 - (b) seeks to protect biological diversity and, insofar as is reasonably practicable, to support and encourage the restoration or rehabilitation of ecological systems and processes that have been lost or degraded; and
 - (c) provides for the protection and management of catchments and the sustainable use of land and water resources and, insofar as is reasonably practicable, seeks to enhance and restore or rehabilitate land and water resources that have been degraded; and
 - (d) seeks to support sustainable primary and other economic production systems with particular reference to the value of agriculture and mining activities to the economy of the State; and
 - (e) provides for the prevention or control of impacts caused by pest species of animals and plants that may have an adverse effect on the environment, primary production or the community; and

 - (b) safeguarding the life-supporting capacities of natural resources; and
 - (c) avoiding, remedying or mitigating any adverse effects of activities on natural resources.

- (g) if the management of natural resources requires the taking of remedial action, the first step should, insofar as is reasonably practicable and appropriate, be to encourage those responsible to take such action before resorting to more formal processes and procedures;
- (h) consideration should be given to Aboriginal heritage, and to the interests of the traditional owners of any land or other natural resources;
- (i) consideration should be given to other heritage issues, and to the interests of the community in relation to conserving heritage items and places;

- (8) A water allocation plan may, in order to improve the management of a water resource, change the basis on which water is allocated from the resource notwithstanding that a consequential variation of a water licence to maintain consistency with the plan results in a reduction or increase in the quantity of water allocated by the licence.

- (b) amendments to a plan that are within the ambit of subsection (2), or that otherwise relate to a matter included in a plan under section 75(3)(h), (i), (j) or (k) (including a proposal for the payment of an amount or the imposition of a levy under Chapter 5);
 - (c) without limiting a preceding paragraph, amendments to include new, additional or increased expenditure on a program or programs to address salinity levels at a particular place or within a particular area, and any associated amendments that relate to the imposition of a levy under Chapter 5;
 - (d) without limiting a preceding paragraph, amendments to address an urgent situation that has arisen in relation to the protection of any natural resource, or specific class of natural resources, within the region, or a part of the region, or in order to take urgent action to safeguard the ecological, environmental, social or economic value of any such natural resource or class of natural resources;
 - (e) amendments of a class prescribed by the regulations.
- (9) The regulations may modify or exclude any of the procedures referred to in subsection (6) for the purposes of considering and making amendments to a plan.
- (10) If—
- (a) an amendment proposes—
 - (i) that funds should now comprise or include an amount to be raised or recovered by a levy under Chapter 5 Part 1 Division 1 or Division 2; and
 - (ii) such a levy has not been imposed in the financial year immediately preceding the financial year in which the levy is to be imposed; or
 - (b) an amendment proposes—
 - (i) that a levy under Chapter 5 Part 1 Division 1 or Division 2 imposed in one financial year be again imposed in the next financial year; and
 - (ii) that the amount to be raised or recovered by the levy in the next financial year will be an amount that exceeds the amount raised for the last financial year adjusted to take into account increases (if any) in the CPI during the 12 months ending on 30 September in that last financial year,
- the procedures set out in section 80(8) to (16) must be followed when the plan is amended.
- (11) A regulation under subsection (8)(e) must not relate to the amendment of a water allocation plan.
- (12) The Minister may adopt an amendment to a regional NRM plan under subsection (7) with or without amendment.
- (13) If the Minister adopts an amendment with an amendment, the Minister must give a copy of the amendment as amended to the board and to each constituent council.

- (14) If the Minister adopts an amendment (with or without amendment) under subsection (7), the Minister must furnish a copy of the amendment to the Natural Resources Committee of the Parliament.

82—Time for implementation of plans

- (1) Subject to this section, a plan cannot be implemented unless or until it has been adopted by the Minister.
- (2) A draft plan or amendments to a plan that have not been adopted by the Minister may be implemented by the regional NRM board with the consent of the Minister and the constituent councils and, in the case of a plan referred to in subsection (3), the consent of the Minister for the time being administering the *Waterworks Act 1932*.
- (3) The consent of the Minister for the time being administering the *Waterworks Act 1932* is required if, in the opinion of the Minister for the time being administering this Act, implementation of the plan or the amendments under subsection (2) would affect the quality or quantity of water flowing into the waterworks under the *Waterworks Act 1932*.
- (4) If the Minister and the Minister for the time being administering the *Waterworks Act 1932* cannot reach agreement for the purposes of subsection (3), the Minister may take steps to refer the matter to the Governor and the Governor will determine the matter (and any decision taken by the Governor will be taken to be a decision of both Ministers for the purposes of this section).

83—Availability of copies of plans etc

- (1) A regional NRM board must make—
- (a) each plan; and
 - (b) all submissions made in respect of a draft plan in accordance with the consultation procedures under this Part; and
 - (c) such other documents as are prescribed by regulation,
- available for inspection and purchase by members of the public.
- (2) A board must not charge for inspection of a document referred to in subsection (1) and must not charge more than the fee prescribed by the regulations for sale of copies of a document referred to in subsection (1).

84—Time for preparation and review of plans

- (1) The initial regional NRM plan prepared by a regional NRM board need not satisfy all the requirements of this Act but the board must bring it into a form that satisfies those requirements by an amendment, or series of amendments, or must substitute a comprehensive plan that satisfies those requirements as soon as practicable.
- (2) If, in the opinion of the Minister, the scope of an initial plan will be so limited that no useful purpose will be served by the preparation of a concept statement or by the public and other consultation required by this Act, the Minister may dispense with the requirements for the concept statement and consultation in relation to the preparation and adoption of that plan.

-
- (3) A board should undertake the annual review of its plan within sufficient time to allow the amendments and procedures relating to amendments required by this Act to be completed before the commencement of the next financial year.

Division 4—Related matters

85—Application of Division

This Division applies to a plan under Division 1 or Division 2.

86—Validity of plans

- (1) A plan, or a provision of a plan, is not invalid because it is inconsistent with the State NRM Plan.
- (2) A failure of a regional NRM board to comply with a requirement of this Part cannot be taken to affect the validity of a plan, or any other instrument under this Act.

87—Promotion of River Murray legislation

To the extent that a plan applies to the Murray-Darling Basin or in relation to the River Murray, the plan should—

- (a) seek to further the objects of the *River Murray Act 2003* and the *Objectives for a Healthy River Murray* under that Act; and
- (b) be consistent with the terms or requirements of the Agreement approved under the *Murray-Darling Basin Act 1993*, and any relevant resolution of the Ministerial Council under that Agreement approved under that Act,

(insofar as they may be relevant).

88—Associated Ministerial consents

- (1) Subject to subsection (4), if in the opinion of the Minister the implementation of a plan would affect the quality or quantity of water flowing into the waterworks under the *Waterworks Act 1932*, the Minister must not adopt the plan without the consent of the Minister for the time being administering that Act.
- (2) Subject to subsection (4), if in the opinion of the Minister the implementation of a plan would adversely affect any native animal or native plant that is subject to any form of control under the *National Parks and Wildlife Act 1972*, the Minister must not adopt the plan without the consent of the Minister for the time being administering that Act.
- (3) Subject to subsection (4), if in the opinion of the Minister the implementation of a plan would result in the clearance of any native vegetation, the Minister must not adopt the plan without the consent of the Minister for the time being administering the *Native Vegetation Act 1991*.
- (4) If the relevant Ministers cannot reach agreement on a plan under subsection (1), (2) or (3), the Minister administering this Act may adopt the plan with the consent of the Governor.

89—Amendment of plans without formal procedures

- (1) A regional NRM board may amend a plan in order—
 - (a) to correct an error in the plan; or
 - (b) to achieve consistency with any other plan under this Act; or
 - (c) to make a change of form (not involving a change of substance) in the plan, without following the procedures for amendment required by Division 3.
- (2) The Minister may amend a plan in order—
 - (a) to take action which, in the opinion of the Minister, is addressing—
 - (i) an unfair, inappropriate or unsustainable assumption or position contained or reflected in the plan; or
 - (ii) a matter that is, or that is based on, a mistake of fact; or
 - (b) to further the objects of the *River Murray Act 2003*, or the *Objectives for a Healthy River Murray* under that Act; or
 - (c) to achieve greater consistency with the terms or requirements of the Agreement under the *Murray-Darling Basin Act 1993*, or any resolution of the Ministerial Council under that Agreement,

without following procedures for amendment under Division 3 if the Minister certifies, at the time of making the amendment, that the amendment is not to be used to effect a reduction in existing water allocations of the licences affected by the plan and that the Minister has consulted with the relevant regional NRM board before taking action under this subsection.

- (3) If the Minister makes an amendment under subsection (2), the Minister must furnish a report on the matter to the Natural Resources Committee of the Parliament.

90—Plans may confer discretionary powers

A plan may confer discretionary powers.

91—Effect of declaration of invalidity

If a part of a plan is found to be invalid—

- (a) the balance of the plan may nevertheless continue to have full force and effect; and
- (b) if the part that is found to be invalid arises from, or is attributable to, an amendment (or purported amendment) to the plan then the amendment (or purported amendment) will, to the extent of the invalidity, be disregarded and the plan will, to that extent, revert to the position that applied immediately before it was sought to give the amendment (or purported amendment) effect.

Chapter 5—Financial provisions

Part 1—NRM levies

Division 1—Levies in respect of land

92—Contributions by constituent councils

- (1) If the regional NRM plan for a regional NRM board specifies an amount (the *base contribution amount*) to be contributed by the constituent councils for the region towards the costs of the board performing its functions under this Act in a particular financial year, the constituent councils are responsible to make a contribution based on that amount in accordance with the requirements of this Part in respect of that financial year.
- (2) Subject to subsection (3), liability for the amount to be contributed by constituent councils will be shared between them—
 - (a) if the levy under section 95 is based on the value of rateable land—
 - (i) unless subparagraph (ii) or (iii) applies, in the proportions that the capital value of the rateable land in the relevant NRM region is distributed amongst the areas of the councils (this subparagraph applies despite the fact that an individual council uses a different basis to impose its levy—see section 95(3)(b));
 - (ii) if all of the constituent councils base their general rates on the site value of land—in the proportions that the site value of the rateable land in the relevant NRM region is distributed amongst the areas of the councils;
 - (iii) if all of the constituent councils base their general rates on the annual value of land—in the proportions that the annual value of the rateable land in the relevant NRM region is distributed amongst the areas of the councils;
 - (b) if the levy is a fixed amount on all rateable land—in proportion to the number of rateable properties situated in the area of each council (being properties that are also situated in the relevant NRM region);
 - (c) if the levy is a fixed amount that depends on the purpose for which rateable land is used—in proportion to the number of rateable properties used for each relevant purpose that are in the area of each council and are also in the relevant NRM region;
 - (d) if the levy is based on the area of rateable land—in the proportions that the area of the rateable land in the relevant NRM region is distributed amongst the areas of the councils;
 - (e) if the levy is based on the purpose for which rateable land is used and the area of rateable land—in the proportions that the area of the rateable land in the relevant NRM region that is used for each purpose is distributed amongst the areas of the councils;

- (f) if the levy is based on the location of rateable land—in proportion to the number of rateable properties situated within the location or locations in the area of each council (being properties that are also situated in the relevant NRM region).
- (3) The Minister may, in connection with the operation of subsection (2), determine that there should be differentiating factors applied with respect to the calculation of the respective shares of the constituent councils taking into account any matter prescribed by the regulations and make adjustments to the shares that the constituent councils would otherwise contribute on the basis of those factors.
- (4) The share of each council will be determined by the Minister after consultation with the council.
- (5) A council must, at the request of the Minister, supply the Minister with information in the possession of the council to enable the Minister to determine shares under subsections (2) and (3).
- (6) The Minister must, after making a determination of the share of each council taking into account all of the matters referred to above, submit the amount to be contributed by each council to the Governor for approval.
- (7) The Minister must cause notice of the determination of a council's share to be given to the council and to be published in the Gazette.
- (8) A regulation cannot be made for the purposes of this section unless the Minister has given the LGA notice of the proposal to make a regulation under this section and given consideration to any submission made by the LGA within a period (of at least 21 days) specified by the Minister.
- (9) In this section—
- rateable land* means rateable land under the *Local Government Act 1999*.

