- (1) The Governor may, by proclamation—
 - (a) declare any land in the State or any land under coastal waters on the landward side of the baseline to be mineral land; or

 - (c) reserve from the operation of this Act, or any provisions of this Act, any land specified in the proclamation,

and the proclamation shall have effect according to its terms.

- (2) The Governor may, by subsequent proclamation, vary or revoke any proclamation made pursuant to this section.
- (3) The depth of strata into which mineral land is divided under this section may vary from place to place but, where the mineral land constitutes a precious stones field or part of a precious stones field, the depth of the surface stratum must be at least 50 metres.
- (4) Land that is subject to a mining tenement but is on the seaward side of the baseline because of a change in the position of the baseline after the tenement was granted will be taken to be mineral land until it ceases to be subject to the tenement and to all successive tenements (if any).
- (5) This Act applies to and in relation to land referred to in subsection (4) to the exclusion of the *Offshore Minerals Act 2000*.
- (6) A mining tenement is a successive tenement in relation to another tenement if—
 - (a) it applies to the same land or to part of the land covered by the other tenement; and
 - (b) it takes effect immediately after the other tenement expires or, where there are two or more successive tenements, immediately after the tenement immediately preceding it expires; and
 - (c) it is granted to the person who held the other tenement.

8A—Opal development areas

- (1) The Minister may, by notice in the Gazette, declare mineral land within a precious stones field to be an opal development area for the purposes of this Act, and the declaration will have effect according to its terms.
- (2) A person must not carry out mining operations in an opal development area except under the authority of an exploration licence or mining lease under this Act.
- (3) The Minister may, by subsequent notice in the Gazette, vary or revoke a declaration under subsection (1).

 - (bb) land that constitutes a forest reserve under the *Forestry Act 1950*; or
 - (c) any separate parcel of land of less than 2 000 square metres within any city, town or township; or
 - (d) land that is situated—
 - (i) within 400 metres of a building or structure used as a place of residence (except a building or structure of a class excluded by regulation from the ambit of this paragraph); or
 - (ii) within 150 metres of—
 - (A) a building or structure, with a value of \$200 or more, used for an industrial or commercial purpose; or
 - (B) a spring, well, reservoir or dam,

(but not if it is an improvement made for the purposes of mining operations), shall be exempt from mining operations in pursuance of this Act and, unless the benefit of the exemption is waived under section 9AA, no claim, lease or licence shall authorise prospecting, exploring or mining upon such land (but this section does not prevent the pegging out of a claim upon such land).

- (2) Where any land is subject to a claim, lease or licence under this Act and that land would, but for this subsection, be land exempt from mining operations in pursuance of this Act by reason only of a fact or circumstance occurring or arising subsequent to the pegging out, or granting, of the claim, lease or licence, that land shall not be exempt from operations in pursuance of this Act.
- (3b) The following persons shall, for the purposes of this Act, be regarded as having the benefit of an exemption under this section (and, subject to an order of the ERD Court under section 9AA, each person who has the benefit of an exemption must be a party to an agreement to waive the benefit before the land can cease to be exempt land):
 - (a) the owner of the exempt land; and
 - (b) in the case of land that is exempt from mining operations under subsection (1)(d) by reason of its proximity to other land on which a building, structure, spring, well, reservoir or dam is situated—the owner of that other land.
- (4) This section does not affect any provision of the *Pastoral Land Management and Conservation Act 1989* prohibiting or restricting the conduct of mining operations on lands subject to that Act.
- (5) In this section—

mining operations include any operations or activity for which a miscellaneous purposes licence may be granted.

9AA—Waiver of exemption (including cooling-off)

- (1) A mining operator may, by written notice given personally or by post to a person who has the benefit of an exemption under section 9, request the person to enter into an agreement with the operator to waive the benefit of the exemption.
- (2) A notice under subsection (1) must be in a form determined or approved by the Minister.
- (3) An agreement to waive the benefit of an exemption—
 - (a) must be in writing; and
 - (b) takes effect on the expiry of the cooling-off period (unless earlier rescinded).
- (4) A person who has entered into an agreement with a mining operator to waive the benefit of an exemption may, by giving the operator written notice before the expiration of the cooling-off period of the person's intention not to be bound by the agreement, rescind the agreement.
- (5) A notice rescinding an agreement may be given—
 - (a) by giving it to the mining operator personally; or
 - (b) by posting it by registered post to the operator's ordinary place of business (in which case the notice is taken to have been given when the notice is posted);
or
 - (c) by leaving it for the operator at the operator's ordinary place of business with someone apparently over the age of 16 years; or

- (d) by transmitting it by fax or email to a fax number or email address provided by the operator (in which case the notice is taken to have been given at the time of transmission).
- (6) If in legal proceedings the question arises whether a notice rescinding an agreement has been given in accordance with this section, the onus of proving the giving of the notice lies on the person rescinding the agreement.
- (7) If a mining operator has been unable to reach an agreement to waive the benefit of an exemption with a person to whom the operator has given a notice under this section, the mining operator may apply to the ERD Court for an order waiving the benefit of the exemption for the person (the *respondent*).
- (8) The ERD Court may refuse to determine an application unless the mining operator satisfies the Court that—
 - (a) the notice requesting the respondent to enter into an agreement complied with subsection (2); and
 - (b) the operator provided the respondent with information prescribed by the regulations for the purposes of this section; and
 - (c) the operator made a reasonable attempt to reach agreement with the respondent.
- (9) On an application, the ERD Court may—
 - (a) if the mining operator satisfies the Court that any adverse effects of the proposed mining operations on the respondent can be appropriately addressed by the imposition of conditions on the mining operator (including the payment of compensation to the respondent), make an order waiving the benefit of the exemption for the respondent and imposing conditions on the mining operator; or
 - (b) if the Court is not so satisfied—refuse the application.
- (10) The ERD Court may not make an order for costs against the respondent unless the Court considers that it is appropriate to do so on the ground that the respondent—
 - (a) has obstructed or unnecessarily delayed the proceedings; or
 - (b) has failed to attend any proceedings or failed to comply with a rule, order or direction of the Court.
- (11) If an agreement or order to waive the benefit of an exemption takes effect under this section in respect of exempt land, the land ceases to be exempt land, but the exemption revives on completion of the mining operations in respect of which the agreement or order was made or at such earlier time as may be stipulated in that agreement or order.
- (12) An agreement or order to waive the benefit of an exemption under this section is binding on—
 - (a) successors in title to those owners of land who had the benefit of the former exemption; and
 - (b) the holders from time to time of any mining tenement under which mining operations (being mining operations in respect of which the agreement or order was made) are carried out.

- (13) Subsections (11) and (12) apply to an agreement to waive an exemption under section 9 entered into before the commencement of this section as if it were an agreement to waive the benefit of an exemption under this section.
- (14) A mining operator is liable to indemnify a person to whom the operator gives a notice under this section for the reasonable costs of obtaining legal assistance relating to the operation of this section up to \$500 or, if some other amount is prescribed by regulation, that amount.
- (15) In this section—
- business day* means a day other than a Saturday or a Sunday or other public holiday;
- cooling-off period*, in relation to an agreement with a mining operator to waive the benefit of an exemption, means the period commencing when the agreement is made and concluding at the end of the fifth clear business day after the day on which the agreement is made;
- mining operations* has the same meaning as in section 9.

9A—Special declared areas

- (1) The Minister may, by notice in the Gazette, declare any land to be exempt from—
- (a) mining; or
 - (b) a specified class of mining; or
 - (c) a specified provision of this Act; or
 - (d) this Act, other than any specified provision excluded from the operation of this section by the regulations,
- and the notice will (subject to this section) have effect according to its terms.
- (2) The Minister must, as soon as practicable after the publication of a notice under subsection (1), prepare a report on the matter (including an outline of the reasons for the declaration and the expected impact of the declaration) and cause copies of the report to be laid before both Houses of Parliament.
- (3) The Minister may, by subsequent notice in the Gazette, vary or revoke a notice under subsection (1).
- (4) A notice under subsection (1) will not have effect—
- (a) in relation to a mining tenement in force at the time that the notice takes effect; or
 - (b) so as to prevent a person applying for (and being granted) a subsequent tenement on account of a right arising under a mining tenement in force at the time that the notice takes effect (including a subsequent exploration licence that arises from an exploration licence in force at the time that the notice takes effect); or

- (c) so as to prevent a person establishing a mineral claim (identified in any manner allowed or approved under this Act) after the notice takes effect on account of a right to carry out exploratory operations under an exploration licence in force at the time the notice takes effect, or under a subsequent tenement under paragraph (b), where the holder of the tenement has reported to the Director of Mines the discovery on the relevant land of minerals that are potentially capable of economic production (including so as to allow a person to apply for (and being granted) a mining tenement on account of the establishment of the mineral claim),

but otherwise a person does not have a right to apply for a mining tenement in respect of land subject to the operation of the declaration unless specifically authorised to do so by the Minister (either under the terms of the notice under subsection (1) or under a specific authorisation granted by the Minister in connection with the operation of this section).

- (5) While land is subject to the operation of a declaration under subsection (1), the land, to the extent of the exemption, may be dealt with by the Minister in accordance with this section and to that extent is not subject to the other provisions of this Act.
- (6) Without limiting subsection (5), the Minister may, while land is exempt under this section—
 - (a) call for applications for the grant of such mining tenements as the Minister determines in respect of the land or any part of the land;
 - (b) determine any matter relating to the status or priority of any claim over the land (and, as a result of any such determination, require the removal of any pegs, cancel the operation of any claim, determine not to process any application, or take such other action as the Minister thinks fit);
 - (c) provide for the management of the land, or any mining right or interest (or potential right or interest) in respect of the land, in such other manner as the Minister thinks fit.
- (7) If the Minister calls for applications under subsection (6)(a)—

 - (b) the Minister may, on reviewing any application received in response to the call—
 - (i) grant a mining tenement under this Act, subject to such terms and conditions as the Minister thinks fit; or
 - (ii) refuse the application.
- (8) A declaration under subsection (1) has effect until it is revoked under subsection (3) or until it expires under subsection (9), whichever first occurs.
- (9) A declaration under subsection (1) will expire at the end of the period of 2 years from its date of operation unless it is extended for a period or periods, not exceeding 2 years at a time, by further notice published by the Minister in the Gazette.
- (10) The Minister must cause copies of a notice of extension published under subsection (9) to be laid before both Houses of Parliament.

- (11) If either House of Parliament passes a resolution disallowing a notice laid before it under subsection (10) then the declaration under subsection (1) will immediately cease to have effect.
- (12) A resolution is not effective for the purposes of subsection (11) unless passed in pursuance of a notice of motion given within 14 sitting days (which need not fall within the same session of Parliament) after the day on which the notice under subsection (9) was laid before the House.
- (13) Where a resolution is passed under subsection (11), notice of that resolution must forthwith be published in the Gazette.

 - (a) is stockpiled in accordance with conditions stipulated by the Minister; or
 - (b) is of such low concentration that it may, in the opinion of the Minister, be safely discarded as waste and is in fact discarded as waste.
- (4) Notwithstanding any other provision of this Act, the property in any radioactive mineral—
 - (a) stockpiled in pursuance of conditions imposed by the Minister under subsection (2); or
 - (b) stockpiled in pursuance of subsection (3)(a),

- (1) Notwithstanding the provisions of any other Act or law, or of any land grant or other instrument, the property in all minerals is vested in the Crown.
- (2) This section applies in respect of all mineral land and in respect of all other land (including reserved land) in the State or under coastal waters on the landward side of the baseline.

