- (3) The Commission must, after complying with subsection (2), prepare a report on the matters raised during consultation (including information about any change to the original proposal that the Commission considers should be made) and furnish a copy of the report to the Minister.
- (4) The Minister may then—

  - (a) does not have effect until it is published on the SA planning portal; and
  - (b) may take effect from the date of publication under paragraph (a), or from a later date specified by the Minister.
- (6) Despite a preceding subsection, the Commission may, by instrument published on the SA planning portal, amend the charter—
  - (a) in order to make a change of form (without altering the effect of an underlying policy reflected in the charter); or
  - (b) in order to take action which, in the opinion of the Commission, is correcting an error.
- (7) In addition, the Commission must ensure that the various parts of the charter are reviewed at least once in every 5 years according to a scheme approved by the Minister.
- (8) The outcome of a review undertaken to comply with subsection (7) must be embodied in a written report furnished to the Minister.
- (9) The Minister must, within 6 sitting days after receiving a report under subsection (8), cause copies of the report to be laid before both Houses of Parliament.

## **46—Parliamentary scrutiny**

  - (c) any other material considered relevant by the Minister; and
  - (d) any other information or material prescribed by the regulations.
- (3) The ERD Committee must, after receiving an instrument under subsection (1)—
  - (a) resolve that it does not object to the charter or amendment; or
  - (b) resolve to suggest amendments; or
  - (c) resolve to object to the charter or amendment.
- (4) Subject to subsection (6), if, at the expiration of 28 days from the day on which the charter or an amendment was referred to the ERD Committee, the ERD Committee has not made a resolution under subsection (3), it will be conclusively presumed that the ERD Committee does not object to the charter or the amendment (as the case may be) and does not propose to suggest any amendments.
- (5) Subject to subsection (6), if the period of 28 days referred to in subsection (4) would, but for this subsection, expire in a particular case between 15 December in 1 year and 15 January in the next year (both days inclusive), the period applying for the purposes of subsection (4) will be extended on the basis that any days falling on or between those 2 dates will not be taken into account for the purposes of calculating the period that applies under subsection (4).
- (6) If the period applying under subsection (4), including by virtue of subsection (5), would, but for this subsection, expire in a particular case sometime between the day on which the House of Assembly is dissolved for the purposes of a general election and the day on which the ERD Committee is reconstituted at the beginning of the first session of the new Parliament after that election (both days inclusive), the period will be extended by force of this subsection so as to expire 28 days from the day on which the ERD Committee is so reconstituted.
- (7) If an amendment is suggested under subsection (3)—
  - (a) the Minister may proceed to make such an amendment; or
  - (b) the Minister may report back to the ERD Committee that the Minister is unwilling to make the amendment suggested by the ERD Committee and, in such a case, the ERD Committee may—

- (ii) in the case that applies under subsection (3)(b)—resolve that it does not object to the amendment as originally made, or resolve to object to the amendment.
- (8) If the ERD Committee resolves to object to the charter or an amendment, copies of the charter or the amendment (as the case may be) must be laid before both Houses of Parliament.
- (9) If either House of Parliament passes a resolution disallowing the charter or an amendment laid before it under subsection (8), then the charter or the amendment (as the case may be) will cease to have effect (and, in the case of an amendment, the charter will, from that time, apply as if it had not been amended by that amendment).
- (10) A resolution is not effective for the purposes of subsection (9) unless passed in pursuance of a notice of motion given within 14 sitting days (which need not fall within the same session of Parliament) after the day on which the relevant instrument was laid before the House.
- (11) The preceding subsections do not apply in a particular case if—
  - (a) the Minister has consulted with the ERD Committee before the charter, or an amendment to the charter, has been finalised; and
  - (b) the ERD Committee has resolved, on account of that consultation, that the charter or the amendment (as the case may be) need not be referred to the ERD Committee if or when it has been approved by the Minister.

