THE SCHEDULE

RURAL ADJUSTMENT—OUTLINE OF SCHEME

Part 1—General Principles

(a) All agricultural, horticultural, pastoral, apicultural and aquacultural industries are included in the Scheme. It is recognised that in particular circumstances some industries may need additional special consideration.

(b) The general principle to be applied is to distribute the available resources as widely as practicable. Applicants must be primary producers relying primarily on income from primary production who are unable to obtain funds on reasonable terms and conditions from normal commercial sources.

(c) The over-riding objective is to assist rural industry structural adjustment and to ease adjustment pressures through the provision of adjustment assistance to individual farmers who are considered to have the capacity to achieve and maintain a commercially viable farm business enterprise.

(d) The State will avail itself of the best available advice on the technology and market prospects of all the industries included in the Scheme.

(e) Companies will not be eligible for assistance unless the State, having considered the shareholdings and being satisfied that the shareholders are primary producers relying primarily on the income of the company for their livelihood, considers it appropriate to provide assistance.

(f) In cases of Parts A and B assistance it is an essential part of the Scheme that adequate supervision of property management and the financial affairs of the assisted farmer is maintained. If the State deems it necessary, it may require in respect of loans made by the State under the Scheme that moneys receivable on account of the property will be received by the State or its agent or a body nominated by the State, payments within the approved budgets being made through normal channels.

(g) Repayment of advances made by the State and interest due thereon will be secured by the best and most appropriate security available, recognising that this may involve ranking after existing securities.

(h) A transfer of the property or any interest therein before advances made by the State are repaid will be permitted only with the consent of the State which will upon transfer, or upon succession on the death of the borrower, have the right to review its arrangements in respect of the property.

(i) The arrangements with the assisted farmer will be subject to regular review by the State. They may be terminated if the farmer ceases to work the property personally, fails to observe the obligations and undertakings under the arrangements or if the State decides that for any reason the farmer lacks reasonable prospects of successful economic operation. Otherwise the arrangements shall be terminable when the State decides that the farmer's prospects of successful economic operation are no longer dependent on the extension of concessional interest rates.

(j) The eligibility of an applicant for one form of assistance under this Scheme will not necessarily be affected by the applicant having applied for or receiving another form of assistance under the Scheme.

(k) The rate of interest payable on advances by the State and the amount of interest subsidy payable in respect of borrowings, otherwise than from the State, under the Scheme will be decided by the State in the circumstances of the particular case. The State will have the right to review

(i) in respect of advances by the State, the interest rates and terms of repayment on individual accounts

(ii) in respect of borrowings, otherwise than from the State, under the Scheme, the amount of interest subsidy payable

with the objective of the borrower being brought up to commercial interest rates as soon as circumstances permit.

Part 2—Debt Reconstruction

(1) Purpose

To assist an applicant who, although having sound prospects of long term commercial viability, has used all the applicant's cash and credit resources and cannot meet the applicant's financial commitments.

(2) Tests of Eligibility

(a) The applicant is unable to obtain finance on reasonable terms to carry on from normal commercial sources and is thus in danger of losing property or other assets if not assisted under the Scheme.

(b) There is a reasonable prospect of successful operation possible with assistance under the Scheme, the prime requirements being ability to service commitments and to reach the stage of commercial viability within a reasonable time.

(c) Assistance is merited and the applicant's difficulties are not substantially due to circumstances within the applicant's control.

(3) Nature of Assistance

The assistance to be provided may include where necessary:

(a) A re-arrangement and/or a composition of debts to allow more time for payment.

(b) The negotiation of a concessional rate of interest for existing rates.

(c) Advances of additional funds for carry-on expenses, livestock and further property development.

(d) Where the State legislation so provides, a protection order against any creditor who has threatened action for debt, to apply while the application is under consideration and subject to such extensions as the State may from time to time determine.

(4) Method of Operation

(a) A re-arrangement and/or composition may take the form of the State advancing money or arranging for an offer of an advance of money to pay off in whole or part the creditors (whether or not the debts have been written down by the creditors under *(b)* below), excluding the Crown or providing interest subsidy in respect of borrowings otherwise than from the State under the Scheme. There may be an arrangement by the secured or unsecured creditors to postpone repayments of principal and to refrain from taking action against the debtor for a specified time. Composition arrangements require the agreement in writing of creditors.

