- (5) If the customer consumes energy at the premises by fraudulent or illegal means—
 - (a) the customer is nevertheless liable to pay the standing offer prices of the financially responsible retailer for the premises in respect of the energy so consumed; and
 - (b) the financially responsible retailer may estimate and issue a bill for the charges payable and recover those charges in accordance with those standing offer prices as a debt in a court of competent jurisdiction; and

exempt seller includes an applicant for an exemption under this Division.

116—Customer related factors

The customer related factors are as follows:

- (a) whether the characteristics of the exempt customers or the circumstances in which energy is to be sold to them by the applicant are such as to warrant exemption;
- (b) the extent to which the imposition of conditions on an exemption, or to which the requirements of other laws, would allow the exempt customers access to appropriate rights and protections rather than requiring the applicant to obtain a retailer authorisation;
- (c) any other customer related matter the AER considers relevant.

Division 7—Miscellaneous

119—Public Register of Authorised Retailers and Exempt Sellers

The AER must maintain, and publish on its website, a Public Register of Authorised Retailers and Exempt Sellers, which—

- (a) must include particulars of authorised retailers and exempt sellers, and other particulars, as required by the Rules; and
- (b) may include other particulars or information as permitted by the Rules.

120—Revocation process—retailer authorisations and exemptions

- (1) This section sets out the revocation process in relation to a retailer authorisation or an exempt seller's exemption (see sections 107 and 111), and in this section—
 - (a) the term *holder* refers to the retailer or exempt seller; and
 - (b) the term *authorisation* refers to the retailer's retailer authorisation; and
 - (c) the term *exemption* refers to the exempt seller's exemption.
- (2) The AER must give the holder a notice that it intends to revoke the authorisation or exemption.
- (3) The notice must set out the reasons why the AER considers that the grounds for revocation exist.
- (4) The notice must request the holder to respond to the notice in writing (by a date and time specified in the notice, being a date not less than 10 business days after the date of service of the notice) by doing either or both of the following:
 - (a) showing cause why the AER should not revoke the authorisation or exemption;
 - (b) stating how the holder proposes to address the matters set out in the notice.
- (5) If, by the date and time referred to in the notice, the holder has not shown sufficient cause why the AER should not revoke the authorisation or exemption, the AER may revoke the authorisation or exemption if—
 - (a) the holder has, by that date and time, stated how the holder proposes to address the matters set out in the notice but the AER is not satisfied that the holder can rectify the matters set out in the notice; or
 - (b) the holder has, by that date and time, failed to state how the holder proposes to address the matters set out in the notice.
- (6) Without limiting subsection (5), the AER may revoke the authorisation or exemption if—

 - (b) the holder fails to rectify those matters after being given a reasonable opportunity to do so or otherwise by the date nominated by the holder under paragraph (a).
- (7) The AER—
 - (a) must fix a time for the revocation to take effect; and

- (b) may, after consulting AEMO, impose conditions on the transfer of customers to another retailer or exempt seller.
- (8) Without limitation, a condition may require the holder (or former holder) to comply with specified requirements of energy laws, with any modifications specified in the condition. Any such requirement may continue, to the extent necessary, to apply to the holder (or former holder) after the revocation of the authorisation or exemption.
- (9) The AER must publish on its website a copy of its decision to revoke the authorisation or exemption, including the reasons and any conditions that are imposed.
- (10) The AER must advise AEMO and the distributors concerned where an authorisation or exemption is revoked.
- (11) A holder (or former holder) must comply with any conditions imposed on the holder (or former holder) under this section.

Division 2—Registration of RoLRs

123—RoLR criteria

- (1) The RoLR criteria in relation to a retailer are as follows:
 - (a) the organisational and technical capacity criterion—the extent to which the retailer has the necessary organisational and technical capacity to meet the obligations of a RoLR, either by—
 - (i) having adequate systems in place for that purpose; or
 - (ii) being able to implement adequate systems in a timely manner for that purpose;
 - (b) the financial resources criterion—the extent to which the retailer has adequate resources or access to adequate resources so that it will have the financial viability and financial capacity to meet the obligations of a RoLR;

Note—

One matter to take into consideration under this criteria may be whether a retailer has hedging contracts adequate for it to be a RoLR.

- (c) the suitability criterion—whether the retailer is a suitable person to be a RoLR, taking into consideration—
 - (i) the number of customers the retailer has; and
 - (ii) the class or classes of customers the retailer has; and
 - (iii) the area or areas that the retailer currently serves; and
 - (iv) in the case of gas and where there is no declared wholesale gas market or short term trading market—whether and to what extent the retailer has—
 - (A) gas available to it by means of a distribution pipeline; and
 - (B) capacity available to it on that distribution pipeline and any relevant transmission pipeline,
sufficient for it to be a RoLR;
 - (d) any other relevant matters specified in the energy laws;
 - (e) any other matters the AER considers relevant in the circumstances.
- (2) In this section, *transmission pipeline* and *distribution pipeline* have the same meanings as they have in the NGL.

124—Expressions of interest for registration as a RoLR

- (1) The AER must both initially and afterwards at such times as it considers appropriate call for an expression of interest (*RoLR register EoI*) from retailers for registration as a RoLR.
- (2) A RoLR register EoI may be lodged by a retailer with the AER either in response to an AER call for expressions of interest or at any other time.
- (3) A RoLR register EoI must contain such information as will enable the AER to take the RoLR criteria into consideration in relation to the retailer and otherwise be in accordance with the AER RoLR Guidelines.
- (4) A RoLR register EoI may contain proposals as to—
 - (a) customers or classes of customers the retailer will accept as its customers if it were to be appointed a designated RoLR in respect of a RoLR event; and
 - (b) numbers of customers the retailer will accept if it were to be appointed a designated RoLR in respect of a RoLR event; and
 - (c) variation to the retailer's RoLR cost recovery scheme.
- (5) Subsections (3) and (4) do not limit the information that may be included in a RoLR register EoI or the proposals that a retailer may make in that expression of interest.
- (6) The AER may, after receipt of a RoLR register EoI, request from the retailer such additional information as the AER considers reasonably necessary for it to make a decision with respect to the RoLR register EoI. The retailer must comply with any such request.
- (7) The AER must publish a notice of each RoLR register EoI on its website.

125—Appointment and registration as a default RoLR

- (1) The AER must appoint and register a default RoLR for—
 - (a) in the case of electricity—each connection point; and
 - (b) in the case of gas—each distribution system of each distributor.
- (2) The AER must ensure that there is one and no more than one default RoLR registered for each connection point (in the case of electricity) and for each distribution system (in the case of gas) at all times.
- (3) Lodgement of a RoLR register EoI is not a precondition to the AER appointing and registering a retailer as a default RoLR although if the AER proposes to appoint and register a retailer as a default RoLR without a RoLR register EoI first being lodged, the AER must consult with the retailer before appointing and registering the retailer.
- (4) A retailer that the AER proposes to appoint and register as a default RoLR must provide the AER with such information as the AER considers reasonably necessary to make the appointment and register the retailer as a default RoLR.
- (5) A retailer's concurrence is not required for appointment and registration as a default RoLR.
- (6) The AER must take the RoLR criteria into consideration when deciding whether to appoint and register a retailer as a default RoLR.
- (7) The AER must not appoint and register a retailer as a default RoLR if the retailer does not satisfy all the requirements of the RoLR criteria unless otherwise there would be no default RoLR for a connection point (in the case of electricity) or a distribution system (in the case of gas) and the AER is satisfied that the retailer most nearly satisfies the financial resources criterion (see section 123(1)(b)).
- (8) If a retailer does not, at the time of registration as a default RoLR, meet the organisational and technical capacity criterion (see section 123(1)(a)), the retailer must as soon as practicable after registration implement adequate systems to meet that criterion and advise the AER when those systems are implemented.
- (9) The AER may terminate a retailer's appointment and registration as a default RoLR at any time, but is not obliged to do so.
- (10) The AER must publish on its website notice of any appointment of a default RoLR or termination of an appointment under this section.
- (11) A retailer is not entitled to be appointed and registered as a default RoLR even though it satisfies (or appears to satisfy) the RoLR criteria.

126—Registration of additional RoLRs

- (1) The AER may register one or more retailers as an additional RoLR for a connection point (in the case of electricity) or a distribution system (in the case of gas).
- (2) The AER must take the RoLR criteria into consideration when deciding whether to register a retailer as an additional RoLR.
- (3) The AER must not register a retailer as an additional RoLR unless the retailer has lodged a RoLR register EoI.
- (4) A retailer registered as an additional RoLR may be registered as a RoLR in addition to the default RoLR registered for the connection point or distribution system concerned.

