - (b) direct that a procedure taken under the Commonwealth Act in relation to a Commonwealth Act document that has been accepted by the Minister or Director under paragraph (a) will be taken to have fulfilled the requirement for a procedure in relation to the relevant document under this Act if the requirements of this Act in relation to the procedure have been complied with; and
 - (c) instead of himself or herself, or some other person, preparing a plan, report, statement, assessment or other document under this Act, adopt or accept the whole or part of a document (whether a plan, report, statement, assessment or other document of the same kind or not) used, or to be used, for the purposes of the Commonwealth Act as the document required under this Act if (subject to subsection (5)) the document has been prepared in compliance with this Act and complies with the requirements of this Act.

- (3) To avoid doubt, where a controlled action under the Commonwealth Act is an activity or part of an activity, or includes an activity, for which authorisation is required under this Act, the Minister or Director may, when considering an application for a mining tenement or other authorisation for the activity, use information and other material provided to the Commonwealth Minister under the Commonwealth Act for the purpose of deciding whether to give his or her approval to the controlled action under that Act.
- (4) Where a controlled action under the Commonwealth Act is an activity or part of an activity, or includes an activity, for which authorisation is required under this Act, the Minister or Director—
- (a) must, if the Commonwealth Minister has given his or her approval to the controlled action, consider whether the conditions (if any) to be attached by the Minister or Director to the mining tenement or other authorisation should be consistent with the conditions (if any) attached to the Commonwealth Minister's approval under the Commonwealth Act;
 - (b) may attach a condition to the mining tenement or other authorisation that requires compliance with all or some of the conditions attached to the Commonwealth Minister's approval under the Commonwealth Act.

 - (1d) If the Minister grants an exploration licence under subsection (1b), the holders of the respective tenements must, subject to maintaining reasonable efficiencies in the conduct of their own operations, and any agreement between them or order of the Warden's Court, take all steps that are reasonably practicable to minimise interference with each others' operations.
Maximum penalty: \$5 000.
- (2) Where land is subject to a mining tenement, a further claim, lease or miscellaneous purposes licence may, with the consent of the holder of that mining tenement or the approval of the Warden's Court, be pegged out, or granted, in respect of any portion of the land comprised in the prior tenement, and the rights conferred by the respective tenements shall then be modified according to the agreement of the parties or the order of the Warden's Court, as the case may require.
