(2) Where a petroleum pool is partly in one licence area and partly in an adjoining licence area of the same licensee and petroleum is recovered from that pool through a well or wells in one or both of the licence areas, there shall be deemed to have been recovered in each of the licence areas, under the licence in respect of that area, such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and the respective proportions shall be determined in accordance with subsection (3).

(3) The proportions to be determined for the purposes of subsection (2) may be determined by agreement between the licensee and the Minister or, in the absence of agreement, may be determined by the Supreme Court on the application of the licensee or the Minister.

(4) Where a petroleum pool is partly in a licence area and partly in an area (in this subsection referred to as “the Commonwealth licence area”) in which the licensee has authority under the Commonwealth Act to explore for, or recover, petroleum, and petroleum is recovered from that pool through a well or wells in the licence area, the Commonwealth licence area or both, there shall be deemed to have been recovered in the licence area such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and that proportion shall be determined in accordance with subsection (5).

and

(c) the Supreme Court of another State makes a determination, under the Commonwealth Act or a corresponding law, of the proportion of the petroleum recovered from that pool that is, for the purposes of the Commonwealth Act or the corresponding law, to be deemed to have been recovered from the other area,

the Supreme Court shall not make a determination under this section that is inconsistent with the determination of the Supreme Court of the other State.

(9) Where—

(a) a petroleum pool is partly in a licence area and partly in another area, whether in the adjacent area or not, in respect of which another person has authority, whether under this Act, the Commonwealth Act or a corresponding law, to explore for or recover petroleum;

(b) a unit development agreement in accordance with section 58 is in force between the licensee and that other person;

and

(c) petroleum is recovered from that pool through a well or wells in the licence area, the other area or both,

the Minister shall, by instrument in writing served on the applicant, inform the applicant—

(d) that the Minister is prepared to grant to the applicant a lease in respect of the block or blocks specified in the application;

Rights conferred by lease

37c. A lease, while it remains in force, authorizes the lessee, subject to this Act and in accordance with the conditions to which the lease is subject, to explore for petroleum, and to carry on such operations and execute such works as are necessary for that purpose, in the lease area.

Term of lease

37d. Subject to this Part, a lease (whether granted by way of renewal of a lease or otherwise) remains in force for a period of 5 years commencing on the day on which the lease was granted or, if a later day is specified in the lease as being the day on which the lease is to come into force, on that later day.

(b) the lessee has not made an application for the renewal of the lease; and

(c) after consideration of the results of the re-evaluation referred to in paragraph (a) and such other matters as the Minister thinks fit, the Minister is of the opinion that recovery of petroleum from the lease area is commercially viable,

(2) Where—

(a) an instrument under subsection (1) is served on a lessee; and

(b) the lessee does not, within the period referred to in subsection (1)(e), serve on the Minister an instrument setting out matters that the lessee wishes to be considered or the Minister, after consideration of matters set out in an instrument served on the Minister by the lessee within that period, determines that the lease should be cancelled,

the Minister shall, by instrument in writing served on the lessee, cancel the lease.

(3) The cancellation of a lease under subsection (2) has effect—

(a) in a case to which paragraph (b) does not apply—at the end of the period of 12 months commencing on the date of service of the instrument of cancellation;

or

(b) in a case where the lessee makes an application for a licence in respect of one or more of the blocks comprised in the lease within the period referred to in paragraph (a)—when the Minister grants, or refuses to grant, the licence or when the application lapses, whichever first happens.

the Minister—

(d) shall, if the lessee has complied with the conditions to which the lease is subject and with the provisions of this Part and of the regulations;

or

(e) may, if the lessee has not so complied but the Minister is satisfied that special circumstances exist that justify the granting of the renewal of the lease,

inform the lessee, by instrument in writing served on the lessee, that the Minister is prepared to grant to the lessee the renewal of the lease and that the lessee will be required to lodge a security for compliance with the conditions to which the lease, if the renewal is granted, will from time to time be subject and with the provisions of this Part and of the regulations.

the permittee may, within the application period, make an application to the Minister for the grant of a licence in respect of any of the other blocks forming part of the location concerned.

(4) Subject to subsection (5), the application period in respect of an application under this section by a permittee is—

(4) Where an applicant on whom there has been served an instrument under section 42(1)—
   (a) has not made a request under subsection (1); or
   (b) if the Minister has informed the applicant that he will be required to lodge a security as mentioned in section 42(1)(b), has not lodged that security with the Minister,
within the period applicable under subsection (1), the application lapses upon the expiration of that period.

(5) On the day on which a licence granted under this section comes into force, the permit or lease in respect of the blocks in respect of which the licence was granted ceases to be in force in respect of those blocks.

**Variation of licence area**

44. (1) Where an application is made under section 39(2) for a variation of a licence, the Minister shall, by instrument in writing served on the licensee, vary the licence to include in the licence area the blocks specified in the application.

(2) On and from the day on and from which a variation of a licence under this section has effect—

(2) Where a permittee or lessee makes an application for a secondary licence—

(a) the permit or lease is determined as to any blocks forming part of the location concerned that are not the subject of that application or of any application for a primary licence or for the variation of such a licence;

and

(b) the determination has effect upon the making of the application.

(3) Subject to subsection (4), where a block or blocks constituting or forming part of a location is or are no longer the subject of a permit or lease, the Minister shall, by instrument published in the Gazette—

(a) in a case where that block or those blocks constitutes or constitute that location—revoke the declaration made under section 36(1) in respect of that location;

or

(b) in a case where that block or those blocks form part of that location—revoke the declaration made under section 36(1) in respect of that location to the extent that it relates to that block or those blocks.

(4) Subsection (3) does not apply in relation to a block—

(6) Where—

(a) the Minister refuses to grant a lease in respect of a block or blocks constituting or forming part of a location;

and

(b) the reason, or one of the reasons, for the refusal is that the Minister is not satisfied as to the matter referred to in section 37b(1)(c)(ii),

the Minister shall, by instrument published in the Gazette, revoke the declaration made under section 36(1) in respect of that location.

