 - (a) for the purpose of calculating benefits—

 - (b) for the purpose of calculating contributions—

- (i) the contributor's actual salary will be used if, at that date, it is at that level (or would be at that level except for a reduction for disciplinary reasons) and the contributor is employed in that grade (whether on a full time or a part time basis); or

S₁ is the salary that would have been the contributor's actual or attributed salary for the purpose of calculating benefits if the contributor's salary had not been reduced for disciplinary reasons

 - (b) if the contributor has served under two or more contracts in the same or in two or more interstate or overseas police forces and the aggregate of the periods of those contracts is five years or more, the seconded positions will be taken to be permanent positions in the South Australian police force for the purpose of calculating contributions (but contributions will only be calculated on that basis from the commencement of the contract that results in an aggregate period of five years or more);
 - (c) if the contract under which the contributor served in the other police force was for a period of five years or more or if the contributor served under two or more contracts in the same or in two or more interstate or overseas police forces and the aggregate of the periods of those contracts was five years or more, the seconded position or positions will be taken to be a permanent position or positions in the South Australian police force for the purpose of calculating benefits;
 - (d) if paragraph (c) applies the following provisions apply to and in relation to the calculation of benefits under subsection (3):
 - (i) separate salaries will be determined under subsection (3) in respect of the contributor's period of employment in the South Australian police force and his or her period of employment in the other police force or police forces;

- (2) A proportion of a pension or lump sum paid to, or in relation to, a contributor under this Act, other than an amount paid under Part 5A, will be charged against the contributor's contribution account to the extent of the amount standing to the credit of the account or, if the account has been closed, will be charged against the relevant division of the Fund.

- (3) The proportion for the purposes of subsection (2) will—

 - (b) in the case of an old scheme contributor, be equivalent to the proportion of the benefits payable in the future under Part 5 that can, in the opinion of the Board, be met from the division of the Fund relating to old scheme contributors.
- (3a) The opinion of the Board must be based on the most recent triennial report under section 15(4).
- (3b) If a payment under subsection (1) relates to an amount paid under Part 5A, an amount equal to the amount of the payment is to be charged against the appropriate account and the Treasurer must reimburse the Consolidated Account or special deposit account by charging the Fund with that amount.
- (4) The Treasurer may reimburse the Consolidated Account or special deposit account by charging the relevant division of the Fund with the amount of any payment or proportion of any payment that is, in pursuance of this Act, to be charged against a contributor's contribution account.

 - (a) on the basis of the contributor's actual or attributed salary as at 31 March last preceding the commencement of the financial year or, if the contributor's hours of employment have increased or decreased between that date and the commencement of the financial year, on the basis of the contributor's salary following the last such increase or decrease in the hours of employment;
 - (b) —

- (i) if the contributor had not then commenced his or her employment, the contributions will be fixed on the basis of the contributor's commencing salary;
 - (ii) if the contributor was then on leave without pay or at a reduced rate of pay, the contributor will be taken for the purposes of determining the contributor's actual or attributed salary to be employed for the number of hours that the contributor would have been employed and to be receiving the salary that the contributor would have been receiving, if not on leave;
 - (iii) if after the date on which contributions for a particular financial year are fixed there is a reduction in the contributor's salary resulting from a reduction in hours of work (other than a temporary reduction of less than two weeks' duration), there will be a proportionate reduction in the contributor's contributions (but such a contributor may, with the Board's approval, elect to contribute as if there had been no reduction in salary and in that event benefits payable under this Act will be calculated as if there had been no reduction of salary);
 - (iv) if the reason for the reduction in hours of work is an illness or injury suffered by the contributor, an election under subparagraph (iii) may, with the Board's approval, operate during subsequent years despite paragraph (a).
- (3) If on the 31st day of March in any year a contributor is receiving weekly workers compensation payments those payments will be regarded as salary or a component of salary and contributions will be based on the aggregate of the contributor's salary (if any) and the weekly workers compensation payments as at that date.
- (3a) If, after a contributor's contributions have been fixed in relation to a financial year, the contributor receives weekly workers compensation payments and the aggregate of the contributor's salary (if any) and the weekly payments is less than the salary on which the contributions were based the Board must make a proportionate reduction in the amount of the contributions.
- (4) The following provisions apply to leave without pay:
 - (a) any period of leave without pay of two weeks or less will be treated as a period of employment in respect of which contributions are payable;
 - (b) if leave without pay is taken for a continuous period exceeding two weeks, no contribution is payable in respect of that period unless the contributor elects to contribute and the election is approved by the Board;
 - (c) the Board must only approve an election in respect of a period of leave without pay that exceeds 12 months if satisfactory arrangements have been made for reimbursement of the costs of benefits attributable to that period.
- (5) An old scheme contributor will cease to contribute to the Scheme if before termination of the contributor's employment the following conditions are satisfied:
 - (a) the contributor is of or above the age of 60 years; and
 - (b) the contributor has not less than—