  - (a) an amendment to a regional plan should come into operation without delay; or
  - (b) an amendment to the Planning and Design Code or a design standard should come into operation without delay in order to counter applications for undesirable development ahead of the outcome of the consideration of the amendment under this Part,

the Minister may, at the same time as, or at any time after, the amendment is released for public consultation under the Community Engagement Charter under this Part, and without the need for any other consultation or process, by notice published in the Gazette, declare that the amendment will come into operation on an interim basis on a day specified in the notice.

  - (a) any application for planning consent in respect of which the amendment is relevant must be assessed against the provisions of the Planning and Design Code or design standard immediately before the amendment was made and the provisions of the Planning and Design Code or design standard after the amendment was made and if the decision on the application would be different depending on which version of the Planning and Design Code or design standard applies (including with respect to any condition that would apply in relation to the development)—
    - (i) planning consent must not be granted until the amendment is no longer in interim operation; and

- (a) until further assessment of the relevant development under this Act; or
  - (b) until further assessment or consideration of the proposed development under another Act; or
  - (c) until a licence, permission, consent, approval, authorisation, certificate or other authority is granted, or not granted (by the decision of another authority), under another Act.
- (4) A relevant authority must allow any matter specified by the Planning and Design Code for the purposes of this subsection to be reserved on the application of the applicant.
- (5) Any matter that is not fundamental to the nature of the relevant development may, subject to the Planning and Design Code, be reserved under subsection (3) or (4).
- (6) To avoid doubt, in relation to a proposed development that requires more than 1 consent under this Act, the consents need not be granted in any particular order.

- 
- (7) To avoid doubt, if a development involves 2 or more elements that will together require planning consent, each element may be assessed separately (including by different relevant authorities) and granted a planning consent with respect to that particular element.
- (8) A development will be taken to be an approved development when all relevant consents have been granted and a relevant authority has, in accordance with this Act, indicated that the development is approved.
- (9) The provisions of the Building Rules that are relevant to the operation of subparagraph (viii) of paragraph (d) of subsection (1) are the provisions of the Building Rules as in force at the time the application was made for consent in respect of the matters referred to in that paragraph.

- (12) In this section—
- public land** means land that is under the care, control and management of—
- (a) an agency or instrumentality of the Crown; or
  - (b) a council or other local government agency.

## Division 2—Planning consent

### Subdivision 1—Categories of development

#### 103—Categories of development

Development will be divided into 3 categories for the purposes of assessment in relation to planning consent as follows:

- (a) *accepted development*;
- (b) *code assessed development*;
- (c) *impact assessed development*.

### Subdivision 2—Accepted development

#### 104—Accepted development

- (1) Development falls within the category of accepted development if it is classified by the Planning and Design Code or the regulations as *accepted development*.
- (2) Accepted development does not require planning consent.

### Subdivision 3—Code assessed development

#### 105—Categorisation

Development falls within the category of code assessed development if—

- (a) it is classified by the Planning and Design Code as *deemed-to-satisfy development*; or
- (b) it—
  - (i) does not fall within the category of accepted development; and
  - (ii) does not fall within the category of impact assessed development.

#### 106—Deemed-to-satisfy assessment

- (1) If a proposed development is classified as deemed-to-satisfy development, the development must be granted planning consent.
- (2) If a relevant authority is satisfied that development is deemed-to-satisfy development except for 1 or more minor variations, the relevant authority must assess it as being deemed-to-satisfy (and that determination will then have effect for the purposes of this Act).
- (3) A planning consent under this section must be granted without undertaking a process for public notification or submissions in relation to the proposed development.
- (4) A planning consent under this section will apply subject to conditions imposed under this Act and subject to such conditions or exceptions as may be prescribed by the regulations or the Planning and Design Code, and subject to any other provision made by this Act or applying under the regulations.
- (5) A condition under subsection (4) may provide that a proposed development assessed under subsection (2) will be undertaken so as to address any minor variation in order to make it consistent with the deemed-to-satisfy requirement.
- (6) Nothing in this section requires the assessment of an element of a development that may be classified as accepted development.