Application for licence in respect of surrendered, etc., blocks

(3) Where the Minister, in an instrument under subsection (1), states that an applicant is required to specify a rate of royalty as mentioned in paragraph (b) of subsection (2), the Minister may, in that instrument, state that an applicant on whose application he is prepared to grant a licence will also be required to pay to him, in respect of the grant of the licence to the applicant, the amount specified in that behalf in that instrument.

PART III

Petroleum (Submerged Lands) Act, 1982

Grant of licence on request

49. Where an applicant on whom there has been served an instrument under section 48—

(a) has made a request under section 48(6);

(b) if the instrument contains a statement of the balance of an amount that the applicant will be required to pay in respect of the grant of a licence to him—has paid that balance or entered into an agreement under section 108 in respect of that balance;

and

(c) if the Minister has informed him that he will be required to lodge a security as mentioned in section 48(4), has lodged that security with the Minister,

within the period applicable under section 48(6), the Minister shall grant to him a production licence for petroleum in respect of the block specified in the instrument.

Grant of licences in respect of individual blocks

50. (1) Where a licence (in this section called “the original licence”) is in force in respect of two or more blocks (not being blocks that form, or form part of, a location), the licensee may make an application to the Minister for the grant to him of two or more licences in respect of the blocks the subject of the original licence in exchange for the original licence.

(2) An application under subsection (1)—

(a) shall be in accordance with an approved form;

(b) shall be made in an approved manner;

(c) shall specify the number of licences required;

(d) shall specify the block or blocks the subject of the original licence in respect of which each licence is sought;

and

(e) shall be accompanied by a fee of $300.

(3) The Minister may, by instrument in writing served on a licensee who has made an application under this section, require him to lodge, in respect of a licence to be granted to him under this section, a security for compliance with the conditions to which the licence is from time to time subject and with the provisions of this Part and the regulations.

(4) Where a licensee—

(a) has made an application under this section;

and

(b) if the Minister has required the licensee to lodge a security as mentioned in subsection (3) has lodged that security with the Minister,

the Minister shall grant to the licensee production licences for petroleum in accordance with the application.

(5) A licence granted on an application under this section—

(a) remains in force, subject to this Part, but notwithstanding section 52, for the remainder of the term of the original licence;

and

(b) shall be granted subject to conditions corresponding as nearly as may be to the conditions to which the original licence was subject.
(6) Where licences are granted on an application under this section—
(a) the original licence is, by force of this subsection, determined;
and
(b) the determination has effect on and from the day on which those licences come into force.

Rights conferred by licence

51. A licence, while it remains in force, authorizes the licensee, subject to this Act and in accordance with the conditions to which the licence is subject—
(a) to recover petroleum in the licence area and to recover petroleum from the licence area in another area to which he has lawful access for that purpose;
(b) to explore for petroleum in the licence area;
and
(c) to carry on such operations and execute such works in the licence area as are necessary for those purposes.

Term of licence

52. Subject to this Part, a licence remains in force—
(a) in the case of a licence granted otherwise than by way of renewal of a licence—for the period of 21 years commencing on the day on which the licence is granted or, if a later day is specified in the licence as being the day on which the licence is to come into force, on that later day;
(b) in the case of a licence granted by way of the first renewal of a licence—for the period of 21 years commencing on the day on which the licence is granted or, if a later day is specified in the licence as being the day on which the licence is to come into force, on that later day;
and
(c) in the case of a licence granted by way of the renewal, other than the first renewal, of a licence—for such period, commencing on the day on which the licence is granted (or, if a later day is specified in the licence as being the day on which the licence is to come into force, on that later day), as the Minister determines and specifies in the licence, being a period not exceeding 21 years.

Application for renewal of licence

53. (1) A licensee may, from time to time, make an application to the Minister for the renewal of the licence.

(2) An application for the renewal of the licence—
(a) shall be in accordance with an approved form;
(b) subject to subsection (3), shall be made in an approved manner not less than six months before the day on which the licence ceases to be in force;
(c) shall be accompanied by particulars of the proposals of the licensee for work and expenditure in respect of the licence area;
and
(d) shall be accompanied by a fee of $600.
(3) The Minister may, for reasons that he thinks sufficient, receive an application for the renewal of the licence less than six months before, but not in any case after, the day on which the licence ceases to be in force.

Grant or refusal of renewal of licence

54. (1) Where a licensee who has complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application under section 53 for the renewal of the licence, the Minister—

(a) shall, if the application is in respect of the first renewal of the licence;

or

(b) may, if the application is in respect of a renewal other than the first renewal of the licence,

inform the licensee, by instrument in writing served on the licensee, that he is prepared to grant to him the renewal of the licence.

(2) Where a licensee who has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application under section 53 for the renewal of the licence, the Minister, if he is satisfied that, although the licensee has not so complied, special circumstances exist that justify the granting of the renewal of the licence, may inform the licensee, by instrument in writing served on the licensee, that he is prepared to grant to him the renewal of the licence.

(3) If a licensee has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations, and if the Minister is not satisfied that special circumstances exist that justify the granting of the renewal of the licence, the Minister shall, subject to subsection (4), by instrument in writing served on the licensee, refuse to grant the renewal of the licence.

(4) The Minister shall not, under subsection (3), refuse to grant the renewal of a licence unless—

(a) he has, by instrument in writing served on the licensee, given not less one month's notice of his intention to refuse to grant the renewal of the licence;

(b) he has served a copy of the instrument on such other persons, if any, as he thinks fit;

(c) he has, in the instrument—

(i) given particulars of the reasons for the intention;

and

(ii) specified a date on or before which the licensee or a person on whom a copy of the instrument is served may, by instrument in writing served on the Minister, submit any matters that he wishes the Minister to consider;

and

(d) he has taken into account any matters so submitted to him on or before the specified date by the licensee or by a person on whom a copy of the firstmentioned instrument has been served.