(b) The possibility of creditors, including the Crown, local authorities and public utilities being asked to defer or write off part of their debts should be considered. Creditors should not be pressed to the extent that the availability of credit to rural industries is damaged.

(c) Additional funds advanced or the interest subsidy previously referred to to assist with carry-on expenses, livestock purchase and further property development will be strictly limited to the minimum which the State considers is required to enable the applicant to carry on and free the applicant from dependence on the assistance within the term of the advances or the interest subsidy.

(d) In exceptional cases, advances or an interest subsidy to assist with carry-on expenses and livestock purchase may be made to an applicant who is not yet in immediate danger of losing property or other assets but who, in the opinion of the State, is likely to reach that position without such assistance, such cases being tested strictly against the remaining eligibility criteria.

(e) Where protection orders apply it is desirable to establish a relationship with creditors such that the State is acting in combined interests of applicant and creditors, secured and unsecured.

(5) Limits

The State shall have discretion to determine:

(a) The terms and conditions of any loan made by the State under the Scheme. An initial period of freedom from repayments of principal may be allowed depending on the circumstances of the case and the interest rate to be charged.

(b) The proportion of debts paid off by advances in any one case.

(c) The total advances which may be made by the State in any one case.

(d) The level of interest subsidy in respect of borrowings otherwise than from the State under the Scheme.

Part 3—Farm Build-up

(1) Purpose

To supplement, without discouraging, the normal processes under which properties which do not have reasonable prospects of long term viability under existing and prospective circumstances are amalgamated with an adjoining holding or are subdivided and the subdivided proportions are added to adjoining holdings, or to assist a farmer with a property too small to be economic to purchase additional land to build up his property to at least economic size.

(2) Tests of Eligibility

(a) The owner of the property to be purchased wishes to sell or accepts that the owner is obliged to sell.

(b) The purchaser is unable to obtain the finance applied for on reasonable terms from normal commercial sources.

(c) The State is satisfied that the built up property will be of sufficient size to offer sound prospects of long term commercial viability.

(d) Where an application is made by an adjoining owner for assistance under the Scheme to purchase an uneconomic property, but there is a possibility of sale of the property to another adjoining owner who does not require assistance under the Scheme, assistance will be provided only if the applicant's property is not of sufficient size to offer sound prospects of long term commercial viability.

(e) The term "adjoining holding" includes land which is within a reasonable working distance of the farm under consideration where there is no impediment to the two or more farms being worked as a single unit.

(3) Nature of Assistance

The provision to the purchaser of finance or an interest subsidy in respect of borrowings otherwise than from the State under the Scheme

(a) to assist the purchase of an adjoining holding or part of an adjoining holding;

(b) to assist with carry-on expenses, plant, stock and property development in respect of the additional land where not available from normal commercial sources.

(4) Method of Operation

(a) The provision of advances or the interest subsidy referred to above will only be made where arrangements have been made for an adjoining owner to take over the property or for the property to be subdivided and the subdivided parts added to adjoining properties. The State may purchase such properties in advance of arrangements having been made for the property to be added to an adjoining property or properties where the program of farm adjustment could not otherwise be achieved. The State may dispose of such a property on commercial terms where the purchaser does not require or is not eligible for assistance under this Part.

(b) Where appropriate, the State could take the initiative to encourage an adjoining owner to purchase additional land where the State is aware that the owner of such land wished to leave the industry or accepts that the owner is obliged to leave the industry; this applies particularly where it is unlikely that the appropriate purchaser or purchasers will be able to purchase the additional land unless the State provides assistance for the purchase.

(c) Since it is required that there must be reasonable prospects of successful operation of the built up property, the State, in considering the transfer price of land, will have regard to its productivity value.

(d) Where advances or an interest subsidy are made to assist with carry-on expenses, plant, stock and property development, the assistance will be strictly limited to the minimum which the State considers is required to enable the applicant to carry on and develop the built up property.

(e) While any advances by the State in respect of built up property remain unpaid, the transfer of part of the built up property will not be permitted if this would result in a property of a size too small to be commercially viable.