93—Payment of contributions by councils

- (1) Subject to subsection (2), a council's share of the amount to be contributed by the constituent councils is payable by the council in approximately equal instalments on 30 September, 31 December, 31 March and 30 June in the year to which the contribution relates and interest accrues on any amount unpaid at the rate and in the manner prescribed by regulation.
- (2) If notice of a regional NRM levy imposed by a council in respect of a financial year could not be included in the notice of general rates for that year because the share to be contributed by the council was not approved by the Governor on or before 1 June preceding that year, the council may pay its share in approximately equal instalments on 31 December, 31 March and 30 June in that year.
- (3) An amount payable by a council to a regional NRM board under this section and any interest that accrues in respect of that amount is recoverable by the board as a debt.

94—Funds may be expended in subsequent years

To avoid doubt, if an amount paid by a council under this Division is not spent by a regional NRM board in the financial year in respect of which it was paid, it may be spent by the board in a subsequent financial year.

95—Imposition of levy by councils

- (1) In order to reimburse themselves for the amounts contributed (or to be contributed) to a regional NRM board under this Division, the constituent councils must impose a levy (a *regional NRM levy*) on rateable land in the region of the board.
- (2) Except to the extent that the contrary intention appears, Chapter 10 of the *Local Government Act 1999* applies to and in relation to a regional NRM levy as if it were a separate rate under that Chapter.
- (3) Without limiting the operation of any other provision of this Act, the following provisions apply with respect to the application of Chapter 10 of the *Local Government Act 1999* to and in relation to a regional NRM levy:
 - (a) section 154(1), (2) and (3) of that Act will not apply in relation to the levy and the basis for the levy will be chosen from the following (as set out in the relevant regional NRM plan):
 - (i) the value of rateable land; or
 - (ii) a fixed charge of the same amount on all rateable land; or
 - (iii) a fixed charge of an amount that depends on the purpose for which rateable land is used; or
 - (iv) the area of rateable land; or
 - (v) the purpose for which rateable land is used and the area of the land; or
 - (vi) the location of rateable land;
 - (b) if the value of rateable land is the basis for the levy under paragraph (a), a council must use capital value, site value or annual value as the basis to impose the levy;
 - (c) if a fixed charge is the basis for the levy under paragraph (a), then section 152 of that Act will apply subject to any modifications prescribed by the regulations;
 - (d) if relevant, the purposes for which land is used that may be the basis for the levy under paragraph (a) will be purposes prescribed by the regulations;
 - (e) despite section 154(6) of that Act, a levy under this section may be declared more than 1 month before the commencement of a financial year to which the levy relates with the approval of the Minister;
 - (f) section 151(5) of that Act will not apply in relation to the levy;
 - (g) section 156 of that Act will apply (subject to the use of any differentiating factor under paragraph (a));
 - (h) any other section, or part of any other section, of that Act prescribed by the regulations will not apply in relation to the levy;
 - (i) the regulations may modify the operation of Chapter 10 of that Act in any other respect.
- (4) To avoid doubt, nothing in subsection (3) prevents the operation of section 158 of the *Local Government Act 1999*.

- (5) A council must (as far as is reasonably practicable) fix a regional NRM levy in a manner calculated to return the same amount as the council's share of the amount to be contributed to the relevant regional NRM board under this Division.
- (6) A regional NRM levy imposed under this section will be taken to be a rate imposed under the *Local Government Act 1999* for the purposes of the *Rates and Land Tax Remission Act 1986*.
- (7) The amount that applies under subsection (5) will be arrived at after taking into account any rebates or remissions to be granted by the council.
- (8) A regional NRM levy is not invalid because it raises more or less than the amount that applies under subsection (5).
- (9) A regulation cannot be made for the purposes of this section unless the Minister has given the LGA notice of the proposal to make a regulation under this section and given consideration to any submission made by the LGA within a period (of at least 21 days) specified by the Minister.

96—Costs of councils

- (1) A regional NRM board is liable to pay to each of the constituent councils for the region an amount determined in accordance with the regulations on account of the costs of the council in complying with the requirements of this Part.
- (2) Regulations made for the purposes of subsection (1) may—
 - (a) provide a method or methods by which a council's costs are to be determined, including by the use of estimates or prescribed amounts in prescribed circumstances;
 - (b) limit any calculation of costs to amounts prescribed as fair costs;
 - (c) take into account any financial benefit to a council in receiving payment of a regional NRM levy before it pays its share of the amount to be contributed to the board under this Division.
- (3) A payment under subsection (1) must be paid in accordance with the regulations.
- (4) A regulation cannot be made for the purposes of this section unless the Minister has given the LGA notice of the proposal to make a regulation under this section and given consideration to any submission made by the LGA within a period (of at least 21 days) specified by the Minister.

97—Outside council areas

- (1) If the regional NRM plan for a regional NRM board specifies an amount to be contributed by persons who occupy land outside council areas towards the costs of the board performing its functions under this Act in a particular financial year, the Minister may, with the approval of the Governor, by notice in the Gazette, declare a levy under this section.
- (2) A levy declared by the Minister under this section must be set at a level that will return an amount that is as near as reasonably practicable to the amount stated in the relevant regional NRM plan as the amount to be raised by the particular levy under this section, after taking into account any remissions that may apply under this section.

-
- (3) A levy is not invalid because it raises more or less than the amount referred to in subsection (2).
 - (4) Subject to this section, a levy will be declared with respect to land within the relevant area (to be called *rateable land* for the purposes of this section).
 - (5) The regulations may exclude land, or land of a prescribed class, from the operation of this section.
 - (6) A levy may be based on 1 of the following factors:
 - (a) the capital value of rateable land;
 - (b) a fixed charge of the same amount on all rateable land within the relevant area;
 - (c) a fixed charge of an amount that depends on the purpose for which rateable land is used;
 - (d) the area of rateable land;
 - (e) the purpose for which rateable land is used and the area of the land;
 - (f) any other factor prescribed by the regulations.
 - (7) The purposes for which land is used that may be the basis for the levy under subsection (6) must be prescribed by regulation.
 - (8) Differential levies may be declared on any basis prescribed by the regulations.
 - (9) The Minister may, in declaring a levy, fix a minimum amount payable by way of a levy under this section (despite a preceding subsection).
 - (10) Subject to subsection (11), the owner of any rateable land will be taken to be the occupier of the land and so liable to pay a levy declared under this section.
 - (11) If a person other than the owner of rateable land has, by notice to the Minister in a manner and form determined by the Minister, assumed liability to pay a levy under this section, that person will be liable to pay the levy.
 - (12) The Minister must as soon as reasonably practicable after the declaration of a levy under this section cause a notice of the amount of the levy that is payable in respect of any land for the relevant financial year to be served on the person liable to pay the levy.
 - (13) The notice must state—
 - (a) the amount of the levy payable; and
 - (b) the factor on which the levy is based and, if it is a differential levy, the differential basis; and
 - (c) the date on or before which the levy must be paid or, if the Minister is prepared to accept payment in instalments, the amount of each instalment and the date on or before which it must be paid.
 - (14) If there are 2 or more persons liable to pay a levy, service of a notice on 1 of them will be taken to be service on both or all of them.

- (15) The Minister may—
- (a) arrange for service of a notice to be effected as part of any other notice served by a public authority or other person;
 - (b) arrange for collection of a levy to be effected by a public authority or other person.
- (16) The Governor may, by regulation—
- (a) make other provisions for the collection of the levy (including by making provision for regional NRM boards to pay to the Minister the costs incurred by the Minister with respect to the collection of a levy under this section);
 - (b) grant remissions in respect of the levy, or a part of the levy;
 - (c) provide for such other matters as the Governor thinks fit.

98—Contributions towards work of NRM groups

For the purposes of this Division, any money that under a regional NRM plan is to be raised for the purposes of NRM groups established within the relevant NRM region will be taken to form part of the costs of the relevant regional NRM board performing its functions under this Act.

99—Application of levy

- (1) To avoid doubt, nothing in this Division prevents any levy raised in one part of the State being applied by a regional NRM board or NRM group in another part of the State in accordance with the provisions of an NRM plan.
- (2) However, the Minister cannot, by direction or by the exercise of any other power under this Act (including the power to amend an NRM plan), require a regional NRM board to apply any levy raised in its region in another part of the State.

Division 2—Levies in respect of water

100—Interpretation

- (1) In this Division, unless the contrary intention appears—

accounting period means a financial year, or part of a financial year, in respect of which a levy is payable under this Division in accordance with a notice served under section 105;

consumption period in relation to an accounting period means a period of approximately the same length as the accounting period that commences or terminates during the accounting period and in respect of which the quantity of water taken is measured by meter readings;

imported water permit means a permit required under section 127(3)(e) with respect to the use of water in the circumstances described in section 127(5)(i);

to irrigate land includes to water land by any means for the purpose of growing any kind of plant or plants;

levy includes—

- (a) an instalment of a levy; and

-
- (b) a fee payable to the Minister under section 102(5).
- (2) For the purposes of this Division but not for any other purpose, a water licence that is endorsed with a water (holding) allocation will be taken in respect of that allocation to give the holder of the licence the right to take the quantity of water allocated.
- (3) For the purposes of this Division, the Minister may declare on a water licence that is endorsed with a water (holding) allocation—
- (a) the part of the resource from which water may (notionally) be taken pursuant to the allocation; and
 - (b) the purpose for which that water will (notionally) be used.
- (4) The declaration by the Minister on a water licence of the matters referred to in subsection (3)(a) or (b) does not limit the Minister's discretion when determining the conditions of the conversion of the water (holding) allocation endorsed on the licence to a water (taking) allocation under section 153.