17—Royalty

- (1) Subject to this Act, royalty is payable to the Minister on all minerals recovered from mineral land and—
 - (a) sold or intended for sale; or
 - (b) utilised, or to be utilised, for any commercial or industrial purpose.
- (2) Royalty is not payable on minerals recovered from mineral land that are removed from the area of a mining tenement for the purpose of any testing of a kind approved by the Minister.
- (3) Royalty is only payable on precious stones if the precious stones are recovered under this Act.
- (4) Subject to this or any other relevant section, royalty will be equivalent to—
 - (a) in the case of extractive minerals—55 cents per tonne, or such lesser amount as may be prescribed by the regulations, as assessed at the mine gate; or
 - (b) in the case of minerals other than extractive minerals—
 - (i) in the case of declared mineral ores and concentrates—5% of the value of the minerals, as assessed in accordance with subsection (5) (the *royalty assessment principles*);
 - (ii) in the case of declared refined mineral products—3.5% of the value of the refined mineral products, as assessed in accordance with the royalty assessment principles;
 - (iii) in the case of declared industrial minerals or construction materials—3.5% of the value of the minerals, as assessed in accordance with the royalty assessment principles;
 - (iv) in any other case—5% of the value of the minerals, as assessed in accordance with the royalty assessment principles.
- (5) For the purposes of subsection (4)(b) (and any other relevant section), the value of minerals will be the value (the *ex-mine gate value*) that fairly represents the market value (excluding GST) of the minerals at the time that the minerals leave the area of—
 - (a) unless paragraph (b) applies, the mining tenement from which the minerals were recovered; or
 - (b) if the minerals have been transported to mineral land the subject of a miscellaneous purposes licence—that mineral land.

- (6) Without limiting any other relevant matter, the market value of particular minerals will be determined according to—
- (a) any contract price obtained for the minerals if the sale is to a genuine purchaser at arms length and taking into account the point of sale; or
 - (b) if there is not a contract with a genuine purchaser at arms length as contemplated by paragraph (a) in a particular case—
 - (i) any price quoted or obtained on any market recognised by the Minister (by notice published in the Gazette) as being a relevant industry market for the purposes of determining the market value of minerals of that kind; or
 - (ii) if subparagraph (i) does not apply in a particular case—the price (if any) declared by the Minister by notice in the Gazette as being an indicative price for the minerals; or
 - (c) if neither paragraph (a) nor (b) applies in a particular case, any price obtained by other parties within the industry in relation to similar sales on the open market within a period determined by the Minister.
- (7) For the purposes of subsection (6)(a), **contract price** means—
- (a) the amount to be paid under the contract; plus
 - (b) the value of any consideration, set-off, concession or other factor otherwise taken into account by the parties to the contract in determining the amount to be paid under the contract.
- (8) Any costs of a prescribed kind are not to be included in the market value of particular minerals at the gate of the relevant tenement.
- (9) The Minister may, under an agreement between the Minister and the person liable to pay royalty on any minerals other than extractive minerals, determine that royalty will be payable according to the weight or volume of minerals recovered or some other basis, and royalty will be payable by the person in accordance with the determination.
- (10) The Minister may, on the application of a person liable to pay royalty under this section, having regard to the effect that payment of such royalty would be likely to have on the viability or profitability of mining operations carried on by the person, waive payment of royalty wholly or in part, or reduce the rate at which royalty is payable, on minerals recovered in the course of those operations.
- (11) Royalty may be recovered by the Crown as a debt due to the Crown in any court of competent jurisdiction.
- (12) The holder of a tenement from which minerals are recovered is liable to pay the royalty.
- (13) For the purposes of this section, the Minister may, from time to time—
- (a) by notice in the Gazette—
 - (i) declare specified types of mineral ores or concentrates to be declared mineral ores and concentrates; and
 - (ii) declare specified types of refined mineral products to be declared refined mineral products; and

- (iii) declare specified types of minerals to be declared industrial minerals or construction materials; and
 - (b) by subsequent notice in the Gazette, vary or revoke a declaration under paragraph (a).
- (14) A notice under subsection (13) will have effect from a date specified in the notice by the Minister.

Note—

For private mines see section 73E.

17A—Reduced royalty for new mines

- (1) The Minister may, on the application of a person liable to pay royalty (other than on extractive minerals), by notice in the Gazette, declare that a mine will be taken to be a *new mine* for the purposes of this section.
- (2) Despite section 17, for the period of 5 years commencing on the date on which the first royalty payment under this Act is due and payable, royalty payable in relation to minerals (other than extractive minerals) recovered from mineral land at a new mine will be equivalent to 2 per cent of the value of the minerals (as assessed in accordance with the royalty assessment principles under section 17).
- (3) The Minister may, by subsequent notice in the Gazette, vary or revoke a declaration under subsection (1).
- (4) An application under this section must be made in a manner and form determined by the Minister and must be lodged with the Director of Mines.
- (5) An applicant must provide any information reasonably required by the Minister to determine the application.
- (6) In determining whether or not to make a declaration under this section, the Minister may have regard to the following matters (insofar as they may be relevant):
 - (a) the extent to which the mining operations to be carried on at the mine can be viewed as constituting an extension of existing mining operations, or the revival of mining operations that have been previously carried on;
 - (b) the nature of the mining operations to be carried on at the mine when compared to any existing operations carried on, or previously carried on, at the same tenement, or a tenement within the vicinity of the relevant mine;
 - (c) the relationship of the applicant to any other person carrying on mining operations within the vicinity of the relevant mine (including, in the case of a body corporate, mining operations carried on by a related body corporate within the meaning of section 50 of the *Corporations Act 2001* of the Commonwealth);
 - (d) such other matters as the Minister thinks fit.

17B—Assessments by Minister

- (1) The Minister may make an assessment of royalty under this Act if the Minister is of the opinion that a person liable to pay royalty—
 - (a) has not made a payment of royalty when it falls due; or

- (b) has not paid royalty in accordance with the royalty assessment principles (and any related provision under this Act); or
 - (c) has not paid royalty in accordance with any agreement or determination that applies under section 17 or 17A; or
 - (d) has not paid royalty in accordance with any other relevant requirement.
- (2) Without limiting subsection (1), the Minister may, on application or on the Minister's own initiative, review and revise an earlier assessment of royalty (and that revision will then be taken to be a new assessment for the purposes of this Act).
- (3) The Minister must cause a copy of any assessment under this section to be served on the person liable to pay the royalty.
- (4) A person on whom a copy of an assessment is served may, within 1 month after the date of service, appeal against the assessment to the ERD Court.
- (5) On the hearing of an appeal, the ERD Court may vary the assessment of the Minister to such extent as it thinks fit.
- (6) In this section—
- royalty assessment principles* means the royalty assessment principles that apply under section 17.

17C—Recovery of royalty where appeal lodged

The fact that an appeal has been lodged under section 17B but not yet determined does not in the meantime affect the assessment to which the appeal relates, and the amount of any royalty or civil penalty amount determined as being payable under this Act as a result of the assessment may be recovered as if no appeal had been lodged.

17D—When royalty falls due (general principles)

- (1) Subject to this Act, royalty will fall due—
- (a) in respect of minerals with an ex-mine gate value calculated during the period between 1 January and 30 June (both dates inclusive) in any year—on 31 July of that year;
 - (b) in respect of minerals with an ex-mine gate value calculated during the period between 1 July and 31 December (both dates inclusive) in any year—on 31 January of the following year,
- (but the Minister may, on application by the person liable to pay the royalty or of his or her own motion, extend the date on which the royalty will fall due).
- (1a) Subsection (1) does not apply to the extent that a designated mining operator under section 17DA must pay royalty on a monthly basis.
- (2) Despite subsection (1), any royalty on minerals recovered from land within a mining tenement or private mine will be due and payable (including for the purposes of the imposition of a penalty amount for unpaid royalty under this Act)—
- (a) in the case of a mining tenement—
 - (i) when the mining tenement is being transferred or surrendered; or
 - (ii) when the mining tenement is suspended or cancelled; or

- (iii) when the mining tenement expires; or
 - (b) in the case of a private mine—when the declaration of the relevant area as a private mine is revoked; or
 - (c) at any other time in accordance with the regulations.
- (3) The Minister may, on application by a person liable to pay royalty or of his or her own motion, exempt (on such conditions as the Minister thinks fit) a person from the operation of subsection (1) or (2) if the Minister is satisfied that it is not reasonably practicable for the person to strictly comply with the requirements of this section.
- (4) In this section—
- ex-mine gate value* means a value calculated in accordance with section 17(5).

17DA—Special principles relating to designated mining operators

- (1) In this section—
- designated mining operator*—see subsection (2);
- half-year period* means—
- (a) 1 July to 31 December in a financial year; and
 - (b) 1 January to 30 June in a financial year.
- (2) A designated mining operator is a mining operator who, in relation to a particular financial year (the *relevant financial year*), is designated by the Minister, by notice served on the mining operator, as being a mining operator to whom this section applies.
- (3) The Minister may only make a designation under subsection (2) in relation to a mining operator if—
- (a) the royalty paid by the mining operator in relation to the financial year immediately preceding the relevant financial year exceeds \$100 000, or is expected by the Minister to exceed \$100 000; or
 - (b) taking into account the amount of royalty paid by the mining operator, or expected by the Minister to be paid by the mining operator, in relation to the financial year immediately preceding the relevant financial year, the Minister expects that the royalty to be paid by the mining operator in relation to the relevant financial year will exceed \$100 000; or
 - (c) a mine in relation to which royalty payments are to be made was not in production during the financial year immediately preceding the relevant financial year, or is expected by the Minister to be subject to increased production in the relevant financial year, and the Minister expects that the royalty to be paid by the mining operator in relation to the relevant financial year will exceed \$100 000; or
 - (d) the Minister expects that the amount of royalty to be paid by the mining operator in relation to the relevant financial year will be within 5% of the \$100 000 threshold established by this section and accordingly determines to designate the mining operator as being a mining operator to whom this section applies.

- (4) For the purposes of subsection (3), the Minister may make or apply any estimate in order to determine whether or not it is expected that the royalty to be paid by a mining operator in relation to a particular financial year will (or will not) reach or exceed a particular amount.
- (5) A designated mining operator will, in relation to a relevant financial year, pay royalty on a monthly basis (rather than in accordance with section 17D(1)).
- (6) For the purposes of subsection (5)—
 - (a) the Minister must, by 31 March immediately preceding the relevant financial year, serve a notice (a *notice of assessment*) on each designated mining operator setting out the monthly payments of royalty that the mining operator must make for the relevant financial year (subject to the operation of the succeeding subsections); and
 - (b) the designated mining operator must then pay royalty on or before the last day of the month that immediately follows each month in the relevant financial year.
- (7) A monthly payment set out in a notice of assessment will be an amount which the Minister determines to be a reasonable amount taking into account an estimate made by the Minister of the amount of royalty that may be payable on account of the operation of sections 17 and 17A (as the case may require) in relation to the relevant financial year.
- (8) Subject to subsection (9), a monthly payment in relation to the last month of both half-year periods in a relevant financial year will be the amount set out in the notice of assessment for that month adjusted to take into account any overpayment, or underpayment, of royalty that would otherwise occur over the half-year period after applying the provisions of sections 17 and 17A (as the case may require) so as to ensure that the correct amount of royalty is paid in relation to the half-year period by the end of the month that immediately follows the end of that period.
- (9) If an adjustment under subsection (8) will otherwise result in an entitlement to a refund of an amount to be paid as royalty in relation to the relevant half-year period, the Minister may, at the Minister's discretion—
 - (a) refund the amount of the excess to the mining operator who has been paying the monthly amounts; or
 - (b) set off the amount against a future liability to make payments of royalty under this Act.
- (10) The Minister may, on application by a person liable to pay royalty under this section or of his or her own motion—
 - (a) by notice served on the mining operator, vary a notice of assessment that has been issued to a designated mining operator under this section, with the variation to have effect from a month in the relevant financial year specified by the Minister;
 - (b) extend the date on which royalty will fall due under this section.