(5) Limits

The State shall have discretion to determine

(a) The term and conditions of any loan made by the State under the Scheme. An initial period of freedom from repayments of principal may be allowed depending on the circumstances of the case and the interest rate to be charged.

(b) The total of advances which may be made by the State in any one case.

(c) The level of interest subsidy in respect of borrowings, otherwise than from the State, under the Scheme.

Part 4—Farm Improvement

(1) Purpose

To assist the attainment of commercial viability of a farm by providing financial assistance to the applicant to improve the effective use of the existing farm without adding to its area.

(2) Tests of Eligibility

(a) The existing farm is not now viable but is of sufficient area and the proposed improvements are of a kind as to offer sound prospects of long term commercial viability if assistance under the Scheme were provided.

(b) The applicant is unable to obtain finance on reasonable terms from normal commercial sources.

(3) Nature of Assistance

Advances or an interest subsidy in respect of borrowings, otherwise than from the State, under the Scheme to assist with plant and livestock purchases, carry-on expenses and further property development intended to restore the economic viability of the farm either in the existing form of production or in another form of production which may be undertaken in combination with, or completely replace, the existing form of production.

(4) Method of Operation

(a) Advances or the interest subsidy referred to above made for the purposes of this Part will be limited to the minimum which the State considers is required to enable the farmer to achieve the objective of the improvement program.

(b) While any advances by the State in respect of improvement for which finance is provided under this Part remain unpaid or during the period that the interest subsidy is provided, the transfer of part of the improved property will not be permitted if this would result in a property of a size too small to be economic.

(5) Limits

The State shall have the discretion to determine

(a) The term and conditions of any loan made by the State under the Scheme. An initial period of freedom from repayments of principal may be allowed where circumstances warrant this concession.

(b) The total of advances which may be made by the State in any one case.

(c) The level of interest subsidy in respect of borrowings otherwise than from the State under the Scheme.

Part 5—Carry-on Finance

(1) Purpose

To provide assistance for essential carry-on purposes in rural industries which it is agreed from time to time between the Commonwealth and a State or States are suffering a severe market downturn or similar situation (but excluding drought or other natural disasters).

(2) Tests of Eligibility

(a) The applicant has sound prospects of long term commercial viability having regard to the applicant's asset structure, on the assumption of a market recovery to the long term trend.

(b) The applicant is unable to obtain carry-on finance on reasonable terms from normal commercial sources.

(c) Assistance is merited and the applicant's difficulties are not substantially due to circumstances within the applicant's control.

(3) Nature of Assistance

Advances for essential carry-on expenses or an interest subsidy in respect of borrowings, otherwise than from the State, under the Scheme for the same purpose.

(4) Method of Operation

(a) In relation to the rural industries referred to in Clause (1) of this Part, the Commonwealth and the State will agree upon the terms and conditions upon which assistance is to be given to applicants within those rural industries and the Commonwealth will thereupon publish a notice to that effect in the Australian Government Gazette.

(b) Applicants within those rural industries who fulfil the eligibility requirements set out above will then apply to the State in their own State for carry-on assistance.

(c) Assistance will be made available at the discretion of the State and will be limited to the minimum which the State considers is required to enable the farmer to carry on.

Part 6—Household Support

(1) Purpose

To provide limited assistance to applicants facing conditions of financial hardship and who are considering whether to adjust out of farming.

(2) Conditions of Eligibility

(a) The applicant must be ineligible for Parts A and/or B assistance.

(b) The applicant does not have sound prospects of long term commercial viability.

(c) The applicant will suffer financial hardships which will be alleviated by assistance under these provisions.

(d) The applicant must not at the time of application or whilst in receipt of household support be also in receipt of unemployment benefits.

(3) Nature of Assistance

(a) An advance provided for one year sufficient to raise the applicant's estimated future income from all sources to the level of payment which would be applicable to the applicant if the applicant were eligible for unemployment benefits. An extension for a further two years may be allowed in those cases where the applicant has made a genuine effort to dispose of the applicant's productive assets at a market value acceptable to the State.