101—Declaration of levies

- (1) The Minister may, by notice in the Gazette, declare a levy or levies (a *water levy or levies*) payable by persons who—
- (a) are the holders of water licences granted in relation to a water resource within a specified NRM region; or
 - (b) are the holders of imported water permits; or
 - (c) are authorised under section 128 to take water from a water resource within a specified NRM region.
- (2) A levy declared by the Minister under this section must be set at a level that will return an amount that is near as reasonably practicable to the amount stated in the relevant regional NRM plan as the amount to be raised by way of that particular water levy under this Division.
- (3) A levy is not invalid because it raises more or less than the amount referred to in subsection (2).
- (4) A regional NRM plan may include proposals for money raised through the imposition of a levy in 1 or more years to be expanded in a subsequent year or years (and a levy may be declared on this basis).
- (5) Levies (other than a levy under subsection (1)(b)) may be declared with respect to the right to take water or with respect to the water taken or both (but not with respect to the taking of water for domestic purposes or for watering stock that are not subject to intensive farming).
- (6) A levy may be based on 1 or more of the following factors:
- (a) the quantity of water allocated;
 - (b) the quantity of water taken;
 - (c) the quantity of water used;
 - (d) the area of land where the water may be used, or the area of the land where the water is used;

Natural Resources Management Act 2004—2.2.2006 to 30.6.2006

Chapter 5—Financial provisions

Part 1—NRM levies

Division 2—Levies in respect of water

- (e) the effect that the taking or using of the water has, or may have, on the environment, or some other effect or impact that, in the opinion of the Minister, is relevant and that is capable of being determined, measured or applied.
- (7) Without limiting subsection (6)(e), in the case of the River Murray, a factor on which a levy may be based is the effect that the use of water may have on salinity levels associated with the River Murray.
- (8) Different levies may be declared in respect of the same water resource based on 1 or more of the following factors:
 - (a) the part of the water resource from which the water may be, or is, taken;
 - (b) the place or location where the water may be, or is, used;
 - (c) the purpose for which the water may be, or is, used;
 - (d) the manner in which the water may be, or is, used;
 - (e) when the right to take or use the water was granted;
 - (f) any other factor prescribed by the regulations.
- (9) For the purposes of subsection (6) or (7), the Minister may, by notice in the Gazette, determine a method or methods by which the effect that the taking or using of water is having may be determined, measured or used.
- (10) Without limiting subsection (8), different levies with respect to the right to take water may be declared in respect of the same water resource based on a water allocation and on whether the water allocation is a water (taking) allocation or a water (holding) allocation under a water licence.
- (11) The Minister may, in declaring a levy, fix a minimum amount payable by way of a levy under this section (despite a preceding subsection).
- (12) If a levy that relates to the River Murray has a component based on the effect that the use of water may have on salinity levels associated with the River Murray, money raised from the levy that is attributable to that component must be applied towards reducing salinity levels associated with the River Murray.
- (13) A levy cannot be imposed under this section with respect to the taking of water for domestic purposes or for watering stock that are not subject to intensive farming.
- (14) A notice under subsection (1)—
 - (a) has effect in relation to the financial year specified in the notice; and
 - (b) subject to subsection (15), must be published in the Gazette on or before the first day of that year.
- (15) A notice under subsection (1) with respect to—
 - (a) water to be taken, or that is taken, from a watercourse, lake or well; or
 - (b) surface water to be taken, or that is taken, from a particular area of the State,may be published in the Gazette within 1 month after the watercourse, lake or well became a prescribed watercourse, lake or well or the area became a surface water prescribed area.

102—Provisions applying to water (holding) allocations in declared water resources

- (1) This section applies in relation to a water (holding) allocation if the water resource to which the allocation applies has been declared by the Minister by notice in the Gazette to be a water resource in relation to which this section applies and the declaration has not been revoked.
- (2) If this section applies in relation to a water (holding) allocation the following provisions apply:
 - (a) subject to paragraph (b), a levy in respect of the allocation is not payable until the end of the financial year for which the levy is declared;
 - (b) if the allocation, or a part of it, is transferred to another person during the financial year, the levy or, where part only of the allocation is transferred, a proportionate part of it, is payable by the transferee at the time of transfer;
 - (c) the levy for a financial year is not payable if the licensee, on application to the Minister, satisfies the Minister that he or she made a genuine, but unsuccessful, attempt throughout, or through the greater part of, the financial year to find a person who was willing to buy the water (holding) allocation subject to the condition that the allocation—
 - (i) be converted to a water (taking) allocation; or
 - (ii) be endorsed on the transferee's licence as a water (taking) allocation.
- (3) Paragraph (c) of subsection (2) applies in relation to the whole or a part of a water (holding) allocation and where it applies to part only of a water (holding) allocation a proportionate part of the levy is not payable in pursuance of that paragraph.
- (4) If the transfer of a water (holding) allocation is subject to a condition referred to in subsection (2)(c), the Minister must not—
 - (a) approve the transfer of the licence on which the allocation is endorsed; or
 - (b) vary the transferring and receiving licences,to effect the transfer unless he or she—
 - (c) converts the water (holding) allocation to a water (taking) allocation; or
 - (d) endorses the allocation on the receiving licence as a water (taking) allocation,(as the case requires) in accordance with the terms of the condition.
- (5) If a levy is not payable by virtue of subsection (2)(c), the licensee is liable to pay to the Minister a fee prescribed by the regulations instead of the levy.
- (6) An application to the Minister under subsection (2)(c) must—
 - (a) be in a form approved by the Minister; and
 - (b) be accompanied by such information as the Minister requires; and
 - (c) be made before the end of the relevant financial year.
- (7) The Minister may, by subsequent notice in the Gazette, vary or revoke a notice under subsection (1).
- (8) This section will expire on the third anniversary of its commencement.

103—Special purpose water levy

- (1) If, in the opinion of the Minister—
 - (a) it is necessary or desirable to raise money for a particular purpose related—
 - (i) to the management of a prescribed water resource; or
 - (ii) to the management of any effect that the taking or using of water may have; or
 - (iii) to the restoration or rehabilitation of any part of the natural resources of the State, on account of the taking or using of water; and
 - (b) it is not fair or reasonable that all persons who take, or have the right to take, water from the resource should contribute, or contribute to the same extent, to the amount needed for that purpose; and
 - (c) the relevant regional NRM plan has identified a levy under this section as an appropriate way to raise money for the purpose concerned,the Minister may, by notice in the Gazette, declare a levy (a *special purpose water levy*) that is payable by those persons specified in the notice.
- (2) A special purpose water levy may be declared—
 - (a) on the basis that it will apply for a specified period corresponding to 1 or more financial years; or
 - (b) on the basis that it will apply until brought to an end by the Minister by notice in the Gazette.
- (3) A person cannot be specified in a notice under subsection (1) unless, at some time during the period of 1 month immediately preceding publication of the notice, he or she had the right to take water from the resource (whether he or she actually took water during that period or not).
- (4) The Minister may only declare a special purpose water levy if a majority of the persons named in the notice have given their consent to it in writing but if a majority do consent then all of the persons named are primarily liable for the levy even though their entitlement to take water has subsequently ceased.
- (5) The consent must be in a form prescribed by regulation and must include the following information:
 - (a) the amount of the proposed levy at the time of its declaration and the amount that imposition of the levy is expected to raise during a specified period of at least 12 months; and
 - (b) the purpose for which money raised by the levy will be used; and
 - (c) the names of the persons to be specified in the notice who will be primarily liable to pay the levy; and
 - (d) if the levy is to apply for more than 1 financial year—whether the levy may or will be altered from year to year and, if so, the basis on which an alteration will be made.
- (6) The Minister must serve the form of consent on all persons to be named in the notice as being primarily liable for the levy.

-
- (7) For the purpose of determining whether a majority of persons have given their consent to a levy, 2 or more persons who would be primarily liable for the levy in respect of the same water licence or the same land or business will be counted as 1 person.
 - (8) For the purpose of determining whether consent has been given, all of the persons (if more than one) who would be primarily liable for the levy in respect of the same water licence or the same land or business must give their consent.
 - (9) A form of consent that purports to have been signed by a person who will be liable to pay a special purpose water levy must, in the absence of proof to the contrary, be taken in proceedings before a court or other tribunal to have been signed by that person.
 - (10) Unless the contrary intention appears, this Division applies to and in relation to a special purpose water levy as though it were a levy declared under section 101, subject to any modifications or exclusions prescribed by the regulations.
 - (11) The naming of the persons who will be primarily liable for a special purpose water levy in a notice under subsection (1) does not exclude the liability for the levy under section 104 of an existing owner of land or a person who subsequently owns or occupies the land.
 - (12) Liability for a special purpose water levy is in addition to liability for a levy under section 101.
 - (13) Nothing in this section limits the ability of the Minister to declare differential levies under section 101 on the bases set out in that section.

104—Liability for levy

- (1) Subject to subsection (8), a person who holds a water licence at any time during a financial year in respect of which a levy for the right to take water has been declared is liable to pay to the Minister the full amount of that levy whether he or she holds the licence throughout the year or not.
- (2) Subject to subsection (6), a person who holds a water licence at any time during a financial year in respect of which a levy with respect to the taking of water has been declared is liable to pay to the Minister the amount of the levy that applies in relation to the licence.
- (3) Subject to subsection (6), a person who takes water pursuant to an authorisation under section 128 at any time during a financial year in respect of which a levy with respect to the taking of water has been declared is liable to pay to the Minister the amount of the levy that applies in relation to the authorisation.
- (4) If a levy with respect to the right to take water or for the taking of water applies in relation to water that is intended to be used, or is used, for irrigating land or in the course of carrying on a business on land, the following persons are jointly and severally liable to the Minister for payment of the levy in addition to the person primarily liable under subsection (1), (2) or (3):
 - (a) in the case of a levy with respect to the right to take water—the owner of the land (if the owner is not the person primarily liable under subsection (1))—
 - (i) if the levy was declared during the financial year to which the levy relates—at the time the levy was declared; or

- (ii) if a water licence was not in existence in relation to that land at the commencement of the financial year to which the levy relates but a licence was granted after the commencement of that year—at the time when the licence was granted; or
 - (iii) if the levy is payable in respect of an increase in the water allocation—at the time of the increase; or
 - (iv) in any other case—at the commencement of the financial year to which the levy relates; and
 - (b) in the case of a levy with respect to water taken—the owner of the land (if the owner is not the person primarily liable under subsection (2) or (3)) when the water was taken; and
 - (c) all persons who own or occupy the land at any time—
 - (i) after the person primarily liable under subsection (1), (2) or (3) or the person liable under paragraph (a) or (b); and
 - (ii) before the levy is paid.
- (5) A person who makes a payment to the Minister in respect of his or her liability under subsection (4) may recover the amount of the payment from the person primarily liable under subsection (1), (2) or (3).
- (6) If 2 or more persons are liable under subsection (2) or (3) with respect to water taken during different parts of an accounting period and the water used by those persons is used to irrigate the same land or is used in the course of carrying on a business on the same land, the following provisions apply:
 - (a) the last of those persons to take water during the accounting period will be taken to be liable under subsection (2) or (3) to the Minister for the amount of the levy with respect to water taken during the whole of that period; and
 - (b) that person is entitled to contribution from the other person or persons who have taken water during another part or parts of the accounting period, calculated on the basis of the quantity of water taken by each of them.
- (7) A person is liable under this section for a levy with respect to the right to take water, or with respect to water taken, pursuant to a water licence whether the licence was granted before or after the commencement of this Act.
- (8) If—
 - (a) a water licence is granted after the commencement of a financial year or the water allocation of a water licence is increased after the commencement of a financial year; and
 - (b) the water allocation, or part of the water allocation, of the licence or the increase, or part of the increase, in the water allocation of the licence is attributable to the surrender of another licence or a reduction in the water allocation of another licence,

a levy with respect to the right to take water is not payable for that year in respect of that part of the water allocation of the licence that is attributable to the surrender of the other licence or the reduction in the water allocation of the other licence.

-
- (9) A levy with respect to the right to take water is payable even though taking water has been prohibited or restricted under this Act or under the licence concerned.
 - (10) A person who holds an imported water permit at any time during a financial year in respect of which a levy has been declared is liable to pay to the Minister the full amount of that levy whether he or she holds the permit throughout the year or not.
 - (11) Subject to section 102(2), a levy becomes payable on the date for payment stated in the notice under section 105.
 - (12) A levy or instalments of a levy are payable pursuant to a notice served under section 105 despite the fact that the person liable disputes the amount of the levy, but any overpayment must be refunded by the Minister when the correct amount is finally determined.

105—Notice of liability for levy

- (1) The Minister may serve the notice referred to in subsection (2) on a person who is liable to pay a levy under section 104.
- (2) The notice must state—
 - (a) the amount of the levy payable and the accounting period or periods to which the notice relates; and
 - (b) the factor, or combination of factors, on which the levy is based; and
 - (c) the date on or before which the levy must be paid or, if the Minister is prepared to accept payment in instalments, the amount of each instalment and the date on or before which it must be paid.
- (3) The accounting period or periods to which a notice relates must be confined to 1 financial year or to part of a financial year.

