(b) the members of a designated work group may select a health and safety representative for that designated work group; and

(c) the health and safety representative may exercise certain powers for the purpose of promoting or ensuring the occupational health and safety of group members; and

(d) a health and safety committee may be established in relation to the members of the workforce at a facility; and

(e) the main function of a health and safety committee is to assist the operator in relation to occupational health and safety matters.

Division 2—Designated work groups

Subdivision A—Establishment of designated work groups

18—Establishment of designated work groups by request

(1) A request to the operator of a facility to enter into consultations to establish designated work groups in relation to the members of the workforce at the facility may be made by—

(a) any member of the workforce; or

(b) if a member of the workforce requests a workforce representative in relation to the member to make the request to the operator—that workforce representative.

(2) The operator of a facility must, within 14 days after receiving a request under subclause (1), enter into consultations with—

(a) if any member of the workforce made a request to establish designated work groups—

(i) that member of the workforce; and

(ii) if that member requests that the operator enter into consultations with a workforce representative in relation to the member—that workforce representative; and

(iii) each employer (if any) of members of the workforce; and

(b) if a workforce representative made a request to establish designated work groups—

(i) if a member of the workforce requests that the operator enter into consultations with that workforce representative—that workforce representative; and

(ii) each employer of members of the workforce.
(3) Within 14 days after the completion of consultations about the establishment of the designated work groups, the operator must, by notifying the members of the workforce, establish the designated work groups in accordance with the outcome of the consultations.

19—Establishment of designated work groups at initiative of operator

(1) If, at any time, the operator of a facility considers that designated work groups should be established, the operator must enter into consultations with—

(a) all members of the workforce; and
(b) if a member of the workforce requests that the operator enter into consultations with a workforce representative in relation to the member—that workforce representative; and
(c) each employer (if any) of members of the workforce.

(2) Within 14 days after the completion of consultations about the establishment of the designated work groups, the operator must, by notifying the members of the workforce, establish the designated work groups in accordance with the outcome of the consultations.

Subdivision B—Variation of Designated Work Groups

20—Variation of designated work groups by request

(1) A request to the operator of a facility to enter into consultations to vary designated work groups that have already been established in relation to the members of the workforce at the facility may be made by—

(a) any member of the workforce; or
(b) if a member of the workforce requests a workforce representative in relation to the member to make the request to the operator—that workforce representative.

(2) The operator of a facility must, within 14 days after receiving a request under subclause (1), enter into consultations with—

(a) if any member of the workforce made a request to vary designated work groups—
   (i) that member of the workforce; and
   (ii) the health and safety representative of each designated work group affected by the proposed variation; and
   (iii) each work group employer (if any) in relation to each designated work group affected by the proposed variation; and

(ii) the health and safety representative of each designated work group affected by the proposed variation; and

(iii) each work group employer (if any) in relation to each designated work group affected by the proposed variation.

(3) If—

(a) consultations take place about the variation of designated work groups that have already been established; and

(b) as a result of the consultations, it has been determined that the variation of some or all of those designated work groups is justified,

then, within 14 days after the completion of the consultations, the operator must, by notifying the members of the workforce who are affected by the variation, vary the designated work groups in accordance with the outcome of the consultations.

21—Variation of designated work groups at initiative of operator

   (a) be assisted by a consultant at a workplace at which work is performed; or

(3) Neither the operator nor any workplace employer becomes, because of the agreement under subclause (2) to the provision of assistance by a consultant, liable for any remuneration or other expenses incurred in connection with the consultant's activities.

(4) If a health and safety representative for a designated work group is being assisted by a consultant, the consultant is entitled to be present with the representative at any interview, about health and safety at work, between a group member and—
   (a) an OHS inspector; or

   (d) the information is in a form that does not identify the person or enable the identity of the person to be discovered.

36—Obligations and liabilities of health and safety representatives

This Schedule does not—
   (a) impose an obligation on a person to exercise any power conferred on the person because the person is a health and safety representative; or
   (b) render a person liable in civil proceedings because of—
       (i) a failure to exercise such a power; or
(ii) the way such a power was exercised.