(b) Where it would take some time to assess an applicant's entitlement, interim assistance may be granted by the State as a loan at a level of payment which would be applicable to the applicant if the applicant were eligible for unemployment

benefits, provided there is a prima facie evidence of urgent need and unavailability of alternative sources of finance.

(c) If the State subsequently determines that the applicant has a viable enterprise, the interim assistance will be regarded as carry-on finance.

(d) The carry-on finance would represent part or all of the finance to be provided under a Scheme operative at the time and would be repaid under the conditions pertaining to that Scheme.

(e) If the State determines that an applicant does not have a viable enterprise, the applicant will be eligible for household support assistance, and any interim assistance the applicant may have received will be regarded as part of household support assistance.

(f) Advances of household support assistance are to be paid to the applicant at intervals not exceeding three monthly. Prospective income for each period will be assessed by the State on the basis of declarations made by the applicant. Each applicant's income situation is to be reviewed by the State, on the basis of declarations made by the applicant, when further advances are to be made to the applicant.

(g) Where an applicant obtains employment or the applicant's income is higher than allowed for by the State when making an advance, the applicant shall notify the State and repay any excess household support assistance the applicant may have received.

(h) In the event of the State becoming aware that an applicant has received more than the applicant was entitled to, it may exercise its discretion in seeking repayment of the excess.

(i) At the end of the first period of twelve months for which an applicant receives household support assistance the advances made to the applicant may be automatically converted to a grant.

(j) If the applicant adjusts out of farming within three years of the time the applicant first received household support, any advances made to the applicant and not already converted to a grant may be so converted by the State.

(k) If an applicant does not adjust out of farming within three years after first receiving household support assistance any advances made to the applicant and not converted to a grant will be repayable to the State, together with interest accruing from the commencement of the advance, within a further period of seven years.

(l) An applicant who is eligible for household support and who is prepared to adjust out of farming may receive in lieu of household support assistance a lump sum payment to bring total payments received under the household support to $8,000.

(m) For the purpose of these provisions an applicant is regarded as having adjusted out of farming when, in the judgement of the State, the applicant has effectively disposed of the applicant's productive resources.

(4) Method of Operation

The assistance will be provided at the discretion of the State.

Part 7—Rehabilitation

(1) Purpose

To provide limited assistance to applicants facing conditions of financial hardship who are obliged to adjust out of farming.

(2) Conditions of Eligibility

(a) The applicant must be ineligible for Parts A and/or B assistance.

(b) The applicant does not have sound prospects of long term commercial viability.

(c) Taking into account the financial position of the applicant after the applicant's property has been sold, the applicant will suffer financial hardship which will be alleviated by assistance under these provisions.

(3) Nature of Assistance

An advance of $8,000 indexed to movements in the Consumer Price Index from 1 July 1985. The loan may be converted to a grant at any time by the State.

(4) Method of Operation

The assistance and conditions, if any, will be provided at the discretion of the State to applicants who comply with the conditions of eligibility.

In the name and on behalf of Her Majesty, I hereby assent to this Bill.

BE IT ENACTED by the Governor of the State of South Australia, with the advice and consent of the Parliament thereof, as follows:

Short title.

1. (1) This Act may be cited as the "Parliamentary Superannuation Act Amendment Act, 1985".

Commencement.

2. (1) Subject to subsection (3), this Act shall come into operation on a day to be fixed by proclamation.

(2) The Governor may, in a proclamation fixing a day for this Act to come into operation, suspend the operation of specified provisions of this Act (other than section 10 *(c)* and *(d)*) until a subsequent day fixed in the proclamation, or a day to be fixed by subsequent proclamation.

(3) Section 10 *(c)* and *(d)* shall be deemed to have come into operation on the first day of July, 1979.

Amendment of s. 11—Accounts and audit.

3. Section 11 of the principal Act is amended by striking out subsection (2) and substituting the following subsection:

(2) The Auditor-General may at any time, and shall at least once in every year, audit the accounts kept by the Trustees pursuant to subsection (1).

(b) if a member held a prescribed office during the member's period of service and the prescribed office does not exist on the date of the member's retirement, the rate of additional salary applicable to that office on that date shall be deemed to be a rate of salary determined by the Public Actuary having regard to the rate of additional salary last applicable to that office before the date of retirement of the member and the movements (if any) in salaries and additional salaries up to the date of retirement of the member;

(c) if—

(i) a member held a prescribed office during the member's period of service;

where—

A = the amount expressed in dollars and cents.