17E—Penalty for unpaid royalty

- (1) If royalty payable on minerals under this Act (other than minerals recovered from a private mine) is not paid on or by the day on which it fell due, the person liable to pay the royalty is liable to pay a penalty amount, in addition to the amount of royalty unpaid, equal to \$1 000 plus the prescribed amount for each month (or part of a month) for which the royalty remains unpaid.
- (2) The Minister may, at the Minister's discretion, remit a penalty amount payable under subsection (1) by any amount.
- (3) A penalty amount may be recovered by the Crown as a debt due to the Crown in any court of competent jurisdiction.
- (4) In this section—

prescribed amount is to be calculated as follows:

$$PA = R \left(\frac{CLRR + 3\%}{12} \right)$$

where—

PA is the prescribed amount;

R is the amount of unpaid royalty;

CLRR is the corporate loan reference rate applied by the Commonwealth Bank of Australia for corporate lending on the day on which the royalty fell due.

17F—Processed minerals

For the purposes of the imposition of royalty under this Act, a reference to minerals includes a reference to processed minerals or, as the context requires, refined mineral products.

17G—Means of payment

Royalty must be paid in accordance with any requirement prescribed or authorised by or under the regulations.

18—Passing of property in minerals

The property in minerals shall pass to the person by whom the minerals are lawfully mined upon, and in consideration of, payment of royalty or, if royalty is not payable in respect of the minerals, upon recovery of the minerals.

Part 4—Prospecting for minerals

20—General right to prospect for minerals

- (1) A person may prospect for minerals under this section (subject to complying with any relevant requirement under this Act).
- (2) Subsection (1) does not authorise the conduct of mining operations that involve disturbance of land by machinery or explosives.

21—Steps to establish a mineral claim

- (1) A person may take steps to establish a mineral claim under this section.
- (2) A mineral claim must be identified—
 - (a) by pegging in accordance with the regulations; or
 - (b) in some other manner approved by a mining registrar (after complying with any conditions specified by the mining registrar under the terms of the approval).
- (3) In connection with the operation of subsection (2)(b)—
 - (a) an approval must require the service on the owner of the land (in such manner as the mining registrar thinks fit) of a notice relating to the claim (and such a notice will be taken to be a notice of entry to the owner under section 58A); and
 - (b) the identification of a mineral claim in accordance with an approval will have the same significance as a pegging of the claim; and
 - (c) in relation to the relevant identification, any period under this Act that is to be calculated from a day on which a claim is pegged out will be taken to run from (and the identification of the relevant claim will be taken to constitute a pegging that occurred on) the date of the relevant application to a mining registrar for the approval to identify the claim in a manner contemplated by subsection (2)(b).
- (4) If mineral land is divided into strata, a mineral claim may relate to land within the surface stratum or a subsurface stratum.
- (5) Despite a preceding subsection, a mineral claim may not be made—
 - (a) in respect of land within a subsurface stratum except by a person who holds an exploration licence in respect of that land; or
 - (b) in respect of land within a precious stones field, except that if a precious stones field consists of land that is divided into strata a person who holds an exploration licence may make a mineral claim in respect of land within a subsurface stratum.
- (6) A person seeking to establish a mineral claim must make application to a mining registrar in a manner and form determined by the Minister.
- (7) An application under subsection (6) must be accompanied by—
 - (a) a plan delineating the location and area of the mineral claim that complies with any requirements prescribed by the regulations; and

- (b) information concerning the ownership of the land; and
 - (c) a copy of any notice of entry provided under this Act; and
 - (d) a copy of any agreement that is relevant to a mineral claim under this Act; and
 - (e) a copy of any waiver obtained under this Act; and
 - (f) such other information as may be prescribed by the regulations or as a mining registrar may require; and
 - (g) the prescribed application fee.
- (8) A mining registrar may require an applicant—
- (a) to provide such additional documents or information as the mining registrar may reasonably require to deal with the application;
 - (b) to remedy any defect or deficiency in an application or in any accompanying document or information.
- (9) A plan, document or information required under subsection (7) or (8) must be provided in a manner and form determined by the Minister or approved by a mining registrar.
- (10) An application under subsection (6) must be made within the prescribed period after the claim has been identified under subsection (2).

23—Area of claim

- (1) The area of a mineral claim must not exceed the maximum permissible area stipulated by the regulations.
- (2) Despite subsection (1), the area of a mineral claim may exceed the maximum permissible area with the approval of the Minister.

24—Registration of claim

- (1) Subject to this Act, a mining registrar will register a mineral claim if due application has been made for the claim under this Act (including by the applicant complying with any requirement under section 21).
- (2) A mining registrar must not register a mineral claim if satisfied that—
 - (a) the registration relates to land that is the subject (in whole or in part) of an application that has been lodged for an exploration licence; and
 - (b) the application for the exploration licence was lodged before the claim was identified for the purposes of this Act; and
 - (c) the application for the exploration licence has not been refused.
- (3) Subsection (2) does not apply if the mineral claim is solely for extractive minerals.
- (4) A mining registrar must not register a mineral claim if to do so would be inconsistent with an order of the Warden's Court and if the registration of a mineral claim is subsequently inconsistent with the terms of an order of the Warden's Court then the registration must be cancelled.
- (5) This section operates subject to the operation of section 80.

- (6) If a mineral claim is registered under this section, the location and area of the claim will be determined according to the coordinates specified in the plan accepted for the purposes of registration under section 21.
- (7) Without limiting any other provision or law, a mining registrar may cancel the registration of a mineral claim on a ground prescribed by the regulations.

24A—Claim may lapse

If—

- (a) an application to establish and register a mineral claim is not made—
 - (i) in accordance with the requirements of this Act; or
 - (ii) within a period prescribed by the regulations; or
- (b) a mining registrar lawfully refuses to accept and register a mineral claim, the mineral claim will lapse.

25—Rights conferred by ownership of mineral claim

- (1) A mineral claim confers on the owner of the claim an exclusive right, subject to the provisions of this Act—
 - (a) to prospect for minerals in the land comprised in the claim; and
 - (b) to carry out such other exploratory operations on, or in respect of, the land comprised in the claim as are approved in writing by the Director of Mines; and
 - (c) to apply for a mining lease or a retention lease in respect of the whole or part of the land comprised in the claim.
- (2) A person shall not remove from the area of a mineral claim minerals, or soil and minerals, exceeding a mass of 1 tonne unless authorised to do so by the Director of Mines.
Administrative penalty.
- (3) The ownership of a mineral claim does not confer any right—
 - (a) to sell or dispose of any minerals recovered in the course of mining operations; or
 - (b) to utilise any such minerals for any commercial or industrial purpose.

26—Mineral claim not transferable etc

- (1) A mineral claim is not transferable.
- (2) Where an application has not been made for a mining lease or a retention lease in respect of land comprised in a mineral claim within 12 months after registration of the claim, the claim shall lapse.
- (3) Where an application is made for a mining lease or a retention lease in respect of land comprised in a mineral claim, and the application is refused, the claim shall lapse.
- (4) A mineral claim may, subject to this Act and in accordance with the regulations, be surrendered.

27—Land not to be subject to successive mineral claims

Where a mineral claim lapses or is surrendered or forfeited, no claim covering any of the area of that previous claim shall, without the authority of the Minister or the Warden's Court, be made by, or on behalf of, the person who held the previous claim within 2 years of its lapse, surrender or forfeiture.

Part 5—Exploration licence

28—Grant of exploration licence

- (1) Subject to this Act, the Minister may grant an exploration licence to any person.
- (2) An exploration licence authorises the licensee to carry out exploratory operations of a kind described in the licence in respect of land described, or referred to, in the licence.
- (2a) However, an exploration licence does not (and cannot) authorise the licensee to carry out exploratory operations for precious stones on land within a precious stones field that is outside an opal development area, or on land within an exclusion zone under the *Opal Mining Act 1995*.
- (3) An exploration licence shall not be granted in respect of extractive minerals.
- (5) At least 28 days before the Minister grants an exploration licence, a notice describing the land over which the licence is to be granted and, if the licence is to relate to a particular stratum, specifying the stratum, must be published by the Minister—
 - (a) in the Gazette; and
 - (b) in a newspaper circulating generally in the State; and
 - (c) if there is a regional or local newspaper circulating in the part of the State in which the licence area is situated—in the regional or local newspaper.
- (8) If an application for an exploration licence relates to an area within the Murray-Darling Basin, the Minister must, in considering the application, take into account the objects of the *River Murray Act 2003* and the *Objectives for a Healthy River Murray* under that Act.
- (9) If an application for an exploration licence relates to an area within or adjacent to a specially protected area, the Minister must, before making his or her decision on the application, refer the application to the relevant Minister and consult with the relevant Minister in relation to the matter.
- (10) If an application for an exploration licence is referred to a relevant Minister and the Minister to whom the administration of this Act is committed and the relevant Minister cannot agree—
 - (a) on whether an exploration licence should be granted; or
 - (b) if an exploration licence is granted, on the conditions to which the exploration licence should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

29—Application for exploration licence

- (1) An application for an exploration licence must be made in a manner and form determined by the Minister and must be lodged with the Director of Mines.
- (1a) If—
 - (a) an exploration licence has expired or been cancelled or surrendered; or

- (b) a part of the area of an exploration licence has been reduced,
an application for a corresponding licence may not be made during a succeeding period specified by the Minister by notice published in a manner and form determined by the Minister.
- (2) The applicant shall forward with an application for an exploration licence—
- (a) the prescribed application fee; and
 - (b) a map on which are delineated the boundaries of the land in respect of which the licence is sought; and
 - (c) a statement outlining the exploratory operations that the applicant proposes to carry out in pursuance of the licence, showing the estimated expenditure to be incurred in carrying out those operations; and
 - (d) a statement of the technical and financial resources available to the applicant; and
 - (e) a statement of the nature of the minerals for which the applicant proposes to explore.
- (3) An applicant shall, at the request of the Minister, furnish such further information in relation to his application, or such evidence in support of his application, as the Minister may require.
- (4) If an application for an exploration licence is made in accordance with this Act (the **relevant application**), the relevant application will, for the purposes associated with its consideration and any grant of an exploration licence on the basis of the application, rank ahead of any other application for an exploration licence for an overlapping area received by the Minister after the time that the Minister received the relevant application.
- (5) Subsection (4) does not apply—
- (a) if the application is for a subsequent exploration licence under section 30AB (which will always rank first); or
 - (b) if—
 - (i) the application is for a corresponding licence; and
 - (ii) the Minister has, in the notice under subsection (1a), set a period, commencing on the day specified under that subsection, during which subsection (4) will not apply in relation to competing applications for a corresponding licence; and
 - (iii) the application has been made during the period set by the Minister; and
 - (iv) at least 1 other application for a corresponding licence is also made during that period; or
 - (c) so as to determine priority between 2 or more relevant applications made on the same day.
- (6) In a case where subsection (5)(b) or (c) applies, the Minister will determine which application for a corresponding licence should be granted after taking into consideration such factors as the Minister considers appropriate in the particular case.

- (7) A ranking established under subsection (4) will cease to apply if the Minister cancels the ranking on the ground—
 - (a) that the applicant has failed to comply with a requirement under this Act; or
 - (b) that the application is found to be invalid; or
 - (c) that there is some other default, defect or circumstances that the Minister considers is sufficiently significant to warrant the cancellation of the ranking.
- (8) The Minister may, at any time and without consultation with the applicant or taking any other step, refuse an application at any stage of its consideration under this Act if the Minister considers that there are sufficient grounds for not assessing the application further after taking into account the public interest and such other matters as the Minister thinks fit.
- (9) For the purposes of this section, a corresponding licence is an exploration licence over any land—
 - (a) that has been the subject of a previous exploration licence that has expired or been cancelled or surrendered; or
 - (b) that has been the subject of an exploration licence where part of the area of the licence has been reduced.
- (10) If the Minister, in the notice under subsection (1a), declares that paragraph (b) of subsection (5) will only apply to a part of the land that has been subject to the exploration licence (the *declared area*), then that paragraph will only apply in relation to an application for an area that overlaps the whole or any part of the declared area.