37—Provisional improvement notices

(1) If—

(a) a health and safety representative for a designated work group believes, on reasonable grounds, that a person—

(i) is contravening a provision of a listed OHS law; or

(ii) has contravened a provision of a listed OHS law

and is likely to contravene that provision again; and

(b) the contravention affects or may affect one or more group members,

the representative must consult with the person supervising the relevant activity in an attempt to reach agreement on rectifying the contravention or preventing the likely contravention.

(2) If, in the health and safety representative's opinion, agreement is not reached within a reasonable time, the health and safety representative may issue a provisional improvement notice to any or all of the persons (each of whom is in this clause called a responsible person) responsible for the contravention.

(3) If a responsible person is the operator, the improvement notice may be issued to the operator by giving it to the operator's representative at the facility.

(4) If it is not practicable to issue the notice to a responsible person (other than the operator or the supervisor) by giving it to that responsible person—

(a) the notice may be issued to that responsible person by giving it to the person who for the time being is, or may reasonably be presumed to be, on behalf of the responsible person, in charge of the activity to which the notice relates; and

(b) if the notice is so issued, a copy of the notice must be given to the responsible person as soon as practicable afterwards.

(5) The notice must—

(a) specify the contravention that, in the health and safety representative's opinion, is occurring or is likely to occur, and set out the reasons for that opinion; and

(b) specify a period that—

(i) is not less than 7 days beginning on the day after the notice is issued; and

(ii) is, in the representative's opinion, reasonable, within which the responsible person is to take action necessary to prevent any further contravention or to prevent the likely contravention, as the case may be.
(6) The notice may specify action that the responsible person is to take during the period specified in the notice.

(7) If, in the health and safety representative's opinion, it is appropriate to do so, the representative may, in writing and before the end of the period, extend the period specified in the notice.

(8) On issuing the notice, the health and safety representative must give a copy of the notice to—

38—Effect of provisional improvement notice

(1) Within 7 days after a notice is issued under clause 37—

(a) the responsible person; or

(b) any other person, to whom a copy of the notice has been given under clause 37(8),

may request the Safety Authority or an OHS inspector for an inspection of the matter to be conducted.

(2) On the request being made, the operation of the notice is suspended pending the determination of the matter by an OHS inspector.

(3) As soon as possible after a request is made, an inspection must be conducted of the work that is the subject of the disagreement, and the OHS inspector conducting the inspection must—

(a) confirm, vary or cancel the notice and notify the responsible person and any person to whom a copy of the notice has been given under clause 37(8) accordingly; and

(b) make decisions, and exercise powers, under Part 4, as the OHS inspector considers necessary in relation to the work.

(4) If the OHS inspector varies a notice, the notice as so varied has effect—

(a) so far as the notice concerns obligations imposed on the responsible person that are unaffected by the variation—as if the notice as so varied resumed effect on the day of the variation; and

(b) so far as the notice concerns new obligations imposed by virtue of the variation—as if the notice as so varied were a new notice issued on the day of the variation.
(5) If the notice is issued to a responsible person, the responsible person must—
    (a) notify each group member who is affected by the notice of the fact of the issue of the notice; and
    (b) until the notice ceases to have effect, cause a copy of the notice to be displayed at or near each workplace at which the work that is the subject of the notice is being performed.

(6) The notice ceases to have effect if—
    (a) it is cancelled by an OHS inspector or by the health and safety representative; or
    (b) the responsible person—
       (i) takes the action, if any, specified in the notice; or
       (ii) if no action is so specified—takes the action necessary to prevent the further contravention, or likely contravention, concerned.

(7) The responsible person—
    (a) must ensure that, to the extent that the notice relates to any matter over which the person has control, the notice is complied with; and
    (b) must take reasonable steps to inform the health and safety representative who issued the notice of the action taken to comply with the notice.

(8) For the purposes of clause 65, if the OHS inspector confirms or varies the notice, the OHS inspector is taken to have decided, under clause 61, to issue an improvement notice in those terms.

Subdivision C—Duties of the operator and other employers in relation to health and safety representatives

39—Duties of the operator and other employers in relation to health and safety representatives

(1) The operator of a facility, in relation to which a designated work group having a health and safety representative has been established, must—

(b) relates to a person who is or was a group member,

unless—

(c) the person has delivered to the employer a written authority permitting the representative to have access to the information; or

(d) the information is in a form that does not identify the person or enable the identity of the person to be discovered.