106—Determination of quantity of water taken

- (1) If the basis of a levy is or includes the quantity of water taken then the following provisions apply:
 - (a) meter readings will be used to determine the quantity of water taken except where—
 - (i) a meter has not been installed; or
 - (ii) the readings given by the meter are unreliable in the opinion of the Minister;
 - (b) if meter readings are used, the quantity of water taken during an accounting period will be taken to be the quantity of water taken during the consumption period for that accounting period;
 - (c) if meter readings are not used, the quantity of water taken during an accounting period will, subject to subsection (3), be assessed by the Minister on—
 - (i) the basis of the pumping capacity of the pump (if any) used to take the water; or
 - (ii) the basis of the area of land irrigated and the crop grown on that land; or

- (iii) such other basis as the Minister thinks fit;
 - (d) water taken—
 - (i) by the occupier of land for domestic purposes on the land or for providing stock (other than stock subject to intensive farming) kept on the land with drinking water; or
 - (ii) for firefighting,
must be disregarded;
 - (e) if water taken for domestic or stock purposes or for firefighting is not measured by meter, or the water taken is used for other purposes as well, the Minister must make an assessment of the quantity of water taken for those purposes in accordance with paragraph (c).
- (2) If the Minister uses meter readings or uses any other measuring instrument to determine the quantity of water taken under this Act, the Minister will be taken not to be using a measuring instrument for trade for the purposes of the *Trade Measurement Act 1993*.
- (3) The Minister cannot make an assessment under subsection (1)(c) of the quantity of water taken (except for domestic or stock purposes) unless, before the commencement of the accounting period in relation to which the assessment is to be made, the Minister publishes in the Gazette—
 - (a) if the basis of assessment is to be pumping capacity—the method to be used in assessing the quantity of water on that basis;
 - (b) if the basis of assessment is to be crop area—water use rates for the crop concerned;
 - (c) if some other basis of assessment is to be used—the basis to be used and the method by which it will be used.
- (4) If a person liable to pay a levy with respect to water taken from a prescribed water resource is dissatisfied with the accuracy of a meter supplied by the Minister that is being used to measure any quantity of water taken, the person may, on payment of the fee prescribed by the regulations, require the Minister to test the meter.
- (5) If—
 - (a) the meter used to measure any quantity of water taken has not been supplied by the Minister; and
 - (b) the Minister requires that the meter be tested,then the person liable to pay a levy with respect to that water must ensure that the meter is tested in the manner prescribed by the regulations and provide a certificate relating to the testing to the Minister in accordance with the regulations.
Maximum penalty: \$10 000.
- (6) If a person fails to comply with subsection (5), the Minister may arrange for the meter to be tested and recover the cost of the testing from that person as a debt due to the Crown in a court of competent jurisdiction.

-
- (7) If on testing a meter in accordance with this section it is found—
- (a) that the quantity of water measured by the meter was not more than 5 per cent more or less than the quantity of water actually taken, the quantity of water measured by the meter will be the quantity in respect of which the levy is payable;
 - (b) that the quantity of water as measured by the meter was inaccurate by more than 5 per cent and the Minister is able to determine the degree of inaccuracy, the Minister may serve a further notice under section 105 based on the quantity of water taken appropriately adjusted;
 - (c) that the quantity of water as measured by the meter was inaccurate by more than 5 per cent but the Minister is unable to determine the degree of inaccuracy, the Minister may serve a further notice under section 105 based on the Minister's assessment under subsection (1)(c) and subsection (3) does not apply in relation to an assessment in these circumstances.
- (8) If the quantity of water as measured by a meter tested under subsection (4) was inaccurate by more than 5 per cent, the Minister must refund the fee referred to in that subsection.
- (9) A person who is dissatisfied with the finding or determination of the Minister under subsection (7) may appeal to the ERD Court against the finding or determination.
- (10) If the Minister assesses—
- (a) the quantity of water taken under subsection (1)(c); or
 - (b) the quantity of water used for domestic or stock purposes or for firefighting under subsection (1)(e); or
 - (c) the quantity of water taken by a person who is not authorised by a licence or under section 128 to take the water,
- the assessment and the basis on which it was made cannot be called into question by, or before, any court, tribunal or other authority except on the ground that the assessment was not made in good faith.
- (11) If at the time of the declaration of a levy it is declared that this section will apply with respect to the quantity of water used, then a reference in this section to the quantity of water taken will be taken to include a reference to the quantity of water used.
- (12) The Governor may, by regulation, prescribe standards for meters used for the purpose of determining the quantity of water taken.

107—Cancellation etc of licence or permit for non-payment of levy

- (1) If a person who holds a water licence or an imported water permit has failed to pay a levy, or an instalment of a levy, within 3 months after being served with a notice under section 105, the Minister may serve further notice on the holder of the licence or permit requiring payment within a period of not less than 1 month and stating that the licence or permit (as the case may be) may be cancelled, suspended or varied by the Minister if the amount is not paid within that time.
- (2) The Minister may cancel, suspend or vary the water licence or imported water permit by 7 days written notice served on the holder of the licence or permit if the levy or instalment is not paid in accordance with the notice referred to in subsection (1).

- (1) The Minister may, on the recommendation of a regional NRM board or on the Minister's own initiative after consultation with the relevant regional NRM board, by notice served on the owner of land, direct the owner to remove or modify a dam, embankment, wall or other obstruction or object that collects water, or diverts or impedes the flow of water, in a watercourse or flowing over any other land and that was lawfully placed in or near the watercourse or on the land before the prescribed date.
- (2) Compensation is payable under section 211 in relation to the removal of a dam, embankment, wall or other obstruction or object by the owner in compliance with a notice under subsection (1).
- (3) If the owner on whom a notice has been served under this section fails to comply with the notice, the Minister may enter the land and take the action specified in the notice and such other action as the Minister considers appropriate in the circumstances.

Division 3—Permits

135—Permits

- (1) An application for a permit must be in a form approved by the relevant authority and must, if a fee has been prescribed by regulation in relation to the application, be accompanied by the fee.
- (2) The applicant must provide the relevant authority with such information as the authority reasonably requires to consider the application.
- (3) The decision of a relevant authority to grant an application must not be inconsistent with the State NRM plan.
- (4) A relevant authority must take into account the provisions of the relevant regional NRM plan when considering an application for a permit.
- (5) A relevant authority must not grant a permit contrary to a notice for the time being in force under section 132.
- (6) If an application for a permit relates to an area within a River Murray Protection Area and is within a class of applications prescribed by the regulations for the purposes of this provision (which class may be prescribed so as to consist of all such permits), the relevant authority must, before making its decision on the application—
 - (a) consult the Minister to whom the administration of the *River Murray Act 2003* is committed; and
 - (b) comply with the Minister's directions (if any) in relation to the application (including a direction that the application not be granted, or that if it is to be granted, then the permit be subject to conditions specified by the Minister).
- (7) The relevant authority's decision on an application for a permit that relates to an area within the Murray-Darling Basin must take into account the terms or requirements of the Agreement approved under the *Murray-Darling Basin Act 1993*, and any resolution of the Ministerial Council under that Agreement (insofar as they may be relevant).
- (8) Subject to its terms, a permit is binding on and operates for the benefit of the applicant and the owner and occupier of the land to which it relates when it is granted and all subsequent owners and occupiers of the land.
- (9) A permit is subject to such conditions as are prescribed by this Act or by the regulations, or are specified in the permit by the relevant authority.
- (10) Depending on its nature, a condition may remain in force after the activity authorised by the permit has been completed.
- (11) It is a condition of a permit to drill, plug, backfill or seal a well or to repair, replace or alter the casing, lining or screen of a well that the work be undertaken by a person who is a licensed well driller or is supervised in carrying out the work by a licensed well driller.
- (12) If the relevant authority is satisfied that the holder of a permit or a person acting on behalf of the holder of a permit has contravened or failed to comply with a condition of the permit, the authority may, by notice served on the holder of the permit, vary, suspend or revoke the permit.

- (13) If an NRM plan has been varied, a relevant authority may vary a permit granted by it so that the permit is not inconsistent with the plan.
- (14) If it is not possible or practicable to vary a permit under subsection (13) so that the permit is not inconsistent with an NRM plan, the relevant authority may revoke the permit.
- (15) If the rising level of underground water is—
- (a) damaging soil, rock or other structures; or
 - (b) damaging ecosystems; or
 - (c) affecting the natural drainage of surface water,
- the relevant authority may revoke a permit to drain or discharge water directly or indirectly into a well that provides access to that underground water.
- (16) In any other case, the relevant authority may vary, suspend or revoke a permit with the consent of the holder of the permit.
- (17) The variation or revocation of a permit under this section will be effected by the relevant authority serving notice of the variation or revocation on the holder of the permit.
- (18) The holder of a permit may appeal to the ERD Court against the variation or revocation of the permit under this section.
- (19) A relevant authority that has granted a permit to undertake an activity and a person employed by, or who acted on behalf of, the authority in granting the permit is not liable for any injury, loss or damage caused by, or resulting from—
- (a) the manner in which the activity is carried out; and
 - (b) in the case of the erection, construction or enlargement of a dam, wall, building or other structure—the design of the dam, wall, building or other structure or the materials used for its erection, construction or enlargement.
- (20) In this section—
- relevant authority* in relation to a permit means the authority that is for the time being the relevant authority under section 126 for the purpose of granting or refusing an application for a permit of that kind.

136—Requirement for notice of certain applications

- (1) This section applies to an application for a permit if an NRM plan provides that this section applies to the application.
- (2) Notice of an application to which this section applies must be given by the relevant authority to whom the application has been made in accordance with the regulations to those persons specified in the plan and those persons (if any) prescribed by the regulations and to the public generally.
- (3) If notice of an application has been given under this section, a person who desires to do so may, in accordance with the regulations, make representations in writing to the relevant authority in relation to the granting or refusal of the permit.

- (4) The relevant authority must forward to the applicant a copy of the representations (if any) made and allow the applicant an opportunity to respond, in writing, to those representations.
- (5) The response referred to in subsection (4) must be made within the number of days prescribed by regulation after the relevant material is forwarded to the applicant.
- (6) The relevant authority must allow a person who made a representation and who, as part of that representation, indicated an interest in appearing before the authority, a reasonable opportunity to appear personally or by representative before it to be heard in support of the representation.
- (7) If a person appears before the relevant authority under subsection (6), the relevant authority must also allow the applicant a reasonable opportunity, on request, to appear personally or by representative before it in order to respond to any relevant matter.
- (8) If representations have been made under this section, the relevant authority must—
 - (a) give to each person who made a representation, notice of its decision on the application and of the date of the decision and of the person's appeal rights under this Act; and
 - (b) give notice to the ERD Court—
 - (i) of its decision on the application and of the date of the decision; and
 - (ii) of the names and addresses of persons who made representations to the relevant authority under this section.
- (9) A notice under subsection (8) must be given within 5 business days from the date of the relevant authority's decision on the application.
- (10) A person who is entitled to be given notice of the decision under subsection (8) may, within 15 business days after the date on which the notice was given to him or her, appeal to the ERD Court against the decision.
- (11) If an appeal is lodged, the applicant for the permit must be notified by the ERD Court of the appeal and will be a party to the appeal.
- (12) A decision of a relevant authority in respect of which representations have been made under this section does not operate—
 - (a) until the time within which any person who made any such representation may appeal against a decision to grant the permit has expired; or
 - (b) if an appeal is commenced—
 - (i) until the appeal is dismissed, struck out or withdrawn; or
 - (ii) until the questions raised by the appeal have been finally determined (other than any question as to costs).