30—Incidents of licence etc

- (1) An exploration licence shall—
 - (a) describe or delineate the lands in respect of which it is granted; and
 - (b) be subject to such conditions as may be prescribed and to such additional conditions as the Minister thinks fit and specifies in the licence.
- (2) The Minister shall, in determining the conditions subject to which a licence is to be granted under this Part, insofar as the Minister considers to be necessary or appropriate in view of the nature and extent of the licence and any other relevant factor, give consideration to the protection of—
 - (a) any aspect of the environment that may be affected by the conduct of operations in pursuance of the licence;
 - (b) any other lawful activities that may be affected by those operations;
 - (d) any Aboriginal sites or objects within the meaning of the *Aboriginal Heritage Act 1988* that may be affected by those operations,and may take into consideration such other factors as he considers appropriate in the particular case.
- (3) It shall be a condition of an exploration licence that the Minister may, at any time, require the holder of the licence to pay to any person an amount of compensation, stipulated by the Minister, to which that person is, in the opinion of the Minister, entitled in consequence of loss or damage suffered by him as a result of operations conducted in pursuance of the licence.

- (4) The Minister may, under the terms of an exploration licence or by conditions attached to an exploration licence, limit or define the extent or scope of operations authorised under the licence.
- (5) Without limiting any other section, the Minister may add, vary or revoke a term or condition of an exploration licence at any time during the term of the licence considered appropriate by the Minister.
- (6) However, if the Minister acts under subsection (5) without the agreement of the holder of the licence, the holder of the licence may appeal to the ERD Court in relation to the matter.
- (7) The ERD Court may, on hearing an appeal under subsection (6)—
 - (a) confirm the action taken by the Minister;
 - (b) vary or revoke any term or condition imposed by the Minister, or impose any term or condition considered appropriate by the Court;
 - (c) make any consequential or ancillary order that the Court considers necessary or expedient.
- (8) A person must not contravene, or fail to comply with, a condition of an exploration licence.
Maximum penalty: \$120 000.

30AA—Area of licence

- (1) The area of the land in respect of which an exploration licence is granted must not exceed 1 000 square kilometres unless, in the opinion of the Minister, circumstances exist that justify the grant of a licence in respect of a greater area.
- (2) However, if the exploration licence allows for exploratory operations for precious stones in an opal development area, the area of land in respect of which a licence is granted cannot exceed 20 square kilometres unless, in the opinion of the Minister, circumstances exist that justify the grant of a licence in respect of a greater area.

30A—Term and renewal of licence

- (1) An exploration licence is to be granted for a term decided by the Minister of up to five years.
- (2) If an exploration licence is granted for a term of less than five years, the licence may include a right of renewal but not so the aggregate term of the licence exceeds five years.
- (3) An exploration licence that does not include in its terms a right of renewal may be renewed at the discretion of the Minister from time to time, but not so the aggregate term of the licence exceeds five years.
- (4) An application for renewal of an exploration licence must be made to the Minister in a manner and form determined by the Minister at least one month before the date of expiry of the licence.
- (4a) An application under subsection (4) must be accompanied by—
 - (a) the prescribed application fee; and
 - (b) any information that the Minister may require.

- (5) If an application for the renewal of an exploration licence is not decided before the date on which the licence is due to expire, the licence continues in operation until the application is decided and, if the licence is renewed, the renewal dates from the date on which the licence would, but for this subsection, have expired.
- (6) The Minister may, on renewing an exploration licence, add, vary or revoke a term or condition of an exploration licence.
- (6a) The Minister may, on renewing an exploration licence or, with the consent of the holder of the licence, at any other time, alter an exploration licence by reducing the licence area.
- (7) If an application for the renewal of an exploration licence relates to an area within or adjacent to a specially protected area, the Minister must, before making his or her decision on the application, refer the application to the relevant Minister and consult with the relevant Minister in relation to the matter.
- (8) If an application for the renewal of an exploration licence is referred to a relevant Minister and the Minister to whom the administration of this Act is committed and the relevant Minister cannot agree—
 - (a) on whether a renewal should be granted; or
 - (b) if a renewal is granted, on the conditions to which the exploration licence should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

30AB—Subsequent exploration licence

- (1) The Minister may, on the expiration of an exploration licence the term or aggregate term of which was five years, grant to the licensee an exploration licence (a *subsequent exploration licence*) over the area of land, or a part of the area of land, to which the former licence applied.
 - (1a) An application for a subsequent exploration licence must be made to the Minister in a manner and form determined by the Minister at least 3 months before the expiration of an exploration licence the term or aggregate term of which was 5 years.
 - (1b) If an application for a subsequent exploration licence is not decided before the date on which the immediately preceding exploration licence is due to expire or if the Minister, on application by a person entitled to apply for a subsequent exploration licence (or who would be so entitled but for the expiration of the licence) or on the Minister's own motion, in the Minister's absolute discretion, extends the date by which an application must be made, the licence continues in operation (or, in an appropriate case, is revived) until the application is decided and, if a subsequent exploration licence is granted, the granting of the subsequent exploration licence dates from the date on which the immediately preceding exploration licence would, but for this subsection, have expired.

- (2) An application for a subsequent exploration licence must include the following:
- (a) a statement outlining the exploratory operations that the licensee has carried out in pursuance of the licence since it was granted (or since it was renewed, if the licence has been renewed), showing the expenditure incurred in carrying out those operations; and
 - (b) a statement that the licensee will—
 - (i) carry out exploratory operations of a kind and to an extent agreed between the Minister and the licensee; and
 - (ii) spend an amount of money agreed between the Minister and the licensee in carrying out those operations.
- (3) The holder of a subsequent exploration licence must spend (when considered on an annual basis) at least an amount of money agreed between the Minister and the licensee in carrying out operations under the licence.
- (4) However—
- (a) the Minister may, subject to any terms and conditions as the Minister thinks fit, exempt a licensee from the application of subsection (2) or (3); and
 - (b) the Minister may not, in entering into an agreement with a licensee under subsection (3) require the licensee to spend—
 - (i) if the subsequent exploration licence is granted over the area of land to which the former licence applied—more than double the amount agreed between the Minister and the licensee in relation to the last year of the former licence;
 - (ii) if the subsequent exploration licence is granted over a part of the area of land to which the former licence applied—more than an amount that bears the same proportion to double the amount agreed between the Minister and the licensee in relation to the last year of the former licence as the area of land over which the subsequent exploration licence is granted bears to the area of the former licence.
- (5) To avoid doubt, section 30A extends to a subsequent exploration licence under this section.

31—Fee

- (1) The holder of an exploration licence shall pay to the Minister, annually and in advance, such fee as may be prescribed.
- (1a) A regulation made for the purposes of subsection (1) may—
- (a) fix various methods for the calculation of a fee (including according to the total area of land in respect of which an exploration licence is granted);
 - (b) fix differential fees on a basis prescribed by the regulations.
- (2) The Minister may reduce, remit or refund a fee under this section if, in his opinion, it is necessary or expedient so to do.

32—Licensee to keep and, on request, furnish Director with geological records etc

- (1) The holder of an exploration licence shall keep complete and detailed records of the surveys and other operations conducted in pursuance of the licence and shall, at the request of the Director of Mines, produce the records for the inspection of the Director or an authorised officer.

Administrative penalty.

- (2) The holder of an exploration licence shall furnish the Director of Mines with such information relating to the surveys and other operations conducted by him in pursuance of the licence, and such geological samples obtained by him in the course of those operations, as the Director may require.

Administrative penalty.

33—Cancellation, suspension etc of licence

- (1) Where the holder of an exploration licence has contravened, or failed to comply with, any provision of this Act or any condition of the licence, the Minister may suspend the licence (in which case the licence shall, during the period of suspension, be of no force or effect) or cancel the licence.
- (2) Where a licence is cancelled or suspended under subsection (1), the licensee may, within 28 days after the cancellation or suspension, appeal to the ERD Court and the Court may, if it is satisfied that there is no proper ground for the cancellation or suspension, declare that cancellation or suspension void.
- (3) The Minister or the ERD Court may stay the operation of the cancellation or suspension of the licence until the appeal is determined, withdrawn or struck out.
- (3a) The Minister may, as a result of an appeal to the ERD Court, reinstate an exploration licence to a date that coincides with the initial date of a cancellation or suspension, or such later date as may appear to the Minister to be appropriate in the circumstances.
- (4) Where, in the opinion of the Minister, any land comprised in an exploration licence is required for a public purpose, the Minister may, by notice published in the Gazette, excise that land from the total area comprised in the licence, and the licence shall then cease to apply to that land.
- (5) Where the Minister exercises his powers under subsection (4), the holder of the licence may apply to the ERD Court for an order that the Minister compensate him for the money expended by him in prospecting for minerals in the area excised from the total area comprised in the licence, and the ERD Court, upon the hearing of any such application, may determine what amount would fairly compensate the holder of the licence for such expenditure and order that the amount so determined be paid by the Minister to the holder of the licence.
- (6) The Minister shall pay any amount that he is ordered to pay under subsection (5) out of money provided by Parliament.
- (7) The holder of an exploration licence may, with the consent of the Minister, surrender any land comprised in the licence, and the licence shall then cease to apply to that land.

33A—Minister may describe or delineate land in any manner

- (1) Subject to the requirements of this Act, the Minister may describe or delineate the land in respect of which an exploration licence is granted in such manner as the Minister deems appropriate.
- (2) Section 80 does not apply to the extent that an alteration in the manner in which land is described or delineated results in part of the licence area of one exploration licence being superimposed over land comprising part of the licence area of another licence (as described or delineated immediately before the alteration).
- (3) The regulations may, in connection with the operation of subsection (2), prescribe terms and conditions governing the coexistence of exploration licences that have been granted over the same land as a result of the Minister altering the manner in which the land is described or delineated.
- (4) If part of the licence area of one exploration licence is superimposed over land comprising part of the licence area of another licence under this section, and rights of one of the licensees in respect of the part are suspended in accordance with the regulations, the suspension of the rights will continue until either of the following occurs:
 - (a) the part ceases to comprise part of the licence area of the other licence; or
 - (b) the other licence expires.

Part 6—Mining leases

34—Grant of mining lease

- (1) Subject to Part 9B, the Minister may grant a mining lease—
 - (a) to the holder of a registered mineral claim, in respect of the whole or part of the land comprised in the claim; or
 - (b) to the holder of a retention lease, in respect of the whole or part of the land comprised in the lease.
- (1a) Where the registered mineral claim relates to a particular stratum, the lease shall, if granted, relate to the same stratum.

- (3) Mining leases shall be of prescribed classes and subject to prescribed terms and conditions appropriate to each class.
- (4) A mining lease shall, in addition to such terms and conditions as may be prescribed, be subject to such additional terms and conditions (if any) as the Minister thinks fit and specifies in the lease.
- (5) The maximum permissible area of the land in respect of which a mining lease may be granted shall be as prescribed.
- (6) The Minister shall, in determining the terms and conditions subject to which a lease is to be granted under this Part, give proper consideration to the protection of—
 - (a) any aspect of the environment that may be affected by the conduct of operations in pursuance of the lease;
 - (b) any other lawful activities that may be affected by those operations;
 - (d) any Aboriginal sites or objects within the meaning of the *Aboriginal Heritage Act 1988* that may be affected by those operations,and may take into consideration such other factors as he considers appropriate in the particular case.
- (7) It shall be a condition of a mining lease that the Minister may, at any time, require the holder of the lease to pay to any person an amount of compensation, stipulated by the Minister, to which that person is, in the opinion of the Minister, entitled in consequence of the conduct of mining operations in pursuance of the lease.
- (8) The Minister may, under the terms of a mining lease or by conditions attached to a mining lease, limit or define the extent or scope of operations authorised under the lease.
- (9) Without limiting any other provision, the Minister may add, vary or revoke a term or condition of a mining lease at any time if, in the Minister's opinion, the addition, variation or revocation is necessary to prevent, reduce, minimise or eliminate undue damage to the environment associated with mining operations conducted pursuant to the lease.