- (2) Where a contributor is employed on a part-time basis a proportion of one contribution point accrues to the contributor in respect of a contribution month equal to the proportion that the amount actually contributed in respect of that month bears to the amount that would have been contributed if the contributor had been employed on a full-time basis.
- (3) A contributor will not be credited with contribution points in respect of a period—
 - (a) during which the contributor is on leave without pay and is not contributing to the Scheme;
 - (b) during which the contributor is suspended from the police force without pay.
- (4) Where a formula in this Act requires the extrapolation of a contributor's contribution points to a particular age the following provisions apply:
 - (a) if the contributor has then reached the age to which the points are to be extrapolated, the number of points to be used in the formula is the aggregate of the accrued contribution points;
 - (b) in any other case—
 - (i) if the contributor has been in full-time employment throughout the contribution period—the number of points to be used in the formula is the aggregate of the accrued contribution points plus a number equal to the number of months' difference between the contributor's age as at the entitlement day and the age to which the points are to be extrapolated (an incomplete month occurring in that period being taken to be a whole month);
 - (ii) if the contributor has not been in full-time employment throughout the contribution period—the number of points to be used in the formula is the aggregate of the accrued contribution points plus the relevant proportion of the number of months' difference between the contributor's age as at the entitlement day and the age to which the points are to be extrapolated (an incomplete month occurring in that period being taken to be a whole month).

 - (b) maintain a co-contribution account in the name of a contributor in respect of whom a co-contribution has been paid to the Board.
- (2) A contributor's rollover account must be credited with the money referred to in subsection (1) and must be debited with any payment that is, in pursuance of this Act, to be charged against the account.
- (2a) A contributor's co-contribution account must be credited with the amount of any co-contribution paid to the Board in respect of the member.

- (3) At the end of each financial year, each rollover account and co-contribution account that has a credit balance will be adjusted to reflect a rate of return determined by the Board for the relevant financial year.
- (4) In determining a rate of return for the purposes of subsection (3), the Board should have regard to—
 - (a) the net rate of return achieved by investment of the relevant division of the Fund over the financial year or, if a contributor has made a nomination under Division 3, the net rate of return achieved by the class of investments, or the combination of classes of investments, nominated by the contributor; and
 - (b) the desirability of reducing undue fluctuations in the rate of return on contributors' rollover accounts and co-contribution accounts.
- (5) If, in pursuance of subsection (4)(b), the Board determines a rate of return that is at variance with the net rate of return achieved by investment of the relevant division of the Fund, the Board must include its reasons for the determination in its report for the relevant financial year.
- (6) If it is necessary to determine the balance of a contributor's rollover account or co-contribution account and the Board has not yet determined a rate of return in relation to the relevant financial year, the balance will be determined by applying a percentage rate of return on accounts estimated by the Board.
- (7) A balance determined under subsection (6) will not be adjusted when a rate of return is subsequently determined under subsection (3).
- (8) The Board must, within six months of the end of each financial year, provide each contributor in whose name a rollover account or co-contribution account is maintained with a written statement of the amount standing to the credit of the contributor's rollover account or co-contribution account at the end of the financial year and the amount by which the balance of the account has been adjusted pursuant to subsection (3) in respect of that financial year.
- (9) A reference in this section to *rate of return* is a reference to a positive or negative rate of return.