137—Refusal of permit to drill well

Without limiting the grounds on which an application to drill a well may be refused, a relevant authority may refuse such a permit if, in the opinion of the authority, the underground water to which the well would give access is so contaminated that its use would create a risk to the health of people or animals.

138—Availability of copies of permits etc

- (1) The relevant authority must make—
 - (a) copies of permits granted by it; and
 - (b) written representations made under section 136 in relation to an application for a permit and the written response of the applicant (if any),
available for inspection and purchase by members of the public.
- (2) The relevant authority must not charge for inspection of a document referred to in subsection (1) and must not charge more than the fee prescribed by regulation for sale of copies of a document referred to in subsection (1).

- (7) The Chief Officer may vary a well driller's licence on the application of the holder of the licence.

140—The Water Well Drilling Committee

- (1) The *Water Well Drilling Committee* continues in existence.

- (2) The regulations may make provision for, or in relation to, the composition and procedures of the Committee.
- (3) The functions of the committee are—
 - (a) to examine applicants for licences under this Division; and
 - (b) such other functions as may be prescribed by the regulations.
- (4) The committee has such powers as the Chief Officer delegates to it or as are given to it by regulation.

- (1) A provision of this Division does not apply to, or in relation to, a well of a class declared by proclamation to be excluded from the operation of that provision.
- (2) A proclamation referred to in subsection (1) may be varied or revoked by subsequent proclamation.

143—Defences

It is a defence to prosecution for the offence of drilling, plugging, backfilling or sealing a well or repairing, replacing or altering the casing, lining or screen of a well without being authorised to do so by a permit or without using the services of a licensed well driller or a person supervised by a licensed well driller—

- (a) to prove that the well is of a class specified by or under Schedule 2; or
- (b) to prove that the person who carried out the work was the owner of the land on which the well is situated or was the employee or sharefarmer of the owner of that land and that—
 - (i) the well gives access to underground water the surface of which is at atmospheric pressure and the total dissolved salts of which exceed 1 800 milligrams per litre; and
 - (ii) the work was carried out solely for the purposes of maintenance and did not involve—
 - (A) substantial alteration to the casing, lining or screen of the well or the replacement of the casing, lining or screen with a casing, lining or screen of substantially different design or specifications; or
 - (B) a substantial repositioning of the casing, lining or screen; or
 - (C) deepening the well by more than 1.5 metres; or
- (c) to prove that—

- (i) the work comprising the alleged offence was carried out to prevent or reduce pollution of water in the well and that in the circumstances it was unreasonable to expect the defendant—
 - (A) to have obtained a permit; or
 - (B) to have obtained the services of a licensed well driller; and
 - (ii) the work was carried out in accordance with the regulations (if any); and
 - (iii) the Chief Officer was given written notice of the work as soon as practicable after it was completed; or
- (d) to prove that—
- (i) the work comprising the alleged offence was carried out pursuant to a permit issued by the relevant authority; and
 - (ii) the work comprising the alleged offence was carried out by or under the supervision of the owner of the land on which the well is situated; and
 - (iii) at the time of the alleged offence the well was not more than 15 metres in depth (or such other depth as may be prescribed by regulation); and
 - (iv) the work was carried out in accordance with the regulations (if any).

144—Obligation to maintain well

- (1) Subject to subsection (2), the occupier of land on which a well is situated must ensure that the well (including the casing, lining, and screen of the well and the mechanism (if any) used to cap the well) are properly maintained.

Maximum penalty:

- (a) where the offender is a body corporate—\$30 000;
 - (b) where the offender is a natural person—\$15 000.
- (2) It is a defence to prosecution for an offence against subsection (1) to prove that—
- (a) the defendant could not lawfully carry out the necessary maintenance work without a permit granted under Division 3; and
 - (b) the defendant had applied for the required permit within a reasonable time but the relevant authority had refused or failed to grant it.

145—Requirement for remedial or other work

- (1) If the Chief Officer is satisfied that the water of a well is likely to be degraded or wasted because—
- (a) of a defect in the well, or in the casing, lining or screen of the well; or
 - (b) the well or the casing, lining or screen is in need of maintenance; or
 - (c) there is no mechanism for capping the well or the mechanism for capping the well is inadequate or in need of maintenance,

Natural Resources Management Act 2004—2.2.2006 to 30.6.2006

Chapter 7—Management and protection of water resources

Part 2—Control of activities affecting water

Division 4—Provisions relating to wells

the Chief Officer may, by notice served on the owner or occupier of the land on which the well is situated, direct that the work or other action specified in the notice be carried out or taken to remedy the problem.

(2) If the Chief Officer is satisfied—

(a) —

- (i) that there is a defect in a well, or in the casing, lining or screen of a well; or
- (ii) that a well, or the casing, lining or screen of a well, is in need of extensive maintenance; or
- (iii) that the drawing of water from a well has caused, or would be likely to cause, damage to a water resource; or
- (iv) that a well has been constructed in contravention of this Act, or has been used in connection with a contravention of this Act; and

(b) that it is reasonable in the circumstances to act under this subsection,

the Chief Officer may, by notice served on the owner or occupier of the land on which the well is situated, direct that the well be plugged, backfilled or sealed.

(3) If, in the Chief Officer's opinion, a defect in a well resulted from work carried out by a licensed well driller, the Chief Officer may, in addition to or instead of serving notice on the owner or occupier of the land, serve notice under subsection (1) or subsection (2) on the well driller (but the notice must not be served later than 6 months after the work was carried out).

(4) A well driller on whom a notice is served is entitled to enter the land on which the well is situated in order to comply with the notice.

(5) A person who fails to comply with a notice is guilty of an offence.

Maximum penalty:

- (a) where the offender is a body corporate—\$30 000;
- (b) where the offender is a natural person—\$15 000.

(6) If a person on whom a notice has been served fails to comply with the notice the Chief Officer may enter the land on which the well is situated and carry out the necessary work or take the necessary action and any other work or action that the Chief Officer considers appropriate in the circumstances and the Chief Officer's costs will be a debt due by the person to the Crown.

Part 3—Licensing and allocation of water

Division 1—Licensing

146—Licences

- (1) A licence granted by the Minister under this Part—
 - (a) will, if the licence is endorsed with a water (taking) allocation, authorise the holder of the licence to take water from the prescribed watercourse, lake or well or to take surface water from the surface water prescribed area specified in the licence;
 - (b) will not, if the licence is endorsed with a water (holding) allocation but not a water (taking) allocation, authorise the taking of water but will enable the holder of the licence to make a request to the Minister to convert the allocation to a water (taking) allocation under section 153.
- (2) An application for a licence must be in a form approved by the Minister and must—
 - (a) be accompanied by the fee prescribed by the regulations; and
 - (b) if the water allocation of the licence will be comprised wholly or partly of an allocation purchased from the Minister—be accompanied by the amount agreed to be paid for the allocation.
- (3) The Minister may refuse to grant a water licence—
 - (a) if it is not possible to endorse a water allocation on the licence consistently with the relevant water allocation plan; or
 - (b) if, in the opinion of the Minister, the water to be taken pursuant to the licence is so contaminated that its use would create a risk to the health of people or animals; or
 - (c) to a person, or to the associate of a person, who formerly held a licence that was cancelled under this Act; or
 - (d) to a person who has acted in contravention of this Act; or
 - (e) on any other reasonable ground.
- (4) If an application for a licence is within a class of applications prescribed by the regulations for the purposes of this provision, the Minister must, before making a decision on the application—
 - (a) consult the Minister to whom the administration of the *River Murray Act 2003* is committed; and
 - (b) comply with the Minister's directions (if any) in relation to the application (including a direction that the application not be granted, or that if it is to be granted, then the licence be subject to conditions specified by the Minister).

- (5) The Minister's decision on an application for a licence that relates to a water resource within the Murray-Darling Basin must take into account the terms or requirements of the Agreement approved under the *Murray-Darling Basin Act 1993*, and any relevant resolution of the Ministerial Council under that Agreement (insofar as they may be relevant).
- (6) A licence—
- (a) must specify the water resource from which the water is to be taken; and
 - (b) must, in the case of a licence endorsed with a water (taking) allocation, specify the part or parts of the resource from which the water may be taken; and
 - (c) must be endorsed with a water allocation and—
 - (i) if the allocation is comprised of one or more components that expire on a future date, the endorsement must set out the amount of water allocated by each component and the date or dates on which the component or components of the allocation expire; and
 - (ii) if the allocation includes a component that is subject to a condition restricting the purpose for which the water can be used, the endorsement must set out the quantity of water allocated by the component and the purpose for which the water can be used; and
 - (d) is subject to conditions prescribed from time to time by the regulations and such other conditions as are endorsed on the licence by the Minister; and
 - (e) remains in force until the licence is terminated by or under this Act; and
 - (f) may specify intervals at which the Minister may vary the conditions of the licence.
- (7) If a condition of a licence restricts the purpose for the use of water to a particular crop, that restriction will cease to apply on 1 July 2006.
- (8) Without limiting the operation of subsection (6)(d), a condition of a licence that relates to a water resource within the Murray-Darling Basin may include—
- (a) a requirement that the licensee enter into a bond in such sum and subject to such terms and conditions specified by the Minister, or enter into some other arrangement specified by the Minister (which may include the payment of a sum or sums of money into an account specified by the Minister), to ensure that money is available to address the costs of any damage to the River Murray (being the costs of any such damage within the meaning of section 3(5) of the *River Murray Act 2003*) that may be attributable to the taking or use of water by virtue of the licence;
 - (b) a requirement that the licensee—
 - (i) develop to the satisfaction of the Minister an environment improvement program containing requirements specified by the Minister, and then comply with the requirements of that program to the satisfaction of the Minister; or

- (ii) participate in a specified environment improvement program (including a program that applies with respect to any part of the River Murray);
 - (c) a requirement that the licensee participate in any other form of scheme to protect, restore or otherwise benefit the River Murray specified by the Minister (including a scheme established by the Minister or any other person or body that has effect in relation to any part of the River Murray and including by payment of a sum or sums of money into an account established or used for the purposes of the scheme).
- (9) Without limiting the operation of subsection (8) with respect to any licence granted after the commencement of this Act, a condition of a kind referred to in that subsection may be imposed with respect to—
 - (a) a licence granted before the commencement of this Act; and
 - (b) any damage to the River Murray occurring before the commencement of this Act.
- (10) A condition of a kind referred to in subsection (8) may also be imposed with respect to damage to the River Murray occurring before the imposition of the condition.
- (11) A licence (including the water allocation of the licence) is personal property vested in the licensee and will pass to another person under Division 3 or (subject to that Division) in accordance with any other law for the passing of property.

147—Variation of water licences

- (1) A water licence may be varied by the Minister—
 - (a) at any time on the application of, or with the consent of, the licensee; or
 - (b) if the licence provides for intervals at which the conditions of the licence may be varied—at those intervals if, in the Minister's opinion, the variation is necessary or desirable to more effectively regulate the use of water from the resource—
 - (i) in accordance with the relevant water allocation plan and this Act; or
 - (ii) in accordance with the objects of the *River Murray Act 2003* or the *Objectives for a Healthy River Murray* under that Act; or
 - (c) at any time if there has been an alteration to the water allocation plan for the water resource specified in the licence and the variation is necessary, in the opinion of the Minister, to prevent the licence from being inconsistent (as to the quantity of water allocated or the basis on which it is allocated) or seriously at variance (as to the licence conditions) with the plan; or
 - (d) on or after 1 July 2006, insofar as the variation is being made on account of the operation of section 146(7) in order to provide for the allocation of water under the licence on a basis that does not relate to the use of water for a crop; or
 - (e) at any time if the variation is to impose or vary a condition of a licence that relates to a water resource within the Murray-Darling Basin and the Minister is of the opinion that the variation is appropriate or desirable to prevent, reduce or address damage to the River Murray; or

- (f) if the Minister is authorised to do so by section 158 or section 162; or
 - (g) at any time in order to reflect a reduction in the water allocation of the licence by the Minister under section 155 or section 156; or
 - (h) under a scheme established under Division 5.
- (2) An application under subsection (1)(a) must—
- (a) be made in a form approved by the Minister; and
 - (b) be accompanied by the fee prescribed by the regulations.
- (3) A licensee may appeal to the ERD Court against—
- (a) a decision to refuse to grant an application to vary his or her licence under subsection (1)(a); or
 - (b) the variation of his or her licence under subsection (1)(b), (c) or (e).
- (4) However, if the licence relates to a water resource within the Murray-Darling Basin then no right of appeal will arise under subsection (3) if the regulations so provide.
- (5) The Minister may not vary a licence condition under paragraph (e) of subsection (1) so as to reduce a water allocation endorsed on the relevant licence (but nothing in this subsection limits or affects the operation of any other paragraph of subsection (1)).