- (5) A retailer who, in the case of electricity, is a default RoLR for a connection point may be registered as an additional RoLR for any connection point for which it is not the default RoLR.
- (6) A retailer who, in the case of gas, is a default RoLR for a distribution system may be registered as an additional RoLR for any distribution system for which it is not the default RoLR.
- (7) The AER may at the same time as it registers a retailer as an additional RoLR, and if the retailer consents, impose conditions as to—
 - (a) customers or classes of customers that may be transferred to the retailer as its customers if it is appointed a designated RoLR in respect of a RoLR event; and
 - (b) numbers of customers that may be transferred to the retailer if it is appointed a designated RoLR in respect of a RoLR event; and
 - (c) variations of the retailer's RoLR cost recovery scheme.
- (8) Subsection (7) does not limit the conditions that the AER may impose with the retailer's consent.
- (9) A retailer is not entitled to registration as an additional RoLR even though it satisfies or appears to satisfy the RoLR criteria.
- (10) The AER must publish on its website notice of registration of an additional RoLR.

127—Register of RoLRs

- (1) The AER must maintain, and publish on its website, a register of RoLRs (the ***RoLR register***) which—
 - (a) must include particulars of RoLRs registered under this Division, including—
 - (i) whether the RoLR is registered as a default RoLR (and, if so, for which connection points or distribution systems); and
 - (ii) whether the RoLR is registered as an additional RoLR (and, if so, what conditions apply to its registration); and
 - (b) may include other particulars or information the AER considers necessary or desirable.
- (2) If the AER registers a retailer as a RoLR, it must enter the particulars of the retailer on the RoLR register.
- (3) If the AER decides to terminate the registration of a retailer as a RoLR, it must remove the particulars of the retailer from the RoLR register. Termination and removal of a retailer from the RoLR register (or, in the case of a default RoLR, termination of its appointment and registration as a default RoLR and removal from the register) does not affect any accrued rights or obligations that the retailer had by reason of its registration.
- (4) A RoLR whose particulars are entered on the RoLR register is a registered RoLR for so long as its particulars remain on the RoLR register.

128—Termination of registration as a RoLR

- (1) The registration of a RoLR (other than a default RoLR) may be terminated in either of the following ways:
 - (a) the registered RoLR applying to the AER pursuant to this section for its registration to be terminated;
 - (b) the AER giving to the registered RoLR a notice to show cause why its registration should not be terminated.
- (2) If the AER gives a retailer a notice to show cause under subsection (1)(b), the notice must state that any submissions by the registered RoLR must be made to the AER within a specified period of at least 20 business days.
- (3) The AER must publish on its website—
 - (a) a notice of any application under subsection (1)(a); and
 - (b) any notice to show cause under subsection (1)(b).
- (4) Any such notice published on the AER website must invite submissions on the application or the notice to show cause within a specified period of at least 20 business days.
- (5) The AER may, after considering any submissions made to it, terminate the RoLR's registration.
- (6) If the AER terminates the RoLR's registration, it must publish notice of the termination on its website.

129—New basis for registration as a RoLR

- (1) If AEMO advises the AER that a RoLR may be registered on a basis other than for a connection point (in the case of electricity) or a distribution system (in the case of gas), the AER may register the RoLR on that basis (the *new basis*).

Note—

There still must be (disregarding any failed retailer) no more than one default RoLR for the matter or thing that comprises the new basis for registration.

- (2) Notice of the new basis for registration must be published by the AER on its website.
- (3) References in this Division to a connection point (in the case of electricity) or a distribution system (in the case of gas) are taken to include a reference to any new basis for registration.

Division 3—Contingency events

130—AER's powers

- (1) If the AER receives notice of or otherwise becomes aware of any event, circumstance or matter that it has reason to believe may or will affect, or give rise to some risk of affecting, continuity of the sale of energy to a retailer's customers, the AER may act under this Division.
- (2) Events, circumstances or matters for the purposes of this Division include (without limitation) any of the following:
 - (a) the events and circumstances that constitute a RoLR event;

- (b) any material default by the retailer in provision of required credit support to a distributor under the NER or NGR as appropriate;
 - (c) any material default by the retailer in payment of network charges;
 - (d) any other material default by the retailer with respect to its obligations under energy laws with respect to the payment of money, the provision of securities or otherwise of a financial nature.
- (3) It is not a prerequisite for the AER to act under this Division that an event, circumstance or matter has come into existence, and the AER may instead so act if it has reason to believe that there is some risk that the event, circumstance or matter may come into existence.
- (4) In acting under this Division the AER may do any of the following:
 - (a) request information (*financial information*) from the retailer including (but not limited to) any of the following:
 - (i) details of any parent company guarantees;
 - (ii) details of cash flow;
 - (iii) details of amounts owing to distributors;
 - (iv) details of the retailer's current financial position together with the most recent financial statements of the retailer;
 - (b) subject to and in accordance with the confidentiality provisions applicable to this Division—
 - (i) consult with AEMO; and
 - (ii) for that purpose disclose some or all of the financial information to AEMO and its officers or employees.
- (5) If the AER has reason to believe that there is a risk of a RoLR event, the AER may, subject to and in accordance with the confidentiality provisions applicable to this Division, do any of the following:
 - (a) inquire of one or more registered RoLRs as to whether it wants to be appointed designated RoLR for that event;
 - (b) give notice of that belief and of the grounds for the belief to one or more of the following:
 - (i) distributors;
 - (ii) registered RoLRs of whom the inquiries are made;
 - (iii) relevant default RoLRs;
 - (iv) such other person as the AER considers relevant,but it must, in any such case, give notice of that belief and of the grounds for the belief to AEMO and Ministers of participating jurisdictions.
- (6) The AER may, subject to and in accordance with Division 7, issue a RoLR regulatory information notice to obtain the financial information.

131—Confidentiality provisions

- (1) This section contains confidentiality provisions applicable to this Division and also applies where the AER serves a regulatory information notice in connection with the exercise of the AER's functions and powers under this Division.
- (2) In the case of the AER, it must keep confidential—
 - (a) its request for financial information (including, if it issues one, the issue of a regulatory information notice to obtain the information) and the financial information provided in response to the request; and
 - (b) both its belief as to the risk of a RoLR event and the fact and nature of its inquiries of registered RoLRs,

but it may disclose any or all of those matters or that financial information as allowed or required by this Division or otherwise in accordance with Division 3 of Part 8.

- (3) In the case of AEMO, it must keep the fact and nature of the consultations between it and the AER, the financial information and the AER notice given under section 130(5)(b) confidential, but it may disclose them in accordance with Division 6 of Part 5 of the NEL and Division 7 of Part 6 of Chapter 2 of the NGL.
- (4) In the case of persons other than the AER and AEMO who are given the AER notice of the risk of a RoLR event, they must keep the fact and nature of the notice (and the information it contains) confidential and—
 - (a) must use it only for the purpose of preparing for the RoLR event; and
 - (b) must not (in the case of the default RoLR or registered RoLR of whom the AER's inquiries are made) disclose the notice, its issue and information to any member of its marketing staff; and
 - (c) may disclose it to third parties only if those third parties also agree to be bound by the same confidentiality requirements as those persons are subject to under this Law,

except to the extent that—

- (d) the notice is in the public domain; or
 - (e) the AER or AEMO has published the notice in accordance with this Division; or
 - (f) the retailer the subject of the notice has published the notice under Chapter 6CA of the *Corporations Act 2001* of the Commonwealth; or
 - (g) a Minister has published the notice in the case of an emergency or in a case where that Minister considers it is otherwise necessary or desirable to do so in the public interest.
- (5) The matters and financial information referred to in subsection (3) are taken to be protected information for the purposes of the provisions of the NEL and NGL referred to in that subsection.

Division 4—Appointment of designated RoLRs

132—Designation of registered RoLR for RoLR event

- (1) If a RoLR event occurs the default RoLR is taken to be appointed as the designated RoLR in respect of that event.
- (2) Despite subsection (1), the AER may, by notice in writing, appoint a registered RoLR as a designated RoLR in respect of a RoLR event before the event actually occurs. If such an appointment is made and the AER gives a copy of the notice to AEMO before the transfer date, the registered RoLR is taken to be the designated RoLR in respect of that event instead of the default RoLR.
- (3) Appointment as a designated RoLR takes effect immediately or from an earlier or later time specified in or fixed in accordance with the RoLR notice for the RoLR event.
- (4) The AER must notify a registered RoLR before appointing it as a designated RoLR, but the registered RoLR's consent is not required for appointment.
- (5) If—
 - (a) the AER includes a direction under section 137 in a RoLR notice; and
 - (b) there is more than one distributor who will receive the direction; and
 - (c) the distribution systems of those distributors are connected to the same transmission pipeline,

only the same designated RoLR may, despite any other provision of this Part, be appointed (or be taken to be appointed) as the designated RoLR for each of those distribution systems.