(5) Where a licensee makes an application under section 53 in respect of a renewal other than the first renewal of the licence, the Minister may, by instrument in writing served on the licensee, refuse to grant the renewal of the licence.
(6) The Minister may, by an instrument served on a licensee under subsection (1) or (2) inform the licensee that he will be required to lodge a security for compliance with the conditions to which the licence, if the renewal is granted will from time to time be subject and with the provisions of this Part and of the regulations.

(7) An instrument under subsection (1) or (2) shall contain—

(a) a summary of the conditions to which the licence, on the grant of the renewal, is to be subject;

and

(b) a statement to the effect that the application will lapse—

(i) if the licensee does not make a request under subsection (8);

or

(ii) in a case where the Minister informs the licensee that he will be required to lodge a security as mentioned in subsection (6)—if the licensee does not lodge that security with the Minister.

(8) A licensee on whom there has been served an instrument under subsection (1) or (2) may, within a period of one month after the date of service of the instrument on him—

(a) by instrument in writing served on the Minister, request the Minister to grant to him the renewal of the licence;

and

(b) if the Minister has informed him that he will be required to lodge a security as mentioned in subsection (6) lodge that security with the Minister.

(9) Where a licensee on whom there has been served an instrument under subsection (1) or (2)—

(a) has made a request under subsection (8);

and

(b) if the Minister has informed him that he will be required to lodge a security as mentioned in subsection (6), has lodged that security with the Minister,

within the period referred to in subsection (8), the Minister shall grant to him the renewal of the licence.

(10) Where a licensee on whom there has been served an instrument under subsection (1) or (2)—

(a) has not made a request under subsection (8);

or

(b) if the Minister has informed him that he will be required to lodge a security as mentioned in subsection (6), has not lodged that security with the Minister,

within the period referred to in subsection (8), the application lapses upon the expiration of that period.
(11) Where—

(a) an application for the renewal of a licence is made under section 53:

and

(b) the licence expires—

(i) before the Minister grants, or refuses to grant, the renewal of the licence;

or

(ii) before the application lapses as provided by subsection (10),

the licence shall be deemed to continue in force in all respects—

(c) until the Minister grants, or refuses to grant, the renewal of the licence;

or

(d) until the application so lapses,

whichever first happens.

Conditions of licence

55. A licence may be granted subject to such conditions as the Minister thinks fit and specifies in the licence.

Works to be carried out

56. (1) A licensee is required, during the first year of the term of the licence, to carry out in or in relation to the licence area, in connection with exploration for, or operations for the recovery of, petroleum in or from the licence area, approved works to the value of not less than the amount calculated by multiplying the sum of $300 000 by the number of blocks in respect of which the licence is in force.

(2) A licensee is required, during each subsequent year of the term of the licence, to carry out in or in relation to the licence area, in connection with exploration for, or operations for the recovery of, petroleum in or from the licence area, approved works—

(a) if he did not recover petroleum in or from the licence area during the last preceding year of the term of the licence—to the value of not less than the amount calculated by multiplying the sum of $300 000 by the number of blocks in respect of which the licence is in force;

or

(b) if he did recover petroleum in or from the licence area during the last preceding year of the term of the licence and the amount referred to in paragraph (a) exceeds the value of the petroleum so recovered—to the value of not less than the amount of the excess.

(3) Where, in respect of a year of the term of his licence, a licensee has not complied with subsection (1) or (2), the State is entitled to recover from the licensee, by action against the licensee in a court of competent jurisdiction, an amount equal to the value of the approved works that the licensee was required to carry out in or in relation to the licence area during that year of the term of the licence less the value of any approved works carried out by the licensee in or in relation to that area during that year.
(4) The Minister may, if he is satisfied that special circumstances exist that justify his doing so, by instrument in writing served on a licensee, exempt the licensee from compliance with the requirements of this section in respect of the year of the term of the licence specified in the instrument subject to such conditions, if any, as the Minister thinks fit and specifies in the instrument.

(5) For the purposes of this section—

(a) the quantity of any petroleum recovered by a licensee from a well during a year shall be ascertained in accordance with Division VII;

and

(b) the value of any petroleum is the value at the well-head of that petroleum ascertained in accordance with that division.

Directions as to recovery of petroleum

57. (1) Where petroleum is not being recovered in a licence area and the Minister is satisfied that there is recoverable petroleum in that area, he may, by instrument in writing served on the licensee, direct the licensee to take all necessary and practicable steps to recover that petroleum.

(2) Where the Minister is not satisfied with the steps taken or being taken by a licensee to whom a direction has been given under subsection (1), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for or in relation to the recovery of petroleum in the licence area.

(3) Where petroleum is being recovered in a licence area, the Minister may, for reasons that the Minister thinks sufficient, by instrument in writing served on the licensee, direct the licensee to take all necessary and practicable steps to increase or reduce the rate at which petroleum is being recovered in the licence area or from a petroleum pool in the licence area to such rate as the Minister specifies in the instrument.

(4) Where the Minister is not satisfied with the steps taken or being taken by a licensee to whom a direction has been given under subsection (3), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for or in relation to the increase or reduction of the rate at which petroleum is being recovered in the licence area or from a petroleum pool in the licence area.

(5) Without limiting the matters that may be taken into account by the Minister in determining whether to give a direction under subsection (3) or (4), the Minister may take into account matters relating to the effects on South Australian revenue of the proposed direction, but the Minister shall not give a direction under subsection (3) or (4) if the direction would require action to be taken that is contrary to good oil-field practice.

Unit development

58. (1) In this section, the expression “unit development”—

(a) applies in relation to a petroleum pool that is partly in a particular licence area of a licensee and partly in a licence area of another licensee or in an area that is not within the adjacent area but in which a person other than the firstmentioned licensee is lawfully entitled to carry on operations for the recovery of petroleum from the pool;

and
PART III

Petroleum (Submerged Lands) Act, 1982

(b) means the carrying on of operations for the recovery of petroleum from that pool under co-operative arrangements between the persons entitled to carry on such operations in each of those areas.