148—Surrender of licence

- (1) Subject to subsection (2), a licensee may surrender his or her licence at any time.
- (2) If the NRM Register includes a notation that a person has an interest in the licence, the licence cannot be surrendered without the written consent of that person.
- (3) On surrender the water allocation of the licence vests in the Minister.

149—Availability of copies of licences etc

- (1) The Minister must make copies of licences granted by the Minister under this Part available for inspection and purchase by members of the public.
- (2) The Minister must not charge for inspection of a licence and must not charge more than the fee prescribed by the regulations for sale of copies of a licence.

Division 2—Allocation of water

150—Method of fixing water (taking) allocations

A water (taking) allocation may be fixed by specifying the volume of water that may be taken and used or by reference to the purpose for which the water may be taken and used or in any other manner.

151—Allocation of water

- (1) The water allocation, or a component of the water allocation, of a licence may be obtained—
 - (a) from the Minister; or
 - (b) from the holder of another licence; or

- (c) in the case of a water (taking) allocation, on conversion under section 153 of a water (holding) allocation or part of such an allocation; or
 - (d) under an Interstate Water Entitlements Transfer Scheme.
- (2) Subject to subsection (3), allocations obtained from the Minister will be free of charge (except for fees to cover administrative costs and expenses) unless the relevant water allocation plan provides for payment.
- (3) Subsection (2) does not apply in relation to an allocation that—
 - (a) the Minister has purchased; or
 - (b) has been forfeited to the Minister on cancellation of the water licence on which it was endorsed; or
 - (c) is being made under an Interstate Water Entitlements Transfer Scheme.
- (4) If the relevant water allocation plan provides for payment, all allocations obtained from the Minister must be sold by the Minister in accordance with the regulations by public auction or tender or, if either of those methods fail, by private contract.
- (5) The Minister may allocate water subject to conditions and those conditions, or such of them as the Minister specifies, will be conditions of the licence to which the water allocation is, for the time being, attached.
- (6) Before allocating water the Minister may direct that an assessment of the effect of allocating the water be made (at the expense of the person to whom the water is to be allocated) by an expert appointed or approved by the Minister.
- (7) The Minister may refuse to allocate water to a person who has acted in contravention of this Act.
- (8) The Minister may allocate water contrary to subsection (4)—
 - (a) to SA Water to replace an authorisation in favour of SA Water under section 128; or
 - (b) to a licensee (including under an Interstate Water Entitlements Transfer Scheme) as part of the process of transferring a water allocation from a person in another State or Territory of the Commonwealth to the licensee.

152—Basis of decisions as to allocation

- (1) The Minister's decision on the grant or variation of a water licence—
 - (a) as to the water allocation to be endorsed on the licence, must be consistent with the relevant water allocation plan; and
 - (b) as to the conditions to be attached to the licence, must not be seriously at variance with the relevant water allocation plan,and the Minister's decisions under both paragraphs (a) and (b) must—
 - (c) be made in the public interest; and
 - (d) if the licence relates to a water resource within the Murray-Darling Basin, be made after taking into account the terms and requirements of the Agreement approved under the *Murray-Darling Basin Act 1993*, and any resolution of the Ministerial Council under that Agreement (insofar as they may be relevant); and

(e) be consistent with requirements (if any) prescribed by the regulations.

(2) In this section—

relevant water allocation plan means the water allocation plan for the water resource from which the water is to be allocated and includes the water allocation plan of another water resource (if any) that includes provisions relating to the taking, or the taking and use, of water from the firstmentioned water resource.

153—Water (holding) allocations

- (1) If a water allocation plan provides for the endorsement of water (holding) allocations on water licences granted in relation to the plan's water resource, the Minister may endorse such allocations on water licences granted in relation to the resource.
- (2) The purpose of a water (holding) allocation is to preserve the right (subject to this Act) of the holder of the licence to obtain a water (taking) allocation in respect of the quantity of water allocated by the water (holding) allocation.
- (3) The quantity of water allocated from a water resource by a water (holding) allocation is reserved for the time when the water (holding) allocation is converted to a water (taking) allocation under subsection (7) and must not be allocated to any other licence or to any other purpose.
- (4) Subsection (3) does not prevent a water (holding) allocation from being transferred to another licence.
- (5) A water (holding) allocation may be the only allocation endorsed on a water licence or may be one of a number of components of the water allocation of the licence.
- (6) When applying for a water allocation to be endorsed on a new licence or an existing licence (whether on allocation of the water by the Minister or on transfer from another licence), the applicant may request that the allocation be endorsed as a water (holding) allocation if the relevant water allocation plan provides for such allocations.
- (7) Subject to subsection (8), at any time after the endorsement of a water (holding) allocation, the holder for the time being of the licence on which the allocation is for the time being endorsed may request that the Minister convert the whole or a part of the water (holding) allocation to a water (taking) allocation.
- (8) If a water (holding) allocation in relation to which section 102 applies is to be transferred subject to a condition (referred to in section 102(2)(c)) that the allocation—
 - (a) be converted to a water (taking) allocation; or
 - (b) be endorsed on the transferee's licence as a water (taking) allocation,the application to the Minister to approve the transfer of the licence or to vary the transferring and receiving licences will be taken to include a request under subsection (7) to convert the water (holding) allocation to a water (taking) allocation.
- (9) The Minister must determine a request under subsection (7) as though it were an application for the endorsement of a water (taking) allocation and must determine the request on the basis of this Act and the relevant water allocation plan at the time of the request.

- (10) Depending on the water allocation plan and the other factors to be considered at that time, the Minister may determine that the quantity of the water (taking) allocation will be less than the quantity of the water (holding) allocation, or that part of it, that is converted to the water (taking) allocation.
- (11) If the water (holding) allocation was endorsed on the licence subject to a condition restricting the part of the water resource from which water could be taken (pursuant to a subsequent water (taking) allocation), a water (taking) allocation endorsed on the licence on conversion of the whole or part of the water (holding) allocation cannot authorise the taking of water outside that part of the resource.

154—Conversion of water (taking) licence

- (1) At any time after the fixing of a water (taking) allocation, the holder for the time being of the licence may request that the Minister convert the whole or a part of the water (taking) allocation to a water (holding) allocation.
- (2) The Minister must determine a request under subsection (1) as though it were an application for the endorsement of a water (holding) allocation and must determine the request on the basis of this Act, the relevant water allocation plan at the time of the request, and any factor prescribed by the regulations.
- (3) If the water (taking) allocation was endorsed on the licence subject to a condition restricting the part of the water resource from which water could be taken, a water (holding) allocation endorsed on the licence on conversion of the whole or part of the water (taking) allocation cannot relate to water outside that part of the resource.

155—Allocation on declaration of prescribed water resource

- (1) On declaration of a watercourse, lake or well as a prescribed watercourse, lake or well or declaration of a part of the State as a surface water prescribed area, an existing user of water from the water resource concerned—
 - (a) may, subject to a restriction or prohibition under section 132, continue to use water without a licence until the end of the prescribed period or, if he or she applies for a licence within 6 months after the publication in the Gazette of the regulation declaring the resource to be a prescribed resource, until the application is granted or refused;
 - (b) is, subject to subsection (3), entitled to have endorsed on the licence, without the payment of a purchase price, a water (taking) allocation determined by the Minister under subsection (2) after consultation with the existing user.
- (2) The water allocation will be the quantity of water that will, in the opinion of the Minister, meet the future requirements of the existing user—
 - (a) based on his or her reasonable requirements during the establishment period;
or
 - (b) for water for a development, project or other undertaking to which he or she was legally committed or in respect of which he or she had committed significant financial or other resources during the establishment period; or
 - (c) under both paragraphs (a) and (b).

- (3) If at the expiration of the prescribed period, the aggregate of the allocations of water to which existing users are entitled under subsection (1) exceeds, in the opinion of the Minister, the capacity of the resource, the Minister may—
 - (a) reduce the allocation to which each existing user is entitled proportionately;
or
 - (b) reduce the allocations pursuant to a scheme set out in the regulations.
- (4) Before determining the capacity of the resource the Minister must prepare a report assessing the need for water of ecosystems that depend on the resource for water.
- (5) The Minister must make the report publicly available.
- (6) An existing user may appeal to the ERD Court against a determination or decision of the Minister under subsection (2).
- (7) Subject to a restriction or prohibition under section 132, a person who is not an existing user may take water from the water resource without a licence until the end of the prescribed period.
- (8) If the quantity of water available for allocation exceeds the entitlements of existing users, the Minister may allocate the excess in accordance with this Act and the relevant water allocation plan.
- (9) An entitlement referred to in subsection (1)(b) may be transferred to another person with the approval of the Minister.
- (10) In this section—

establishment period in relation to the declaration of a water resource means the period prescribed for the purposes of this definition by the regulation declaring the resource to be a prescribed resource being a period that ends at the commencement of the prescribed period;

existing user means, subject to subsection (11), a person—

- (a) who took water from the resource at any time during the establishment period; or
- (b) who did not take any water during that period but who needs water for a development, project or undertaking to which he or she was legally committed or in respect of which he or she had, in the opinion of the Minister, committed significant financial or other resources during the establishment period;

prescribed period in relation to a water resource commences on the date of publication in the Gazette, a newspaper circulating generally throughout the State or a local newspaper (whichever occurs first) of the notice inviting submissions in relation to the proposed regulation declaring the resource to be a prescribed resource and ends on the date specified for that purpose in the regulation.

- (11) A person ceases to be an existing user if the person does not apply for a water licence within 6 months after publication in the Gazette of the regulation declaring the resource to be a prescribed resource.

156—Reduction of water allocations

- (1) The Minister may reduce both the water (taking) allocations and the water (holding) allocations of the licences that have been granted in relation to a particular water resource if in the Minister's opinion it is necessary or desirable to do so—
 - (a) to prevent a reduction, or further reduction, in the quality of the water in the resource or in a water resource that is affected by the taking of water from the firstmentioned resource; or
 - (b) to prevent damage, or further damage, to an ecosystem that depends on that water or on the water from a resource that is affected by the taking of water from the firstmentioned resource; or
 - (c) because there is insufficient water to meet the existing demand or expected future demand for water from that resource or from a water resource that is affected by the taking of water from the firstmentioned resource; or
 - (d) because there has been, or is to be, a reduction in the quantity of water available under or by virtue of the *Groundwater (Border Agreement) Act 1985* or the *Murray-Darling Basin Act 1993*.
- (2) Subject to regulations made under subsection (3), the Minister must reduce the allocation of all of the licences that have been granted to take water from the water resource proportionately.
- (3) Instead of the allocations being reduced proportionately they may be reduced pursuant to a scheme set out in regulations made by the Governor on the recommendation of the Minister.
- (4) The reduction of a water allocation under this section comes into operation at the expiration of 7 days after notice of the reduction is served on the licensee by the Minister.
- (5) Before making a recommendation to the Governor for the purposes of subsection (3), the Minister must—
 - (a) consult the relevant regional NRM board; and
 - (b) cause to be published in the Gazette, in a newspaper circulating generally throughout the State and in a local newspaper a notice outlining the proposed recommendation, stating the reasons for it and inviting interested persons to make written submissions to the Minister in relation to the proposal within a period (being at least 3 months) specified in the notice (and then have regard to all submissions made in accordance with the notice); and
 - (c) have regard to the views of the regional NRM board and all submissions made in accordance with the notice.

