 - (d) the AER must ensure that any method of allocation agreed with ETSA Utilities in relation to transmission use of system costs paid by ETSA Utilities requires the allocation of those costs to ETSA Utilities' small customers on a State-wide basis that ensures that the rates charged with respect to all such small customers are not subject to variation on the basis of location.
- (6) In connection with the operation of subsections (4) and (5)—
 - (a) the EPO will be taken to continue to apply as if the AER were the Regulator under the EPO; and

44—Conduct of MCE directed review

Subject to any requirement or direction of the MCE, a MCE directed review—

- (a) may be conducted in such manner as the AEMC considers appropriate; and
- (b) may (but need not) involve public hearings.

Division 5—Other reviews

45—Reviews by AEMC

- (1) The AEMC may conduct a review into—
 - (a) the operation and effectiveness of the Rules; or
 - (b) any matter relating to the Rules.

- (2) A review—
 - (a) may be conducted in such manner as the AEMC considers appropriate; and
 - (b) may (but need not) involve public hearings.
- (3) During the course of a review, the AEMC may—
 - (a) consult with any person or body that it considers appropriate;
 - (b) establish working groups to assist it in relation to any aspect, or any matter or thing that is the subject, of the review;
 - (c) commission reports by other persons on its behalf on any aspect, or matter or thing that is the subject, of the review;

Division 6—Miscellaneous

46—AEMC must publish and make available up to date versions of Rules

The AEMC must, at all times—

- (a) maintain, on its website, a copy of the National Electricity Rules, as in force from time to time; and
- (b) make copies of the National Electricity Rules, as in force from time to time, available to the public for inspection at its offices during business hours.

47—Fees

- (1) The AEMC may charge a fee specified, or a fee calculated in accordance with a formula or methodology specified, in the Regulations for services provided by it in performing or exercising any of its functions or powers under this Law, the Regulations or the Rules.
- (2) The fee must not be such as to amount to taxation.

48—Confidentiality of information

- (1) Information provided to the AEMC for the purposes of a MCE directed review or a review conducted by the AEMC under section 45 is confidential information for the purposes of Division 4 or 5 if—
 - (a) the person who provides it claims, when providing it to the AEMC, that it is confidential information; and
 - (b) the AEMC decides that the information is confidential information.
- (2) Nothing prevents the disclosure of confidential information in a report to the MCE or a Minister of a participating jurisdiction under Division 4 or 5, but the AEMC must ensure that the information is identified as such in the report.

- (3) If the AEMC decides that information provided to it for the purposes of a MCE directed review, or a review conducted by the AEMC under section 45, is confidential information, the AEMC, the MCE or a Minister of a participating jurisdiction may only make public a version of the report from which the information has been omitted.
- (4) If information is omitted from a published version of a report as being confidential information, a note to that effect must be included in the report at the place in the report from which the information is omitted.

Note—

See also section 31 of this Law and section 24 of the *Australian Energy Market Commission Establishment Act 2004* of South Australia.

Part 5—Role of AEMO under National Electricity Law

Division 1—General

49—AEMO's statutory functions

- (1) AEMO has the following functions:
 - (a) to operate and administer the wholesale exchange;
 - (b) to promote the development and improve the effectiveness of the operation and administration of the wholesale exchange;
 - (c) to register persons as Registered participants;
 - (d) to exempt certain persons from being registered as Registered participants;
 - (e) to maintain and improve power system security;
 - (f) to facilitate retail customer transfer, metering and retail competition;
 - (g) for an adoptive jurisdiction—the additional advisory functions or declared network functions (as the case requires);
 - (h) any functions conferred by jurisdictional electricity legislation or an application Act;
 - (i) any other functions conferred under this Law or the Rules.

Notes—

- 1 AEMO has additional functions under its Constitution.
- 2 It should be noted that AEMO's statutory functions include its functions under the National Gas Law, the National Gas Rules and related subordinate legislation: See definition of statutory functions in section 2.
- 3 AEMO also has responsibilities, under Part 4 of the *Australian Energy Market Commission Establishment Act 2004* of South Australia, related to administrative costs associated with the work of the Consumer Advocacy Panel.