(2) A licensee may from time to time enter into an agreement in writing for or in relation to the unit development of a petroleum pool, but nothing in this subsection derogates from the operation of section 80(2).

(3) The Minister of his own motion or on application made to him in writing by—

(a) a licensee in whose licence area there is part of a particular petroleum pool; or

(b) a person who is lawfully entitled to carry on operations for the recovery of petroleum in an area outside the adjacent area that includes part of a particular petroleum pool that extends into the adjacent area,

may, for the purpose of securing the more effective recovery of petroleum from the petroleum pool, direct any licensee whose licence area includes part of the petroleum pool, by instrument in writing served on the licensee to enter into an agreement in writing, within the period specified in the instrument, for or in relation to the unit development of the petroleum pool and to lodge an application in accordance with section 80 for approval of any dealing to which the agreement relates.

(4) Where—

(a) a licensee who is directed, under subsection (3), to enter into an agreement for or in relation to the unit development of a petroleum pool does not enter into such an agreement within the specified period; or

(b) the licensee enters into such an agreement but an application for approval of a dealing to which the agreement relates is not lodged with the Minister or, if an application is so lodged, the dealing is not approved under section 80,

the Minister may, by instrument in writing served on the licensee, direct the licensee to submit to him, within the period specified in the instrument, a scheme for or in relation to the unit development of the petroleum pool.

(5) At any time after the expiration of the period within which a scheme for or in relation to the unit development of a petroleum pool is to be submitted by a licensee under subsection (4), the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(6) Where a person is the licensee in respect of two or more licence areas in each of which there is part of a particular petroleum pool, the Minister may, by instrument in writing served on the licensee, give to the licensee such directions as the Minister thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(7) Where an agreement under this section is in force or the Minister has given directions under subsection (5) or (6), the Minister may, having regard to additional information that has become available, by instrument in writing served on the licensee or licensees concerned, give to the licensee or licensees such directions, or further directions, as the case may be, as he thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.
(8) The Minister shall not give a direction under subsection (6) or (7) unless he has given to the licensee or licensees concerned an opportunity to confer with him concerning the proposed direction.

(9) Directions under subsection (5), (6) or (7) may include directions as to the rate at which petroleum is to be recovered.

(10) In this section—

"dealing" means a dealing to which section 80 applies.

(11) The Minister shall—

(a) if a petroleum pool extends, or is reasonably believed by him to extend, from the adjacent area into lands to which the laws of another State relating to the exploitation of petroleum resources apply, consult with the appropriate authority of that State concerning the exploitation of the petroleum pool;

(b) if a petroleum pool extends, or is reasonably believed by him to extend, from the adjacent area into the adjacent area in respect of a State other than South Australia within the meaning of the Commonwealth Act, consult with the Designated Authority under the Commonwealth Act in respect of that State concerning the exploitation of the petroleum pool;

or

(c) if both paragraph (a) and paragraph (b) apply, comply with both of those paragraphs.

(12) Where subsection (11) applies in relation to a petroleum pool, the Minister shall not approve an agreement under this section, or give a direction under this section, in relation to that petroleum pool except with the approval of any other authority or Designated Authority required by that subsection to be consulted.

(5) A person shall not, in the adjacent area, recommence to operate a pipeline, a secondary line or a water line, the previous operation of which was discontinued, except with and in accordance with a consent in writing of the Minister.

(6) The Minister may, for reasons that he thinks sufficient, refuse to give a consent or certificate for the purposes of this section and, where he gives a consent, may attach conditions to it.

(7) A person who fails to comply with a provision of this section or with a condition referred to in subsection (6) is guilty of an offence.

Penalty: $50,000 or imprisonment for five years or both.

Acts done in an emergency, etc.

60. It is not an offence against section 59—

(a) if, in an emergency in which there is a likelihood of loss or injury, or for the purpose of maintaining a pipeline, water line, pumping station, tank station, valve station or secondary line in good order or repair, a person does an act to avoid the loss or injury or to maintain the pipeline, water line, pumping station, tank station, valve station or secondary line in good order and repair and—

(i) as soon as practicable notifies the Minister of the act done; and

(ii) complies with any directions given to him by the Minister; or

(b) if a person does an act in compliance with a direction under this Act.

(a) the construction of a pipeline, water line, pumping station, tank station, valve station or secondary line is commenced, continued or completed in contravention of this Act;

or

(b) a pipeline, water line, pumping station, tank station, valve station or secondary line is altered or reconstructed in contravention of this Act,
the Minister may, by instrument in writing served on the appropriate person, direct him—

(c) to make such alterations to the pipeline, water line, pumping station, tank station, valve station or secondary line as are specified in the instrument;

or

(d) to move the pipeline, water line, pumping station, tank station, valve station or secondary line to a specified place in, or to remove it from, the adjacent area, within the period specified in the instrument.

(2) For the purpose of subsection (1), the appropriate person is—

(a) if the construction of the pipeline, water line, pumping station, tank station, valve station or secondary line has been completed—the owner of the pipeline, water line, pumping station, tank station, valve station of secondary line;

or

(b) if the construction of the pipeline, water line, pumping station, tank station, valve station or secondary line has not been completed—the person for whom the pipeline, water line, pumping station, tank station, valve station or secondary line is being constructed.

(3) Where a person on whom there has been served an instrument under subsection (1) does not, within the period specified in the instrument or within such further period, if any, as the Minister, on application in writing served on him before the expiration of the firstmentioned period, allows, comply with the direction, the Minister may do all or any of the things required by the direction to be done.

(4) Costs and expenses incurred by the Minister under subsection (3) are a debt due by the person referred to in that subsection to the State and are recoverable in a court of competent jurisdiction.

