Bill 2009**

Amendment of *Upper South East Dryland Salinity and Flood Management Act 2002*—Part 2

- 5
- (2) A vesting under subsection (1) operates by force of that subsection and without the need to execute any instrument, to undertake or obtain any registration (including in the Lands Titles Registration Office) or to obtain any consent or approval.
- 10
- (3) If land was, immediately before its vesting in the Minister under section 12(1), part of a road vested in a council, the land will, when revested under this section, be reinstated as a public road under the *Local Government Act 1999*.
- 15
- (4) Subject to subsection (3), land vested under this section will be vested in the same estate as the remaining land and, on the vesting of land under this section, the title to the land will be taken to have been restored as if no change had ever occurred and as if the land had never been vested under section 12 (subject to any dealing with the remaining land between 19 December 2002 and the commencement date and without giving rise to any retrospective liability for any tax, rate or charge in connection with the land that has been revested).
- 20
- (5) Any land within a Category B project works corridor will, on its vesting under this section, be taken to be subject to a statutory easement (being an easement of a class prescribed by the regulations for the purposes of this section and being an easement that matches the nature of the land as public land or as private land and the nature of the works to be undertaken for the purposes of the Project according to a scheme set out in the regulations) in favour of the Minister over and in respect of the land.

- 35
- (8) The Governor may, by proclamation, in connection with the vesting of land under this section, make any other provision that the Governor considers to be necessary or expedient on account of the vesting.
- 40
- (9) Any vesting under this section, and any provision of a proclamation under this section, will have effect despite any other Act or law and may have effect so as to create or adjust any legal or equitable interest associated with land (including with respect to rights appurtenant to land).

(10) The Registrar-General—

- 5
- (a) must, on application by the Minister or any other person in whom an estate in fee simple in land is vested by operation of this section, take such action as the Registrar-General considers appropriate to record or give effect to the vesting of land under this section (including by issuing, noting or amending any certificate of title); and

35

(2) The Registrar-General—

(d) will have effect according to its terms and despite any other Act or law and will prevail over any other relevant interest to the extent of any inconsistency; and

(e) will have effect despite the fact that it may provide for exclusive possession over land; and

(f) may provide for the undertaking of work, the alteration of land, the construction, fixing or placing of works and other items, and the taking of other action in connection with the Project; and

(g) may prohibit, restrict or regulate access to the land subject to the easement (including access by the owner of the land); and

(3) The Minister should, pending the performance of work on land subject to an easement under this Part (insofar as may be relevant in the circumstances), give consideration to the extent to which the land can be made available to the owner or occupier of the land adjoining the easement without adversely affecting any work under this Act or the furtherance of the objects of this Act and may, as the Minister thinks fit, enter into an agreement with a person so as to allow some or all of the land subject to the easement to be used for a purpose approved by the Minister (and then the easement will have effect subject to the terms of any such agreement).

(4) For the avoidance of doubt, the *Land Acquisition Act 1969* does not apply to or in relation to the creation of an easement under this Part (other than to the extent provided by section 13A).

(5) The Minister may, by instrument lodged in the Lands Titles Registration Office, assign the Minister's interest under an easement to another public authority.

(6) If an assignment is effected under subsection (5), a reference in a preceding subsection of this section, and in the relevant easement, to the Minister will be taken to be a reference to the relevant public authority (and the public authority may exercise any power with respect to the easement vested in the Minister by or under this Act or any other law, or by the easement itself).

5 (7) If Schedule 1 is varied so as to alter land constituting a Category B project works corridor or a Category C project works corridor, the statutory easement over land affected by the variation will be adjusted accordingly (and any necessary variation may be made with respect to any registration or noting on any certificate of title or against any land).

(8) In this section—

public authority means—

- 10 (a) a Minister or other agency or instrumentality of the Crown (whether in right of the State or of the Commonwealth); or
