### 138—Fees

A person who is a permittee, lessee, licensee or pipeline licensee must pay to the Minister in respect of each year of the term of the permit, lease, licence or pipeline licence the fee prescribed in relation to the permit, lease, licence or pipeline licence.

### 141—Time for payment of fees

A fee under section 138 is payable within one month after—

- (a) in the case of the first year of the term of the permit, lease, licence or pipeline licence—the day on which that term commenced; and
- (b) in the case of a year of the term of the permit, lease, licence or pipeline licence other than the first—the anniversary of that day.

### 142—Royalty

- (1) A permittee, lessee or licensee shall, subject to this Division, pay to the Minister royalty at the prescribed rate in respect of all petroleum recovered by the permittee, lessee or licensee in the permit area, lease area or licence area.
- (2) Subject to the succeeding provisions of this section and the provisions of section 143 the prescribed rate in respect of petroleum recovered under a permit, lease or licence is ten per centum of the value at the well-head of the petroleum.
- (3) The prescribed rate in respect of petroleum recovered under a secondary licence is the percentage determined by the Minister in pursuance of section 41(1) in respect of petroleum so recovered.
- (4) Where a secondary licence is granted to the holder of a primary licence, the prescribed rate in respect of petroleum recovered under the primary licence is, as from the commencement of the next royalty period after the day from which the secondary licence has effect, the same percentage as is applicable in respect of petroleum recovered under the secondary licence.
- (5) Where—
  - (a) a licence is granted on an application under section 46; and
  - (b) the instrument served on the applicant under section 48 contains a statement that the applicant will be required to pay, in respect of petroleum recovered under that licence, royalty at the rate specified in that statement,the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.
- (6) Where a licence is granted on an application under section 50(1), the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by that subsection.

- (7) The prescribed rate in respect of petroleum recovered in the licence area referred to in a licence granted by way of renewal of a licence is the percentage that would be the prescribed rate if the licence so granted were the continuation in force of the previous licence.
- (8) A reference in this section or in a permit, lease or licence to royalty at the prescribed rate or royalty at the rate that is for the time being the prescribed rate shall be read as a reference to royalty at the rate that is or was the prescribed rate applicable in accordance with the provisions of this Act as in force from time to time.

### **143—Reduction of royalty in certain cases**

- (1) Where the Minister is satisfied that the rate of recovery of petroleum from a well has become so reduced that, having regard to the rate or rates of royalty applicable under section 142, further recovery of petroleum from that well would be uneconomic, the Minister may, by instrument in writing, determine that the royalty in respect of all or any of the petroleum recovered from that well on or after a date specified in the determination shall be at such rate (being a rate lower than the rate that would be applicable under section 142) as the Minister specifies.
- (2) The prescribed rate in respect of petroleum to which a determination under subsection (1) is applicable is the rate specified in the determination.
- (3) The Minister may, by instrument in writing, revoke or vary a determination under subsection (1) and the revocation or variation applies to petroleum recovered on or after such date as is specified in the instrument.

### **144—Royalty not payable in certain cases**

- (1) Royalty under this Act—
  - (a) is not payable in respect of petroleum that the Minister is satisfied was unavoidably lost before the quantity of that petroleum was ascertained; and
  - (b) is not payable in respect of petroleum that is used by the permittee, lessee or licensee, as approved by the Minister, for the purposes of petroleum exploration operations or operations for the recovery of petroleum; and
  - (c) is not payable in respect of petroleum that, with the approval of the Minister, is flared or vented in connection with operations for the recovery of petroleum.
- (2) Where petroleum that has been recovered by a permittee, lessee or licensee is, with the approval of the Minister, returned to a natural reservoir, royalty under this Act is not payable in respect of that petroleum by reason of that recovery but this subsection does not affect the liability of that or any other permittee, lessee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

### **145—Ascertainment of well-head**

For the purposes of this Act, the well-head, in relation to any petroleum, is such valve station as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such valve station as is determined by the Minister as being that well-head.

**146—Ascertainment of value**

For the purposes of this Act, the value at the well-head of any petroleum is such amount as is agreed between the permittee, lessee or licensee and the Minister or, in default of agreement within such period as the Minister allows, is such amount as is determined by the Minister as being that value.

**147—Ascertainment of quantity of petroleum recovered**

For the purposes of this Act, the quantity of petroleum recovered by a permittee, lessee or licensee from a well during a period shall be taken to be—

- (a) the quantity measured during that period by a measuring device approved by the Minister and installed at the well-head or at such other place as the Minister approves; or
- (b) where no such measuring device is so installed, or the Minister is not satisfied that the quantity of petroleum recovered by the permittee, lessee or licensee from that well has been properly or accurately measured by such a measuring device—the quantity determined by the Minister as being the quantity recovered by the permittee, lessee or licensee from that well during that period.