- (10) The Minister must take reasonable steps to consult with the holders of the lease before acting under subsection (9).
- (11) If—
 - (a) the Minister takes action under subsection (9) during the term of the lease; and
 - (b) the Minister acts without the agreement of the holder of the lease, the holder of the lease may appeal to the ERD Court in relation to the matter.
- (12) The ERD Court may, on hearing an appeal under subsection (11)—
 - (a) confirm the action taken by the Minister;
 - (b) vary or revoke any term or condition imposed by the Minister, or impose any term or condition considered appropriate by the Court;
 - (c) make any consequential or ancillary order that the Court considers necessary or expedient.
- (13) A person must not contravene, or fail to comply with, a condition of a mining lease.
Maximum penalty: \$120 000.

35—Application for lease

- (1) An application for a mining lease must be made in a manner and form determined by the Minister and must be accompanied by—
 - (a) a mining proposal—
 - (i) specifying the mining operations that the applicant proposes to carry out in pursuance of the lease (including details of the mining methods proposed and a description of the existing environment); and
 - (ii) setting out—
 - (A) an assessment of the environmental impacts of the proposed mining operations; and
 - (B) an outline of the measures that the applicant proposes to take to manage, limit or remedy those environmental impacts; and
 - (C) a statement of the environmental outcomes that are accordingly expected to occur; and
 - (iii) a draft statement of the criteria to be adopted to measure the expected environmental outcomes; and
 - (iv) the results of any consultation undertaken in connection with the proposed mining operations; and
 - (b) such information as the Minister requires; and
 - (c) the prescribed fee.
- (2) The Minister may require the applicant to furnish him with such information and surveys as the Minister thinks fit.

-
- (2a) If an application for a mining lease relates to an area within the Murray-Darling Basin, the Minister must, in considering the application, take into account the objects of the *River Murray Act 2003* and the *Objectives for a Healthy River Murray* under that Act.
 - (2b) If an application for a mining lease relates to an area within or adjacent to a specially protected area, the Minister must, before making his or her decision on the application, refer the application to the relevant Minister and consult with the relevant Minister in relation to the matter.
 - (2c) If an application for a mining lease is referred to a relevant Minister and the Minister to whom the administration of this Act is committed and the relevant Minister cannot agree—
 - (a) on whether a mining lease should be granted; or
 - (b) if a mining lease is granted, on the conditions to which the mining lease should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

- (3) The Minister shall not grant a mining lease unless he is satisfied that there is a reasonable prospect that the land in respect of which the lease is sought could be effectively and efficiently mined.

35A—Representations in relation to grant of lease

- (1) The Minister must not grant a mining lease unless he or she has caused to be published, in accordance with subsection (4), a notice—
 - (a) describing the land to which the application relates and, if relevant, the particular stratum to which a lease would relate; and
 - (b) specifying a place at which the application may be inspected; and
 - (c) inviting members of the public to make written submissions in relation to the application to the Minister within a period specified in the notice (which must be a period of at least 14 days from the date of publication of the notice).
- (1a) The Minister must, within 14 days after receiving an application for a mining lease, give written notice of the application to the owner of the land to which the application relates together with an invitation to submit written representations on the application within a specified time.
- (2) Where application is made for a mining lease in respect of land within the area of a council, the Minister shall, within 14 days after receiving the application, send a copy of the application to the council and invite it to submit written representations on the application to the Minister within a time fixed in the invitation.
- (3) In determining whether to grant or refuse an application for a mining lease and, if so, the terms and conditions on which it should be granted, the Minister shall have regard to any representations made in response to an invitation under this section.

- (d) on a website maintained by the Department to which the public has access free of charge.

35B—Notification of decision on application

As soon as practicable after determining whether to grant or refuse an application for a mining lease, the Minister must—

- (a) provide written notification of the following to each person who made a written representation in relation to the application (and whose identity and contact details are known to the Minister):
 - (i) the determination;
 - (ii) the date of the determination;
 - (iii) if a lease has been granted—the terms and conditions of the lease; and
- (b) cause the determination to be published on a website maintained by the Department to which the public has access free of charge, together with, if a lease has been granted, a copy of the lease.

36—Approval of application

- (1) Where a person has applied for a mining lease and has been notified in writing by or on behalf of the Minister that the Minister has approved the application, the applicant shall be liable for the payment of rent, and any other sum, payable by the holder of a mining lease of the kind for which approval has been granted, and shall be deemed to be the holder of such a lease comprising the land in respect of which the lease is sought as from the date of the notification.
- (2) Where written notification that the Minister has approved an application for a lease is given under subsection (1), the term of the lease shall commence from the date of the notification.

37—Nature of lease

- (1) A mining lease must describe or delineate the land in respect of which it is granted with as much particularity as is reasonably practicable.
- (2) A mining lease is not required to be registered under the *Real Property Act 1886*.

38—Term and renewal of mining lease

- (1) A mining lease may be granted for such term, not exceeding 21 years, as may be determined by the Minister and specified in the lease.
- (2) Subject to the terms and conditions of a mining lease, the holder of the lease shall, if he has complied with the provisions of this Act, and the terms and conditions of the lease during the term for which the lease was granted or last renewed, be entitled, at the expiration of that term, to the renewal of the lease for a further term.

-
- (3) Where a person who is entitled to the renewal of a mining lease under this section makes due application in a manner and form determined by the Minister for the renewal of the lease not more than 6 months, and not less than 3 months, before the date of its expiry, the Minister shall renew the lease for a term, not exceeding 21 years, determined by the Minister.
 - (4) If an application for the renewal of a mining lease is not decided before the date of expiry or if the Minister, on application by a person entitled to renew a lease (or who would be so entitled but for the expiration of the lease) or on the Minister's own motion, in the Minister's absolute discretion, extends the date by which an application must be made, the lease continues in operation (or, in an appropriate case, is revived) until the application for the renewal is decided and, if the lease is renewed, the renewal dates from the date on which the lease would, but for this subsection, have expired.
 - (5) If an application for the renewal of a mining lease relates to an area within or adjacent to a specially protected area, the Minister must, before making his or her decision on the application, refer the application to the relevant Minister and consult with the relevant Minister in relation to the matter.
 - (6) If an application for the renewal of a mining lease is referred to a relevant Minister and the Minister to whom the administration of this Act is committed and the relevant Minister cannot agree—
 - (a) on whether a renewal should be granted; or
 - (b) if a renewal is granted, on the conditions to which the mining lease should be subject,

the Ministers must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Minister under this Act).

39—Rights conferred by lease

- (1) A mining lease—
 - (a) confers an exclusive right upon the holder of the lease to conduct mining operations subject to the provisions of this Act and the terms and conditions of the lease for the recovery of minerals from the land comprised in the lease; and
 - (b) authorises the holder of the lease to sell, or dispose of, minerals recovered in the course of mining operations conducted in pursuance of the lease or to utilise any such minerals for any commercial or industrial purpose.
- (2) A mining lease may, in prescribed circumstances, authorise the recovery, use and sale or disposal of extractive minerals produced as a result of operations conducted in pursuance of the lease.
- (3) The Minister must consult with the owner of the land where the operations are to be carried out before granting an authorisation under subsection (2) (unless the owner of the land is (or is to be) the holder of the mining lease).
- (4) If an authorisation is granted under subsection (2), the relevant extractive minerals will not be taken to constitute extractive minerals for the purposes of the operation of the other provisions of this Act subject to the operation of subsection (6).

- (3) If no-one is registered under the law of the State or the Commonwealth as the holder of native title in native title land over which a mining lease has been granted, the Minister must establish a trust fund and pay the amount to which the holder of native title is entitled under subsection (2) into the trust fund until a determination is made of who is entitled to the payment.
- (4) If no valid claim has been made on the trust fund within five years after its establishment, the Minister may dissolve the fund and pay the amount standing to its credit into the Consolidated Account but, if the fund is dissolved, any claim that might have been made against the fund assuming that it had continued in existence may be made instead against the State.

Note—

- (b) may enter exempt land for the purpose of pegging out or otherwise identifying a claim.

58—How entry on land may be authorised

A mining operator may enter land to carry out mining operations on the land—

- (a) if the mining operator has an agreement¹ with the owner of the land authorising the mining operator to enter the land to carry out mining operations on the land; or
- (b) if the mining operator is authorised by a native title mining determination to enter the land to carry out mining operations on the land; or
- (ba) if the mining operator is authorised by an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) to enter the land to carry out mining operations on the land; or
- (c) if—
 - (i) the mining operator has given the prescribed notice of entry; and
 - (ii) the mining operations will not affect native title in the land; and
 - (iii) the mining operator complies with any determination made on objection to entry on the land, or the use or unconditional use of the land, or portion of the land, for mining operations;² or
- (d) if the land to be entered is in a precious stones field and the mining operations will not affect native title in the land; or
- (e) if the mining operator enters the land to continue mining operations that had been lawfully commenced on the land before the commencement of this section.

Explanatory note—

A mining operator's right to enter land to carry out mining operations on the land is contingent on the operator holding the relevant mining tenement.

Notes—

- 1 If the land is native title land, the agreement is to be negotiated under Part 9B.
- 2 See section 58A(5).

58A—Notice of entry

- (1) A mining operator must, at least 21 days before first entering land to carry out mining operations, serve on the owner of the land notice of intention to enter the land (the *prescribed notice of entry*) describing the nature of the operations to be carried out on the land.
- (2) The notice must be served—
 - (a) in the case of native title land—as prescribed by the *Native Title (South Australia) Act 1994*; or
 - (b) in other cases—personally or by post.
- (2a) If the land is subject to a licence under the *Petroleum and Geothermal Energy Act 2000*, a copy of the notice must also be served (within the time required under subsection (1)) on the holder of that licence.
- (3) If the land is held under a form of title (other than a pastoral lease or a licence under the *Petroleum and Geothermal Energy Act 2000*) that confers a right to exclusive possession of the land—
 - (a) the notice must contain a statement of the owner's rights of objection and compensation under this Act; and
 - (b) the owner may, within three months after service of the notice, lodge a notice of objection with the appropriate court objecting—
 - (i) to entry on the land by the mining operator; or
 - (ii) to the use, or the unconditional use, of the land, or a portion of the land, for mining operations.
- (4) The court must send a copy of a notice of objection received under subsection (3) to the mining operator.
- (5) If the court is satisfied on the hearing of an objection that the conduct of the mining operations on the land would be likely to result in substantial hardship or substantial damage to the land, the court may—
 - (a) determine that the land, or a particular part of the land, should not be used by the mining operator for the purpose of mining operations; or
 - (b) determine conditions on which operations may be carried out on the land by the mining operator with least detriment to the interests of the owner and least damage to the land.
- (6) A mining operator who contravenes or fails to comply with a determination under this section is guilty of an offence.
Maximum penalty: \$50 000.
- (7) The prescribed notice of entry is not required if—
 - (a) the land to be entered is in a precious stones field; or
 - (b) the mining operator is authorised to enter the land by agreement with the owner of the land; or
 - (c) the mining operator is authorised to enter the land under a native title mining determination; or

- (ca) the mining operator is authorised to enter the land under an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth); or
 - (d) the mining operator enters the land to continue mining operations that had been lawfully commenced on the land before the commencement of this section.
- (8) A notice is not required under subsection (2a) if the holder of the licence under the *Petroleum and Geothermal Energy Act 2000* has waived the requirement for notice to be given under that subsection.
- (9) A notice under this section must be in a form determined or approved by the Minister.

59—Use of declared equipment

- (1) Subject to this section, a mining operator shall not use declared equipment in the course of mining operations under this Act except—
- (a) upon land subject to a lease or licence granted under this Act; or
 - (b) in pursuance of an authorisation granted by the Minister under a program under Part 10A; or
 - (c) in pursuance of an authorisation granted by the Director of Mines under subsection (1a).