133—Criteria for RoLR designation

- (1) In determining whether to appoint a registered RoLR as a designated RoLR, the AER must take into consideration—
 - (a) the RoLR criteria; and
 - (b) whether the registered RoLR has a RoLR cost recovery scheme (see Division 9 and subsection (2)) and if so what costs are recoverable pursuant to that scheme and the amount or likely amount of those costs; and
 - (c) the imminence of the RoLR event; and
 - (d) any other matters the AER considers relevant in the circumstances.
- (2) The registered RoLR and the AER may by agreement vary the RoLR's cost recovery scheme for the purposes of this section, and the reference in subsection (1)(b) to the RoLR cost recovery scheme is accordingly a reference to that scheme as so varied.

134—Appointment of more than one designated RoLR for RoLR event

- (1) The AER may appoint more than one designated RoLR for a RoLR event if the AER is of the opinion that it is appropriate to do so having regard to the size of, or other circumstances surrounding, the event.
- (2) When making the appointments, the AER must allocate responsibility for particular customers or classes of customers to each designated RoLR in the manner specified in guidelines under section 135(2)(b).

- (3) The AER must, to the maximum practicable extent, make the appointments and allocations in accordance with the AER RoLR Guidelines except to the extent that the AER is satisfied that compliance with the guidelines would be inappropriate in the circumstances.

135—AER RoLR Guidelines

- (1) The AER must develop, make and maintain AER RoLR Guidelines in accordance with the retail consultation procedure.
- (2) The guidelines must—
 - (a) specify the circumstances in which the appointment of more than one designated RoLR for a RoLR event may occur; and
 - (b) specify the manner of determining the allocation of the designated RoLRs to particular customers or classes of customers; and
 - (c) provide for any other matter that the AER considers necessary in the circumstances.
- (3) The guidelines may (without limitation) make different provision for the failure of large retailers, small retailers and retailers that are default RoLRs.
- (4) The manner of determining the allocation of designated RoLRs referred to in subsection (2) must involve the use of meter identifiers alone or the use of a combination of meter identifiers and other means acceptable to AEMO, and must be determined by the AER in consultation with AEMO.
- (5) The guidelines may (without limitation)—
 - (a) specify the form of and information to be included in a RoLR register EoI; and
 - (b) specify the form of and information to be included in an application for a RoLR cost recovery scheme; and
 - (c) provide for any other matter the AER considers necessary with respect to the RoLR scheme.
- (6) The AER may amend the guidelines in accordance with the retail consultation procedure.

Division 5—Declaration of RoLR event

136—Issue of RoLR notice

- (1) The AER must issue a notice (a *RoLR notice*) as soon as practicable after a RoLR event occurs.
- (2) The RoLR notice must—
 - (a) state that the RoLR event has occurred and identify it; and
 - (b) specify the failed retailer; and
 - (c) specify the registered RoLR or registered RoLRs appointed by the notice (or taken to be appointed) under section 132 as designated RoLR or designated RoLRs for the event; and

- (d) if more than one designated RoLR is appointed—specify, in accordance with the AER RoLR Guidelines, the allocation of each designated RoLR to particular customers or classes of customers; and
 - (e) specify the date, or the manner of fixing the date, (either of which is the *transfer date*) on which the customers of the failed retailer are transferred to the relevant designated RoLR under section 140; and
 - (f) contain the endorsement revoking the failed retailer’s retailer authorisation, where applicable, under section 142; and
 - (g) include any other information or matters the AER considers necessary or desirable.
- (3) The RoLR notice may contain requirements (not inconsistent with this Law or the RoLR Procedures) to be complied with by—
- (a) the failed retailer; and
 - (b) a designated RoLR; and
 - (c) subject to section 143(3), other persons on whom the notice is served,
- in relation to the RoLR event and in particular in relation to the transfer of customers.
- (4) The RoLR notice must be framed so as to deal with all customers of the failed retailer, but a failure to do so does not invalidate the notice and the notice has effect for the customers covered by it.
- (5) The transfer date may be on, before or after the date of service or publication of the RoLR notice, but if the RoLR event is—
- (a) the revocation of the retailer’s retailer authorisation; or
 - (b) the suspension of the retailer’s right to participate—
 - (i) in the case of electricity—in the wholesale exchange market; or
 - (ii) in the case of gas—either in the declared wholesale gas market or in a short term trading market,
- the transfer date is taken to be the date of the revocation or suspension (as the case may be), unless an earlier date is specified or fixed.
- (6) The AER may amend a RoLR notice by a later notice issued by the AER, but a RoLR notice cannot be amended so as to change—
- (a) a transfer date if the date has already been reached; or
 - (b) without the consent of AEMO and the designated RoLR, an allocation of a customer if AEMO has acted on the allocation or if changing the allocation would (or would be likely to) affect continuity of the sale of energy to customers.

137—RoLR notice—direction for gas

- (1) If, in the case of gas, there is no declared wholesale gas market or short term trading market or where, in the opinion of the AER, sufficient capacity or gas is not available in a short term trading market, the AER may include a direction in a RoLR notice to the effect of any or all of the following:
 - (a) a distributor must make available to a designated RoLR the capacity that was available, immediately before the transfer date, to the failed retailer on the distributor's distribution pipeline;
 - (b) a service provider for a transmission pipeline must make available to a designated RoLR the capacity that was available, immediately before the transfer date, to the failed retailer on the provider's transmission pipeline;
 - (c) a producer or any other person that has contracted to sell gas to the failed retailer must make available to a designated RoLR the gas that was contracted to the failed retailer.
- (2) In forming its opinion under subsection (1) as to whether or not sufficient gas is available in a short term trading market, the AER may proceed on the assumption that there is not sufficient gas unless, before the issue of a RoLR notice, AEMO notifies the AER in writing that there is sufficient gas.
- (3) The following subsections of this section apply if the AER includes a direction under subsection (1).
- (4) The designated RoLR may, but is not obliged to, use any or all of the capacity or take any or all of the gas made available to it by a person who received a direction under subsection (1).
- (5) The terms and conditions for the transmission, distribution, sale and supply of gas to the designated RoLR—
 - (a) are—
 - (i) if there is an applicable access arrangement with respect to the distribution pipeline or transmission pipeline—to be in accordance with that applicable access arrangement, including (if the applicable access arrangement is a limited access arrangement) at the price paid or payable by the failed retailer; or
 - (ii) if there is no applicable access arrangement—to be on the same terms and conditions as the contract for pipeline services (however the contract is named in the contract or elsewhere, but referred to in this section as the *haulage contract*) in force with the failed retailer immediately before the transfer date; and
 - (b) are otherwise to be the same terms and conditions as in the gas sale and purchase contract (however the contract is named in the contract or elsewhere, but referred to in this section as the *gas sale contract*) in force with the failed retailer immediately before the transfer date.