(a) shall, if the application is—

(i) in respect of the construction in the adjacent area of a pipeline for the conveyance of petroleum recovered in a licence area in respect of which the applicant is the licensee and the licensee has complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations;

or

(b) may, if the application is by any other person and has not been rejected under section 63(3), inform the applicant, by instrument in writing served on him, that the Minister is prepared to grant a pipeline licence to him.

(2) Where a licensee who has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application in accordance with section 63 for a pipeline licence in respect of the construction of a pipeline for the conveyance of petroleum recovered in the licence area, the Minister, if he is satisfied that, although the licensee has not so complied, special circumstances exist that justify the granting of a pipeline licence, may inform the licensee, by instrument in writing served on the licensee, that he is prepared to grant a pipeline licence to him.

(3) If a licensee who has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations makes an application in accordance with section 63 for a pipeline licence, and if the Minister is not satisfied that special circumstances exist that justify the granting of a pipeline licence, the Minister shall, subject to subsection (4), by instrument in writing served on the licensee, refuse to grant a pipeline licence.

(4) The Minister shall not, under subsection (3), refuse to grant a pipeline licence to a licensee unless—

(a) he has, by instrument in writing served on the licensee, given not less than one month's notice of his intention to refuse to grant the pipeline licence;

(5) Where a person other than the licensee or the pipeline operator under the Commonwealth Act or a corresponding law makes an application in accordance with section 63 for a pipeline licence in respect of the construction of a pipeline for the conveyance of petroleum recovered in a licence area or, as the case may be, a licence area under the Commonwealth Act or a corresponding law, the Minister may, by instrument in writing served on the applicant, refuse to grant a pipeline licence.

(6) Where the Minister is required, or proposes, to serve on a person an instrument under subsection (1) or (2) he shall, by the instrument, inform that person that he will be required to lodge a security for compliance with the conditions to which the pipeline licence, if granted, will from time to time be subject and with the provisions of this Part and of the regulations.

(9) A person on whom there has been served an instrument under subsection (1) or (2) may, within a period of three months after the date of service of the instrument on him, or within such further period, not exceeding three months, as the Minister, on application in writing served on him before the expiration of the first-mentioned period of three months, allows—

(11) Where a person on whom there has been served an instrument under
subsection (1) or (2)—

(a) has not made a request under subsection (9);

or

(b) has not lodged with the Minister the security referred to in the instrument,
within the period applicable under subsection (9), the application lapses upon the
expiration of that period.

(12) Where a pipeline licence is not granted on an application, an amount equal to
nine-tenths of the fee paid in accordance with section 63(1)(f) shall be refunded to the
applicant.

(13) In this section, “pipeline operator under the Commonwealth Act or a
corresponding law” means a person who is entitled under the Commonwealth Act or a
corresponding law to carry on operations for the recovery of petroleum in an area outside
the adjacent area and who the Minister is satisfied is or will be entitled to construct a
pipeline from the firstmentioned area to the boundary of the adjacent area.

Rights conferred by pipeline licence

65. A pipeline licence, while it remains in force, authorizes the pipeline licensee,
subject to this Act and in accordance with the conditions to which the pipeline licence is
subject—

(a) to construct in the adjacent area—

(i) a pipeline of the design, construction, size and capacity specified in the
pipeline licence along the route, and in the position in relation to
the sea-bed in the adjacent area, so specified;

and

(ii) the pumping stations, tank stations, and valve stations so specified in
the positions so specified;

(b) to operate that pipeline and those pumping stations, tank stations and valve
stations;

and

(c) to carry on such operations, to execute such works and to do all such other
things in the adjacent area as are necessary for or incidental to the
construction and operation of that pipeline and of those pumping stations,
tank stations and valve stations.

Term of pipeline licence

66. (1) Subject to this Part, a pipeline licence remains in force—

(a) for a period of 21 years;

or

(b) where the Minister is of the opinion that having regard to the dates of
expiration of the licences that relate to the licence areas from which
petroleum is, or is to be, conveyed by means of the pipeline, it is not
necessary for the pipeline licence to remain in force for a period of
21 years—for such period less than 21 years as the Minister determines and
specifies in the pipeline licence.
(2) A pipeline licence comes into force on the day on which the pipeline licence is granted or, if a later day is specified in the pipeline licence as being the day on which the pipeline licence is to come into force, on that later day.

**Application for renewal of pipeline licence**

67. (1) A pipeline licensee may, from time to time, make an application to the Minister for the renewal of the pipeline licence.

(2) An application for the renewal of the pipeline licence—

(a) shall be in accordance with an approved form;

and

(c) shall be accompanied by a fee of $600.

(3) The Minister may, for reasons that he thinks sufficient, receive an application for the renewal of the pipeline licence less than six months before, but not in any case after, the day on which the pipeline licence ceases to be in force.

**Grant or refusal of renewal of pipeline licence**

68. (1) Where a pipeline licensee makes an application for the renewal of the pipeline licence under section 67, the Minister—

(a) shall, if the pipeline licensee has complied with the conditions to which the pipeline licence is subject and with the provisions of this Part and of the regulations;

or

(b) may, if the pipeline licensee has not so complied and the Minister is satisfied that, although the pipeline licensee has not so complied, special circumstances exist that justify the granting of the renewal of the pipeline licence,

inform the pipeline licensee, by instrument in writing served on the pipeline licensee—

(c) that the Minister is prepared to grant to the pipeline licensee the renewal of the pipeline licence;

and

(d) that the pipeline licensee will be required to lodge a security for compliance with the conditions to which the pipeline licence, if the renewal is granted, will from time to time be subject and with the provisions of this Part and of the regulations.

(2) If a pipeline licensee who has not complied with the conditions to which the pipeline licence is subject and with the provisions of this Part and of the regulations makes an application under section 67 for the renewal of the pipeline licence, and if the Minister is not satisfied that special circumstances exist that justify the granting of the renewal of the pipeline licence, the Minister shall, subject to subsection (3), by instrument in writing served on the pipeline licensee, refuse to grant the renewal of the pipeline licence.