- (2) In its role as National Transmission Planner, AEMO has the following functions:
 - (a) to prepare, maintain and publish a plan for the development of the national transmission grid (the *National Transmission Network Development Plan*) in accordance with the Rules;

- (b) to establish and maintain a database of information relevant to planning the development of the national transmission grid and to make the database available to the public;
 - (c) to keep the national transmission grid under review and provide advice on the development of the grid or projects that could affect the grid;
 - (d) to provide a national strategic perspective for transmission planning and coordination;
 - (e) any other functions conferred on AEMO under this Law or the Rules in its capacity as National Transmission Planner.
- (3) AEMO must, in carrying out functions referred to in this section, have regard to the national electricity objective.

49A—AEMO’s power to carry out statutory functions

AEMO has the power to do all things necessary or convenient for or in connection with its statutory functions.

49B—Delegation

- (1) Subject to subsection (2) and the Rules, AEMO may delegate any of its functions or powers under this Law or the Rules to—
 - (a) a director, officer or employee of AEMO; or
 - (b) a member of a committee established by AEMO.
- (2) However, a function or power classified by the Regulations as non-delegable cannot be delegated.
- (3) A delegate may, subject to AEMO’s directions, subdelegate a delegated function or power to a director, officer or employee of AEMO.
- (4) A delegate (or subdelegate) must comply with any direction given by AEMO that is relevant to the exercise of the delegated functions or powers.

Division 2—AEMO’s adoptive jurisdiction functions

Subdivision 1—Preliminary

50—Application of this Division

- (1) Subdivision 2 applies to, and in relation to, a participating jurisdiction if (and only if) the application Act of that jurisdiction, or an instrument made under that Act, declares that it does so apply.
- (2) Subdivision 3 applies to, and in relation to, a participating jurisdiction if (and only if) the application Act of that jurisdiction, or an instrument made under that Act, declares that it does so apply.
- (3) A Rule or other form of subordinate legislation made for the purposes of Subdivision 2 or 3 applies to and in relation to a participating jurisdiction if (and only if) the relevant Subdivision applies to and in relation to that jurisdiction.

50A—AEMO to account to relevant Minister for performance of adoptive functions

- (1) AEMO must, at the written request of the Minister of an adoptive jurisdiction, provide information about the performance of its adoptive functions with respect to that jurisdiction.
- (2) Protected information provided in response to a request under subsection (1) must be identified as such by AEMO at the time of providing the information.
- (3) No fee is to be charged for the provision of information under this section.

Subdivision 2—AEMO’s additional advisory functions

50B—Additional advisory functions

- (1) AEMO’s additional advisory functions are as follows:
 - (a) to prepare and publish a report on an adoptive jurisdiction’s declared power system;
 - (b) to report to the Minister of an adoptive jurisdiction on matters relevant to the future capacity and reliability of the declared power system.
- (2) The additional advisory functions are to be exercised as follows:
 - (a) a report on an adoptive jurisdiction’s declared power system is to be prepared and published under subsection (1)(a) at the request of the Minister of the relevant jurisdiction;
 - (b) a report is to be provided under subsection (1)(b) at the request of the Minister of the relevant jurisdiction or on AEMO’s own initiative.
- (3) A report under subsection (1)(a) must include an assessment of the performance of connections between transmission systems and distribution systems in the relevant jurisdiction and the need (if any) for new connections.
- (4) A request under subsection (1)(a) or (1)(b) may be for a single report or for reports to be made on an annual or other periodic basis.

Subdivision 3—AEMO’s declared network functions

50C—AEMO’s declared network functions

- (1) AEMO’s declared network functions are as follows:
 - (a) to plan, authorise, contract for, and direct, augmentation of the declared shared network;
 - (b) to provide information about the planning processes for augmentation of the declared shared network;
 - (c) to provide information and other services to facilitate decisions for investment and the use of resources in the adoptive jurisdiction’s electricity industry;
 - (d) to provide shared transmission services by means of, or in connection with, the declared shared network;

- (e) any other functions, related to the declared transmission system or electricity network services provided by means of or in connection with the declared transmission system, conferred on it under this Law or the Rules;
 - (f) any other functions, related to the declared transmission system or electricity network services provided by means of or in connection with the declared transmission system, conferred on it under a law of the adoptive jurisdiction.
- (2) AEMO—
- (a) is not limited in planning augmentation of the declared shared network to its role as National Transmission Planner; and
 - (b) may make or issue market information instruments as may be necessary or expedient for that or any other declared network function.