- (6) Despite subsection (5), if the terms and conditions of the haulage contract or the gas sale contract materially differ from those that otherwise prevail in the market, the AER may specify in the RoLR notice (or an amendment, which may have effect back to the transfer date) terms and conditions that, in its opinion, better accord with those that otherwise prevail in the market.
- (7) In forming its opinion under subsection (6) as to terms and conditions that better accord with those that otherwise prevail in the market, the AER may (without limitation) take into account the individual circumstances of the failed retailer and the designated RoLR.
- (8) The designated RoLR and distributor or service provider of the transmission pipeline (as the case may be) must, as soon as practicable after the transfer date, commence negotiations for a replacement contract for pipeline services.
- (9) If a replacement contract is agreed, the direction ceases to have effect as from the date the replacement contract has effect.
- (10) If, after 3 months from the transfer date, no replacement contract has been agreed—
 - (a) either party may commence an access dispute under Chapter 6 of the NGL; and
 - (b) the provisions of section 91BH(4) of the NGL apply to the access dispute in the same way as they apply to a determination by the AER of an access dispute referred to in those provisions; and
 - (c) the direction continues in force for the haulage contract until an access determination has effect under section 184(4) of the NGL.
- (11) For the purposes of subsection (10)(a), the failure to agree to a replacement contract is taken to be an access dispute within the meaning of section 178 of the NGL regardless of whether the pipeline concerned is a scheme pipeline within the meaning of section 2 of the NGL.
- (12) If the gas sale contract in its terms continues in force despite the RoLR event—
 - (a) the insolvency official of the failed retailer or the failed retailer (as the case may be) must as soon as practicable after the transfer date commence negotiations with the designated RoLR and the producer or other person who was under the contract selling gas to the failed retailer for—
 - (i) the novation of the contract; or
 - (ii) its termination and replacement by a new contract, between the designated RoLR and the producer or other person; and
 - (b) if a novation or replacement contract is agreed, the direction ceases to have effect for the gas sale contract as from the date the novation or replacement contract has effect; and
 - (c) if, after 3 months from the transfer date, there is no agreement—
 - (i) the insolvency official or failed retailer (as the case may be) must put the gas that is the subject of the contract up for sale by auction and must use their best endeavours to ensure that the auction is completed and the gas is sold within 6 months of the transfer date; and

- (ii) the insolvency official or failed retailer (as the case may be) and the producer or other person who was under the contract selling gas to the failed retailer must execute all documents required for both the auction and the sale of gas, including any new gas sale and purchase contract (however named in the contract or elsewhere) or any novation contract consequent on the auction; and
 - (iii) when the gas has been sold, the direction ceases to have effect for the gas sale contract.
- (13) If the gas sale contract in its terms terminates or is terminated because of the RoLR event—
 - (a) the producer or other person who was under the contract selling gas to the failed retailer (as the case may be) must as soon as practicable after the transfer date commence negotiations with the designated RoLR for a new contract between the designated RoLR and the producer or other person; and
 - (b) if a new contract is agreed, the direction ceases to have effect for the gas sale contract as from the date the replacement contract has effect; and
 - (c) if, after 3 months from the transfer date, there is no agreement—
 - (i) the producer or other person who was under the terminated contract selling gas to the failed retailer (as the case may be) must put the gas that is the subject of the terminated contract up for sale by auction and must use their best endeavours to ensure that the auction is completed and the gas is sold within 6 months of the transfer date; and
 - (ii) the producer or other person who was under the terminated contract selling gas to the failed retailer (as the case may be) must execute all documents required for both the auction and the sale of gas, including any new gas sale and purchase contract (however named in the contract or elsewhere) consequent on the auction; and
 - (iii) when the gas has been sold, the direction ceases to have effect for the gas sale contract.
- (14) In this section, *access determination*, *distribution pipeline*, *limited access arrangement*, *pipeline services*, *producer*, *service provider* and *transmission pipeline* have the same meanings as in the NGL and *distributor* includes a service provider for a pipeline that is not a scheme pipeline within the meaning of the NGL.

138—Service and publication of RoLR notice

- (1) A RoLR notice or a notice amending a RoLR notice—
 - (a) must be given to—
 - (i) the failed retailer at its registered office and (if different) its principal place of business; and
 - (ii) any insolvency official of the failed retailer; and
 - (iii) AEMO; and
 - (iv) the designated RoLR or RoLRs; and

- (v) the distributors; and
 - (vi) the Ministers of the participating jurisdictions; and
 - (b) may be given to any other person whom the AER considers appropriate to be served; and
 - (c) must be published on the AER's website; and
 - (d) must be published by AEMO and copies provided by AEMO to all Registered participants within the meaning of the NEL and NGL.
- (2) The notice should, if reasonably practicable, be given before being published, but prior publication does not affect the validity or operation of the notice.
- (3) The notice is effective, in accordance with its terms, on and from the date of service or the date of publication, whichever first occurs.

139—Publication requirements for RoLR events

- (1) Notice of a RoLR event must be published on—
- (a) the AER's website; and
 - (b) AEMO's website; and
 - (c) the failed retailer's website, if possible; and
 - (d) the designated RoLR's website.
- (2) Recorded or live messages giving information about the RoLR event must be readily available on—
- (a) the failed retailer's call centre telephone number, if possible; and
 - (b) the AER's call centre telephone number; and
 - (c) the designated RoLR's call centre telephone number.
- (3) If and to the extent the AER considers it necessary or desirable to do so, the AER may place advertisements in newspapers or on radio and television in the area or areas served by the failed retailer giving information about the RoLR event.
- (4) This section does not prevent a RoLR plan—
- (a) having requirements for notification directly to customers by the designated RoLR (or by any other person) of a RoLR event or of the change of retailer, or both; or
 - (b) making additional provision for publication of a RoLR event.

140—Transfer of responsibility

- (1) Each person who was a customer of a failed retailer immediately before the transfer date—
- (a) ceases, by force of this Law, to be a customer of the failed retailer on that date; and
 - (b) becomes, by force of this Law, a customer of the relevant designated RoLR immediately after so ceasing to be a customer of the failed retailer.

- (2) On and from the transfer date, and in relation to the customers transferred to it and subject to and in accordance with the RoLR Procedures, the designated RoLR assumes the functions and powers of the failed retailer under the energy laws, including (without limitation)—
- (a) for electricity—in the case of any metering installation where the failed retailer was as at the transfer date the responsible person, the designated RoLR becomes, by force of this Law, the responsible person; and
 - (b) for electricity—in the case of any other metering installation in respect of which there is as at the transfer date an agreement in force under rule 7.2.3 of the NER between the failed retailer and the Local Network Service Provider, the designated RoLR becomes, by force of this Law, party to that agreement in place of the failed retailer; and
 - (c) for electricity—in any case where the failed retailer (in its capacity as responsible person) has entered into an agreement under rule 7.2.5 of the NER with a Metering Provider, the designated RoLR by force of this Law becomes, by force of this Law, party to that agreement in place of the failed retailer; and
 - (d) any function or power prescribed by the National Regulations for the purposes of this section; and
 - (e) any function or power specified in energy laws for the purposes of, or in connection with matters provided under, this section.
- (3) The designated RoLR assumes no financial or other liabilities of the failed retailer under an agreement referred to in subsection (2) where that liability accrues before the transfer date.
- (4) The designated RoLR must, if it is notified by the AER, the failed retailer, an insolvency official or a distributor that the premises of a customer of the failed retailer has life support equipment, comply with the obligations as to life support equipment that apply to retailers under the Rules as if the designated RoLR had been notified by the customer.
- (5) The designated RoLR must, if it is notified by a customer, the AER, the failed retailer, an insolvency official or a distributor that the customer is in receipt of a tariff payment, credit or other benefit referred to in section 154(2)(h), comply with the feed-in arrangement concerned.
- (6) Subject to the RoLR Procedures—
- (a) transfers of customers to the failed retailer from another retailer that were under way as at the transfer date are to cease on and from that date; and
 - (b) those customers instead remain customers of that other retailer on their previous contractual terms and conditions with that retailer; and
 - (c) despite anything to the contrary in the previous contract with such a customer, the customer may terminate the contract with that other retailer on one month's notice or a lesser period allowed by the previous terms and conditions.

- (7) Subject to the RoLR Procedures, if a large customer in electricity has notified AEMO in writing before the transfer date as to who its retailer (the *nominated retailer*) will be in a RoLR event and that it has agreed terms and conditions with the nominated retailer, and the nominated retailer has also notified AEMO in writing that it has agreed to be the nominated retailer for that customer—
- (a) AEMO may transfer that customer to the nominated retailer rather than the designated RoLR; and
 - (b) the customer becomes, by force of this Law, a customer of the nominated retailer as at the transfer date on the terms and conditions agreed between the large customer and the nominated retailer.
- (8) In this section, *Local Network Service Provider*, *metering installation*, *Metering Provider* and *responsible person* have the same meanings as in the NER.

