Where a licence in respect of a marine scalefish fishery is surrendered otherwise than as part of a process under regulation 10B, the Director must, on application by the former licensee, refund an amount that bears to the renewal fee last paid in respect of the licence the same proportion as the number of complete months from the date of surrender to the following 1 July bears to 12.

10—Transfer of licences

- (a1) In this regulation—

authorised family transfer means a transfer of a licence that is authorised under regulation 10A;

authorised amalgamation scheme transfer means a transfer of a licence that is authorised under regulation 10B.

- (1) Subject to these regulations, a licence in respect of a marine scalefish fishery may be transferred with the consent of the Director.
- (2) A licence in respect of the Restricted Marine Scalefish Fishery cannot be transferred to the holder of another licence in respect of that fishery.
- (3) An application for consent to the transfer of a licence must be a joint application made by the holder of the licence and the transferee.
- (4) The application—
 - (a) must be made in writing in a form approved by the Director; and
 - (b) must contain the information specified in Schedule 3; and
 - (c) must contain a nomination by the holder of the licence of the person to whom the licence is to be transferred; and
 - (d) must be verified by the applicants by statutory declaration.
- (5) The application must be lodged with the Director together with—
 - (a) the licence to be transferred; and
 - (b) a form of return as required by these regulations completed by the holder of the licence up to the date of application; and
 - (c) the application fee specified in Schedule 2.
- (6) Before consenting to the transfer of a licence, the Director must be satisfied—
 - (a) that the transfer is—
 - (i) an authorised family transfer; or
 - (ii) an authorised amalgamation scheme transfer; and
 - (b) as to the following matters:
 - (i) that the licence to be transferred has not been suspended; and
 - (ii) that no proceedings alleging an offence under the Act are pending or likely to be commenced in the State against the holder of the licence; and
 - (iii) that the transfer is to one person only; and
 - (iv) that the transferee is a natural person who—
 - (A) is at least 15 years of age; and
 - (B) has not, within the period of three years preceding the date of the application, been convicted in the State or elsewhere in Australia of an offence involving a breach of any legislation relating to fishing; and
 - (v) that no proceedings alleging an offence involving a breach of any legislation relating to fishing are pending or likely to be commenced in the State or elsewhere in Australia against the transferee; and

- (vii) if any boat registered by endorsement of the licence is the subject of, is registered by endorsement of, or is otherwise referred to in, a licence, permit, authority or other entitlement to take fish granted under the Commonwealth Act or the laws of another State or Territory—
- (A) that the entitlement is either to be transferred together with the fishery licence to the transferee or to be surrendered on or before the transfer of the fishery licence; or
- (B) that—
- the transfer of the fishery licence separately from the entitlement is not likely to result in fishing activities that endanger or overexploit fishery resources; and
 - the person or body that granted the entitlement concurs with the separate transfer of the licence.

10A—Transfer of licences between family members

Subject to regulation 10, a licence in respect of the Marine Scalefish Fishery may be transferred if the transferee is—

- (a) the spouse of the licensee; or
- (b) a parent or grandparent of the licensee; or
- (c) a brother or sister, or half-brother or half-sister, of the licensee; or
- (d) a child or grandchild of the licensee; or
- (e) a child or grandchild of the spouse of the licensee.

10B—Transfer of licences under amalgamation scheme

- (1) In this regulation—

aggregate fishing points value, in relation to 2 or more licences, means the sum of the fishing points values endorsed on the licences under this regulation;

aggregate gear entitlement, in relation to 2 or more licences, means the aggregate of the numbers and kinds of devices the use of which is authorised by the gear endorsements of the licences (subject to any applicable limitations on the use of devices imposed by the *Fisheries (General) Regulations 2000*);

gear endorsement of a licence means the conditions and registrations endorsed on the licence under the Act specifying the numbers and kinds of devices that may be used for the purpose of taking fish pursuant to the licence;

licence means a licence in respect of a marine scalefish fishery;

line licence means a licence other than a net licence;

net means a fish net as defined in the *Fisheries (General) Regulations 2000* but does not include a bait net as defined in those regulations;

net licence means a licence with a gear endorsement authorising the use of one or more nets (whether or not the endorsement authorises the use of other devices).

- (2) For the purposes of this regulation, the Director must adopt and implement a system for ranking net licences in respect of the Marine Scalefish Fishery and a system for ranking line licences in respect of that fishery under which—
- (a) points are allotted to every net licence or line licence, as the case may be, based on—
 - (i) the quantities of each fish species taken pursuant to the licence during a specified period (as recorded on returns lodged in respect of the licence under regulation 16 or the corresponding regulation previously in force); and
 - (ii) values (reflecting market values) applied in relation to those recorded quantities of each fish species,so that the greater the resulting total value the greater the points allotted to the licence; and
 - (b) all net licences are arranged in ascending order of allotted points and then divided into 10 approximately equal groups and all line licences are similarly arranged and divided into groups; and
 - (c) the licences in each group are each given a value (a *fishing points value*) starting with 11 for the group with the lowest range of allotted points, 12 for the next group and so on through to 18 so that the value 18 is given to the licences in the groups with the three highest ranges of allotted points.
- (3) The Director must then endorse on each licence in respect of the Marine Scalefish Fishery the fishing points value given to the licence under the system for ranking net licences or the system for ranking line licences (as the case may be) under subregulation (2).
- (3a) The Director must endorse on each licence in respect of the Restricted Marine Scalefish Fishery a fishing points value of 7.
- (4) The fishing points value endorsed on a licence under this regulation may be varied only—
- (a) to reflect a change of the licence from a net licence to a line licence; or
 - (b) as otherwise required under this regulation; or
 - (c) in order to correct an error.
- (5) Subject to regulation 10, a licence may then be transferred as authorised under the following provisions:
- (a) a net licence in respect of the Marine Scalefish Fishery may be transferred to the holder of another net licence in respect of that fishery;
 - (b) a line licence in respect of the Marine Scalefish Fishery may be transferred to the holder of another line licence in respect of that fishery;
 - (c) 1 or 2 licences in respect of the Restricted Marine Scalefish Fishery may be transferred to the holder of a licence in respect of the Marine Scalefish Fishery;
 - (d) when a transfer of a kind referred to in a preceding paragraph has effect, the transferee must surrender to the Director 1 of the 2 licences, or 2 of the 3 licences, as the case may be, then held by the transferee;