Maximum penalty: \$120 000.

- (1aaa) An authorisation under subsection (1)(b) may be given subject to conditions (if any) specified in the authorisation.
- (1a) The Director of Mines may, upon the application of the holder of a claim, authorise him, subject to the provisions of this section and the conditions (if any) specified in the authorisation, to use declared equipment upon land comprised in the claim.
- (1aa) If an application for an authorisation to use declared equipment relates to an area within the Murray-Darling Basin the Director of Mines must, in considering the application, take into account the objects of the *River Murray Act 2003* and the *Objectives for a Healthy River Murray* under that Act.
- (1ab) If an application for an authorisation to use declared equipment relates to an area within or adjacent to a specially protected area, the Director of Mines must, before making his or her decision on the application, refer the application to the relevant Minister and consult with the relevant Minister in relation to the matter.
- (1ac) If an application for an authorisation is referred to a relevant Minister and the Minister to whom the administration of this Act is committed and the relevant Minister cannot agree—
- (a) on whether an authorisation should be granted; or
 - (b) if an authorisation is granted, on the conditions to which the authorisation should be subject,

the Minister to whom the administration of this Act is committed and the relevant Minister must take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of the Director of Mines under this Act).

(1b) A mining operator shall not use declared equipment in the course of mining operations upon land comprised in a registered access claim within a precious stones field unless he has first served on the Director of Mines—

- (a) notice, in a manner and form determined by the Minister, of his intention to use that equipment; and
- (b) prescribed particulars of the equipment and where it will be used.

Maximum penalty: \$50 000.

(2) A mining operator shall, at least 21 days before he uses declared equipment upon land (not being land comprised in a mining lease), serve personally or by post on the owner of the land, written notice, in a manner and form determined by the Minister, of his intention to use declared equipment in the course of mining operations on the land.

(2a) If the land is subject to a licence under the *Petroleum and Geothermal Energy Act 2000*, a copy of any notice required under subsection (2) must also be served (within the time required under that subsection) on the holder of that licence.

(3) The owner may, at any time within 3 months after the service of a notice under subsection (2), by notice in writing lodged with the Warden's Court, object to the use, or the unconditional use, of declared equipment upon his land.

(4) A copy of a notice of objection under subsection (3) must, within 7 days after lodgment with the Warden's Court, be served on the mining operator.

(5) Subject to subsection (6), the Warden's Court may, upon the hearing of an objection under this section—

- (a) determine that declared equipment should not be used in the course of mining operations upon the land to which the objection relates or any part of that land; or
- (b) determine upon what conditions declared equipment may be used upon the land with least detriment to the interests of the owner and least injury to the land.

(6) In any proceedings under this section, the objector must establish that the use of declared equipment upon the land would be likely to result in severe or unjustified hardship or substantial damage to the land.

(7) If a mining operator—

- (aa) fails to comply with any condition of an authorisation under this section; or
- (a) uses declared equipment upon land without prior service of a notice as required by subsection (2); or
- (b) fails to comply with a determination, or any condition contained in a determination, under this section,

he shall be guilty of an offence.

Maximum penalty: \$50 000.

(8) Subsections (2) to (7) (other than subsection (2a)) do not apply to the use of declared equipment on land if—

- (a) the land is a precious stones field; or

- (b) there is an agreement between the mining operator and the owner of the land about the use of declared equipment on the land and the mining operator complies with the terms of the agreement; or
 - (c) the Warden's Court or the ERD Court has determined conditions on which declared equipment may be used on the land and the mining operator complies with the terms of the determination.
- (9) A notice is not required under subsection (2a) if the holder of the licence under the *Petroleum and Geothermal Energy Act 2000* has waived the requirement for notice to be given under that subsection.

61—Compensation

- (1) The owner of any land upon which mining operations are carried out in pursuance of this Act shall be entitled to receive compensation for any economic loss, hardship and inconvenience suffered by him in consequence of mining operations.
- (2) In determining the compensation payable under this section, the following matters shall be considered:
 - (a) any damage caused to the land by the person carrying out the mining operations; and
 - (b) any loss of productivity or profits as a result of the mining operations; and
 - (c) any other relevant matters.
- (2a) The compensation may include an additional component to cover reasonable costs reasonably incurred by an owner of land in connection with any negotiation or dispute related to—
 - (a) the licensee gaining access to the land; and
 - (b) the activities to be carried out on the land; and
 - (c) the compensation to be paid under subsection (1).
- (3) The amount of the compensation shall be an amount determined by agreement between the owner and the mining operator or, in default of agreement, an amount determined, upon application by an interested party, by the appropriate court.
- (4) The appropriate court, in determining compensation under this section, shall take into consideration any work that the mining operator has carried out, or undertakes to carry out, to rehabilitate the land.
- (5) Upon the hearing of an application for compensation under this section, the appropriate court may order a mining operator to carry out such work to rehabilitate the land as the Court thinks fit.
- (5a) In assessing compensation under subsection (2a), costs in connection with any negotiation or dispute will not be taken to be reasonably incurred if they arise during any period when a reasonable offer of compensation is open to be accepted by the relevant owner of land.
- (6) For the purposes of this section—
 - (a) a reference to mining operations will be taken to include a reference to any investigation or survey under section 15; and

- (b) a reference to a mining operator will be taken to include a reference to the Director (in relation to any investigation or survey under section 15).

62—Bond and security

- (1) The Minister may, by notice in writing served on an applicant for, or the holder of, a mining tenement, require him to enter into a bond in such sum and subject to such terms and conditions as ensure, in the opinion of the Minister, that—
 - (a) any civil or statutory liability likely to be incurred by that person in the course of carrying out mining operations; and
 - (b) the present and future obligations of that person in relation to the rehabilitation of land disturbed by mining operations,will be satisfied.
- (2) The Minister may require such security for the satisfaction of the bond as the Minister thinks fit.
- (3) If the holder of a mining tenement fails to comply with a requirement under this section—
 - (a) the Minister may, if the requirement has not been complied with at the expiration of one month from the end of the time allowed for compliance, prohibit mining operations in the area of the tenement; and
 - (b) the Minister may, if the requirement has not been complied with at the expiration of three months from the end of the time allowed for compliance, cancel the tenement.
- (4) If a person conducts mining operations in contravention of a prohibition under subsection (3), he shall be guilty of an offence.
Maximum penalty: \$120 000.
- (5) Where the Minister holds, or is entitled to, any money under a bond entered into by a mining operator, the Minister may, in his discretion, expend any portion of that money in compensating any person who has suffered, or is likely to suffer, financial loss as a result of mining operations carried out by that mining operator or in rehabilitating any land disturbed by any such operations.
- (6) No action shall lie against the Minister in respect of the expenditure of money under this section.

62A—Right to require acquisition of land

- (1) If the activities of a mining operator on land substantially impair the owner's use and enjoyment of the land, the owner may apply to the Land and Valuation Court for an order under this section.
- (2) The Court may, on an application under this section, if the Court considers it to be just and appropriate in the circumstances of the particular case—
 - (a) make an order transferring the owner's land to the holder of the relevant mining tenement; and

- (b) order the holder of the relevant mining tenement to pay to the owner, by way of compensation, after taking into account (to such extent as the Court considers appropriate) any compensation or other amounts that have been paid to the owner under the other provisions of this Act—
 - (i) an amount equivalent to the market value of the land; and
 - (ii) a further amount the Court considers just by way of compensation for disturbance; and
 - (c) make such other ancillary or related orders as the Court thinks fit.
- (3) This section does not apply in relation to an exploration licence.

63—Extractive Areas Rehabilitation Fund

- (1) The Minister shall establish a fund entitled the "Extractive Areas Rehabilitation Fund".
- (2) From the royalty received or recovered by the Minister on extractive minerals, the Minister will pay the prescribed rate into the fund.
- (3) Subject to subsection (4), the Minister may expend any portion of the fund for any of the following purposes:
 - (a) the rehabilitation of land disturbed by mining operations for the recovery of extractive minerals (or any costs associated with ensuring that such land is rehabilitated in accordance with the requirements under this Act); and
 - (b) the implementation of measures designed to prevent, or limit, damage to or impairment of, any aspect of the environment by mining operations for the recovery of extractive minerals (or any costs associated with ensuring that such measures are implemented or with monitoring such measures); and
 - (c) the promotion of research into methods of mining engineering and practice by which environmental damage or impairment resulting from mining operations for the recovery of extractive minerals may be reduced.
- (4) The total expenditure in a single financial year of costs associated with ensuring that the land referred to in subsection (3)(a) is rehabilitated in accordance with the requirements under this Act must not exceed an amount equal to 4 cents per tonne for each tonne of extractive minerals on which royalty is payable into the fund for the financial year preceding that year.
- (5) In this section—

prescribed rate means 25 cents per tonne of extractive minerals, or such lesser amount as may be prescribed by the regulations.

Part 9A—Access to subsurface strata

63A—Pegging out of access claim

- (1) A person who holds a mining tenement in respect of a subsurface stratum may peg out an access claim, in accordance with the regulations, on land above the land comprised in the tenement.
- (2) The dimensions of an access claim must conform with the requirements of the regulations.
- (3) No more than 4 access claims may be held at the same time in respect of the same mining tenement.

63B—Access claim may be pegged by agreement, or by authority of the Warden's Court, over land comprised in mining tenement

- (1) Subject to subsection (2), a person is not entitled to peg out an access claim on or above land held under a mining tenement by some other person unless that other person has consented to the pegging out of the access claim or the Warden's Court has, in pursuance of subsection (2), authorised the pegging out of the claim.
- (2) Where a person desiring to peg out an access claim satisfies the Warden's Court that there is proper cause for the Court to authorise the pegging out of the claim, notwithstanding absence of the consent of the holder of a mining tenement, the Court may, on such conditions as it thinks just, authorise the pegging out of the access claim.

63C—Registration of access claim

- (1) Application for registration of an access claim—
 - (a) must be in a manner and form determined by the Minister; and
 - (b) must be lodged at the office of the Mining Registrar within 14 days after the day on which the claim is pegged out; and
 - (c) must be accompanied by the information required by the Minister.
- (2) A Mining Registrar shall, upon receipt of due application for registration of an access claim that has been lawfully pegged out, register the claim.
- (3) If application for registration of an access claim is not made as required by this section, or if the Mining Registrar lawfully refuses to register the claim, the claim shall lapse.

63D—Rights conferred by access claim

- (1) An access claim confers on the owner of the claim an exclusive right, subject to the provisions of this Act, to conduct mining operations of the kind authorised by the mining tenement to which the claim relates on the land comprised in the claim.
- (2) The rights conferred by an access claim are exclusive of the rights of any other person to conduct mining operations on, or in respect of, the land comprised in the claim.

63E—Term etc of access claim

- (1) An access claim has a renewable term of 12 months.

- (1a) If an application is made in accordance with the regulations for renewal of an access claim, the owner of the claim is entitled to renewal of the claim for a further term of 12 months.
- (2) An access claim shall lapse if, for any reason, the mining tenement to which it relates ceases to be in force.
- (3) The holder of an access claim may, subject to this Act, surrender the claim at any time.

Part 9B—Native title land

Division 1—Exploration

63F—Qualification of rights conferred by exploration authority

- (1) An exploration authority confers no right to carry out mining operations on native title land unless—
 - (a) the mining operations do not affect native title (ie they are not wholly or partly inconsistent with the continued existence, enjoyment or exercise of rights deriving from native title¹); or
 - (b) a declaration is made under the law of the State or the Commonwealth to the effect that the land is not subject to native title;² or
 - (c) an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) provides that statutory rights to negotiate are not intended to apply in relation to the mining operations.³
- (2) However, a person who holds an exploration authority that would, if land were not native title land, authorise mining operations on the land may acquire the right to carry out mining operations on the land (that affect native title) from an agreement or determination authorising the operations under this Part.
- (3) An agreement or determination under this Part need not be related to a particular exploration authority.
- (4) However, a mining operator's right to carry on mining operations that affect native title is contingent on the existence of an exploration authority that would, if the land were not native title land, authorise the mining operator to carry out the mining operations on the land.