141—Termination of customer retail contracts

- (1) The contract for the sale of energy between a failed retailer and each person who was a customer of the retailer immediately before the transfer date is terminated on the transfer date by force of this Law.
- (2) Termination of a contract under this section does not affect any rights and obligations that have already accrued under the contract, but no early termination charge is payable where a contract is terminated under this section.
- (3) Subsection (1) has effect even though the financially responsible retailer might not change from the failed retailer to the relevant designated RoLR until after the transfer date.
- (4) Any complaint or dispute between a failed retailer and a small customer (whether the complaint or dispute arose on, before or after the transfer date) may continue to be dealt with as if the failed retailer's authorisation has not been revoked under section 142, and—
- (a) Part 4 continues to apply to the complaint or dispute; and
 - (b) an insolvency official of the failed retailer is also subject to and bound by Part 4 in dealing with the complaint or dispute.
- (5) The insolvency official of a failed retailer or the failed retailer (as the case may be) must take steps to cancel with effect on and from the transfer date any direct debit authorisations (including any Centrepay deductions) that are in place for any customer of the failed retailer. Cancellation of a direct debit authorisation does not affect a customer's obligation to pay for any energy consumed before the transfer date.
- (6) If a customer of a failed retailer has paid amounts to the retailer in advance towards the customer's energy bill, the insolvency official of the failed retailer or the failed retailer (as the case may be) must—
- (a) apply those amounts to the payment of the customer's account, but only insofar as that payment is for energy consumed before the transfer date; and
 - (b) pay any balance remaining to the customer.
- (7) If a customer has paid the failed retailer in whole or in part for a service order and as at the transfer date the order has not been completed—
- (a) the designated RoLR may—

- (i) place the order with the relevant distributor; and
 - (ii) if the order has already been placed, take steps to ensure its completion; and
 - (b) the customer is not liable to pay for the order except to the extent that the customer had not already paid as at the transfer date.
- (8) If a payment plan is in force with the failed retailer, the failed retailer or insolvency official (as the case requires) or their assignees must continue to comply with that plan insofar as it provides for the payment by instalments of any arrears that are outstanding as at the transfer date.
- (9) Any security deposit paid by a small customer to a failed retailer (and any interest accrued on that deposit) must be refunded to the customer by the failed retailer or insolvency official without any deduction other than in respect of energy consumed (but not paid for) before the transfer date.
- (10) If a small customer is on a prepayment meter market retail contract, a payment equal to the value of any credit remaining in the prepayment meter system account as at the transfer date must be made by the failed retailer or insolvency official to the small customer without any deduction.

142—Revocation of retailer authorisation

- (1) If a failed retailer has not already had its authorisation revoked under this Law, the AER may at the same time as it issues the RoLR notice for the retailer, and by endorsement on that notice, revoke the retailer authorisation with effect from the transfer date.
- (2) Divisions 5 and 7 of Part 5 do not apply in relation to the revocation of a retailer authorisation under this section, but nothing prevents the AER from applying the revocation process referred to in those Divisions, or any aspect of it, in relation to the revocation if the AER so decides.

143—Compliance requirements following service of RoLR notice

- (1) AEMO must, in relation to the RoLR event concerned, comply with the applicable requirements of the notice, this Part, the RoLR Procedures and the National Regulations.
- (2) The failed retailer, any insolvency official of the failed retailer and anyone else given a RoLR notice must, in relation to the RoLR event concerned—
- (a) comply with the notice; and
 - (b) comply with the applicable requirements of—
 - (i) this Part; and
 - (ii) the RoLR Procedures; and
 - (iii) the National Regulations.

Note—

Subsection (2)(a) is a civil penalty provision.

- (3) A RoLR notice cannot impose requirements on a Minister of a participating jurisdiction without the consent of that Minister.

 - (b) without limiting paragraph (a)—
 - (i) any matter referred to in section 149(2); and
 - (ii) the transfer of customers from failed retailers to designated RoLRs; and
 - (iii) the acceleration or cancellation of open transactions; and
 - (iv) audits and reviews;
 - (c) without limiting paragraphs (a) and (b)—
 - (i) in the case of electricity—any matter that the Retail Market Procedures, including B2B Procedures, the Market Settlement and Transfer Solution (MSATS) Procedures and metrology procedure deal with insofar as any of those procedures make provision at the commencement of this section with respect to RoLR events; and
 - (ii) in the case of gas—any matter that the relevant Retail Market Procedures deal with insofar as those procedures make provision at the commencement of this section with respect to RoLR events;
 - (d) any other matter relevant to the RoLR scheme;
 - (e) any matter consequential on or related to any of the above.
- (2) Procedures that AEMO makes pursuant to this section may—
 - (a) apply to electricity or gas separately; and
 - (b) vary according to the persons, times, places or circumstances to which they are expressed to apply; and

 - (f) confer power on AEMO to require a person on whom a right is conferred, or an obligation imposed, under the procedures—
 - (i) to comply with a guideline, standard or other document of an administrative nature; or
 - (ii) to conduct, or submit to, a test designed by AEMO under the procedures; and
 - (g) exempt, or confer a power of exemption, from the application of the procedures or specified provisions of the procedures; and

- (h) contain provisions of a savings or transitional nature.
- (3) AEMO must not, without the consent of the MCE, make procedures pursuant to this section that confer a right or function, or impose an obligation, on the MCE or a Minister of a participating jurisdiction.
- (4) Procedures made pursuant to this section cannot—
 - (a) create an offence; or
 - (b) provide for a civil penalty.
- (5) Procedures made pursuant to this section are referred to in this Part as ***RoLR Procedures***.

Division 6—Arrangements for sale of energy to transferred customers

145—Contractual arrangements for sale of energy to transferred small customers

- (1) This section applies where a person who was a small customer of a failed retailer immediately before the transfer date becomes, by force of this Law, a customer of the relevant designated RoLR.
- (2) An arrangement (a ***RoLR deemed small customer retail arrangement***) is taken to apply between the relevant designated RoLR and the small customer with effect on and from the transfer date.
- (3) The terms and conditions of the RoLR deemed small customer retail arrangement are the terms and conditions of the relevant designated RoLR's standard retail contract.
- (4) The prices applicable to the RoLR deemed small customer retail arrangement are the relevant designated RoLR's standing offer prices, with any variations in accordance with or consequent on the applicable RoLR cost recovery scheme determined under Division 9.
- (5) This section has effect even though the failed retailer might not cease to be the financially responsible retailer for the premises of the small customer until after the transfer date.

146—Contractual arrangements for sale of energy to transferred large customers

- (1) This section applies where a person who was a large customer of a failed retailer immediately before the transfer date becomes, by force of this Law, a customer of the relevant designated RoLR (see section 140).

- (3) The terms and conditions of the RoLR deemed large customer retail arrangement are the terms and conditions published by the designated RoLR on its website, but they must be fair and reasonable.
- (4) This section has effect even though the failed retailer might not cease to be the financially responsible retailer for the premises of the large customer until after the transfer date.

147—Duration of arrangements for small customers

- (1) A RoLR deemed small customer retail arrangement ceases to be in operation if a customer retail contract is formed in relation to the premises, but this subsection does not affect any rights or obligations that have already accrued under that arrangement.
- (2) There is no minimum period for the small customer to remain with a designated RoLR on a RoLR deemed small customer retail arrangement.
- (3) If the small customer is still a customer of a designated RoLR on a RoLR deemed small customer retail arrangement at the end of the period of 3 months after the transfer date, a standard retail contract, in the form of the designated RoLR's standard retail contract, is taken to have been formed between the small customer and the designated RoLR.
- (4) After that period of 3 months (but not earlier unless the designated RoLR agrees), the small customer and designated RoLR may seek to negotiate a market retail contract in accordance with section 33.

148—Duration of arrangements for large customers

- (1) A RoLR deemed large customer retail arrangement ceases to be in operation if a contract for the sale of energy is formed in relation to the premises, but this subsection does not affect any rights or obligations that have already accrued under that arrangement.

The designated RoLR is, however, under no obligation to initiate negotiations with the large customer.
- (5) The designated RoLR may terminate the arrangement in accordance with the terms and conditions of the deemed large customer retail arrangement after the end of that period.

Division 7—Information requirements

Subdivision 1—Preliminary

149—Operation of this Division

- (1) This Division does not limit the information for or in connection with a RoLR event that AEMO may require a failed retailer (or its insolvency official) to provide to it, to distributors and to designated RoLRs (or to any of them) under the RoLR scheme, the NEL or NGL or the NER or NGR.

- (2) To avoid doubt, AEMO may under the RoLR Procedures require a failed retailer or its insolvency official to provide to AEMO, distributors or designated RoLRs, for or in connection with a RoLR event, customer details, customer site details information and other customer information, including information that in circumstances other than a RoLR event is not usually provided.

A RoLR regulatory information notice, and section 156, are not to be taken as requiring a person to—

- (a) provide information that is the subject of legal professional privilege; or

161—Protection against self-incrimination

It is a reasonable excuse for a natural person to whom section 156 applies not to comply with a RoLR regulatory information notice served on the person requiring the person to provide information if to do so might tend to incriminate the person, or make the person liable to a criminal penalty, under a law of this jurisdiction or another participating jurisdiction.

