 - (a) of aquatic resources specified in Schedule 1 Part 1; and
 - (b) of aquatic resources specified in Schedule 1 Part 2 for the purpose of bait.

5—Issue of licences

- (1) Subject to this regulation, the Minister may issue licences in respect of the fishery.
- (2) An application for a licence in respect of the fishery may only be made by a person who holds a licence in respect of the Marine Scalefish Fishery subject to a condition fixing a blue crab quota entitlement.

 - (a) if the applicant's licence in respect of the Marine Scalefish Fishery has been surrendered; and

- (b) if a boat registered for use under that licence is the subject of, is registered for use under, or is otherwise referred to in, a licence, permit, authority or other entitlement to take aquatic resources granted under a law of the Commonwealth or a corresponding law—that entitlement has also been surrendered.

6—Transfer of licence

- (1) Licences in respect of the fishery are transferable.
- (2) An application for consent to the transfer of a licence must be accompanied by—
 - (a) the licence to be transferred; and
 - (b) a form of return as required by regulation 12 completed by the holder of the licence up to the date of application; and

 - (b) that the licence to be transferred has not been suspended;
 - (c) that no proceedings alleging an offence against the Act or the repealed Act are pending or likely to be commenced in the State against the holder of the licence;

 - (i) that the entitlement is either to be transferred together with the licence to the transferee or to be surrendered on or before the transfer of the licence; or

 - (A) the transfer of the licence separately from the entitlement is not likely to result in fishing activities that over-exploit or endanger the aquatic resources of the State; and
 - (B) the person or body that granted the entitlement concurs with the separate transfer of the licence.

7—Registration

An application by the holder of a licence in respect of the fishery—

- (a) to register a boat or device for use under the licence; or

- must be accompanied by the documents specified in the application form.

9—Blue crab pot entitlements and carriage of crab pots on boats

- (1) The Minister must, on or before the commencement of each quota period, determine the conversion value for a blue crab fishing zone and the quota period.
- (2) The Minister may impose or vary conditions on licences in respect of the fishery fixing blue crab pot entitlements as follows:
 - (a) on the issue of a licence in respect of the fishery, a condition must be imposed on the licence fixing a blue crab pot entitlement calculated in accordance with the formula set out in subregulation (3);
 - (b) on the variation of a blue crab quota entitlement under a licence in respect of the fishery, the conditions of the licence must be varied so that the blue crab pot entitlement under the licence, as calculated in accordance with the formula set out in subregulation (3), reflects the variation in the unit entitlement under the licence;
 - (c) blue crab pot entitlements must not be varied except as provided by this subregulation.
- (3) For the purposes of subregulation (2), the formula for calculating the blue crab pot entitlement under a licence is as follows:

$$A = \frac{B}{C}$$

where—

A is the blue crab pot entitlement expressed as a whole number (a number having a fraction of half or more being rounded up to the next whole number);

B is the unit entitlement under the licence;

C is the conversion value for the blue crab fishing zone to which the unit entitlement under the licence relates.

- (4) The Minister may impose conditions on licences in respect of the fishery limiting the number of crab pots that may be carried on boats and otherwise regulating the carrying of crab pots used for fishing activities under the licences.

10—Individual blue crab catch quota system

- (1) The Minister must, on or before the commencement of each quota period, determine the number of kilograms of blue crab that is to be the value of a blue crab unit for a blue crab fishing zone and the quota period.
- (2) The Minister may impose or vary conditions on licences in respect of the Blue Crab Fishery or a marine scalefish fishery fixing blue crab quota entitlements as follows:
 - (a) on the issue of a licence in respect of the Blue Crab Fishery (a *new licence*), the licence may be allocated a number of blue crab units in respect of a blue crab fishing zone equal to the number of blue crab units in respect of that zone that was, immediately before the surrender of the licence in respect of the Marine Scalefish Fishery held by the applicant for the new licence, the subject of a condition of the licence in respect of the Marine Scalefish Fishery;
 - (b) on joint application made to the Minister by the holders of any 2 licences in respect of the Blue Crab Fishery subject to a condition fixing a blue crab quota entitlement in respect of the same blue crab fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement in respect of that zone under 1 of the licences and decrease the unit entitlement in respect of that zone under the other licence by a corresponding number of units;
 - (c) on joint application made to the Minister by the holder of a licence in respect of the Blue Crab Fishery subject to a condition fixing a blue crab quota entitlement in respect of a particular blue crab fishing zone (the *first licence*) and the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a blue crab quota entitlement in respect of the same zone (the *second licence*)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to increase the unit entitlement under that licence in respect of that zone by a corresponding number of units; or
 - (ii) the conditions of the first licence may be varied so as to increase the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone by a corresponding number of units;

- (d) on joint application made to the Minister by the holder of a licence in respect of the Blue Crab Fishery subject to a condition fixing a blue crab quota entitlement in respect of a particular blue crab fishing zone (the *first licence*) and the holder of a licence in respect of a marine scalefish fishery not subject to a condition fixing a blue crab quota entitlement (the *second licence*)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone; and
 - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a blue crab quota entitlement in respect of that zone may be imposed on that licence;
 - (da) if the total catch of blue crab taken by the holder of a licence in respect of the Blue Crab Fishery subject to a condition fixing a blue crab quota entitlement in respect of a particular blue crab fishing zone during the quota period 2019-2020 is less than the blue crab quota entitlement under the licence for that fishing zone and that quota period, the Minister may vary the conditions of the licence so as to increase the blue crab quota entitlement in respect of that fishing zone for the quota period 2020-2021 by up to 1 kilogram of blue crab for each kilogram by which the catch fell short of the blue crab quota entitlement for the quota period 2019-2020;
 - (e) if the total catch of blue crab taken by the holder of a licence in respect of the Blue Crab Fishery during a quota period exceeded the blue crab quota entitlement under the licence for that quota period, the conditions of the licence may be varied so as to decrease the quota entitlement—
 - (i) if the catch exceeded the quota entitlement by not more than 20 kilograms of blue crab—by 1 kilogram for each kilogram taken in excess of the quota entitlement; or
 - (ii) if the catch exceeded the quota entitlement by more than 20 kilograms but not more than 50 kilograms of blue crab—by 2 kilograms for each kilogram taken in excess of the quota entitlement;
 - (f) if—
 - (i) the holder of a licence in respect of the fishery is convicted of an offence of contravening a condition of the licence fixing a blue crab quota entitlement; and
 - (ii) the conduct constituting the offence involved the taking of more than 50 kilograms of blue crab in excess of the quota entitlement,
 the conditions of the licence may be varied so as to reduce the blue crab quota entitlement under the licence for 3 quota periods following the conviction by 1 kilogram for each kilogram taken in excess of the quota entitlement for the quota period during which the offence was committed;
 - (g) a variation of a quota entitlement under paragraph (e) must be expressed to apply only for the quota period during which the variation is made.
- (3) An application to vary unit entitlements must—
- (a) be made in a manner and form approved by the Minister; and

- (b) be completed in accordance with the instructions contained in the form; and
 - (c) be accompanied by the prescribed fee.
- (4) In this regulation—
- quota period 2019-2020* means the quota period that ended on 30 June 2020;