Notes—

- 1 Cf. *Native Title Act 1993* (Cwth), section 227.
- 2 A declaration to this effect may be made under Part 4 of the *Native Title (South Australia) Act 1994* or the *Native Title Act 1993* (Cwth). The effect of such a declaration is that the land ceases to be native title land.
- 3 Cf. *Native Title Act* (Cwth), section 24EB(1)(c).

63G—Exploration rights to be held in escrow in certain circumstances

- (1) If an exploration authority is granted in respect of native title land, and the holder of the authority has no right or no substantial right to explore for minerals on the land because of the absence of an agreement or determination authorising mining operations on the land, the exploration authority does nevertheless, while it remains in force, prevent the grant of registration of another exploration authority for exploring for minerals of the same class within the area to which the authority relates.
- (2) The Minister may revoke an exploration authority that is granted entirely or substantially in respect of native title land if it appears to the Minister that the holder of the authority is not proceeding with reasonable diligence to obtain the agreement or determination necessary to authorise the effective conduct of mining operations on the land to which the authority relates.

Division 2—Production

63H—Limits on grant of production tenement

A production tenement may not be granted or registered over native title land unless—

- (a) the mining operations to be carried out under the tenement are authorised by a pre-existing agreement or determination registered under this Part; or
- (ab) an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) provides that statutory rights to negotiate are not intended to apply in relation to the mining operations to be carried out under the tenement;¹ or
- (b) a declaration is made under the law of the State or the Commonwealth to the effect that the land is not subject to native title.²

Notes—

- 1 Cf. *Native Title Act* (Cwth), section 24EB(1)(c).
- 2 A declaration to this effect may be made under Part 4 of the *Native Title (South Australia) Act 1994* or the *Native Title Act 1993* (Cwth). The effect of the declaration is that the land ceases to be native title land.

63I—Applications for production tenements

- (1) The Minister may agree with an applicant for a production tenement over native title land that the tenement will be granted or registered contingent on the registration of an agreement or determination under this Part.
- (2) The Minister may refuse an application for a production tenement over native title land if it appears to the Minister that the applicant is not proceeding with reasonable diligence to obtain the agreement or determination necessary to the grant or registration of the tenement to which the application relates (and if the application is refused, the applicant's claim lapses).

Division 3—Application for declaration

63J—Application for declaration

A person who seeks to carry out mining operations on native title land may apply to the ERD Court for a declaration that the land is not subject to native title.¹

Note—

- 1 The application is to be made under the *Native Title (South Australia) Act 1994*.

Division 4—Negotiating procedure

63K—Types of agreement authorising mining operations on native title land

- (1) An agreement authorising mining operations on native title land (a *native title mining agreement*) may—
 - (a) authorise mining operations by a particular mining operator; or
 - (b) authorise mining operations of a specified class within a defined area by mining operators of a specified class who comply with the terms of the agreement.

Explanatory note—

If the authorisation relates to a particular mining operator it is referred to as an *individual authorisation*. Such an authorisation is not necessarily limited to mining operations under a particular exploration authority or production tenement but may extend also to future exploration authorities or production tenements. If the authorisation does extend to future exploration authorities or production tenements it is referred to as a *conjunctive authorisation*. An authorisation that extends to a specified class of mining operators is referred to as an *umbrella authorisation*.

- (2) If a native title mining agreement is negotiated between a mining operator who does not hold, and is not an applicant for, a production tenement for the relevant land, and native title parties who are claimants to (rather than registered holders of) native title land, the agreement cannot extend to mining operations conducted on the land under a future production tenement.
- (3) An umbrella authorisation can only relate to prospecting or mining for precious stones over an area of 200 square kilometres or less.
- (4) If the native title parties with whom a native title mining agreement conferring an umbrella authorisation is negotiated are claimants to (rather than registered holders of) native title land, the term of the agreement cannot exceed 10 years.
- (5) The existence of an umbrella authorisation does not preclude a native title mining agreement between a mining operator and the relevant native title parties relating to the same land, and if an individual agreement is negotiated, the agreement regulates mining operations by a mining operator who is bound by the agreement to the exclusion of the umbrella authorisation.

63L—Negotiation of agreements

- (1) A person (the *proponent*) who seeks a native title mining agreement may negotiate the agreement with the native title parties.

Explanatory note—

The *native title parties* are the persons who are, at the end of the period of two months from when notice is given under section 63M, registered under the law of the State or the Commonwealth as holders of, or claimants to, native title in the land. A person who negotiates with the registered representative of those persons will be taken to have negotiated with the native title parties. Negotiations with other persons are not precluded but any agreement reached must be signed by the registered representative on behalf of the native title parties.

- (2) The proponent must be—
 - (a) if an agreement conferring an individual authorisation¹ is sought—the mining operator who seeks the authorisation;
 - (b) if an agreement conferring an umbrella authorisation¹ is sought—the Minister or an association representing the interests of mining operators approved by regulation for the purposes of this section.

Note—

¹ See the explanatory note to section 63K(1).

63M—Notification of parties affected

- (1) The proponent initiates negotiations by giving notice under this section.

- (2) The notice must—
 - (a) identify the land on which the proposed mining operations are to be carried out; and
 - (b) describe the general nature of the proposed mining operations that are to be carried out on the land.
- (3) The notice must be given to—
 - (a) the relevant native title parties; and
 - (b) the ERD Court; and
 - (c) the Minister.
- (4) Notice is given to the relevant native title parties as follows:
 - (a) if a native title declaration establishes who are the holders of native title in the land—the notice must be given to the registered representative of the native title holders and the relevant representative Aboriginal body for the land;
 - (b) if there is no native title declaration establishing who are the holders of native title in the land—the notice must be given to all who hold or may hold native title in the land in accordance with the method prescribed by Part 5 of the *Native Title (South Australia) Act 1994*.

63N—What happens when there are no registered native title parties with whom to negotiate

- (1) If, two months after the notice is given to all who hold or may hold native title in the land, there are no native title parties in relation to the land to which the notice relates, the proponent may apply without notice to any person to the ERD Court for a summary determination.
- (2) On an application under subsection (1), the ERD Court must make a determination authorising entry to the land for the purpose of carrying out mining operations on the land, and the conduct of mining operations on the land.
- (3) The determination may be made on conditions the Court considers appropriate and specifies in the determination.
- (4) The determination cannot confer a conjunctive or umbrella authorisation.¹

Note—

- ¹ See the explanatory note to section 63K(1).

63O—Expedited procedure where impact of operations is minimal

- (1) This section applies to mining operations that—
 - (a) will not directly interfere with the community life of the holders of native title in the land on which the operations are to be carried out; and
 - (b) will not interfere with areas or sites of particular significance, in accordance with their traditions, to the holders of native title in the land on which the operations are to be carried out; and
 - (c) will not involve major disturbance to the land on which the operations are to be carried out.

- (2) If the proponent states in the notice given under this Division that the mining operations to which the notice relates are operations to which this section applies and that the proponent proposes to rely on this section, the proponent may apply without notice to any person to the ERD Court for a summary determination authorising mining operations in accordance with the proposals made in the notice.
- (3) On an application under subsection (2), the ERD Court may make a summary determination authorising mining operations in accordance with the proposals contained in the notice.
- (4) However, if within two months after notice is given, a written objection to the proponent's reliance on this section is given by the Minister, or a person who holds, or claims to hold, native title in the land, the ERD Court must not make a summary determination under this section unless the Court is satisfied after giving the objectors an opportunity to be heard that the operations are in fact operations to which this section applies.
- (5) An objection under subsection (4) must be given to the proponent and a copy given to the ERD Court.

63P—Negotiating procedure

- (1) The proponent and native title parties must negotiate in good faith and accordingly explore the possibility of reaching an agreement.
- (2) However, the obligation to negotiate does not arise if the case is one where a summary determination may be made.
- (3) If any of the negotiating parties requests the ERD Court to do so, the Court must mediate among the parties to assist in obtaining their agreement.
- (4) The Minister may (personally or by representative) intervene in negotiations under this Division.

63Q—Agreement

- (1) An agreement negotiated under this Division may provide for payment to the native title parties based on profits or income derived from mining operations on the land or the quantity of minerals produced.
- (2) The basis of the payment may be fixed in the agreement or left to be decided by the ERD Court or some other nominated arbitrator.
- (3) An agreement must deal with—
 - (a) notices to be given or other conditions to be met before the land is entered for the purposes of carrying out mining operations; and
 - (b) principles governing the rehabilitation of the land on completion of the mining operations.
- (4) If agreement is reached between the proponent and the native title parties authorising mining operations on the native title land, the proponent must lodge a copy of the agreement with a mining registrar and the mining registrar will, subject to this section, register the agreement.

- (5) If the Minister is of the opinion that there is reason to believe that the agreement may not have been negotiated in good faith, the Minister may, within two months after the copy of the agreement is lodged for registration with the mining registrar, make an order prohibiting registration of the agreement.
- (6) A party to an agreement may appeal against an order under subsection (5) to the ERD Court and the Court may, on appeal—
 - (a) confirm or revoke the Minister's order; and
 - (b) if the Court considers it appropriate, make a determination authorising entry on the land to carry out mining operations, and the conduct of mining operations on the land, on conditions determined by the Court.

63R—Effect of registered agreement

- (1) A registered agreement negotiated under this Division is (subject to its terms) binding on, and enforceable by or against the original parties to the agreement and—
 - (a) the holders from time to time of native title in the land to which the agreement relates; and
 - (b) the holders from time to time of any exploration authority or production tenement under which mining operations to which the agreement relates are carried out.
- (2) If a native title declaration establishes that the native title parties with whom an agreement was negotiated are not the holders of native title in the land or are not the only holders of native title in the land, the agreement continues in operation (subject to its terms) until a fresh agreement is negotiated under this Part with the holders of native title in the land, or for 2 years after the date of the declaration (whichever is the lesser).
- (3) Either the holders of native title in the land or the mining operator may initiate negotiations for a fresh agreement by giving notice to the other.
- (4) A registered agreement that authorises mining operations to be conducted under a future mining tenement is contingent on the tenement being granted or registered.

63S—Application for determination

- (1) If agreement between the proponent and the native title parties is not reached within the relevant period, any party to the negotiations or the Minister may apply to the ERD Court for a determination.

In this subsection the *relevant period* is—

- (a) if the mining operations to which the negotiations relate are merely of an exploratory nature—four months from when the negotiations were initiated; or
 - (b) in any other case—six months from when the negotiations were initiated.
- (2) On an application under this section, the ERD Court may determine—
 - (a) that mining operations may not be conducted on the native title land; or
 - (b) that mining operations may be conducted on the native title land subject to conditions determined by the Court.

-
- (3) If the ERD Court determines that mining operations may be conducted on native title land, the determination—
- (a) must deal with the notices to be given or other conditions to be met before the land is entered for the purposes of mining operations; but
 - (b) cannot provide for payment to the native title parties based on profits or income derived from mining operations on the land or the quantity of minerals produced.
- (4) The ERD Court must make its determination on an application under this section within the relevant period unless there are special reasons why it cannot do so.

In this subsection, the *relevant period* is—

- (a) if a determination is sought only for exploring—four months from when the application is made; or
 - (b) in any other case—six months from when the application is made.
- (5) The representative Aboriginal body for the area in which the land is situated is entitled to be heard in proceedings under this section.