TC = the total contributions expressed in dollars and cents paid to the Fund by the member pensioner under this Act or under the repealed Act other than any such contributions that have been refunded to the member pensioner and have not been repaid.

(c) The Authority shall make payment on or before the twentieth day of each month or within 10 days after it receives the statement (whichever is later).

(d) All payments shall be made by the Authority in South Australia.

5. MAXIMUM DAILY RATES

(a) Subject to paragraph *(c)*, the producers shall supply gas at a rate fixed from time to time by the Authority.

(b) The Authority may fix a rate for the purposes of this clause and may, at any time, vary such a rate.

(c) The producers are not required to supply gas at a rate exceeding the maximum rate.

(d) The maximum rate is—

(i) in respect of gas supplied in 1985—120 per cent of the uniform rate;

(ii) where the volume of gas to be supplied in a subsequent year will provide more than 90 petajoules—120 per cent of the uniform rate;

(iii) where the volume of gas to be supplied in a subsequent year will provide 90 petajoules or less—the prescribed percentage of the uniform rate.

(e) The prescribed percentage of the uniform rate shall be determined in accordance with the following formula:

$$P = 120 + \frac{(90-PJ)}{2}$$

where—

P = the prescribed percentage

PJ = the number of petajoules that the volume of gas to be supplied in a particular year will provide.

6. DELIVERY PRESSURE

(a) Notwithstanding any other provision of this Act, the producers are not required to deliver gas at a pressure greater than 6 895 kilopascals and they shall not, in any event, deliver gas at a pressure greater than 7 322 kilopascals.

(b) Subject to paragraph *(a)*, the flow of gas at the delivery point shall not vary to a greater extent than is dictated by field, plant and pipeline operating methods and conditions.

7. QUALITY OF GAS

(a) The gas shall be of the quality specified in the appendix.

(b) Subject to paragraph *(c)*, the quantity of ethane included as a component of the gas shall not be greater than is necessary to ensure that the quality of the gas complies with the specifications in the appendix.

(c) The producers—

(i) shall include additional ethane with the gas where required to do so by the Minister under this Act;

and

(ii) may include additional ethane with the gas subject to the written approval of the Minister.

8. MEASUREMENTS AND TESTS

(a) All measurements and tests of the quantity and quality of gas must be made in accordance with the appendix and with equipment provided and maintained by the producers at or near the delivery point or at such other place or places as the Authority and the producers agree.

(b) The producers shall permit the Authority—

(i) to have access to the measuring and testing equipment at all reasonable times for inspection purposes;

(ii) to be present during testing of the quality and quantity of gas;

and

(iii) to be present when measuring or testing equipment is cleaned, installed, repaired, inspected, calibrated or adjusted.

(c) (i) the producers shall retain for at least 4 years all records of measurements and tests made under this clause and all charts and calculations derived from those measurements and tests;

and

(ii) at the Authority's request the producers shall submit to the Authority those records, charts and calculations for inspection and verification by the Authority.

9. NOTICES

A notice, statement or other written communication shall be deemed to have been given to a producer if served personally on, or sent by registered post or by telegram, telex or cable to, the producer at its last known address and shall be deemed to have been given to the Authority if sent to the Authority by registered post or by telegram, telex or cable.

10. PRODUCERS' REPRESENTATIVE

The producers' representative has full power and authority to perform the following acts on behalf of all, or any one, of the producers:

(i) give and receive notices of, and make and witness, all tests to be made of the gas delivered under this Act and the measuring equipment, and make adjustments to all measuring and testing equipment;

(ii) measure and test the gas delivered under this Act;

(iii) give and receive notices of quantities and of changes in quantities of gas to be delivered under this Act;

(iv) provide the Authority with all statements and accounts covering all amounts due to each of the producers under this Act.

Appendix

1. QUALITY

The quality of the gas shall comply with, or be better than, the following:

(a) Where no agreement to the contrary has been made by the Authority and the producers, the average heating value of the gas delivered at the delivery point in any day must not be less than 37.45 megajoules per cubic metre. Where such an agreement has been made, the average heating value must not be less than 36.69 megajoules per cubic metre.