38EBA—Payment of co-contribution component

- (1) If the employment of a contributor who has reached the age of 55 terminates or is terminated for any reason except the contributor's death, the contributor is entitled to payment of the co-contribution component (if any) to the extent that the payment can be made in accordance with the SIS Act.
- (2) If the employment of a contributor who has not reached the age of 55 terminates or is terminated for any reason except the contributor's death, the contributor may elect to—
 - (a) take immediately the co-contribution component (if any) to the extent that the payment can be made in accordance with the SIS Act; or
 - (b) to preserve the co-contribution component; or
 - (c) to carry the co-contribution component over to some other superannuation fund or scheme approved by the Board.

- (3) A co-contribution component that cannot be paid in accordance with the SIS Act must be preserved.
- (4) If a co-contribution component is preserved under subsection (3), or a contributor elects to preserve a co-contribution component, the following provisions apply subject to restrictions imposed by the SIS Act:
 - (a) the Board must, not less than 6 months before the contributor's 55th birthday, notify the contributor in writing of the contributor's entitlement to require the Board to authorise payment of the component;
 - (b) the contributor may at any time after reaching 55 years of age require the Board to authorise payment of the component and, if no such requirement has been made on or before the date on which the contributor reaches 65 years of age, the Board will authorise payment of the component to the contributor;
 - (c) if the contributor has become incapacitated and satisfies the Board that his or her incapacity for all kinds of work is 60 per cent or more of total incapacity and is likely to be permanent, the Board will authorise payment of the component to the contributor;
 - (d) if the contributor dies, the component will be paid to the spouse of the contributor or, if he or she left no surviving spouse, to the contributor's estate.
- (5) If a contributor's employment is terminated by the contributor's death, the contributor's co-contribution component will be paid to the contributor's spouse or, if the contributor is not survived by a spouse, to the contributor's estate.
- (6) In this section—

co-contribution component in relation to a contributor means the amount standing to the credit of the contributor's co-contribution account.

Division 3—Investment choice

38EC—Investment choice

- (1) If the Fund is invested in different classes of investments, the Board may, with the agreement of the Superannuation Funds Management Corporation of South Australia, permit contributors, on such terms and conditions as it thinks fit, to nominate the class of investments, or the combination of classes of investments, for the purpose of determining a rate of return under this Part.
- (2) However, a class of investments, or combination of classes of investments, nominated by an investor for the purposes of determining a rate of return under Division 1 must be the same as any class of investments, or combination of classes of investments, nominated by the investor for the purposes of determining a rate of return under Division 2.
- (3) If a contributor, after nominating a class of investments under subsection (1), subsequently varies the nominated class of investments, the Board may charge a fee (to be determined by the Board) to the contributor's contribution account in a manner determined by the Board.

- (2) A reduction in the entitlement of a contributor will be given effect as follows:
 - (a) the contributor's contribution account, and any rollover account or co-contribution account, will be subject to a charge that takes effect by reducing the balance of any such account at the operative time (insofar as a balance exists) by a percentage equal to the percentage that the non-member spouse's share in the relevant superannuation interest bears to the total value of the contributor's accrued superannuation benefit at the operative time (and any relevant method or factor that applies under section 38H will be applied); and

- (4) A reduction in contribution points in connection with the operation of this Part does not affect the aggregate of contribution points that would apply under section 18 but for the operation of subsection (2).

38K—Benefit not payable to spouse on death of contributor if split has occurred

If a contributor dies and is survived by a spouse who—

- (a) has received, is receiving or is entitled to receive a benefit under a splitting instrument; or

- (2) In addition to any other information that may be provided by the Board in connection with this Part, the Board may, on application, provide to an eligible person a statement of the value of a superannuation interest of a member spouse who is a new scheme contributor, as at a particular date specified in the application.