63T—Criteria for making determination

- (1) In making its determination, the ERD Court must take into account the following:
- (a) the effect of the proposed mining operations on—
 - (i) native title in the land; and
 - (ii) the way of life, culture and traditions of any of the native title parties; and
 - (iii) the development of the social, cultural and economic structures of any of those parties; and
 - (iv) the freedom of access by any of those parties to the land concerned and their freedom to carry out rites, ceremonies or other activities of cultural significance on the land in accordance with their traditions; and
 - (v) any area or site, on the land concerned, of particular significance to the native title parties in accordance with their traditions; and
 - (vi) the natural environment of the land concerned;
 - (b) any assessment of the effect of the proposed mining operations on the natural environment of the land concerned—
 - (i) made by a court or tribunal; or
 - (ii) made, or commissioned, by the Crown in any capacity or by a statutory authority;
 - (c) the interests, proposals, opinions or wishes of the native title parties in relation to the management, use or control of the land concerned;
 - (d) the economic or other significance of the proposed mining operations to Australia and to the State;
 - (e) any public interest in the mining operations proceeding;

- (f) any other matter the ERD Court considers relevant.
- (2) This section does not affect the operation of another law of the State or the Commonwealth for the preservation or protection of areas or sites of particular significance to Aboriginal people.

63U—Limitation on powers of Court

- (1) The ERD Court cannot make a determination conferring a conjunctive or umbrella authorisation¹ unless the native title parties² are represented in the proceedings and agree to the authorisation.
- (2) A conjunctive authorisation¹ conferred by determination cannot authorise mining operations under both an exploration authority and a production tenement unless the native title parties¹ are the registered holders of (rather than claimants to) native title land.³
- (3) An umbrella authorisation¹ conferred by determination—
 - (a) can only relate to prospecting or mining for precious stones over an area of 200 square kilometres or less; and
 - (b) cannot authorise mining operations for a period exceeding 10 years unless the native title parties² are registered holders of (rather than claimants to) native title land.⁴

Notes—

- 1 See explanatory note to section 63K(1).
- 2 See explanatory note to section 63L(1).
- 3 Section 63K(2) is of similar effect in relation to native title mining agreements.
- 4 Section 63K(3) and (4) are of similar effect in relation to native title mining agreements.

63V—Effect of determination

- (1) A determination under this Division—
 - (a) must be lodged with a mining registrar; and
 - (b) must be registered two months after it was lodged for registration unless it has in the meantime been overruled by the Minister;¹ and
 - (c) takes effect on registration.
- (2) A determination registered under this Division has effect as if it were a contract between the proponent and the native title parties.
- (3) A registered determination is (subject to its terms) binding on, and enforceable by or against the original parties to the proceedings in which the determination was made and—
 - (a) the holders from time to time of native title in the land to which the determination relates; and
 - (b) the holders from time to time of any exploration authority or production tenement under which mining operations to which the determination relates are carried out.

- (4) If a native title declaration establishes that the native title parties to whom the determination relates are not the holders of native title in the land or are not the only holders of native title in the land, the determination continues in operation (subject to its terms) until a fresh determination is made, or for 2 years after the date of the declaration (whichever is the lesser).
- (5) A determination under this Part that authorises mining operations to be conducted under a future mining tenement is contingent on the tenement being granted or registered.

Note—

- 1 See section 63W.

63W—Ministerial power to overrule determinations

- (1) If the Minister considers it to be in the interests of the State to overrule a determination of the ERD Court under this Part, the Minister may, by notice in writing given to the ERD Court and the parties to the proceedings before the Court, overrule the determination and substitute another determination that might have been made by the Court.
- (2) However—
- (a) the Minister cannot overrule a determination—
 - (i) if more than two months have elapsed since the date of the determination; or
 - (ii) if the Minister was the proponent of the negotiations leading to the determination; and
 - (b) the substituted determination cannot create a conjunctive or umbrella authorisation¹ if there was no such authorisation in the original determination nor can the substituted determination extend the scope of a conjunctive or umbrella authorisation.

Explanatory note—

The scope of an authorisation is extended if the period of its operation is lengthened, the area to which it applies is increased, or the class of mining operations to which it applies is expanded in any way.

Note—

- 1 See the explanatory note to section 63K(1).

63X—No re-opening of issues

If an issue is decided by determination under this Part, the parties to the proceedings in which the determination was made cannot make an agreement that is inconsistent with the terms of the determination unless the ERD Court authorises the agreement.

Division 5—Miscellaneous**63Y—Non-application of this Part to Pitjantjatjara and Maralinga lands**

Nothing in this Part affects the operation of—

- (a) the *Anangu Pitjantjatjara Yankunytjatjara Land Rights Act 1981*; or

- (b) the *Maralinga Tjarutja Land Rights Act 1984*.

63Z—Compensation to be held on trust in certain cases

- (1) If a determination under this Part authorises mining operations on conditions requiring payment of compensation—
- (a) the ERD Court must decide the amount of the compensation; and
 - (b) the compensation must be paid into the ERD Court to be held on trust and applied as required by this section.
- (2) Compensation paid into the ERD Court under this section—
- (a) must, on application by the registered representative of the native title holders, be paid out to the registered representative; or
 - (b) if the Court, on application by an interested person, is satisfied that it is just and equitable to pay the compensation in some other way—must be paid out as directed by the Court.
- (3) However, if compensation is held on trust by the ERD Court under this section and—
- (a) a native title declaration is made to the effect that no part of the land is subject to native title; or
 - (b) the proponent abandons the proposal to carry out mining operations on the land before exercising the right to do so and, by notice to the Minister, relinquishes the right to do so,

the compensation must be repaid to the person who paid it.

63ZA—Non-monetary compensation

- (1) Compensation under this Part is to be given in the form of monetary compensation.
- (2) However—
- (a) if, during negotiations under this Part, a person who may be entitled to compensation requests that the whole or part of the compensation be in a form other than money,¹ the other person who may be liable to pay compensation—
 - (i) must consider the request; and
 - (ii) must negotiate in good faith on the subject; and
 - (b) the ERD Court may, at the request of a person entitled to compensation, order non-monetary compensation.¹

Example—

- 1 The non-monetary compensation might take the form of a transfer of property or the provision of goods or services.

63ZB—Review of compensation

- (1) If—
- (a) mining operations are authorised by determination under this Part on conditions requiring the payment of compensation; and

- (b) a native title declaration is later made establishing who are the holders of native title in the land,

the ERD Court may, on application by the registered representative of the holders of native title in the land, or on the application of a person who is liable to pay compensation under the determination, review the provisions of the determination providing for the payment of compensation.

- (2) The application must be made within three months after the date of the native title declaration.
- (3) The Court may, on an application under this section—
- (a) increase or reduce the amount of the compensation payable under the determination (as from the date of application or a later date fixed by the Court); and
 - (b) change the provisions of the determination for payment of compensation in some other way.
- (4) In deciding whether to vary a determination and, if so, how, the Court must have regard to—
- (a) the assumptions about the existence or nature of native title on which the determination was made and the extent to which the native title declaration has confirmed or invalidated those assumptions; and
 - (b) the need to ensure that the determination provides just compensation for, and only for, persons whose native title in land is affected by the mining operations; and
 - (c) the interests of mining operators and investors who have relied in good faith on the assumptions on which the determination was made.

63ZBA—Mining Native Title Register

- (1) The Mining Registrar must establish a distinct part of the Mining Register (which may be referred to as the *Mining Native Title Register*) for the registration of agreements and determinations under this Part.
- (2) The Mining Registrar must, in respect of each agreement or determination registered under this Part, include in the *Mining Native Title Register* details concerning—
- (a) the land to which the agreement or determination relates; and
 - (b) if relevant—the exploration authority or production tenement to which the agreement or determination relates; and
 - (c) the parties who are bound by the agreement or determination; and
 - (d) other information prescribed by the regulations.
- (3) The Mining Registrar may also note in any other part of the Mining Register any agreement or determination registered under this Part (as the Mining Registrar thinks fit).

- (4) An agreement or determination registered under this Part is not available for inspection under this Act if—
- (a) in the case of an agreement, the parties to the agreement specify in the agreement, or in some other manner determined by the Mining Registrar, that the contents of the agreement should be kept confidential under this section;
 - (b) in the case of a determination, the ERD Court specifies in the determination that the contents of the determination should be kept confidential under this section.
- (5) However, subsection (4) does not prevent the inspection of an agreement or determination registered under this Part by—
- (a) a person engaged in the administration of this Act acting in the course of official duties; or
 - (b) the Minister, or a person appointed to the Public Service acting in the course of official duties on behalf of, or with the authority of, the Minister; or
 - (c) a person who is bound by the agreement or determination; or
 - (d) a person who is acting under the joint authority of all persons who are bound by the agreement or determination (and such an authority must be given in a manner and form approved by the Mining Registrar); or
 - (e) a person who is acting under the authority of an order or determination of the ERD Court or the Supreme Court (for the purposes of this or another Act or law).
- (6) An authority under subsection (5) may be given on conditions.
- (7) A person who contravenes or fails to comply with a condition is guilty of an offence.
Maximum penalty: \$10 000.

63ZC—Saving of pre-1994 mining tenements

This Part does not apply in relation to—

- (a) a claim registered before 1 January 1994; or
- (b) a lease or licence granted under this Act before 1 January 1994; or
- (c) a renewal of a lease or licence granted under this Act before 1 January 1994 in pursuance of a legally enforceable right created before that date.

- (3b) An appeal against a judgment or order of the Warden's Court must be instituted within 1 month after publication of the judgment or order, but the ERD Court may, for proper cause, extend the period for instituting an appeal.
- (4) Subject to any rules of the ERD Court, the practice and procedure relating to an appeal from a judgment or order of the Warden's Court shall conform as nearly as practicable to the practice and procedure applicable to an appeal under the *Magistrates Court Act 1991*.

69—Forfeiture of claim

- (1) The Warden's Court may, upon application by any interested person, make an order for the forfeiture of any mineral claim.

- (3) Where an order for the forfeiture of a claim is made (otherwise than upon the application of the Director) under this section, the person upon whose application the order was made shall have, for a period of 14 days after the date of the order, a preferential right to peg out a claim of the same class as the forfeited claim upon the land comprised in the forfeited claim.

Part 10A—Programs for environment protection and rehabilitation

70A—Object of Part

- (1) The object of this Part is to ensure that the holders of mining tenements—

73G—Mine operations plans

- (1) Unless otherwise approved by the Director, a person must not, after the commencement of this Part, carry out mining operations at a private mine unless a mine operations plan that relates to the operations and complies with requirements of this section is in place.
- (2) A mine operations plan must, in order to comply with the requirements of this section—
 - (a) include, in accordance with the requirements of the regulations—
 - (i) a set of objectives approved by the Director; and
 - (ii) a set of criteria for measuring those objectives approved by the Director,that relate to the mining operations carried out at the private mine; and

- (9) The public consultation must be conducted in accordance with the regulations.
- (10) The person who submitted the draft must, after complying with the public consultation requirements, prepare a report on the matters raised as a result of public consultation (insofar as they are relevant to the matters that were referred for public consultation) and, if relevant, on any recommended alterations to the objectives and criteria contained in the draft, and submit the report to the Director.

- (5) Subject to subsection (6), the making of an appeal against an order does not affect the operation of the order or prevent the taking of action to implement the order.
- (6) The Warden's Court may, on application by a party to an appeal, make an order staying or otherwise affecting the operation or implementation of the whole or a part of the order appealed against if the Warden's Court is satisfied that it is appropriate to do so having regard to—

- (2) Proper grounds exist for the purposes of subsection (1) if—
 - (a) in the case of an application by the Director or the proprietor—the Warden's Court is satisfied that the whole or any part of the private mine is not being effectively operated (for a reason other than the operation of an order under section 73E) and that in the circumstances it is appropriate that a declaration be made; or

- (3) In the case of an application by the proprietor, the proprietor must disclose to the Warden's Court the name of any other person who appears to have an interest in the private mine and the Warden's Court may, as part of the proceedings, invite and hear submissions from any such person.

- the Warden's Court may assume that it may make a declaration under subsection (2)(a).