Division 3—Transfer of licences and water allocations

157—Transfer

- (1) Subject to this Division and the relevant water allocation plan, a licensee may—
 - (a) transfer the licence (including its water allocation) to another person; or
 - (b) transfer the whole or part of the water allocation of the licence—

- (i) to another licensee or the Minister; or
 - (ii) to any other person or the Minister under an Interstate Water Entitlements Transfer Scheme.
- (2) The transfer of a licence under subsection (1) requires the approval of the Minister and may be absolute or for a limited period.
- (3) The Minister may refuse to grant approval for the transfer of a water licence to a person on the same grounds as those on which the Minister would refuse to grant an application by that person for a licence.
- (4) The transfer of the whole or part of the water allocation of a licence between licensees is achieved by variation of the transferring and receiving licences by the Minister and may be absolute or for a limited period.
- (5) The Minister may refuse to vary the licences if the transfer of the whole or part of a water allocation is to a person who has acted in contravention of this Act.
- (6) The Minister may refuse to grant approval for the transfer of a licence or the whole or part of a water allocation if the licensee is in breach of a condition of the licence.
- (7) A licence or a water allocation or part of a water allocation that has been transferred for a limited period reverts automatically to the transferor or the transferor's licence when the period expires.
- (8) The transfer of a licence or the whole or part of a water allocation to or by SA Water must also be approved by the Minister for the time being administering the *Waterworks Act 1932*.
- (9) Despite the provisions of the *Stamp Duties Act 1923*, if the transfer of a licence, or of the whole or part of the water allocation of a licence, is expressed to be for a period not exceeding 5 years (including any rights of extension under the instrument of transfer), the transfer (and the subsequent transfer back to the original transferor at the end of the relevant period) is not chargeable with duty under that Act.

158—Application for transfer of licence or allocation

- (1) An application to the Minister for his or her approval of the transfer of a licence or for the variation of licences on the transfer of the whole or part of a water allocation must—
 - (a) be in a form approved by the Minister; and
 - (b) be accompanied by—
 - (i) the fee prescribed by the regulations; and
 - (ii) the licence or licences affected by the application.
- (2) Before granting an application the Minister may direct that an assessment of the effect of granting the application be made (at the expense of the applicant) by an expert appointed or approved by the Minister.

- (3) If an application for the transfer of a licence or the transfer of the whole or part of a water allocation that relates to a licence that relates to a water resource within the Murray-Darling Basin and falls within a class prescribed by the regulations for the purposes of this provision (which class may be prescribed so as to consist of all such applications), the Minister must, before making his or her decision on whether to grant the application—
- (a) consult with the Minister to whom the administration of the *River Murray Act 2003* is committed; and
 - (b) comply with the Minister's directions (if any) in relation to the application (including a direction that the application not be granted, or that if it is granted, then the Minister exercise a specified power under subsection (4) or impose conditions specified by the Minister as part of his or her direction).
- (4) The Minister may when granting an application under subsection (1)—
- (a) reduce the water allocation of the transferred licence;
 - (b) in the case of an application for the transfer of the whole or part of the water allocation of a licence to another licence, require that the water allocation received by the receiving licence be for a quantity of water fixed by the Minister that is less than the water allocation transferred from the transferring licence;
 - (c) vary any condition of the licence transferred or the receiving licence—
 - (i) to ensure consistency with the relevant water allocation plan; or
 - (ii) in the case of a licence that relates to a water resource within the Murray-Darling Basin—to comply with any direction under subsection (3) or otherwise to take action to prevent, reduce or address damage to the River Murray;
 - (d) if relevant, take any other action required or permitted under an Interstate Water Entitlements Transfer Scheme.
- (5) As an example but without limiting subsection (4), if, following the transfer of a licence or the whole or part of the water allocation of a licence, the water will not be taken from the same part of the water resource as before, the Minister may exercise his or her powers under subsection (4)—
- (a) to ensure that the demand for water from the part of the water resource from which the water will be taken in future does not prejudice other licensees by exceeding the availability of water in that part of the water resource; or
 - (b) to reflect the loss to the water resource of part of the water represented by the transferred licence or allocation by reason of evaporation or any other cause as the water flows to the part of the resource from which it will be taken in future.

159—Requirement for notice of application for certain transfers

- (1) This section applies to an application for the transfer of a licence or the water allocation of a licence if the relevant water allocation plan provides that this section applies to the application.

Natural Resources Management Act 2004—2.2.2006 to 30.6.2006

Chapter 7—Management and protection of water resources

Part 3—Licensing and allocation of water

Division 3—Transfer of licences and water allocations

- (2) Notice of an application to which this section applies must be given by the Minister in accordance with the regulations to those persons specified in the plan and to those persons (if any) prescribed by the regulations and to the public generally.
- (3) If notice of an application has been given under this section, any person who desires to do so may, in accordance with the regulations, make representations in writing to the Minister in relation to the granting or refusal of the application.
- (4) The Minister must forward to the applicant a copy of the representations (if any) made and allow the applicant an opportunity to respond, in writing, to those representations.
- (5) The response referred to in subsection (4) must be made within the number of days prescribed by the regulations after the relevant material is forwarded to the applicant.
- (6) The Minister must allow a person who made a representation and who, as part of that representation, indicated an interest in appearing before the Minister, a reasonable opportunity to appear personally or by representative before the Minister to be heard in support of the representation.
- (7) If a person appears before the Minister under subsection (6), the Minister must also allow the applicant a reasonable opportunity, on request, to appear personally or by representative in order to respond to any relevant matter.
- (8) If representations have been made under this section, the Minister must—
 - (a) give to each person who made a representation notice of the Minister's decision on the application and of the date of the decision and of the person's appeal rights under this Act; and
 - (b) give notice to the ERD Court—
 - (i) of the Minister's decision on the application and of the date of the decision; and
 - (ii) of the names and addresses of persons who made representations to the Minister under this section.
- (9) A notice under subsection (8) must be given within 5 business days from the date of the decision on the application.
- (10) A person who is entitled to be given notice of the decision under subsection (8) may, within 15 business days after the date on which the notice was given to him or her, appeal to the ERD Court against the decision.

- (12) A decision of the Minister in respect of which representations have been made under this section does not operate—
 - (a) until the time within which any person who made any such representation may appeal against a decision to grant the application has expired; or
 - (b) where an appeal is commenced—
 - (i) until the appeal is dismissed, struck out or withdrawn; or
 - (ii) until the questions raised by the appeal have been finally determined (other than any question as to costs).

(13) In this section—

relevant water allocation plan means the water allocation plan for the water resource in relation to which the licence was granted or from which the water was allocated.

160—Basis of decision as to transfer

- (1) The Minister's decision to grant or refuse approval for the transfer of a licence or the whole or part of the water allocation of a licence—
 - (a) must—
 - (i) as to the water allocation to be endorsed on the transferred or receiving licence—be consistent with the relevant water allocation plan; and
 - (ii) as to the conditions attached to the licence—not be seriously at variance with the relevant water allocation plan; and
 - (b) must be made in the public interest; and
 - (c) if the licence relates to a water resource within the Murray-Darling Basin, must be made after taking into account the terms and requirements of the Agreement approved under the *Murray-Darling Basin Act 1993*, and any resolution of the Ministerial Council under that Agreement (insofar as they may be relevant); and
 - (d) must be consistent with requirements (if any) prescribed by regulation under this paragraph.
- (2) Subsection (1)(a)(i) operates subject to the terms or requirements of an Interstate Water Entitlements Transfer Scheme.
- (3) If a person is noted on the NRM Register as having an interest in a licence, the Minister must not grant approval for the transfer of the licence or the whole or part of the water allocation of the licence without the written consent of that person.
- (4) In this section—

relevant water allocation plan means the water allocation plan for the water resource in relation to which the licence was granted or from which the water was allocated and includes the water allocation plan of another water resource (if any) that includes provisions relating to the taking, or the taking and use, of water from the firstmentioned water resource.

161—Endorsement and record of dealings

The Minister must—

- (a) endorse on a water licence the name and address of the person to whom the licence has been transferred;
- (b) in the case of the transfer of the whole or part of the water allocation of a licence—endorse on the licence or licences affected such particulars as he or she thinks fit relating to the transfer.

Division 4—Breach of licence

162—Consequences of breach of licence etc

- (1) A licensee who contravenes or fails to comply with a condition of his or her licence is guilty of an offence—see section 127.
- (2) If a licensee, or a person acting on behalf of a licensee—
 - (a) takes water in excess of the allocation endorsed on the licence; or
 - (b) contravenes or fails to comply with a condition of the licence; or
 - (c) uses water taken pursuant to the licence for an illegal purpose,the Minister may cancel, suspend or vary the licence by 7 days written notice served on the licensee.
- (3) If a licensee, or a person acting on behalf of a licensee, contravenes or fails to comply with a notice under section 132, the Minister may cancel, suspend or vary the licence by 7 days written notice served on the licensee.
- (4) If—
 - (a) a licensee, or a person acting on behalf of a licensee—
 - (i) has contravened an environment protection order under the *Environment Protection Act 1993* or a protection order under the *River Murray Act 2003*; or
 - (ii) has failed to comply with a clean—up order under the *Environment Protection Act 1993* or a reparation order under the *River Murray Act 2003*; and
 - (b) the Minister is satisfied that the quality of the water in the water resource to which the licence relates has been detrimentally affected by the contravention or failure,the Minister may cancel, suspend or vary the licence by 7 days written notice served on the licensee.
- (5) A licensee, or former licensee, may appeal to the ERD Court against a decision of the Minister under subsection (2), (3) or (4).

163—Effect of cancellation of licence on water allocation

- (1) The water allocation endorsed on a licence that has been cancelled under this Division or any other provision of this Act is forfeited to the Minister.
- (2) If—
 - (a) the allocation has sufficient value to cover the costs associated with its sale; and
 - (b) the allocation can be transferred consistently with the relevant water allocation plan,the Minister must endeavour to sell the allocation by public auction or tender.

- (3) The proposal to sell the allocation must be advertised on at least 2 separate occasions in a newspaper circulating in the area in which the water resource is situated.
- (4) If the auction or tendering process fails, the Minister may sell the allocation by private contract for the best price that can reasonably be obtained.
- (5) Any money received by the Minister on the sale of the allocation under this section must be applied as follows:
 - (a) firstly—in paying the costs of the sale and any other costs incurred in proceedings under this section;
 - (b) secondly—in discharging the liability (if any) of the former licensee for an unpaid levy or instalment of a levy under Chapter 5 and any interest in respect of an unpaid levy or instalment;

- (7) The purchaser of an allocation under this section takes the allocation free of all charges.