(4) The operator is not required to give a health and safety representative access to any information in respect of which the operator is entitled to claim, and does claim, legal professional privilege.
(5) The duties imposed by this clause on the operator in respect of the health and safety representative for a designated work group apply equally, to the extent that the matters to which the duties relate are within the control of a work group employer or of a supervisor of particular work, to that employer and to that supervisor.

(4) If regulations made for the purposes of this clause specify procedures for the selection of persons as members of health and safety committees to represent the interests of members of the workforce, an agreement referred to in subclause (2)(a) must not provide for members to be chosen in a way inconsistent with the regulations.

(5) A health and safety committee must hold a meeting at least once every 3 months.
(6) The procedure at meetings of a health and safety committee must, except to the extent provided for by the regulations, be the procedure agreed upon by the committee.

(7) A health and safety committee must cause minutes of its meetings to be kept, and must retain those minutes for a period of not less than 3 years.

(8) This clause does not prevent an operator from establishing, in consultation with registered unions or any other persons, committees concerned with occupational health and safety in relation to undertakings carried on by the operator.

41—Functions of health and safety committees

(1) A health and safety committee has the following functions—

(a) to assist the operator of the facility concerned—

(e) any other functions that are agreed between the operator and the health and safety committee.

(2) A health and safety committee has power to do all things necessary or convenient to be done for, or in connection with, the performance of its functions.

(3) This Schedule does not—

(b) render such a person liable in civil proceedings because of—

(i) a failure to do such an act; or

(ii) the manner in which such an act was done.

Division 5—Emergency procedures

43—Action by health and safety representatives

(1) If a health and safety representative for a designated work group has reasonable cause to believe that there is an imminent and serious danger to the health or safety of any person at or near the facility unless a group member or group members cease to perform particular work, the representative must—

(a) inform a person (a supervisor) supervising the group member or group members in the performance of the work of the danger; or

(b) if no supervisor can be contacted immediately—

(i) direct the group member or group members to cease, in a safe manner, to perform the work; and

(ii) as soon as practicable, inform a supervisor that the direction has been given.
(2) If a supervisor is informed under subclause (1)(a) of a danger to the health or safety of any person at or near the facility, the supervisor must take the action he or she thinks appropriate to remove that danger, which may include directing a group member or group members to cease, in a safe manner, to perform the work.

(3) If—
   (a) a health and safety representative has informed a supervisor under subclause (1)(a) of a danger; and
   (b) the representative has reasonable cause to believe that, despite any action taken by the supervisor in accordance with subclause (2), there continues to be an imminent and serious danger to the health or safety of any person at or near the facility unless the group member or group members cease to perform particular work,

the representative must—
   (c) direct the group member or group members to cease, in a safe manner, to perform the work; and

the representative or the supervisor may request the Safety Authority or an OHS inspector that an inspection be conducted of the work that is the subject of the direction.

(5) As soon as possible after a request is made, an inspection must be conducted of the work that is the subject of the direction, and the OHS inspector conducting the inspection must make decisions, and exercise powers, under Part 4 as the OHS inspector considers necessary in relation to the work.

(6) This clause does not limit the power of a health and safety representative under clause 33(1)(a)(iii) to request an OHS inspector or the Safety Authority that an inspection be conducted at the workplace.

44—Directions to perform other work

If—
   (a) a group member who is an employee has ceased to perform work, in accordance with the direction of a health and safety representative under clause 43(1)(b) or (3)(c); and
(b) the cessation of work does not continue after—
   (i) the health and safety representative has agreed with a person supervising work at the workplace where the work was being performed that the cessation of work was not, or is no longer, necessary; or
   (ii) an OHS inspector has, under clause 43(5), made a decision to the effect that the employee should perform the work,

the employer may direct the employee to perform suitable alternative work, and the employee is to be taken, for all purposes, to be required to perform that other work under the terms and conditions of the employee's employment.

Division 6—Exemptions

The following is a simplified outline of this Part:

(a) an OHS inspector may conduct an inspection—
   (i) to ascertain whether a listed OHS law is being complied with; or