50D—Network agreement

- (1) A declared transmission system operator must have an agreement (a *network agreement*) with AEMO—
- (a) for the provision of electricity network services (*shared network capability services*) for the performance of AEMO’s declared network functions; and
 - (b) containing such other provisions as may be required by the Rules.
- (2) A declared transmission system operator or a prospective declared transmission system operator must, if asked to do so by AEMO, offer to enter into a network agreement with AEMO subject to and in accordance with the Rules.
- (3) The offer must be submitted within 20 business days after the date of the request.
- (4) The terms and conditions of a network agreement under this section are to be regarded as protected information but are liable to disclosure under the provisions of Division 6 that allow for the disclosure of protected information.

Exception—

Insofar as the terms and conditions of a network agreement can be inferred from a determination to be published on AEMO’s website under section 50H(6), they are not to be regarded as protected information.

- (5) The Rules may require or regulate the provision of shared network capability services.
- (6) If there is any inconsistency between a network agreement and a transmission determination as to the price of electricity network services to be provided by means of, or in connection with, the declared transmission system, the transmission determination prevails.
- (7) In this section—

prospective declared transmission system operator means a person who is to carry out an augmentation of the declared transmission system and who may therefore become a declared transmission system operator on completion of the augmentation.

50E—Connection agreements

- (1) A person to whom this section applies must have connection agreements as follows:
- (a) an agreement with AEMO for the provision of shared transmission services; and

- (b) an agreement with the relevant declared transmission system operator for the provision of connection services as defined in the Rules.
- (2) An agreement required by this section must be in accordance with the Rules.
- (3) If—
 - (a) a person to whom this section applies (the *applicant*) wants to connect to a declared shared network; but
 - (b) the fault levels at the proposed connection point would, if the connection were allowed, be likely to exceed the limits fixed under the Rules,AEMO may, as a condition of entering into a connection agreement with the applicant, require the applicant to make a contribution to the cost of carrying out the augmentation to the declared shared network necessary to reduce fault levels to an acceptable level.
- (4) This section applies to each of the following:
 - (a) a network service provider for a distribution system situated in the adoptive jurisdiction;
 - (b) another network service user who is provided with electricity network services by means of, or in connection with, the declared shared network.

50F—Augmentation

- (1) A declared transmission system operator must not augment the declared shared network, or any part of the declared shared network, unless—
 - (a) AEMO authorises or directs the operator to carry out the augmentation; or
 - (b) the operator wins a competitive tender conducted by AEMO to carry out the augmentation; or
 - (c) the augmentation is authorised by the Rules.
- (2) In deciding whether a proposed augmentation to the declared shared network should proceed, AEMO—
 - (a) must undertake a cost benefit analysis; and
 - (b) must apply a probabilistic (as distinct from a deterministic) approach to determining the benefit of an augmentation unless—
 - (i) a probabilistic approach will not produce a materially different result; or
 - (ii) it is not reasonably practicable to use a probabilistic approach; or
 - (iii) a probabilistic approach is, for some other reason, inappropriate.

Example—

Probabilistic planning is not relevant to negotiated network services. Hence, if the services to be provided as a result of the augmentation are negotiated network services, a probabilistic approach would be inappropriate.

- (3) Subject to the Rules, AEMO must conduct a competitive tender to determine who will carry out an augmentation to a declared shared network.

- (4) A declared transmission system operator—
- (a) must do anything required by the Rules to facilitate the planning, construction or operation of an augmentation; and
 - (b) must, at AEMO's request, do anything else reasonably required by AEMO to facilitate the planning, construction or operation of an augmentation.

Example—

A declared transmission system operator will be required by the Rules to enter into an augmentation connection agreement with the person responsible for operation of an augmentation to connect the augmentation with the declared shared network.

- (5) A declared transmission system operator must not engage in conduct that has the effect of preventing or hindering the planning, construction or operation of an augmentation.

Note—

Subsections (1), (4) and (5) are civil penalty provisions: See the definition of *civil penalty provision* in section 58.

50G—AEMO to have qualified exemption for performing statutory functions

- (1) For performing statutory functions, AEMO—
- (a) is not required to be registered as a Registered participant; and
 - (b) is not subject to the provisions of the Rules applicable to network service providers.
- (2) However—
- (a) a Rule applicable to a Registered participant or a network service provider extends (with or without modification) to AEMO if provision is made for its application (or modified application) to AEMO by the Rules; and
 - (b) provision may be made for extending the application of such a Rule to AEMO even though AEMO does not own, control or operate the declared shared network.