(3) The Minister shall not refuse to grant the renewal of the pipeline licence unless—

(a) he has, by instrument in writing served on the pipeline licensee, given not less than one month's notice of his intention to refuse to grant the renewal of the pipeline licence;
(b) he has served a copy of the instrument on such other persons, if any, as he thinks fit;

(c) he has, in the instrument—

(i) given particulars of the reasons for the intention;

(d) he has taken into account any matters so submitted to him on or before the specified date by the pipeline licensee or by a person on whom a copy of the firstmentioned instrument has been served.

(4) An instrument under subsection (1) shall contain—

(a) a summary of the conditions to which the pipeline licence, on the grant of the renewal, is to be subject;

and

(b) a statement to the effect that the application will lapse if the pipeline licensee does not make a request under subsection (5) and lodge with the Minister the security referred to in the instrument.

(5) A pipeline licensee on whom there has been served an instrument under subsection (1) may, within a period of one month after the date of service of the instrument on him—

(a) by instrument in writing served on the Minister, request the Minister to grant to him the renewal of the pipeline licence;

and

(b) lodge with the Minister the security referred to in the firstmentioned instrument.

(6) Where a pipeline licensee on whom there has been served an instrument under subsection (1)—

(a) has made a request under subsection (5);

and

(b) has lodged with the Minister the security referred to in the instrument, within the period referred to in subsection (5), the Minister shall grant to him the renewal of the pipeline licence.

(7) Where a pipeline licensee on whom there has been served an instrument under subsection (1)—

(a) has not made a request under subsection (5); or

(b) has not lodged with the Minister the security referred to in the instrument, within the period referred to in subsection (5), the application lapses upon the expiration of that period.
(8) Where—
   (a) an application for the renewal of a pipeline licence is made under section 67;
   and
   (b) the pipeline licence expires—
       (i) before the Minister grants, or refuses to grant, the renewal of the pipeline licence;
       or
       (ii) before the application lapses as provided by subsection (7),
the pipeline licence shall be deemed to continue in force in all respects—
   (c) until the Minister grants, or refuses to grant, the renewal of the pipeline licence;
   or
   (d) until the application so lapses,
whichever first happens.

Conditions of pipeline licence

69. (1) A pipeline licence may be granted subject to such conditions as the Minister thinks fit and specifies in the pipeline licence.

(2) The conditions referred to in subsection (1) may include a condition that the pipeline licensee shall complete the construction of the pipeline within the period specified in the pipeline licence.

(3) This section extends to a pipeline licence granted by way of the renewal of a pipeline licence and, in the case of a pipeline licence so granted, the conditions may include conditions varying or adding to the conditions of the previous licence and conditions requiring reconstruction or modification of the pipeline or of associated works.

Variation of pipeline licence on application by pipeline licensee

70. (1) A pipeline licensee may, at any time, make an application to the Minister for the variation of the pipeline licence.

(2) An application under this section—
   (a) shall be in accordance with an approved form;
   (b) shall be made in an approved manner;
   (c) shall be accompanied by particulars of the proposed variation;
   (d) shall specify the reasons for the proposed variation;
   and
   (e) shall be accompanied by a fee of $300.

(4) The Minister shall, in a notice published in the Gazette of an application under this section, specify a period within which a person may submit to the Minister, in writing, any matters that he wishes the Minister to consider in connection with the application.
Petroleum (Submerged Lands) Act, 1982

PART III

(5) After considering any matters submitted to him under subsection (4) the Minister may, by instrument in writing, vary the pipeline licence to such extent as he thinks necessary or may refuse to vary the pipeline licence.

Variation of pipeline licence by Minister

71. (1) The Minister may—

(a) at the request of—

(i) a Minister or a Minister of State of the Commonwealth;

or

(ii) a body established by a law of the Commonwealth or of the State;

and

(b) if, in his opinion, it is in the public interest so to do,

by instrument in writing served on a person who is a pipeline licensee or the holder of an instrument of consent under section 59 direct that person to make such changes in the design, construction, route or position of the pipeline, or of a water line, pumping station, tank station, valve station or secondary line to which the pipeline licence or instrument of consent relates, as are specified in the firstmentioned instrument, within the period specified in the firstmentioned instrument, and, if the person so directed is a pipeline licensee, shall vary the pipeline licence accordingly.

(2) A person to whom a direction is given under subsection (1) shall comply with the direction.

Penalty: $50,000 or imprisonment for five years or both.

(3) Where the Minister gives a direction under subsection (1), and the person to whom the direction was given has complied with the direction, that person may bring an action in the Supreme Court against the Minister or Minister of State of the Commonwealth or body making the request.

(4) The Supreme Court shall hear the action, without a jury, and shall determine whether it is just that the whole or a portion of the reasonable cost of complying with the direction ought to be paid to the plaintiff by the defendant.

(5) If the Supreme Court determines that it is just that such a payment ought to be made, the Supreme Court shall determine the amount of the payment and give judgment accordingly.

Common carrier

72. The Minister may, by instrument in writing served on a pipeline licensee, direct the pipeline licensee to be a common carrier of petroleum in respect of the pipeline and thereupon the pipeline licensee is a common carrier of petroleum in respect of the pipeline.

Ceasing to operate pipeline

73. (1) Except with the consent in writing of the Minister and subject to compliance with such conditions, if any, as are specified in the instrument of consent, a pipeline licensee shall not cease to operate the pipeline.