- (3) In this section—

prescribed date is the date that is relevant to the determination of an accrued benefit multiple in the particular circumstances.

- (1) The Board must, on service of a splitting instrument in respect of a lump sum benefit, create an interest for the non-member spouse named in the instrument in accordance with the provisions of the instrument, with effect from the operative time.
- (2) The value of the non-member spouse's interest will be determined by reference to the provisions of the instrument but in any event may not exceed the value of the member spouse's interest.

 - (a) be paid out to the extent (if any) that payment can be made in accordance with the SIS Act; or

- (1) If the Board is served with a splitting instrument in respect of a pension that is in the growth phase, the non-member spouse is not entitled to receive his or her entitlement in the form of a pension commencing at the termination of the member spouse's period of service but is, instead, entitled to have a lump sum determined under this section paid on his or her behalf in accordance with this Part.
- (2) The lump sum to which the non-member spouse is entitled, as at the operative time, will be determined—
 - (a) where the splitting instrument specifies a percentage of the member spouse's superannuation interest for the percentage of the split—by applying that percentage split to the member's superannuation interest based on the relevant accrued benefit multiple and by applying any relevant method or factor that applies under section 38H;
 - (b) subject to subsection (3), where the splitting instrument specifies a lump sum for the purposes of the split—by adopting that lump sum.
- (3) The value of a lump sum payable to a non-member spouse under this section must not exceed the value of the member spouse's interest.

38S—Non-member spouse's entitlement where pension is in payment phase

- (a) —
 - (i) in accordance with the terms of the splitting instrument; or
 - (ii) by notice in writing given to the Board within the prescribed period, elect to have the whole of his or her share of the superannuation interest determined under subsection (1) converted to (and taken as) a separate pension entitlement (to be referred to as an *associate pension* for the purposes of this Act) for the lifetime of the non-member spouse; or
 - (b) by notice in writing given to the Board within the prescribed period, elect to have the whole of his or her share of the superannuation interest determined under subsection (1) commuted to a lump sum.

- (4) A lump sum under subsection (2)(b) will be determined by applying the methods and factors prescribed by the regulations.
- (5) If the non-member spouse is taking his or her entitlement as a pension (other than an associate pension) and there is a reduction in the member spouse's pension under this Act, there will be a corresponding reduction in the non-member spouse's pension.
- (6) If the non-member spouse is taking his or her entitlement as a pension (other than an associate pension) and the payment of the member spouse's pension ceases, there will be a corresponding cessation in the payment of the non-member spouse's pension.

38T—Payment of non-member spouse's entitlement

 - (a) be paid out to the extent (if any) that payment can be made in accordance with the SIS Act; or
 - (b) be rolled over to the credit of the non-member spouse in an account (which may need to be established) in the name of the non-member spouse in the Southern State Superannuation Fund; or
 - (c) be rolled over or transferred to some other superannuation fund or scheme approved by the Board.
- (2) The Board must take the action required under subsection (1) within 28 days after receiving the relevant election.
- (3) However, if an election is not made by the non-member spouse before the end of 28 days after the Board gives notice to the non-member spouse in the manner contemplated by the regulations, the Board must, subject to the regulations, roll over the interest to the credit of the non-member spouse under subsection (1)(b).
- (4) If the interest of a non-member spouse created under this Part after service of a splitting instrument is a pension (and the non-member spouse has not directed that the pension be commuted to a lump sum), the Board must split the relevant pension within the prescribed period after receipt of the splitting instrument (with effect from the relevant date), and begin to make the payments in accordance with the regulations (subject to any cessation of the payment of the member spouse's pension).