50H—Resolution of dispute arising from attempt to negotiate a network agreement or augmentation connection agreement

- (1) The AER may, on application by AEMO or 1 or more declared transmission system operators, make a determination to resolve a dispute arising from an attempt to negotiate—
- (a) a network agreement or an augmentation connection agreement; or
 - (b) an amendment to a network agreement or an augmentation connection agreement.
- (2) The determination may determine the terms and conditions of the agreement or the amendment.
- (3) If the AER determines the terms and conditions of an agreement or an amendment, an agreement is taken to arise between the interested parties, or the agreement between the interested parties is taken to be amended, in accordance with the AER's determination.

- (4) A determination may only be made under this section if—
 - (a) the AER is satisfied that the applicant has made a reasonable, but unsuccessful, attempt to negotiate the agreement or amendment; and
 - (b) the AER has given AEMO and all declared transmission system operators that are to be affected by the determination an opportunity to make representations about the terms of the proposed determination.
- (5) A determination under this section takes effect on a date specified in the determination.
- (6) A determination under this section must be published on AEMO's website.
- (7) In this section, a reference to a *declared transmission system operator* extends to a *prospective declared transmission system operator* within the meaning of section 50D(7).

50J—General principles governing determinations

- (1) A determination under this Subdivision must be compatible with the proper performance of AEMO's declared network functions.
- (2) In determining a dispute about a network agreement or an augmentation connection agreement, or an amendment to a network agreement or an augmentation connection agreement, the AER must have regard to the Rules and the allocation of functions, powers and duties between AEMO and the declared transmission system operator, so far as relevant to—
 - (a) the allocation of risk under such an agreement; or
 - (b) the provision of shared network capability services; or
 - (c) any other matter that has a bearing on the subject matter of such an agreement.
- (3) A determination cannot alter the allocation of risk under an existing network agreement unless AEMO agrees.
- (4) The provisions applicable to the determination of an access dispute apply to a determination by the AER under this Subdivision with the following changes:
 - (a) section 131(1)(c), section 131(2), section 132 and section 133 do not apply; and
 - (b) any further changes necessary to adapt those provisions to the determination of a dispute under this Division.
- (5) In this section, a reference to a *declared transmission system operator* extends to a *prospective declared transmission system operator* within the meaning of section 50D(7).

Division 3—Information etc to be provided to Ministers

51—Ministerial request

- (1) The MCE or a Minister of a participating jurisdiction may ask AEMO for information, a report or other services.

- (2) The request may be accompanied by a written statement of the purpose for which the information, report or other services are sought.

51A—Compliance with request

- (1) AEMO must comply with a request under this Division.
- (2) However, if compliance with the request would involve disclosure of protected information, AEMO may only provide the information if its disclosure is authorised under this Law or the Rules.

Note—

The Minister of an adoptive jurisdiction may be entitled to certain protected information under section 50A.

51B—Quarterly report

- (1) AEMO must report to the MCE in each quarter on its work under this Division for the previous quarter.
- (2) The report must—
 - (a) summarise each request received in the relevant quarter; and
 - (b) state by whom each request was made.

Division 4—Fees and charges

52—AEMO fees and charges

- (1) AEMO may—
 - (a) determine fees and charges for services provided by it under this Law or the Rules; and
 - (b) charge for and recover the fees and charges in accordance with this Law and the Rules.
- (2) The fees and charges for a service are to be determined on a non-profit basis that—
 - (a) provides for full recovery of the costs of providing the service; and
 - (b) does not amount to taxation; and
 - (c) is consistent with the requirements of the Rules.
- (3) Exact equivalence is not required between the costs of providing a service and the revenue derived from providing the service in a particular accounting period if there are reasonable grounds to believe that costs will over time approximate revenue.

Note—

This section does not prevent AEMO from generating a profit from the performance of non-statutory functions (such as the provision of consultancy services). Any such profit would not, however, be available for distribution to members.

- (4) Despite the above provisions, a component of AEMO's fees and charges may, if the Rules so provide, relate to costs that are not specifically referable to services provided under this Law or the Rules.