(b) (i) The formula for the Wobbe Index is:

$$W.I. = \frac{H.V.}{(S.G.)^{1/2}}$$

where—

W.I. = the Wobbe Index

H.V. = Heating Value in megajoules per cubic metre

S.G. = Specific Gravity relative to air on the basis that the specific gravity of air equals 1.000;

(ii) Unless otherwise agreed by the Authority and the producers, the average value for the Wobbe Index of the gas delivered in any day must not be less than 47.4 nor more than 51.5.

(c) The gas, at the time of delivery, must be at a temperature of not more than 71 degrees Celsius.

(d) The gas shall comply with the following requirements:

(i) it must not contain more than 11.5 milligrams per cubic metre of hydrogen sulphide;

(ii) it must not contain more than 115 milligrams per cubic metre of total sulphur;

(iii) it must not contain more than 23 milligrams per cubic metre of mercaptans;

(iv) it must not contain more than 0.2 per cent by volume of oxygen;

(v) it must not contain more than 112 milligrams per cubic metre of water vapour;

(vi) it must not contain more than 3 per cent by volume of carbon dioxide;

(vii) the hydrocarbon dew point of the gas must be sufficiently low to prevent condensation of gas in the pipeline.

(e) In addition to meeting the above specifications the gas so delivered shall be commercially free from dust gums, gum forming constituents or other liquid or solid matter which might cause injury to, or interference with, proper operation of pipeline regulators, meters or other appliances through which it flows.

2. MEASUREMENT

(a) The producers shall provide and maintain in satisfactory working order and condition at the delivery point a measuring station with such—

(i) meters, gauges and other equipment as will make possible the determination of the daily quantities of gas delivered by the producers to the Authority;

and

(ii) meters, gauges and other equipment that may be immediately substituted in the event of the breakdown of any of the meters, gauges or other equipment referred to in subparagraph (i).

Subject to this appendix all equipment installed for these purposes shall be agreed by the producers and the Authority or, on failure to agree, shall be in accordance with the directions of the Minister.

(b) Procedures and equipment involved in measuring and recording the quantity and characteristics of gas supplied under this Act shall, except as otherwise specified in this appendix be in accordance with such standards as are agreed by the producers and the Authority or, on failure to agree, as are fixed by the Minister from time to time.

(c) As soon as possible after measuring the quantity or characteristics of the gas supplied the producers shall convey that information to the Authority.

(d) The producers shall deliver to the Authority within a reasonable time of the completion of each day a copy of the daily sales log.

(e) The accuracy of the producers' measuring equipment shall be verified at least once a month on a date as near the first of the month as practicable and at other times upon request of the Authority or the producers. The producers shall give the Authority notice of the time of such tests of meters sufficiently in advance of the holding of the test that the Authority may if it desires have representatives present. Tests and adjustments shall be made in the presence of, and observed by, representatives of both the Authority if present and the producers. If, after notice, the Authority fails to have representatives present the results of the tests and adjustments shall nevertheless be considered accurate until the next tests and adjustments have been made.

(f) The accuracy of measuring equipment shall be verified on the basis that—

(i) acceleration due to gravity at the delivery point is 9.79146 metres per second per second;

(ii) the density of air is 1.2257 kilograms per cubic metre at standard temperature and pressure.

(g) The Authority shall reimburse the producers for the costs of tests of measuring equipment (other than the monthly tests required by paragraph *(e)*) carried out at the Authority's request unless the equipment is shown not to have been operating within the permissible limits of tolerance agreed by the Authority and the producers or fixed by the Minister.

(h) Limits of Errors in Measuring and Recording Equipment

All measuring equipment shall be tested for accuracy using such methods as are agreed in writing by the Authority and the producers or, on failure to agree, as are determined by the Minister.

(i) Calorimeters

When a test reveals that a calorimeter is in error by 0.5 per cent or less it shall be deemed to be accurate but shall be adjusted as soon as possible to eliminate the error that does exist.

