The Parliament of South Australia enacts as follows:

Part 1—Preliminary

1—Short title

This Act may be cited as the *Electricity (Feed-In Scheme—Residential Solar Systems) Amendment Act 2007*.

5 2—Commencement

This Act will come into operation on a day to be fixed by proclamation.

3—Amendment provisions

In this Act, a provision under a heading referring to the amendment of a specified Act amends the Act so specified.

10 Part 2—Amendment of *Electricity Act 1996*

4—Insertion of Part 3 Division 3AB

After section 36AB insert:

Division 3AB—Feed-in mechanisms

36AC—Interpretation

15 In this Division—

domestic customer means a customer—

- (a) who acquires electricity primarily for domestic use; and
- (b) who satisfies other criteria (if any) prescribed by the regulations for the purposes of this definition;

20 *excluded network* means a distribution network that supplies electricity to less than 10 000 domestic customers;

qualifying generator means a small photovoltaic generator—

- (a) that is operated by a domestic customer; and
- (b) that complies with *Australian Standard—AS 4777* (as in force from time to time or as substituted from time to time); and
- (c) that is connected to a distribution network in a manner that allows electricity generated by the small photovoltaic generator to be fed into the network,

other than where the distribution network is an excluded network;

small photovoltaic generator means a photovoltaic system with capacity up to 10kVA for a single phase connection and up to 30kVA for a three phase connection.

36AD—Feeding-in of electricity to networks by domestic customers

- (1) It is a condition of a licence authorising the operation of a distribution network, other than an excluded network, that the holder of the licence will—
 - (a) allow a domestic customer to feed into the network electricity generated by a qualifying generator (subject to complying with any relevant technical, safety or other requirements imposed by or under this or any other Act or relevant instrument); and
 - (b) credit against the charges payable by the domestic customer for the supply of electricity to the domestic customer the amount of \$0.44 per kWh for any electricity fed into the network under paragraph (a) (after taking into account the operation of subsections (2), (3) and (4)); and
 - (c) comply with any reporting requirements imposed by the Minister under subsection (4).
- (2) It is a condition of the licence of the electricity entity that has the relevant contract to sell electricity as a retailer to a domestic customer who is entitled to a credit under subsection (1)(b) that the retailer will, after taking into account any requirements prescribed by the regulations—
 - (a) reflect the credit in the charges payable by the domestic customer for the supply of electricity; and
 - (b) provide to the domestic customer information relating to—
 - (i) the amount of electricity fed into the distribution network by the domestic customer; and
 - (ii) the amount to be credited for the benefit of the domestic customer for electricity fed into the distribution network.

- 5
- (3) If the whole of an amount to be credited to a domestic customer under subsection (1)(b) in respect of electricity fed into a distribution network in a particular billing period has not been set-off against the charges payable by the domestic consumer for the supply of electricity by the expiration of 12 months after the end of that billing period, the domestic customer is entitled to the payment of the outstanding balance.
- (4) The Minister may, in connection with the operation or administration of this section—
- 10
- (a) by notice in the Gazette, impose reporting requirements on the holders of licences authorising the operation of distribution networks;
- (b) by subsequent notice in the Gazette, vary any reporting requirements previously imposed under this subsection
- 15
- (including by the substitution or addition of requirements).

36AE—Expiry of scheme

The scheme established by this Division will not apply to electricity fed into a distribution network after 30 June 2013.