Note—

As a general rule, AEMO's expenditures will be allocated to services provided to the electricity industry or the gas industry. Subsection (4) deals with costs that cannot be wholly attributed to either industry.

- (5) This section does not limit AEMO's power to determine, charge for and recover fees and charges for carrying out functions conferred by jurisdictional legislation.
- (6) In this section—
service includes the performance of statutory functions.

Division 5—Information gathering

53—Information gathering powers

- (1) If AEMO considers it reasonably necessary to do so for the exercise of a relevant function, it may—
- (a) make a general market information order requiring information from persons of a class specified in the order; or
 - (b) serve a market information notice requiring information from the person to whom the notice is addressed.
- (2) A *relevant function* is—
- (a) an NTP function; or
 - (b) an additional advisory function; or
 - (c) a declared network function; or
 - (d) any other statutory function for which this Law authorises AEMO to gather information by means of a market information instrument.
- (3) In considering whether to make a general market information order or to issue a market information notice and, if so, the terms of the order or notice, AEMO must have regard to the reasonable costs of efficient compliance.
- (4) A market information instrument—
- (a) must specify—
 - (i) the information, or categories of information, that is to be provided to AEMO; and
 - (ii) the time by which the information is required; and
 - (iii) in the case of a general market information order—the class of persons to which the order applies; and
 - (iv) in the case of a market information notice—the name of the person to whom the notice is addressed; and
 - (b) may specify the manner and form in which information must be provided.

- (5) Without limiting subsection (4), a market information instrument—
- (a) may require information of any of the following kinds:
 - (i) historic, current and forecast information;
 - (ii) information that may be derived from other information in the possession or control of the person required to provide the information; and
 - (b) may require the provision of information on an annual or other periodic basis.

53A—Making and publication of general market information order

- (1) Before making a final decision to make a general market information order, AEMO must—
- (a) invite persons of the class to which the proposed order is addressed to make representations about the terms of the proposed order within a period (at least 20 business days) specified in the invitation; and
 - (b) consider any written representations made in response to the invitation within the specified period.
- (2) As soon as practicable after a general market information order is made—
- (a) the order must be published on AEMO's website; and
 - (b) notice of the making of the order must be published in a newspaper circulating generally throughout Australia.

53B—Service of market information notice

- (1) Before serving a market information notice, AEMO must—
- (a) give the person on whom AEMO intends to serve the market information notice (the *respondent*) written notice of its intention to do so; and
 - (b) give the respondent a draft of the market information notice.
- (2) A notice under subsection (1) must—
- (a) invite the respondent to make written representations to AEMO about whether AEMO should serve the market information notice; and
 - (b) specify the period (at least 20 business days) allowed for making the representations.
- (3) AEMO must consider written representations made in response to the invitation within the specified period before making a final decision to serve the market information notice.

53C—Compliance with market information instrument

- (1) A market information instrument takes effect as follows:
- (a) in the case of a general market information order—on publication on AEMO's website; or
 - (b) in the case of a market information notice—on service of the notice on the person to whom it is addressed.

- (2) AEMO may, by written notice, exempt a person from compliance with a general market information order—
 - (a) unconditionally or on specified conditions; and
 - (b) wholly or to a specified extent.
- (3) Subject to any exemption, a person who is a member of a class to which a general market information order applies must comply with the order.
- (4) A person on whom a market information notice is served must comply with the notice.
- (5) The duty to comply with a market information instrument prevails over a duty of confidence.
- (6) However—
 - (a) a person cannot be required by a market information instrument to disclose information that is the subject of legal professional privilege; and
 - (b) a natural person cannot be required by a market information instrument to disclose information that would incriminate the person or make the person liable to a criminal penalty under the law of an Australian jurisdiction (whether or not the jurisdiction is a participating jurisdiction).
- (7) A person incurs no liability, by complying with a market information instrument, for breach of contract, breach of confidence or any other civil wrong.

53D—Use of information

Subject to this Law, the Rules and the Regulations, AEMO may use information obtained by market information instrument or in any other way for any purpose connected with the exercise of any of its statutory functions.

53E—Providing false or misleading information

A person must not, in purported compliance with a market information instrument, provide information to AEMO that the person knows is false or misleading in a material particular.

Maximum penalty:

- (a) in the case of a natural person—\$2 000;
- (b) in the case of a body corporate—\$10 000.