Division 8—RoLR plans

162—RoLR plans

- (1) The AER must, in consultation with AEMO and Ministers of participating jurisdictions, develop, make and maintain RoLR plans.

163—Contents of RoLR plans

Without limitation, a RoLR plan must—

- (a) provide that exercises are to be held at such times as the AER considers appropriate and that a report on the conduct of each exercise be published on the AER's website; and

Division 9—RoLR cost recovery schemes

164—Operation of this Division, schemes and determinations

This Division and a RoLR cost recovery scheme under this Division have effect despite anything in the following:

- (a) the NEL and NER;
- (b) the NGL and NGR;
- (c) any distribution determination;
- (d) any applicable access arrangement.

165—RoLR cost recovery

A registered RoLR (including but not limited to a designated RoLR) cannot recover costs incurred in relation to the RoLR scheme except in accordance with a RoLR cost recovery scheme determined under this Division.

166—RoLR cost recovery schemes

- (1) The AER must, on application by a registered RoLR, determine a RoLR cost recovery scheme for the RoLR.
- (2) The application must be in the form and contain the information specified in the AER RoLR Guidelines.
- (3) A RoLR cost recovery scheme is a scheme designed for the recovery by the RoLR of costs incurred by the RoLR in relation to the RoLR scheme, including—
 - (a) in the case of a default RoLR only—costs incurred in preparing for RoLR events; and
 - (b) in the case of a designated RoLR only—costs incurred on and after a RoLR event, including—
 - (i) costs paid to an insolvency official of a failed retailer in respect of anything done under this Part; and
 - (ii) costs paid to a distributor by the RoLR for service orders and not recoverable from the customers concerned or from the failed retailer.

Notes—

- 1 Regarding subparagraph (i) above, see section 171.
- 2 Regarding subparagraph (ii) above, section 141(7) deals with the case where a customer has paid the failed retailer for a service order and the order has not been completed as at the transfer date.

- (4) The AER may, after receipt of an application made under subsection (1), request from the retailer such additional information as the AER considers reasonably necessary for it to determine the application. The retailer must comply with any such request.
- (5) The AER must publish on its website a notice of the application. A notice published pursuant to this subsection must invite submissions on the application within a specified period of at least 20 business days.
- (6) The AER must decide whether to grant or refuse the application.

- (7) The AER must, when making its decision on the application, be guided by the following principles:
- (a) the registered RoLR should be provided with a reasonable opportunity to recover the reasonable costs that it incurs with respect to the RoLR scheme;
 - (b) the recovery of costs should allow for a return commensurate with the regulatory and commercial risks with respect to the RoLR scheme;
 - (c) the registered RoLR will itself bear some of the costs, in proportion to its customer base.

Note—

The AER must also have regard to the national energy retail objective.

- (8) The AER may, in determining a RoLR cost recovery scheme, limit either generally or in particular cases or classes of cases the costs (and the amount of those costs) that are recoverable.
- (9) Without limitation, the AER's determination of a RoLR cost recovery scheme may, so far as it relates to or affects tariffs payable by customers, differ between customers and classes of customers.
- (10) The AER must publish a copy of its decision on its website.

167—RoLR cost recovery scheme distributor payment determination

- (1) The AER must, as part of its determination with respect to a RoLR cost recovery scheme under this Division and after consultation with the distributor or distributors concerned, make a determination (a *RoLR cost recovery scheme distributor payment determination*) that one or more distributors are to make payments towards the costs of the scheme.
- (2) A RoLR cost recovery scheme distributor payment determination is taken to be both a regulatory change event and a positive change event for the purposes of the NER.
- (3) Distributors are required to make payments to a RoLR in accordance with their liability under a RoLR cost recovery scheme distributor payment determination.
- (4) The distribution determination or applicable access arrangement (as the case may be) of each distributor who is to make payments under a RoLR cost recovery scheme distributor payment determination is taken to be amended so that any payments the distributor so makes are taken to be—
- (a) in the case of electricity—positive pass through amounts approved under the NER; or
 - (b) in the case of gas—approved cost pass throughs allowing variation of the distributor's reference tariffs.
- (5) Notwithstanding any other provision of this Division, if a designated RoLR (other than a default RoLR) agrees with the AER that it will seek to recover no costs or only a particular figure or percentage of its costs, the designated RoLR may not afterwards seek to recover any more than as agreed.

Note—

See also section 133(2).

- (6) Section 23(5) does not apply to a retailer in respect of a variation of its standing offer prices as a result of a RoLR cost recovery scheme.

168—Amendment of schemes and determinations

A RoLR cost recovery scheme or a RoLR cost recovery scheme distributor payment determination may be amended by determination of the AER—

- (a) on application by, or after consultation with, the registered RoLR and after consultation with the distributors who are or will be affected; or
- (b) on application by a distributor who is or will be affected and after consultation with the registered RoLR and other distributors who are or will be affected.

Division 10—Miscellaneous

169—Information to be included in customer retail contracts

All customer retail contracts for small customers must include a notice explaining what will happen to the customer's arrangements for the purchase of energy if a RoLR event occurs.

170—Application for retailer authorisation by failed retailer or associate

- (1) If a failed retailer or an associate of a failed retailer applies for a retailer authorisation, the AER may—
 - (a) refuse the application on the ground that the applicant is a failed retailer or an associate of a failed retailer; or
 - (b) grant the application on the condition that the applicant pays a proportion or the whole of the costs of a prior RoLR event as determined by the AER.
- (2) Any payment determined by the AER under subsection (1) is to be made to the relevant distributors (as determined by the AER) and—
 - (a) in the case of electricity—the determination by the AER is taken to be a regulatory change event and negative change event for the purposes of the NER and the payment is taken to be a negative pass through amount approved by the AER under the NER; and
 - (b) in the case of gas—the payment is taken to be an approved pass through allowing variation of a distributor's reference tariffs.
- (3) Subsection (1) does not limit the operation of Part 5 in relation to an application referred to in that subsection.
- (4) In this section—

associate, in relation to a failed retailer, has the same meaning it would have under Division 2 of Part 1.2 of the *Corporations Act 2001* of the Commonwealth if sections 13, 16(2) and 17 did not form part of that Act.

171—Reimbursement of insolvency official

- (1) In the event of a RoLR event, the insolvency official of a failed retailer is entitled to be indemnified by the relevant designated RoLR for the official's reasonable costs of complying with applicable requirements of the RoLR scheme, a RoLR notice or a RoLR regulatory information notice.
- (2) Any dispute about the insolvency official's reasonable costs is to be dealt with by the Court in the same way as a dispute as to a liquidator's remuneration is dealt with under section 473 of the *Corporations Act 2001* of the Commonwealth.

172—AER report on RoLR event

- (1) The AER must prepare, in consultation with AEMO, a report for the MCE on a RoLR event and provide it to the MCE within 80 business days of the transfer date or such later time as the MCE agrees.
- (2) The report—
 - (a) must address the facts and circumstances that gave rise to the event; and
 - (b) must describe the actions that the AER, AEMO and the designated RoLRs took with respect to the event; and
 - (c) must, if the MCE has in writing requested it to do so, address or describe any other matter that the MCE so requests; and
 - (d) may contain recommendations as to the handling of future events.
- (3) The report may contain information given to the AER in confidence but if it does so, it must identify that information in the report.

173—Immunity

- (1) A protected person does not incur any civil monetary liability for an act or omission done or made under or for the purposes of the RoLR scheme unless the act or omission is done or made in bad faith.
- (2) Without limiting subsection (1), a protected person does not incur any civil monetary liability in respect of the termination of a contract for the sale of energy under section 141.
- (3) In this section—

protected person means—

- (a) the AER; or
- (b) AEMO; or
- (c) a designated RoLR; or
- (d) a distributor; or
- (e) an officer or employee of, or another person whose services are used by, a person referred to in paragraphs (a) to (d) (including, without limitation, any staff or consultants who are made available to assist the AER to exercise its functions).

174—Authorised disclosure of information

To the extent that the information is personal information within the meaning of the *Privacy Act 1988* of the Commonwealth or of any Act of a participating jurisdiction relating to privacy—

- (a) disclosure of that information to the AER, AEMO, a distributor or a designated RoLR for or in connection with the RoLR scheme is authorised by this Law; and
- (b) use of that information for or in connection with the RoLR scheme is authorised by this Law.