Penalty: $50,000 or imprisonment for five years or both.
(2) It is not an offence against subsection (1) if the failure of the pipeline licensee to operate the pipeline—

(a) was in the ordinary course of operating the pipeline;
(b) was for the purpose of repairing or maintaining the pipeline;

(a) consider each application for approval of the transfer of a title and determine whether to approve the transfer;

and

(b) in the case of a transfer of a permit, lease, licence or pipeline licence, determine whether approval of the transfer should be made subject to a security being lodged by the transferee or transferees for compliance with the provisions of this Act and of any conditions to which the permit, lease, licence or pipeline licence may, from time to time, be subject.

(7) Where an application for approval of the transfer of a title is made in accordance with this section, the Minister shall, by notice in writing served on the person who made the application, inform the person of the Minister’s decision and shall set out in the notice details of any security required to be lodged by the transferee or transferees.

the Minister shall make the necessary alterations in the register.

the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.

(6) Where a licence is granted on an application under section 50(1), the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by that subsection.

(7) The prescribed rate in respect of petroleum recovered in the licence area referred to in a licence granted by way of renewal of a licence is the percentage that would be the prescribed rate if the licence so granted were the continuation in force of the previous licence.
PART III

Petroleum (Submerged Lands) Act, 1982

(8) A reference in this section or in a permit, lease or licence to royalty at the prescribed rate or royalty at the rate that is for the time being the prescribed rate shall be read as a reference to royalty at the rate that is or was the prescribed rate applicable in accordance with the provisions of this Act as in force from time to time.

Reduction of royalty in certain cases

143. (1) Where the Minister is satisfied that the rate of recovery of petroleum from a well has become so reduced that, having regard to the rate or rates of royalty applicable under section 142, further recovery of petroleum from that well would be uneconomic, the Minister may, by instrument in writing, determine that the royalty in respect of all or any of the petroleum recovered from that well on or after a date specified in the determination shall be at such rate (being a rate lower than the rate that would be applicable under section 142) as the Minister specifies.

(2) The prescribed rate in respect of petroleum to which a determination under subsection (1) is applicable is the rate specified in the determination.

(3) The Minister may, by instrument in writing, revoke or vary a determination under subsection (1) and the revocation or variation applies to petroleum recovered on or after such date as is specified in the instrument.

Royalty not payable in certain cases

144. (1) Royalty under this Act—

(a) is not payable in respect of petroleum that the Minister is satisfied was unavoidably lost before the quantity of that petroleum was ascertained;

(b) is not payable in respect of petroleum that is used by the permittee, lessee or licensee, as approved by the Minister, for the purposes of petroleum exploration operations or operations for the recovery of petroleum;

and

(c) is not payable in respect of petroleum that, with the approval of the Minister, is flared or vented in connection with operations for the recovery of petroleum.

(2) Where petroleum that has been recovered by a permittee, lessee or licensee is, with the approval of the Minister, returned to a natural reservoir, royalty under this Act is not payable in respect of that petroleum by reason of that recovery but this subsection does not affect the liability of that or any other permittee, lessee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

Ascertainment of well-head

145. For the purposes of this Act, the well-head, in relation to any petroleum, is such valve station as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such valve station as is determined by the Minister as being that well-head.

Ascertainment of value

146. For the purposes of this Act, the value at the well-head of any petroleum is such amount as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such amount as is determined by the Minister as being that value.
Ascertainment of quantity of petroleum recovered

147. For the purposes of this Act, the quantity of petroleum recovered by a permittee, lessee or licensee from a well during a period shall be taken to be—

(a) the quantity measured during that period by a measuring device approved by the Minister and installed at the well-head or at such other place as the Minister approves;

or

(b) where no such measuring device is so installed, or the Minister is not satisfied that the quantity of petroleum recovered by the permittee, lessee or licensee from that well has been properly or accurately measured by such a measuring device—the quantity determined by the Minister as being the quantity recovered by the permittee, lessee or licensee from that well during that period.

Payment of royalty

148. Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

Penalty for late payment

149. (1) Where a fee or an amount of royalty under this Act is not paid under this Division at or before the time when the fee or the amount of royalty is payable there is payable to the Minister by the permittee, lessee, licensee or pipeline licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of the fee or royalty from time to time remaining unpaid to be computed from the time when the amount became payable until it is paid.

(2) An additional amount in respect of royalty is not payable under subsection (1) in respect of any period before the expiration of seven days after the value of the petroleum was agreed or determined under section 146.

Fees and penalties debts due to State

150. A fee royalty or other amount payable under this Division is a debt due by the permittee, lessee, licensee or pipeline licensee to the State and is recoverable in a court of competent jurisdiction.
Regulations

151. (1) The Governor may make regulations not inconsistent with this Act prescribing all matters that by this Act are required or permitted to be prescribed or are necessary or convenient to be prescribed for carrying out or giving effect to this Act.

(2) In particular, but without limiting the generality of subsection (1), the regulations may make provision for securing, regulating, controlling or restricting all or any of the following matters:

(a) the exploration for petroleum and the carrying on of operations and the execution of works for that purpose;
(b) the recovery of petroleum and the carrying on of operations and the execution of works for that purpose;
(c) conserving and preventing the waste of the natural resources, whether petroleum or otherwise, of the adjacent area;
(d) the construction and operation of pipelines, water lines, secondary lines, pumping stations, tank stations or valve stations and the carrying on of operations, and the execution of works, for any of those purposes;
(e) the construction, erection, maintenance, operation or use of installations or equipment;
(f) the control of the flow or discharge, and the prevention of the escape, of petroleum, water or drilling fluid, or a mixture of water or drilling fluid with petroleum or any other matter;
(g) the clean-up or other remedying of the effects of the escape of petroleum;
(h) the prevention of damage to petroleum-bearing strata in an area, whether in the adjacent area or not, in respect of which a permit, lease or licence is not in force;
(i) the keeping separate of—

   and
   (ii) each source of water discovered in a permit area, lease area or licence area;
(j) the prevention of water or other matter from entering a petroleum pool through wells;
(k) the prevention of the waste or escape of petroleum or water from a pipeline, water line, secondary line, pumping station, tank station or valve station;
(l) the maintaining in good condition and repair of all structures, equipment and other property in the adjacent area used or intended to be used for or in connection with the exploration for or the exploitation of petroleum in the adjacent area;
and
(m) the removal from the adjacent area of structures, equipment and other property brought into the adjacent area for or in connection with exploration for or the exploitation of petroleum that are not used or intended to be used in connection with exploration for, or the exploitation of, petroleum in the adjacent area.