Division 6—Protected information

Subdivision 1—AEMO's obligation to protect information

54—Protected information

- (1) AEMO must take all reasonable measures to protect from unauthorised use or disclosure information (*protected information*)—
 - (a) given to it in confidence; or
 - (b) given to it in connection with the performance of its statutory functions and classified under the Rules or the Regulations as confidential information.

- (2) AEMO makes unauthorised use of protected information if (and only if) it uses the information contrary to this Law, the Rules or the Regulations.

Note—

Section 53D authorises AEMO (subject to the Law, the Rules and the Regulations) to use information (whether obtained by market information instrument or in any other way) for any purpose connected with the exercise of any of its statutory functions.

- (3) AEMO makes an unauthorised disclosure of protected information if the disclosure is not authorised under this Law, the Rules or the Regulations.

Subdivision 2—Disclosure of protected information held by AEMO

54A—Authorised disclosure of protected information

- (1) AEMO is authorised to disclose protected information in accordance with this Subdivision.
- (2) AEMO may also be authorised to disclose protected information by the Rules or the Regulations (or both).

- (2) The disclosure of protected information to any of the following is authorised:
- (a) the Australian Competition and Consumer Commission;
 - (b) the Australian Energy Regulator;
 - (c) the Australian Energy Market Commission;
 - (d) the Economic Regulation Authority of Western Australia;
 - (e) a jurisdictional regulator;
 - (f) if the information is reasonably required by a recognised energy industry ombudsman to resolve a dispute between a Registered participant and a customer under an industry dispute resolution scheme but the information is not end-use consumer information—the recognised energy industry ombudsman;
 - (g) a prescribed body;
 - (h) any staff or consultant assisting a body mentioned above in performing its functions or exercising its powers.
- (3) A person or body to whom protected information is disclosed under subsection (2) may use the information for any purpose connected with the performance of the functions, or the exercise of the powers, of the person or body.
- (4) AEMO may impose conditions to be complied with in relation to protected information disclosed under subsection (2).

- (5) The disclosure of protected information by a person in the ordinary course of carrying out functions as an officer or employee of, or consultant to, AEMO or a body mentioned in subsection (2) is authorised.

54D—Disclosure for purposes of court and tribunal proceedings

AEMO is authorised to disclose protected information for the purposes of—

- (a) civil or criminal proceedings; or
- (b) a proceeding before the Tribunal or a tribunal established by or under a law of this jurisdiction or another participating jurisdiction.

54E—Disclosure of document with omission of protected information

- (1) If a document contains both protected information and other information, AEMO may disclose the document with the omission of the protected information.
- (2) AEMO must include a note at the place in the document from which the protected information is omitted to the effect that protected information has been omitted from the document.

54F—Disclosure of non-identifying information

AEMO is authorised to disclose protected information if—

- (a) it does not disclose any elements of the information that could lead to the identification of the person to whom the information relates; or
- (b) the manner in which it discloses the information does not identify the person to whom that information relates.

Example—

Protected information may be combined or arranged with other information to prevent the identification of the person to whom the protected information relates.

54G—Disclosure of protected information for safety, proper operation of the market etc

- (1) AEMO is authorised to disclose protected information if—
 - (a) the disclosure is necessary for—
 - (i) the safety, reliability or security of the supply of electricity; or
 - (ii) the safety, reliability or security of the national electricity system; or
 - (b) the disclosure is necessary for the proper operation of the national electricity market; or
 - (c) the information is customer profiling information for facilitating retail competition; or
 - (d) the information is in the public domain.
- (2) AEMO may impose conditions to be complied with in relation to information disclosed under subsection (1)(a), (b) or (c).

54H—Disclosure of protected information authorised if detriment does not outweigh public benefit

- (1) Subject to this section, AEMO is authorised to disclose protected information after the restricted period if AEMO is of the opinion—
 - (a) that the disclosure of the information would not cause detriment to the person who has given it or to a person from whom that person received it; or
 - (b) that, although the disclosure of the information would cause detriment to such a person, the public benefit in disclosing it outweighs that detriment.
- (2) Before disclosing the protected information, AEMO must give the person who gave the protected information—
 - (a) a written notice (an *initial disclosure notice*) stating—
 - (i) that AEMO wishes to disclose the information, specifying the nature of the intended disclosure; and
 - (ii) that AEMO is of the opinion required by subsection (1); and
 - (iii) that the person, within the period specified in the notice, may make representations to AEMO against disclosure of the information; and
 - (b) AEMO's decision, in writing, setting out the reasons why AEMO—
 - (i) wishes to make the disclosure; and
 - (ii) is of the opinion required by subsection (1).
- (3) If AEMO is aware that the person who gave the protected information in turn received the information from another person and is aware of the other person's identity and address, AEMO must, before disclosing the information give the other person—
 - (a) a written notice (an *initial disclosure notice*) stating—
 - (i) that AEMO wishes to disclose the information, specifying the nature of the intended disclosure; and