(ii) Specific Gravity Recorders

When a test reveals that a specific gravity recorder is in error by 0.003 or less it shall be deemed to be accurate but shall be adjusted as soon as possible to eliminate the error that does exist.

(iii) Other Measuring or Recording Equipment

If any other equipment is found to be inaccurate it shall be corrected as soon as possible.

(iv) If the values recorded by inaccurate equipment have been used in the calculation of gas quantities delivered then the quantity calculated for the day immediately preceding the day of discovery of the inaccuracy shall be compared with the quantity recalculated for the same day using corrected values. If the difference is 2 per cent or less of the quantities calculated using the inaccurate readings all readings of the equipment since the previous test shall be deemed to be correct.

(i) Correction of Readings

If the error in measuring equipment exceeds the limits set out in paragraph *(h)* any previous readings of such equipment shall be corrected for any period of inaccuracy which is definitely known or agreed by the producers and the Authority and the quantities for such period shall be corrected by recalculation using the corrected reading provided that the period for which such correction will apply shall not extend beyond the date of the preceding test. In case the period of inaccuracy is not known or agreed upon then the correction of the quantities shall be calculated for the period since the day of the preceding test of the equipment concerned but the correction shall be based on one half of the error shown at the most recent test of the equipment. Where quantities are corrected, the corrected figure or figures shall be regarded as the quantity delivered during the period of correction.

(j) Failure of Measuring Equipment

If for any period measuring equipment fails to make measurements or records necessary for ascertaining or computing the quantity of gas delivered during that period so that the quantity cannot be ascertained or computed from those measurements or records the quantities of gas delivered during the period of failure shall be estimated as nearly as possible by using the best method available for the purpose.

(k) The producers shall deliver to the Authority within a reasonable time after cleaning, installing, repairing, inspecting, calibrating or adjusting any of the producers' measuring equipment a certified inspection report for the equipment.

TABLES OF ACTS OF THE PARLIAMENT OF SOUTH AUSTRALIA

TABLE OF PUBLIC GENERAL ACTS OF THE PARLIAMENT OF SOUTH AUSTRALIA, INCLUDING CROSS REFERENCES

The following table contains a list of the public Acts of general application of the Parliament of South Australia passed up to the end of 1985 and which were not repealed as on 1st January, 1986.

In the case of an Act reprinted in Volumes 1 to 11 of the South Australian Statutes 1837-1975, a reference is given in the table to the volume and page where the Act is printed. In the case of any other Act a reference is given to the annual volume of Statutes in which the Act is printed.

Where an Act has been reprinted in pamphlet form pursuant to the Acts Republication Act, 1967, a note to that effect, specifying the date up to which amendments have been incorporated, follows the entry relating to that Act.

The table also includes cross references to subject matters dealt with by legislation.

TABLE OF ACTS AFFECTED BY AMENDMENT OR JUDICIAL DECISION

TABLE OF PUBLIC GENERAL ACTS AFFECTED BY AMENDMENT OR JUDICIAL DECISION

The Acts contained in this Table are those published in the new edition of the South Australian Statutes, 1837-1975, and Acts which have come into force since the publication of the new edition, which have been amended by Acts passed since the 3rd February, 1976, but before the 1st January, 1986.

Acts which have been repealed since April, 1937, are shown in the Table of Acts Repealed. Acts repealed by Acts that had not come into operation before the 1st January, 1986, have not been deleted from this Table of Amendments and Cases. The amendment or repeal of individual provisions is shown, whether or not the amending or repealing Act had come into operation at that date. Acts listed in the Table of Public General Acts had come into operation at 1st January, 1986, unless that Table indicates otherwise.

This Table also contains notes, placed against references to the appropriate sections of the Acts affected, of the reported decisions of the Privy Council, the High Court of Australia, the Supreme Court of South Australia, and the Industrial Court of South Australia, relating to the interpretation of those sections. The cases so noted are those comprised in reports published since 1st April, 1937, and include the cases reported up to the end of 154 Commonwealth Law Reports, up to the end of 37 South Australian State Reports, and up to the end of 47 South Australian Industrial Reports. Volume 13 of the South Australian Statutes, 1837-1975, contains notes of reported cases relating to the provisions of the Acts contained in that work and published prior to 3rd February, 1976.