#### 107—Performance assessed development

- (1) In a case where proposed development is to be assessed as code assessed development and the development cannot be assessed, or fully assessed, as deemed-to-satisfy development, the development will be assessed on its merits against the Planning and Design Code.
- (2) In connection with subsection (1)—
  - (a) to the extent that 1 or more elements of the proposed development may be classified as *deemed-to-satisfy* under the Planning and Design Code (if any)—that part of the development will be taken to have been granted planning consent; and
  - (b) to the extent that paragraph (a) does not apply (including on the basis that that paragraph does not apply at all)—the development will be assessed on its merits against the Planning and Design Code; and

- 
- (c) to the extent that paragraph (b) applies—the development must not be granted planning consent if it is, in the opinion of the relevant authority, seriously at variance with the Planning and Design Code (disregarding minor variations).
- (3) If a proposed development is to be assessed under this section—
- (a) subject to a decision of a relevant authority made in accordance with a practice direction, notice of the application for planning consent must be given, in accordance with the regulations, to—
- (i) an owner or occupier of each piece of adjacent land; and
- (ii) members of the public by notice placed on the relevant land; and
- (b) a person may, in accordance with the regulations and within a period prescribed by the regulations, make representations to the relevant authority in relation to the granting or refusal of planning consent; and
- (c) if a representation is made under paragraph (b) (being a representation received in accordance with the regulations and within a period prescribed by the regulations), the relevant authority must forward to the applicant a copy of the representation and allow the applicant to respond, in accordance with the regulations and within a period prescribed by the regulations, to those representations.
- (4) The subject matter of—
- (a) any notice required under subsection (3)(a); and
- (b) any representation under subsection (3)(b),
- must be limited to what should be the decision of the relevant authority as to planning consent in relation to the performance based elements of the development as assessed on its merits (and a relevant authority should limit the matters that it will take into account in the same way).
- (5) In addition, a representation that is not made in accordance with any requirement prescribed by the regulations for the purposes of this section is not required to be taken into account under this section.
- (6) The Planning and Design Code may exclude specified classes of development from the operation of subsections (3) and (4).
- (7) A planning consent under this section will apply subject to conditions imposed under this Act and subject to such conditions or exceptions as may be prescribed by the regulations or the Planning and Design Code, and subject to any other provision made by this Act or applying under the regulations.
- (8) To avoid doubt, the fact that 1 or more elements of a proposed development may be classified as *deemed-to-satisfy* does not prevent a relevant authority deciding not to grant planning consent on account of the assessment of the balance of the development under this section.
- (9) A practice direction may specify the form of any notice to be given under this section.
- (10) Nothing in this section requires the assessment of an element of a development that may be classified as accepted development

## Subdivision 4—Impact assessed development

### 108—Categorisation

- (1) Development falls within the category of impact assessed development if—
  - (a) it is classified by the Planning and Design Code as *restricted development*; or

- (2) A declaration under subsection (1)(c)—
  - (a) is made by notice published—
    - (i) in the Gazette; and
    - (ii) on the SA planning portal; and