- (4) AEMO must consider every representation made to it by a person given an initial disclosure notice within the time specified in the notice.
- (5) The period specified in an initial disclosure notice must not be less than 5 business days after the date the initial disclosure notice is given to the person.
- (6) If, after considering the representations, AEMO wishes to disclose the protected information, AEMO must give the person given the initial disclosure notice—

91A—AEMC may make more preferred Rule in certain cases

The AEMC may make a Rule that is different (including materially different) from a market initiated proposed Rule (a *more preferable Rule*) if the AEMC is satisfied that, having regard to the issue or issues that were raised by the market initiated proposed Rule (to which the more preferable Rule relates), the more preferable Rule will or is likely to better contribute to the achievement of the national electricity objective.

91B—AEMC may make Rules that are consequential to a Rule request

- (1) Despite section 91(2), the AEMC may, having regard to a request to make a Rule under section 91(1), make a Rule that is necessary or consequential to the Rule that is to be made on that request.

 - (b) treat any later request as a submission in relation to the earliest Rule request.
- (2) For the purposes of this Part, the AEMC may treat a consolidated Rule as being received by it on the day it receives either the first or last of the Rule requests forming part of the consolidated Rule request.

94—Initial consideration of request for Rule

- (3) Despite subsection (1) or (2), the AEMC may make a decision to the effect that it should not take any action under this Division in respect of the request for the making of the Rule if the person or body that made the request has not complied with a notice in accordance with section 94A.

- (5) Nothing in this clause renders a person liable to be punished more than once in relation to the same offence.

39—Double jeopardy

- (1) If an act or omission constitutes an offence—
 - (a) under this Law as applied as a law of this jurisdiction; and
 - (b) under this Law as applied as a law of another jurisdiction,and the offender has been punished in relation to the offence under the law mentioned in paragraph (b), the offender is not liable to be punished in relation to the offence mentioned in paragraph (a).

- (4) Proceedings for a declaration referred to in subclause (3) are stayed if—

- (2) The fact that a provision of this Schedule refers to this Law and not also to a statutory instrument does not, by itself, indicate that the provision is intended to apply only to this Law.
- (3) In this clause—

statutory instrument includes the Regulations or the Rules.

42—National Electricity Rules to be construed so as not to exceed the legislative power of the Legislature of this jurisdiction or the powers conferred by this Law

- (2) If a provision of the National Electricity Rules, or the application of a provision of the National Electricity Rules to a person, subject matter or circumstance, would, but for this clause, be construed as being in excess of the legislative power of the Legislature of this jurisdiction or the power conferred by this Law under which it is made—
 - (a) it is a valid provision to the extent to which it is not in excess of the power; and

- (b) the remainder of the National Electricity Rules, and the application of the provision to other persons, subject matters or circumstances, is not affected.
- (3) Without limiting subclause (2), the National Electricity Rules are not to be construed as imposing any duty on the Tribunal or AER to perform a function or exercise a power if the imposition of the duty would be in excess of the legislative power of the Legislature of this jurisdiction.

Note—

The term "function" is defined in clause 10 to include "duty".

- (4) In particular, if a provision of the National Electricity Rules appears to impose a duty on the Tribunal or AER to perform a function or exercise a power in matters or circumstances in which the assumption of the duty cannot be validly authorised under the law of the Commonwealth, or is otherwise ineffective, the provision is to be construed as if its operation were expressly confined to—
 - (a) acts or omissions of corporations to which section 51(xx) of the *Constitution of the Commonwealth* applies; or
 - (b) acts or omissions taking place in the course of, or in relation to, trade or commerce between this jurisdiction and places outside this jurisdiction (whether within or outside Australia); or

 - (c) affect a right, privilege or liability acquired, accrued or incurred under the Rule; or