- (e) if 1 or more of the licences held by the transferee has recorded on it under section 56 of the Act a conviction for an offence committed within the preceding period of 3 years, the licence or licences surrendered must be—
 - (i) the licence or licences without such a conviction, or as the case may require, the licence or licences with the lesser number of such convictions, recorded on the licence or licences; or
 - (ii) if the same number of such convictions is recorded on each licence— the licence or licences other than the licence with a conviction recorded on it for the most recently committed offence;
- (f) where 1 or more licences are to be surrendered but—
 - (i) the last renewal fee for a licence to be surrendered has not been paid in full; or
 - (ii) an additional amount is required to be paid for late payment of an instalment of the renewal fee,
the balance of the renewal fee and any such additional amount must be paid before or when that licence is surrendered;
- (g) on the surrender of a licence and payment of any amount required to be paid under paragraph (f) in respect of the licence, the Director must—
 - (i) replace the gear endorsement of the remaining licence held by the transferee with a gear endorsement that makes provision for the aggregate gear entitlement in relation to that licence and the surrendered licence or licences; and
 - (ii) vary the fishing points value endorsed on the remaining licence under this regulation so that it equals the aggregate fishing points value in relation to that licence and the surrendered licence or licences;
- (h) when, as a result of the process referred to in paragraphs (a) to (g), the fishing points value endorsed on a licence under this regulation equals or exceeds 24, the licence may be transferred without complying with those paragraphs;
- (i) paragraph (h) does not prevent the holder of a licence with a fishing points value that equals or exceeds 24 from transferring the licence under the process referred to in paragraphs (a) to (g).

11—Registration of boats

- (1) An application to register a boat to be used in a marine scalefish fishery must be made in writing in a form approved by the Director and be accompanied by the applicant's licence in respect of the fishery.
- (2) Before granting registration of the boat the Director must be satisfied that the applicant is the holder of a licence in respect of the fishery.

12—Registration as master

- (1) An application for registration of a person as the master of a boat used pursuant to a licence in respect of a marine scalefish fishery must be made in writing in a form approved by the Director and be accompanied by the applicant's licence in respect of the fishery.
- (2) A person other than the holder of the licence cannot be registered as the master of a boat used pursuant to the licence unless the holder of the licence is already registered as the master of a boat used pursuant to a licence in respect of a marine scalefish fishery.

13—Revocation of registration

- (1) The Director may, on application by the holder of a licence in respect of a marine scalefish fishery, revoke any registration effected by endorsement of the licence.
- (2) An application for revocation of any registration must be made in writing in a form approved by the Director and be accompanied by the licence on which the registration is endorsed.

14—Registered master may be assisted by only one agent

The registered master of a boat registered by endorsement of a licence in respect of the Restricted Marine Scalefish Fishery must not, when using the boat for the purpose of engaging in a fishing activity of a class that constitutes the fishery, cause or permit more than one other person to assist him or her in that activity.

Penalty: Division 6 fine.

Expiation fee: Division 9 fee.

- (b) during the licence period ending on 30 June 2002, the conditions of each licence in respect of a marine scalefish fishery referred to in Schedule 4 must be varied so as to reduce the blue crab quota of the licence for that licence period by one kilogram for each kilogram of blue crab taken pursuant to the licence during the period commencing on 1 July 2001 and ending on 16 September 2001 (as recorded on completed CDR books delivered to the Director under regulation 15A);
- (c) on the commencement of each licence period, the Director must determine the number of kilograms of blue crab that is to be the value of a blue crab unit for a blue crab fishing zone and the licence period;
- (d) on application made to the Director by the holders of any two licences in respect of a marine scalefish fishery endorsed with conditions fixing blue crab quotas on the licences in relation to the same blue crab fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement of one of the licences in respect of that zone and decrease the unit entitlement of the other licence in respect of that zone by a corresponding number of units;
- (e) on application made to the Director by the holder of a licence in respect of a marine scalefish fishery endorsed with a condition fixing a blue crab quota on the licence in relation to a particular blue crab fishing zone (the **first licence**) and the holder of another licence in respect of a marine scalefish fishery (being a licence not endorsed with a condition fixing a blue crab quota on the licence (whether at all or in relation to that zone) (the **second licence**)—

- (i) if the catch exceeded the quota by not more than 20 kilograms of blue crab—by one kilogram for each kilogram in excess of the quota; or
 - (ii) if the catch exceeded the quota by more than 20 kilograms but not more than 50 kilograms of blue crab—by two kilograms for each kilogram in excess of the quota;