Division 4—Fees**38U—Fees**

 - (a) weekly payments of workers compensation; or
 - (b) in the case of a relevant contributor—income from remunerative activities engaged in by the contributor,

the following provisions apply:

- (c) the pension will be reduced by the amount of the workers compensation payments and, if those payments equal or exceed the amount of the pension, the pension will be suspended;
- (d) if the contributor is a relevant contributor—
 - (i) the Board must estimate the income (if any) that the contributor is likely to receive during the financial year from remunerative activities engaged in by the contributor; and

- (f) if the aggregate of the pension and the workers compensation payments (if any) and, if the contributor is a relevant contributor, the income from remunerative activities (paid at the rate assumed by paragraph (d)(ii)) exceeds the contributor's notional salary, the pension will be reduced by the amount of the excess and, if that amount equals or exceeds the amount of the pension, the pension will be suspended;
- (g) at the end of the financial year the Board must, if the contributor is a relevant contributor, determine the income from remunerative activities actually received by the contributor during that year and if, on the basis of the income actually received—

- (ii) the pension has been overpaid, the amount overpaid may be deducted from future payments of pension or from any other amount to be paid to the contributor under this Act or, if the contributor has died, the amount overpaid is a debt due by the contributor's estate to the Treasurer.

 - (c) if the weekly workers compensation payments equal or exceed the amount of the pension, the pension will be suspended;

- (3) Where an eligible child of a deceased contributor is receiving or entitled to receive weekly workers compensation payments in consequence of the contributor's death, the following provisions apply:
 - (a) if the weekly workers compensation payments equal or exceed the amount of the pension, the pension will be suspended;

- (4) Where a right to weekly workers compensation payments has been surrendered in whole or in part by commutation or by agreement, the person who would have been entitled to those payments if the right to them had not been surrendered will be taken, for the purposes of this section, to be receiving them unless—

- (a) who has not reached the age of 60; and
- (b) whose entitlement to receive a pension under another provision of this Act does not relate to a pension granted on the basis of his or her age.

- (1) If a deceased contributor is survived by a lawful spouse and a putative spouse, any benefit to which a surviving spouse is entitled under this Act will be divided between them in a ratio determined by reference to the relative length of the periods for which each of them cohabited with the deceased as his or her spouse.
- (2) Where a number of periods of cohabitation are to be aggregated for the purpose of determining an aggregate period of cohabitation for the purpose of subsection (1), any separate period of cohabitation of less than three months will be disregarded.

 - (b) a benefit is paid to one of them on the assumption that he or she is the sole surviving spouse of the deceased,

the other spouse has no claim on the benefit insofar as it has been already paid unless that spouse gave the Board notice of his or her claim before the date of the payment.

42—Adjustment of pensions

- (1) Where a pension is expressed to be indexed, the Board must adjust the amount of the pension from the first payment of pension in each adjustment period to reflect—

 - (b) in the case of an October adjustment period—the percentage variation (rounded to two decimal places) between the Consumer Price Index for the immediately preceding June quarter and the Consumer Price Index for the immediately preceding December quarter.
- (2) If on the first day of the relevant adjustment period, the pension has been payable for a period of less than six months, the extent of the adjustment will be reduced to reflect the proportion which the period of payment of the pension bears to six months.
- (3) To avoid a reduction in pensions the Treasurer may direct that subsection (1) does not apply in relation to a particular adjustment period.

- (4) In that event an adjustment in the next adjustment period in relation to which subsection (1) applies will be based on the variation between the Consumer Price Index for the June or December quarter (whichever is applicable) immediately preceding that period and the Consumer Price Index for the June or December quarter (whichever is applicable) immediately preceding the adjustment period in relation to which subsection (1) last applied.

- (5) In this section—

- (3) The amount referred to in subsection (2) is the amount that would have been payable to, or in relation to, the contributor by way of a pension or pensions during the period referred to in subsection (2)(c) if the pension or pensions had not ceased, reduced by—

 - (b) the provisions of this Act for indexation of pensions will be ignored.

44—Special provision for payment in case of infancy or death

- (1) Where a pension or monetary sum is payable under this Act to a child, the Board may, in its discretion, pay it—