**148—Payment of royalty**

Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

**148A—Provisional payment of royalty**

- (1) Where, in relation to petroleum recovered during a royalty period, the value of the petroleum has not been agreed or determined under section 146, the Minister may determine a provisional value.
- (2) Where—
  - (a) a provisional value of any petroleum has been determined under subsection (1); and
  - (b) the value of that petroleum has not yet been agreed or determined under section 146,

this Act operates in relation to that petroleum as if—

- (c) the provisional value of the petroleum were its value; and
- (d) the determination of the provisional value were an agreement or determination under section 146.

**148B—Adjustment of payments of royalty**

- (1) This section applies—
  - (a) where section 148A(2) has operated in relation to petroleum recovered during a royalty period and a value of the petroleum different to the provisional value is subsequently agreed or determined under section 146; or

- (b) where an error has been made in the calculation of royalty due or in the application of a procedure by the application of which the value of the petroleum has been ascertained.
- (2) Where this section applies—
- (a) if the determined royalty is greater than the provisional royalty, the difference is payable within 28 days; and
  - (b) if the determined royalty is less than the provisional royalty, the difference is deducted from any amount subsequently payable by the lessee, permittee or licensee concerned.
- (3) In this section—
- determined royalty* means—
- (a) where subsection (1)(a) applies, the amount of royalty payable in relation to the petroleum on the basis of the value ascertained under section 146; and
  - (b) where subsection (1)(b) applies, the amount of royalty payable in relation to the petroleum;
- provisional royalty* means—
- (a) where subsection (1)(a) applies, the amount of royalty payable in relation to the petroleum on the basis of the provisional value; and
  - (b) where subsection (1)(b) applies, the amount of royalty demanded in relation to the petroleum as a result of the erroneous calculation.

#### **149—Penalty for late payment**

- (1) Where a fee or an amount of royalty under this Act is not paid under this Division at or before the time when the fee or the amount of royalty is payable there is payable to the Minister by the permittee, lessee, licensee or pipeline licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of the fee or royalty from time to time remaining unpaid to be computed from the time when the amount became payable until it is paid.
- (2) An additional amount in respect of royalty is not payable under subsection (1) in respect of any period before the expiration of seven days after the value of the petroleum was agreed or determined under section 146.

#### **150—Fees and penalties debts due to State**

A fee royalty or other amount payable under this Division is a debt due by the permittee, lessee, licensee or pipeline licensee to the State and is recoverable in a court of competent jurisdiction.

## **Schedule 2—Convention on the Continental Shelf**

*The States Parties to this Convention  
have agreed as follows:*

### **ARTICLE 1**

For the purpose of these articles, the term "continental shelf" is used as referring (a) to the sea-bed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas; (b) to the sea-bed and subsoil of similar submarine areas adjacent to the coasts of islands.

### **ARTICLE 2**

1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.
2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.
3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.
4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the sea-bed and subsoil together with living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the sea-bed or are unable to move except in constant physical contact with the sea-bed or the subsoil.

### **ARTICLE 3**

The rights of the coastal State over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.

### **ARTICLE 4**

Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

### **ARTICLE 5**

1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.

2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.
3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point of their outer edge. Ships of all nationalities must respect these safety zones.
4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.
5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.
6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.
7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.
8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

## ARTICLE 6

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.
2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.
3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

#### ARTICLE 7

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

#### ARTICLE 8

This Convention shall, until 31st October, 1958, be open for signature by all States Members of the United Nations or of any of the specialized agencies, and by any other State invited by the General Assembly of the United Nations to become a party to the Convention.

#### ARTICLE 9

This Convention is subject to ratification. The instruments of ratification shall be deposited with the Secretary-General of the United Nations.

#### ARTICLE 10

This Convention shall be open for accession by any States belonging to any of the categories mentioned in article 8. The instruments of accession shall be deposited with the Secretary-General of the United Nations.

#### ARTICLE 11

1. This Convention shall come into force on the thirtieth day following the date of deposit of the twenty-second instrument of ratification or accession with the Secretary-General of the United Nations.
2. For each State ratifying or acceding to the Convention after the deposit of the twenty-second instrument of ratification or accession, the Convention shall enter into force on the thirtieth day after deposit by such State of its instrument of ratification or accession.

#### ARTICLE 12

1. At the time of signature, ratification or accession, any State may make reservations to articles of the Convention other than to articles 1 to 3 inclusive.
2. Any Contracting State making a reservation in accordance with the preceding paragraph may at any time withdraw the reservation by a communication to that effect addressed to the Secretary-General of the United Nations.

#### ARTICLE 13

1. After the expiration of a period of five years from the date on which this Convention shall enter into force, a request for the revision of this Convention may be made at any time by any Contracting Party by means of a notification in writing addressed to the Secretary-General of the United Nations.
2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such request.

#### ARTICLE 14

The Secretary-General of the United Nations shall inform all States Members of the United Nations and the other States referred to in article 8—

- (a) of signatures to this Convention and of the deposit of instruments of ratification or accession, in accordance with articles 8, 9 and 10;