    - (i) a development specified in the notice; or
    - (ii) a kind of development specified in the notice (either in the State generally, or in a specified part of the State); or
    - (iii) development generally within a specified part of the State.
- (3) If the Minister proposes to make a declaration under subsection (1)(c) in respect of a development that will, if the development proceeds, be situated wholly or partly within the area of a council, the Minister must notify the council before making the declaration.
- (4) A declaration under subsection (1)(c) does not extend to development lawfully commenced by substantial work on the site of the development before publication of the notice published in the Gazette under subsection (2)(a)(i).
- (5) A regulation under subsection (1)(b) or a declaration under subsection (1)(c) cannot apply with respect to a development or project within the Adelaide Park Lands (within the meaning of the *Adelaide Park Lands Act 2005*).
- (6) The Minister may vary or revoke a declaration under subsection (1)(c) by further notice published—
  - (a) in the Gazette; and
  - (b) on the SA planning portal.
- (7) A reference to development in connection with the operation of subsection (1)(c) extends to a project and, if a declaration is made under that subsection in relation to a project, a reference to "development" in the following sections of this Division specified by the regulations will be taken to include a reference to a project (subject to any modifications prescribed by the regulations).
- (8) The prescribed fee is payable in accordance with the regulations when a development or project comes within the ambit of a declaration under subsection (1)(c).
- (9) The Minister must, in acting under subsection (1)(c), take into account principles prescribed by the regulations.

**109—Practice direction to provide guidance**

  - (a) in relation to restricted development—
    - (i) the circumstances under which the Commission will be prepared to assess restricted development; and
    - (ii) if an assessment is to be undertaken—how the Commission will proceed with the assessment (including requirements as to the information that must be provided by an applicant for a development authorisation and the other steps that an applicant must take); and
  - (b) in relation to impact assessed development (not being restricted development)—
    - (i) requirements as to the preparation of an EIS, including the level of detail that an EIS must address with respect to various classes of development; and
    - (ii) any other requirements for assessing the level of impact of a development that is to be assessed as impact assessed development; and

  - (c) any other matter prescribed by the regulations.
- (2) The Commission must, in acting under subsection (1)—
  - (a) take into account principles and requirements prescribed by the regulations; and
  - (b) in relation to subsection (1)(b), classify the issues identified by the Commission as being relevant to the proper assessment of development according to categories of importance so as to indicate the levels of attention that should be given to those issues in the preparation of an EIS.

**110—Restricted development**

- (1) The Commission will determine, in relation to proposed development classified as restricted development, whether or not the development will be assessed and, if so, whether or not planning consent will be granted, and in doing so will act as the relevant authority under this Act.
- (2) Subject to this section, if proposed development is to be assessed as restricted development—
  - (a) notice of the application for planning consent must be given, in accordance with the regulations, to—
    - (i) an owner or occupier of each piece of adjacent land; and
    - (ii) any other owner or occupier of land which, according to the determination of the Commission, would be directly affected to a significant degree by development if it were to proceed; and

- (iii) any other person of a prescribed class; and
    - (iv) the public generally, including by notice placed on the relevant land; and
  - (b) a person who is interested in doing so may, in accordance with the regulations and within a period prescribed by the regulations, make representations to the Commission in relation to the granting or refusal of planning consent; and
  - (c) if a representation is made under paragraph (b) (being a representation received in accordance with the regulations and within a period prescribed by the regulations)—
    - (i) the Commission must forward to the applicant a copy of the representation and allow an applicant to respond, in accordance with the regulations and within a period prescribed by the regulations, to those representations; and
    - (ii) the Commission must allow the person who made the representation and who, as part of that representation, indicated an interest in appearing before the Commission, a reasonable opportunity to appear personally or by representative before it to be heard in support of the representation and, if the person so appears, the Commission must also allow the applicant a reasonable opportunity, on request, to appear personally or by representative before it in order to respond to any relevant matter.
- (3) If a person is to appear personally or by representative before the Commission to be heard in support of a representation made, the Commission must, at least 5 business days before the appearance, ensure that—

- (5) A representation that is not made in accordance with any requirement prescribed by the regulations for the purposes of this section is not required to be taken into account under this section.
- (6) If a person makes a representation under subsection (2)(b) in relation to any development under this section, the Commission must—