Division 5—Schemes to promote the transfer or surrender of allocations

164—Schemes to promote the transfer or surrender of allocations

- (1) The Minister may, by notice in the Gazette, establish a scheme—
 - (a) to promote the transfer or surrender of the whole or part of water (taking) allocations or water (holding) allocations (or both) of licences, or licences of a specified class, that relate to a specified area within the Murray-Darling Basin; or
 - (b) to promote the surrender of licences, or licences of a specified class, that relate to a specified area within the Murray-Darling Basin.
- (2) A scheme under subsection (1) will be a scheme—
 - (a) under which any holder of a licence of a specified class must, in accordance with the terms of the scheme, make an offer—
 - (i) to transfer the whole or a specified part of the water (taking) allocation or water (holding) allocation (or both) of the licence to the Minister or to a person of a specified class—
 - (A) for a price specified by the licensee; or
 - (B) for a price determined under the terms of the scheme, being a price that equals or exceeds a reserve price specified by the licensee; or

- (ii) to surrender the whole or a specified part of the water (taking) allocation or water (holding) allocation (or both) of the licence, or to surrender the licence, to the Minister, for a price specified by the licensee; or

 - (i) for the surrender of the whole or a specified part of the water (taking) allocation or water (holding) allocation (or both) of the licence; or
 - (ii) for the surrender of the licence.
- (3) Neither the Minister nor any licensee or other person is required to accept an offer under a scheme established under this section.
- (4) Subject to subsection (5), the Minister must not reject any acceptance of an offer within the terms of a scheme under subsection (2)(b).
- (5) The Minister may reject such an acceptance if—
 - (a) the Minister has, in establishing the particular scheme, set a maximum amount of water allocation with respect to which the Minister is willing to make a payment and that maximum had been achieved before the receipt by the Minister of the relevant acceptance; or
 - (b) the Minister has, in establishing the particular scheme, set a limit on the amount of money that the Minister is willing to expend under the scheme and that limit has been achieved before the receipt by the Minister of the relevant acceptance; or
 - (c) the NRM Register includes a notation that a person has an interest in the licence and the acceptance has been made without the written consent of that person; or

Part 4—Reservation of excess water by Minister

165—Interpretation

In this Part, unless the contrary intention appears—

reserved water means water reserved by notice published in the Gazette under section 166.

166—Reservation of excess water in a water resource

- (1) If—
 - (a) a water allocation plan has been adopted by the Minister in relation to a water resource; and
 - (b) the water resource includes excess water that is available for allocation; and
 - (c) the Minister is satisfied that it is necessary or desirable for the proper management of the water of the resource to reserve the whole or part of that excess water either from allocation under any circumstances or for allocation subject to restrictions,the Minister may, by notice published in the Gazette, reserve the whole or a part of the excess water.
- (2) The notice—
 - (a) must specify the quantity of water that is reserved; and
 - (b) must state whether the water is reserved from allocation under any circumstances or may be allocated by the Minister if the requirements referred to in a regulation under section 167 are satisfied; and
 - (c) may, if water can be allocated, specify the requirements (if any) that must be satisfied in addition to those referred to in a regulation under section 167 before water is allocated.
- (3) The Minister may, at any time, by subsequent notice published in the Gazette vary or revoke a notice under subsection (1).

167—Allocation of reserved water

- (1) The following provisions apply in relation to the allocation of reserved water despite the other provisions of this Act:
 - (a) the restrictions (if any) in the relevant water allocation plan as to the purpose for which allocated water can be used do not apply to the allocation of reserved water (but this paragraph does not prevent the Minister from allocating reserved water subject to the same or similar restrictions);
 - (b) the allocation must be for a limited term of not more than 15 years and the licence on which the allocation is for the time being endorsed must specify the date on which the allocation expires;
 - (c) the Minister may require an applicant to pay to the Minister for the allocation of reserved water an amount negotiated with the applicant either in one payment or a series of periodic payments;
 - (d) subsections (2) and (4) of section 151 do not apply in relation to an allocation of reserved water;
 - (e) the Minister cannot grant a water (holding) allocation of reserved water;
 - (f) a licensee cannot transfer an allocation of reserved water to another licensee.
- (2) The Minister must not allocate reserved water unless—
 - (a) a regulation that sets out requirements that must be satisfied is in force; and

- (b) those requirements have been satisfied.
- (3) A regulation referred to in subsection (2)(a) cannot come into operation until it is no longer possible for the regulation to be disallowed under section 10 of the *Subordinate Legislation Act 1978*.

168—Public notice of allocation of reserved water

- (1) If—
 - (a) the Minister has by notice in the Gazette reserved water under this Part; and
 - (b) under the terms of the notice the reserved water may be allocated,the Minister must, subject to subsection (3), publish notice in the Gazette in respect of each quarter setting out—
 - (c) the quantity of reserved water allocated to each person during the quarter; and
 - (d) the name of each person to whom the water was allocated; and
 - (e) the term during which the allocation operates; and
 - (f) the amount or amounts payable for the allocation of the water and the date or dates on which those amounts are payable.
- (2) A notice under subsection (1) must be published in the Gazette as soon as practicable after the end of the quarter to which it relates.
- (3) A notice need not be published under subsection (1) if no water was allocated in the relevant quarter.

- (4) In this section—

quarter means the periods of 3 months ending on 30 September, 31 December, 31 March and 30 June in each financial year.

Part 5—Water conservation measures

169—Water conservation measures

- (1) For the purposes of this section, water conservation measures may do one or more of the following:
 - (a) prohibit the use of water for a specified purpose or purposes, or restrict or regulate the purposes for which water can be used;
 - (b) prohibit the use of water in a specified manner or by specified means, or restrict or regulate the manner in which, or the means by which, water may be used;
 - (c) prohibit specified uses of water during specified periods, or restrict or regulate the times at which water may be used.
- (2) The Governor may, by regulation, introduce one or more water conservation measures.
- (3) Regulations under subsection (2) must be declared to be made—
 - (a) for the purposes of taking action to provide for the better conservation, use or management of water (*longer-term measures*); or

-
- (b) for the purposes of taking action on account of a situation, or likely situation, that, in the opinion of the Governor, has resulted, or is likely to result, in a decrease of the amount of water available within a water resource (whether prescribed or not) (*short-term measures*).
- (4) A regulation under subsection (2) will, unless it has already been revoked, expire—
- (a) in the case of a longer-term measure—at the expiration of 5 years from the day on which it comes into operation;
- (b) in the case of a short-term measure—at the expiration of 1 year from the day on which it comes into operation.
- (5) Before a regulation is made under subsection (2)—
- (a) the Minister should take reasonable steps to consult with persons who, in the opinion of the Minister, are appropriate representatives of groups who will be affected by the proposed regulation; and
- (b) the Minister should give consideration—
- (i) to the impact that the regulation would have on any rights or entitlements arising under or by virtue of any licences or permits granted under this Chapter; and
- (ii) to the provisions of any relevant water allocation plan, and of any other relevant part of this Chapter.
- (6) A regulation under this section may provide that a specified activity involving the use of water cannot occur except under the authority of an approval issued by the Minister in accordance with the regulations.
- (7) A regulation under this section may—
- (a) apply in relation to any water—
- (i) that forms part of the water resources (whether prescribed or not) of the State; or
- (ii) that is available for use within the State (including through a water reticulation system);
- (b) apply in relation to the whole or any part of the State;
- (c) apply any measure in relation to specified classes of persons or bodies, or generally;
- (d) specify conditions or provide for exemptions;
- (e) otherwise make different provision according to circumstances specified in the regulation.
- (8) A person who contravenes or fails to comply with a regulation under this section is guilty of an offence.

Maximum penalty:

- (a) where the offender is a body corporate—\$10 000;
- (b) where the offender is a natural person—\$5 000.

Expiation fee: \$315.

Part 6—Related matters

170—Effect of water use on ecosystems

When making a decision under this Chapter that is based wholly or partly on an assessment of the quantity of water available or the period or periods during which water is available from a water resource, the Minister or other person or body making that decision must take into account the needs of the ecosystems that depend on that resource for water.

171—By-laws

- (1) A regional NRM board has power to make by-laws with respect to any matter prescribed by the regulations in relation to—
 - (a) water that is under the control of the board; or
 - (b) a watercourse or lake, or infrastructure, that is under the care, control and management of the board; or
 - (c) an area that is within the immediate vicinity of a watercourse or lake, or infrastructure, that is under the care, control and management of the board.

 - (a) the use of water that is under the control of a regional NRM board; or
 - (b) the use of a watercourse or lake, or infrastructure, that is under the care, control and management of a regional NRM board; or
 - (c) prescribed activities with respect to any such water, watercourse, lake or infrastructure, or any area that is within the immediate vicinity of any such watercourse, lake or infrastructure.
- (3) A regional NRM board cannot make a by-law that requires that a person obtain a licence from the board to carry out an activity unless the regulations have conferred express power in the board to do so.
- (4) A by-law under this section—
 - (a) may make different provision according to the matters or circumstances to which they are expressed to apply; and
 - (b) may provide that a matter or thing in respect of which the by-law may be made is to be determined according to the discretion of the regional NRM board, or a person or body prescribed by the regulations; and

- (3) The power conferred by subsection (1) may only be exercised by a Judge of the ERD Court.

 - (c) it is in the public interest that the proceedings should be brought.
- (7) If an application is made by a person other than the Minister—
 - (a) the applicant must serve a copy of the application on the Minister within 3 days after filing the application with the ERD Court; and
 - (b) the ERD Court must, on application by the Minister, join the Minister as a party to the proceedings.

-
- (10) An application under this section must, in the first instance, be referred to a conference under section 16 of the *Environment, Resources and Development Court Act 1993*.
- (11) If, on an application under this section or before the determination of the proceedings commenced by the application, the ERD Court is satisfied that, in order to preserve the rights or interests of parties to the proceedings or for any other reason, it is desirable to make an interim order under this section, the Court may make such an order.

 - (b) to give an undertaking as to the payment of any amount that may be awarded against the applicant under subsection (14).

- (a) that the respondent has not contravened this Act; and
 - (b) that the respondent has suffered loss or damage as a result of the actions of the applicant; and
 - (c) that in the circumstances it is appropriate to make an order under this provision,
- the Court may, on the application of the respondent (and in addition to any order as to costs), require the applicant to pay to the respondent an amount, determined by the Court, to compensate the respondent for the loss or damage suffered by the respondent.
- (15) The ERD Court may, if it considers it appropriate to do so, either on its own initiative or on the application of a party, vary or revoke an order previously made under this section.

- (2) Without limiting the operation of subclause (1)—
 - (a) an employee of a prescribed body will continue to be covered by any workers compensation or other insurance or superannuation scheme that applied immediately before the commencement of this clause while he or she remains in that employment (and any right or liability exercisable, acquired, arising or accrued during that employment will not be affected by virtue of the enactment of this Act); and
 - (b) the appointment of an employee of a prescribed body as an authorised officer under this Act will not, in itself, affect any continuity of employment under this Schedule.
- (3) In addition to subclause (2), if—
 - (a) an employee of a prescribed body (to be referred to as a ***transferring employee*** for the purposes of this clause) leaves his or her employment with a prescribed body and within 3 months of having done so commences employment as a member of the staff of a regional NRM board; and

 - (b) the expiration of the 3 month period within which the election may be made (and if an election is not so made, then he or she will be taken to have resigned as a member of LGSS at the expiration of that period and will become a member of the Triple S scheme at that time).
- (5) If a transferring employee who is eligible to make an election under subclause (3) becomes a member of the Triple S scheme on (or before) the expiration of the 3 month period that applies under that subclause—
 - (a) the transferring employee is entitled to become a member of the Triple S scheme without being required to undergo a medical examination in order to maintain the same level of insurance cover that the transferring employee enjoyed under LGSS; but

-
- (b) if the transferring employee suffers from a medical condition or other restriction relevant to the terms or conditions of his or her membership of LGSS, the South Australian Superannuation Board may impose similar terms or conditions in relation to his or her membership of the Triple S scheme.