(2a) The regulations may make provision in relation to a matter by applying, adopting or incorporating, with or without modification, a code of practice or standard contained in an instrument (including an instrument issued or made outside Australia), as in force or existing at the time when the regulations take effect or as in force or existing from time to time, being a code of practice or standard that is relevant to that matter.

(2b) Regulations under this section may prohibit the doing of an act or thing either unconditionally or subject to conditions, including conditions requiring the grant, as prescribed by the regulations, of the consent or approval of a person specified in the regulations.

(3) The regulations may prescribe, in relation to the exploration for, and the exploitation of, the natural resources (being petroleum) of the adjacent area, matters for carrying out or giving effect to the Convention.

(4) The regulations may provide, in respect of an offence against the regulations, for the imposition of—

(a) a fine not exceeding $10 000;

or

(b) a fine not exceeding that amount for each day on which the offence occurs.

   and
   (e) by striking out paragraph (a) of the schedule and substituting the following paragraph:
   (a) that lie within the outer limits of the coastal waters of South Australia;

SECOND SCHEDULE
CONVENTION ON THE CONTINENTAL SHELF
The States Parties to this Convention have agreed as follows:

ARTICLE 1
For the purpose of these articles, the term “continental shelf” is used as referring (a) to the sea-bed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas; (b) to the sea-bed and subsoil of similar submarine areas adjacent to the coasts of islands.

ARTICLE 2
1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.
2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.
3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.
4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the sea-bed and subsoil together with living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the sea-bed or are unable to move except in constant physical contact with the sea-bed or the subsoil.

ARTICLE 3
The rights of the coastal State over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.

ARTICLE 4
Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

ARTICLE 5
1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.
2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.
3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point of their outer edge. Ships of all nationalities must respect these safety zones.
4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.

5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.

6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.

7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.

8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless, the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

ARTICLE 6

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

ARTICLE 7

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

ARTICLE 8

This Convention shall, until 31st October, 1958, be open for signature by all States Members of the United Nations or of any of the specialized agencies, and by any other State invited by the General Assembly of the United Nations to become a party to the Convention.

ARTICLE 9

This Convention is subject to ratification. The instruments of ratification shall be deposited with the Secretary-General of the United Nations.

ARTICLE 10

This Convention shall be open for accession by any States belonging to any of the categories mentioned in article 8. The instruments of accession shall be deposited with the Secretary-General of the United Nations.

ARTICLE 11

1. This Convention shall come into force on the thirtieth day following the date of deposit of the twenty-second instrument of ratification or accession with the Secretary-General of the United Nations.

2. For each State ratifying or acceding to the Convention after the deposit of the twenty-second instrument of ratification or accession, the Convention shall enter into force on the thirtieth day after deposit by such State of its instrument of ratification or accession.

ARTICLE 12

1. At the time of signature, ratification or accession, any State may make reservations to articles of the Convention other than to articles 1 to 3 inclusive.

2. Any Contracting State making a reservation in accordance with the preceding paragraph may at any time withdraw the reservation by a communication to that effect addressed to the Secretary-General of the United Nations.

ARTICLE 13

1. After the expiration of a period of five years from the date on which this Convention shall enter into force, a request for the revision of this Convention may be made at any time by any Contracting Party by means of a notification in writing addressed to the Secretary-General of the United Nations.

2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such request.
ARTICLE 14

The Secretary-General of the United Nations shall inform all States Members of the United Nations and the other States referred to in article 8—

(a) of signatures to this Convention and of the deposit of instruments of ratification or accession, in accordance with articles 8, 9 and 10;

(b) of the date on which this Convention will come into force, in accordance with article 11;

(c) of requests for revision in accordance with article 13;

(d) of reservations to this Convention, in accordance with article 12.

The original of this Convention, of which the Chinese, English, French, Russian and Spanish Texts are equally authentic, shall be deposited with the Secretary-General of the United Nations, who shall send certified copies thereof to all States referred to in article 8.

IN WITNESS WHEREOF the undersigned Plenipotentiaries, being duly authorized thereto by their respective Governments, have signed this Convention.

DONE at Geneva, this twenty-ninth day of April, one thousand nine hundred and fifty-eight.

(Here follow the signatures, on behalf of the parties to the Agreement, including Australia.)

FIFTH SCHEDULE
TRANSITIONAL PROVISIONS

Cancellation of certain new permits and new pipeline licences

1. If, in respect of a subsisting permit, being a permit in respect of an area that is wholly or partly within the adjacent area (within the meaning of this Act), a circumstance referred to in paragraph (a), (b), (c) or (d) of subsection (1) of section 105 of the Commonwealth Act existed immediately before the commencement of this Act, section 104 of this Act applies in relation to the new permit arising out of that subsisting permit as if the grounds upon which, under subsection (1) of that section, the new permit may be cancelled, in whole or in part, included the existence, immediately before the commencement of this Act, of that circumstance in relation to that subsisting permit.

2. Where, before the commencement of this Act an exploration permit for petroleum under the Commonwealth Act was wholly or partly cancelled or determined under the Commonwealth Act as then in force, or expired by virtue of that Act as then in force, and the relinquished area is wholly or partly within the adjacent area (within the meaning of this Act), the cancellation or determination, or the expiration, of the permit, shall, in so far as it relates to the relinquished area, or the part of the relinquished area that is within the adjacent area (within the meaning of this Act) as the case may be, be deemed for the purposes of section 106 of this Act to have occurred under or by virtue of this Act.

Application of s. 112(2), (3) and (4) to certain property

3.