- (8) If an appeal is lodged against a decision on a development classified as restricted development by a person who is entitled to be given notice of the decision under subsection (6), the applicant for the relevant development authorisation must be notified by the Court of the appeal and will be a party to the appeal.
- (9) A decision of the Commission in respect of a development classified as restricted development in respect of which representations have been made under this section does not operate—
- (a) until the time within which any person who made any such representation may appeal against a decision to grant the development authorisation has expired; or
  - (b) if an appeal is commenced—
    - (i) until the appeal is dismissed, struck out or withdrawn; or
    - (ii) until the questions raised by the appeal have been finally determined (other than any question as to costs).
- (10) The Commission must, if it makes an assessment under this section in relation to any restricted development, take into account the relevant provisions of the Planning and Design Code (but is not bound by those provisions).
- (11) A planning consent under this section will apply subject to conditions imposed under this Act and subject to such conditions or exceptions as may be prescribed by the regulations or the Planning and Design Code, and subject to any other provision made by this Act or applying under the regulations.
- (12) To avoid doubt, the fact that 1 or more elements of a proposed development may be classified as *deemed-to-satisfy* does not prevent the Commission deciding not to grant planning consent on account of the assessment of the development under this section.
- (13) The Commission may determine the form of any notice to be given under this section.
- (14) The Commission, acting through its delegate under section 30(3), may refuse an application that relates to proposed development classified as restricted development without proceeding to make an assessment of the application.
- (15) A decision to refuse an application under subsection (14) without proceeding to make an assessment is, on application under this subsection by the applicant, subject to review by the Commission itself.

- (16) An application under subsection (15) must be made in a manner and form determined by the Commission and must be made within 1 month after the applicant receives notice of the decision under subsection (14) unless the Commission, in its discretion, allows an extension of time.
- (17) On an application under subsection (15)—
- (a) the Commission may adopt such procedures as the Commission thinks fit; and
  - (b) the Commission is not bound by the rules of evidence and may inform itself as it thinks fit.
- (18) The Commission may, on a review under subsection (15)—
- (a) affirm the decision of its delegate; or
  - (b) refer the matter back with a direction that the application for planning consent be assessed (and that direction will have effect according to its terms).
- (19) No appeal to the Court lies against—
- (a) a decision of a delegate under subsection (14); or
  - (b) a decision of the Commission under subsection (18).

### **111—Impact assessment by Minister—procedural matters**

- (1) This section applies in relation to impact assessed development (not being restricted development).
- (2) In a case where this section applies—
- (a) any application under Division 4 that relates to a development within the ambit of the relevant regulation or declaration automatically lapses and any relevant documentation that has been lodged with a relevant authority under that Division must be transmitted to the Minister in accordance with the regulations; and
  - (b) Division 4 and Division 5 will not apply in relation to a development within the ambit of the relevant regulation or declaration; and
  - (c) subject to section 108(4), any development authorisation previously given under this Part in relation to a development within the ambit of the relevant regulation or declaration ceases to have effect (unless otherwise provided by the regulations); and
  - (d) a proponent must lodge with the Minister an application that complies with the following requirements:
    - (i) the application must be in a form determined by the Minister;
    - (ii) the application must include, or be accompanied by, any documents, assessments or information required by a practice direction published by the Commission in connection with this Subdivision;
    - (iii) the application must be accompanied by such plans, drawings, specifications or other documents as may be required by the Minister; and
  - (e) an EIS must be prepared in relation to the proposed development.

- (3) The Minister may subsequently require the proponent to provide such additional documents, assessments or information (including calculations and technical requirements) as the Minister thinks fit.
- (4) The Minister will determine whether or not planning consent will be granted under this Act in relation to proposed development in a case where this section applies and, in doing so, will act as the relevant authority under this Act.
- (5) Nothing in this section limits the operation of section 115(2)(a).

### **112—Level of detail**

The Commission will determine the level of detail required in relation to an EIS after taking into account—

- (a) a practice direction published by the Commission in connection with this Subdivision; and
- (b) any views expressed by a person or body prescribed by the regulations for the purposes of this paragraph; and
- (c) any views expressed by the proponent after consultation in accordance with the regulations.