175—Corporations Act displacement

This Part is declared to be a Corporations legislation displacement provision for the purposes of section 5G of the *Corporations Act 2001* of the Commonwealth in relation to the provisions of Chapter 5 of that Act.

Note—

Section 5G of the *Corporations Act 2001* provides that if a State or Territory law declares a provision of a State or Territory law to be a Corporations legislation displacement provision, any provision of the Corporations legislation with which the State or Territory provision would otherwise be inconsistent does not apply to the extent necessary to avoid the inconsistency.

Part 7—Small compensation claims regime

- (2) The maximum amount for a claim is—
 - (a) the amount or amounts prescribed by a local instrument of this jurisdiction for small customers in this jurisdiction; or

181—Minimum amount—meaning

- (1) The purpose of this section is to provide for minimum amounts, so that a distributor is not liable to pay compensation to a small customer under this Division if the amount claimed is less than the relevant minimum amount (see section 188).
- (2) The minimum amount for a claim is—

183—Repeat claimant—meaning

- (1) The purpose of this section is to define the meaning of the term repeat claimant, by reference to a number determined under this section as the repeated claims maximum number, so that a distributor who receives equal to or more than the maximum number of claims for compensation from a small customer has a number of options for dealing with the claims (see section 193).
- (2) The repeated claims maximum number is the number determined from time to time by the AER and notified to the distributors concerned, which may differ between jurisdictions and according to the kinds of claimable incidents.
- (3) The repeated claims maximum number is to be determined by reference to a particular period or periods, which may be either a set period (for example, a year commencing on 1 January) or a moveable period (for example, any year commencing on any date).
- (4) A small customer who makes a number of claims equal to or exceeding the repeated claims maximum number in a particular period becomes a repeat claimant for the purposes of this Division.
- (5) A small customer continues to be a repeat claimant until the end of 2 periods after becoming a repeat claimant, being consecutive periods each of the same length as the particular period referred to in subsection (3).

184—AER determinations of minimum amount, median amount and repeated claims maximum number

- (1) This section applies in relation to this jurisdiction only if and to the extent a local instrument of this jurisdiction declares that this section applies in relation to this jurisdiction.
- (2) If the AER decides to determine an amount or number under section 180, 181, 182 or 183 for a jurisdiction, the AER must do so—

Division 2—Compensation generally

185—When compensation is payable

- (1) Compensation is payable under this Division to a small customer by a distributor under a claim for compensation properly made in respect of a claimable incident when—
 - (a) it is established that—

- (i) the distributor provided customer connection services to the premises of the small customer at the relevant time; and
 - (ii) the claimable incident occurred; and
 - (iii) the claim is for a compensable matter arising from or connected with the claimable incident; and
 - (iv) the amount claimed and the amount payable are within the range between the minimum amount and the maximum amount (inclusive of both amounts); and
- (b) any applicable requirements of this Division and the Rules are satisfied.
- (2) Compensation is monetary in nature.

186—Duty of distributor to provide information and advice

- (1) Each distributor must develop and publish on its website—
- (a) a summary of the small compensation claims regime in a form that will be readily understood by the average small customer; and

 - (b) advise the person that the distributor's summary of the small compensation claims regime, and a copy of a claim form, is available on its website; and
 - (c) send to the person a copy of its claim form on request and at no charge.

Division 3—Claims process

187—Making of claims

- (1) A small customer may make a claim for compensation in respect of a claimable incident from a distributor who provides customer connection services to the premises of the customer.
- (2) A small customer may make a claim for compensation in respect of a claimable incident from a distributor who provides customer connection services to premises of the customer—
- (a) the name and contact details of the small customer;
 - (b) the address of the premises that were affected by the claimable incident and that are the subject of the claim;
 - (c) the time and date of the claimable incident;
 - (d) a description of the compensable matter in respect of which the claim is made;

- (e) the amount of compensation the customer claims is necessary to compensate the customer in respect of the compensable matter;
- (f) for claims for property damage, justification for the amount claimed, being—
 - (i) the cost of replacing the property with property of substantially the same age, functionality and appearance; or
 - (ii) the cost of repairing the property to substantially the same functionality and appearance,which must be supported by quotes, receipts or other evidence.
- (3) A small customer may make only one claim in respect of a claimable incident, but the customer may, with the concurrence of the distributor, substitute a revised claim (which is then taken to be the only claim made by the customer in respect of the incident).
- (4) If a distributor receives more than one claim from a small customer in respect of a claimable incident, then (subject to subsection (3))—
 - (a) the distributor may reject all the claims other than the first claim received; and
 - (b) the distributor may (for the purposes of paragraph (a)) treat one of two or more of the claims received on the first or only day claims are received from the customer as being the first claim received.
- (5) A claim for property damage may relate to property not owned by the small customer, as well as to property owned by the customer.
- (6) A claim may relate to one or more items.
- (7) A distributor must use its best endeavours to deal with claims in a timely manner.

188—Claims for less than the minimum amount

- (1) A distributor may reject a claim for compensation if the amount claimed is less than the minimum amount for the claimable incident.
- (2) This section does not limit the grounds on which a claim can be rejected.

189—Claims for more than the maximum amount

- (1) If a claim for compensation is for more than the maximum amount, the distributor must advise the small customer that—
 - (a) the distributor will revise the claim to reduce it so that it does not exceed the maximum amount if the customer so requests within a specified period of at least 5 business days; or
 - (b) the distributor will reject the claim if no such request is received within that period.
- (2) If the small customer makes the request within the specified period, the distributor must revise the claim in accordance with the request.
- (3) If the small customer does not make the request within the specified period, the distributor may reject the claim.
- (4) This section does not limit the grounds on which a claim can be rejected.

190—Confirmation of claims involving property damage

- (1) If a distributor is not able to confirm that a claimable incident involving property damage did affect the small customer's premises in the manner claimed, the distributor may request the customer to provide the distributor with a statement by a suitably qualified person that the property damage claimed was caused by or is consistent with a claimable incident having occurred.
- (2) The distributor must accept the statement as a satisfactory statement, unless the distributor believes on reasonable grounds that—
 - (a) the person giving it is not suitably qualified in relation to the claimable incident; or
 - (b) the statement is on its face false, misleading or inaccurate in a material particular.
- (3) If the claim is for an amount within the mandatory range, the distributor must (subject to subsection (2)) accept the statement as proof that the property damage was likely to be caused by or is consistent with the occurrence of a claimable incident.
- (4) If the claim is for an amount within the discretionary range, the distributor may make reasonable requests for other information or evidence for the purpose of determining the claim.

191—Claims for amounts within the mandatory range

- (1) This section applies where—

 - (b) the amount claimed is within the mandatory range; and
 - (c) it is established that the claimable incident occurred; and
 - (d) it is established that the claim is a compensable matter; and
 - (e) the claim is not rejected; and
 - (f) section 193 does not apply to the claim.
- (2) The distributor must pay the customer the amount claimed without reducing or disputing the quantum of the amount.

192—Claims for amounts in the discretionary range

- (1) This section applies where—
 - (a) a small customer provides—
 - (i) a completed claim form in accordance with the requirements of section 187; and
 - (ii) a satisfactory statement and other information or evidence, if relevant and if requested, under section 190; and

- (b) the amount claimed is within the discretionary range; and
 - (c) it is established that the claimable incident occurred; and
 - (d) it is established that the claim is a compensable matter; and
 - (e) the claim is not rejected; and
 - (f) section 193 does not apply to the claim.
- (2) The distributor may carry out its own assessment of the claim.
- (3) The distributor must—
- (a) pay the small customer the amount claimed; or
 - (b) pay the small customer a lesser amount (whether within or below the discretionary range), on the basis that a lesser amount is sufficient to compensate the customer in relation to the claimable incident and premises concerned.
- (4) In the case of property damage, the lesser amount referred to in subsection (3)(b) must be such as to ensure that the customer should be no worse off, by being either—
- (a) the cost of replacing the property with property of substantially the same age, functionality and appearance; or
 - (b) the cost of repairing the property to substantially the same functionality and appearance.
- (5) A distributor is not obliged to compensate a business customer above the median amount where the business customer has not taken reasonable precautions to minimise the risk of property damage.

193—Claims by repeat claimants

- (1) This section applies to a claim for compensation where—
- (a) the small customer making the claim for compensation to a distributor is a repeat claimant in relation to the distributor and the period during which it is made; and
 - (b) the distributor would, apart from this section, be liable to pay compensation (whether within the discretionary range or the mandatory range) under the claim in accordance with other provisions of this Division; and
 - (c) the distributor reasonably considers the claim forms part of an abuse of the small compensation claims regime.
- (2) The distributor may—
- (a) pay the small customer the amount claimed; or
 - (b) pay the small customer a lesser amount, which may be any amount at or above the minimum amount; or
 - (c) reject the claim.

194—Distributor to reimburse customer for reasonable costs of claim

If a distributor pays compensation to a small customer under this Division, the distributor must pay to the person the amount of any reasonable costs incurred by the person in providing any quotes or evidence to the distributor (such as obtaining a statement from a qualified person).

195—Rejection of claims

Without affecting other provisions of this Part providing for the rejection of claims, a distributor may reject a claim for compensation if the distributor reasonably believes—

- (a) the occurrence of the claimable incident concerned was not established; or
- (b) the occurrence or existence of the compensable matter was not established; or
- (c) there are other grounds warranting rejection of the claim.

196—Distributor to advise customer of reasons for reducing or rejecting claim and of review rights

If the amount paid is less than the amount claimed by the person, or if the distributor has rejected the person's claim, the distributor must, as soon as practicable—

- (a) provide the person with reasons; and
- (b) inform the person that if they are dissatisfied with the decision, the person has a right to refer a complaint or dispute to the relevant energy ombudsman.

197—Small customer complaint or dispute resolution

A small customer who is dissatisfied with a decision of a distributor under this Division in relation to the customer's claim for compensation may lodge a complaint with the relevant energy ombudsman.

Division 4—Payment of compensation

198—Method of payment

A payment of compensation payable to a small customer under this Division is to be made by the distributor as soon as practicable, by—

- (a) unless paragraph (b) applies—a credit on the customer's next bill from their retailer by arrangement with the relevant retailer; or
- (b) at the customer's election—direct payment by the distributor to the customer by—
 - (i) cheque or electronic funds transfer; or
 - (ii) any other method agreed to by the customer.

199—Finality of payment of compensation

If a small customer is compensated (whether as a result of a decision of the distributor or a decision of the relevant energy ombudsman) in respect of a claimable incident that affected particular premises—

- (a) the customer cannot make any further claim (under this Division or otherwise) against the distributor in respect of that incident as affecting those premises; and
- (b) without limitation, the customer cannot commence or maintain proceedings for damages in respect of that incident as affecting those premises; and
- (c) the distributor has no further liability (under this Division or otherwise) to that customer in respect of that incident as affecting those premises.

Division 5—Miscellaneous

200—Other remedies

- (1) Apart from section 199, nothing in this Part prevents a small customer from commencing or maintaining proceedings for damages in respect of a claimable incident in a court of competent jurisdiction.
- (2) If a small customer enforces or attempts to enforce any other right they have apart from this Part against the distributor in respect of a claimable incident, the distributor—
 - (a) is not obliged—
 - (i) to continue to deal with a claim for compensation already made under this Part; or
 - (ii) to deal with a claim for compensation subsequently made under this Part; and
 - (b) may reject the claim.

 - (a) the AER to verify the distributor's compliance with the relevant requirements of this Part and the Rules relating to claims for compensation; and
 - (b) the distributor to answer any enquiries from a small customer relating to the customer's claim.

- (3) A distributor must, on request by a small customer and at no charge, provide the customer with access to a copy of the record of any claim for compensation made by the customer under this Part and then retained by the distributor.

203—Rules

The Rules may make provision for or with respect to the small compensation claims regime, including—

240—Rules relating to MCE or Ministers of participating jurisdictions require MCE consent

The AEMC must not, without the consent of the MCE, make a Rule that confers a right or function, or imposes an obligation, on the MCE or a Minister of a participating jurisdiction.

Note—

The term "function" is defined in clause 10 of Schedule 2 to the NGL to include "duty". Section 8 of this Law applies that Schedule to this Law and other instruments under this Law.

241—AEMC must not make Rules that create criminal offences or impose civil penalties for breaches

The AEMC must not make a Rule that—

- (a) creates an offence for a breach of a provision of the Rules; or
- (b) provides for a criminal penalty or civil penalty for a breach of a provision of the Rules.

242—Documents etc applied, adopted and incorporated by Rules to be publicly available

- (1) The AEMC must make publicly available—
 - (a) every standard, rule, specification, method or document (however described) formulated, issued, prescribed or published by any person, authority or body that is applied, adopted or incorporated by a Rule; and
 - (b) if a standard, rule, specification, method or document (however described) formulated, issued, prescribed or published by any person, authority or body is applied, adopted or incorporated by a Rule as amended from time to time—any amendment to that standard, rule, specification, method or document.

- (2) For the purposes of subsection (1), the AEMC makes a standard, rule, specification, method or document (however described) formulated, issued, prescribed or published by any person, authority or body applied, adopted or incorporated by any Rule publicly available if the AEMC—
- (a) publishes the standard, rule, specification, method or document on the AEMC’s website; or
 - (b) specifies a place from which the standard, rule, specification, method or document may be obtained or purchased (as the case requires).

243—Initiation of making of a Rule

- (1) The AEMC may make a Rule at the request of any person or the MCE.
- (2) The AEMC must not make a Rule without a request under subsection (1) unless—
- (a) it considers the Rule corrects a minor error in the Rules; or
 - (b) it considers the Rule involves a non-material change to the Rules; or
 - (c) the Rule is in respect of any matter that is prescribed by the National Regulations as a matter on which it may make a Rule on its own initiative.

244—AEMC may make more preferable Rule in certain cases

- (1) The AEMC may make a Rule that is different (including materially different) from a market initiated proposed Rule (a *more preferable Rule*) if the AEMC is satisfied that, having regard to the issue or issues that were raised by the market initiated proposed Rule (to which the more preferable Rule relates), the more preferable Rule will or is likely to better contribute to the achievement of the national energy retail objective.
- (2) Section 236(2) applies in relation to the making of the more preferable rule.

245—AEMC may make Rules that are consequential to a Rule request

- (1) Despite section 243(2), the AEMC may, having regard to a request to make a Rule under section 243(1), make a Rule under this Law, the NEL or the NGL that is necessary or consequential, or corresponds, to the Rule.
- (2) For the purposes of this Part, the AEMC must treat a Rule it may make under subsection (1) as if it were part of the Rule to be made on that request.

246—Content of requests for Rules

A request for the making of a Rule—

- (a) must contain the information prescribed by the National Regulations; and
- (b) must, subject to section 247, be accompanied by the fee prescribed by the National Regulations (if any); and
- (c) may be accompanied by a draft of the Rule to be made.

247—Waiver of fee for Rule requests

The AEMC may waive the payment of any fee prescribed by the National Regulations for the purposes of section 246.

248—Consolidation of 2 or more Rule requests

- (1) If the AEMC considers it necessary or desirable that 2 or more requests for the making of a Rule should be dealt with together, the AEMC may—
 - (a) treat those requests as one request for the purposes of this Part (a *consolidated Rule request*); or
 - (b) treat any later request as a submission in relation to the earliest Rule request.
- (2) For the purposes of this Part, the AEMC may treat a consolidated Rule request as being received by it on the day it receives either the first or last of the Rule requests forming part of the consolidated Rule request.

249—Initial consideration of request for Rule

- (1) Subject to this Part, as soon as practicable after receiving a request for the making of a Rule (*an active request*), the AEMC must consider whether—
 - (a) the active request for the Rule appears to—
 - (i) contain the information prescribed by the National Regulations; and
 - (ii) not be misconceived or lacking in substance; and
 - (b) the subject matter of the active request appears to be for or with respect to a matter in respect of which the AEMC may make a Rule under this Law; and
 - (c) the subject matter of the active request appears to relate to the subject matter of—
 - (i) a Rule made, or a request for the making of a Rule under section 243(1) not proceeded with, in the 12 months immediately before the date of making of that Rule or that request; or
 - (ii) another request for the making of a Rule under section 243(1) in respect of which the AEMC is taking action under this Division.
- (2) If the AEMC considers that, having regard to the matters set out in subsection (1), it should not take any action under this Division in respect of the active request, the AEMC must make a decision to that effect and inform the person or body, in writing, that requested the Rule of that decision.
- (3) Despite subsection (1) or (2), the AEMC may make a decision to the effect that it should not take any action under this Division in respect of the active request if the person or body that made the active request has not complied with a notice in accordance with section 250.
- (4) In making a decision under subsection (3), the AEMC must have regard to any representation it receives under section 250(4).
- (5) A decision under subsection (2) or (3) must—