### **113—EIS process**

- (1) This section applies if an EIS must be prepared in relation to a proposed development.
- (2) The Minister will, after consultation with the proponent—
  - (a) require the proponent to prepare the EIS; or
  - (b) determine that the Minister will arrange for the preparation of the EIS.
- (3) The EIS must be prepared in accordance with a practice direction published by the Commission in connection with this Subdivision.
- (4) The EIS must, subject to any practice direction, include a statement of—
  - (a) the expected environmental, social and economic effects of the development;
  - (b) the expected effects of the development on the climate and any proposed measures designed to mitigate or address those effects;
  - (c) the extent to which the expected effects of the development are consistent with the provisions of—
    - (i) any relevant state planning policy; and
    - (ii) the relevant regional plan; and
    - (iii) the Planning and Design Code; and
    - (iv) any matters prescribed by the regulations;
  - (d) if the development involves, or is for the purposes of, a prescribed activity of environmental significance as defined by the *Environment Protection Act 1993*, the extent to which the expected effects of the development are consistent with—
    - (i) the objects of the *Environment Protection Act 1993*; and
    - (ii) the general environmental duty under that Act; and

- (iii) relevant environment protection policies under that Act;
  - (e) if the development is to be undertaken within an area of the State that is specifically subject to a special legislative scheme—the extent to which the expected effects of the development are consistent with the state planning policy that specifically relates to that special legislative scheme;
  - (f) the proponent's commitments to meet conditions (if any) that should be observed in order to avoid, mitigate or satisfactorily manage and control any potentially adverse effects of the development on the environment or any matter that may be directly relevant to a special legislative scheme;
  - (g) other particulars in relation to the development required—
    - (i) by the regulations; or
    - (ii) by the Minister.
- (5) After the EIS has been prepared, the Minister—
- (a) —
    - (i) must, if the EIS relates to a development that involves, or is for the purposes of, a prescribed activity of environmental significance as defined by the *Environment Protection Act 1993*, refer the EIS to the Environment Protection Authority; and
    - (ii) must, in a case where subsection (4)(e) applies in relation to a special legislative scheme—refer the EIS to the Minister who is responsible for the administration of the Act in question; and
    - (iii) must refer the EIS to the relevant council (or councils), and to any prescribed authority or body; and
    - (iv) may refer the EIS to such other authorities or bodies as the Minister thinks fit,for comment and report within the time prescribed by the regulations; and
  - (b) must ensure—
    - (i) that copies of the EIS are available for public inspection and purchase (during normal office hours) for at least a period specified or determined under the practice direction published by the Commission in connection with this Subdivision at a place or places determined by the Minister and, by public notice, give notice of the availability of copies of the EIS and invite interested persons to make written submissions to the Minister on the EIS within the time determined under the practice direction referred to above; and
    - (ii) that a copy of the EIS is published on the SA planning portal.
- (6) The Minister may undertake, or require the proponent to undertake, any other consultation in relation to the EIS as the Minister thinks fit.
- (7) The Minister must give to the proponent copies of all submissions made within a specified time limit.

- (8) The proponent must then prepare a written response to—
- (a) matters raised by a Minister, and any authority or body specified by the Minister, for consideration by the proponent; and
  - (b) all submissions referred to the proponent under subsection (7),
- and provide a copy of that response to the Minister.
- (9) The Commission must then prepare a report (an *Assessment Report*) that sets out or includes—
- (a) the Minister's assessment of the development; and
  - (b) the Minister's comments (if any) on—
    - (i) the EIS; and
    - (ii) any submissions made under subsection (5); and
    - (iii) the proponent's response under subsection (8); and
  - (c) comments provided by the Environment Protection Authority, another Minister, a council or other authority or body for inclusion in the report; and
  - (d) other comments or matter as the Minister or the Commission thinks fit.
- (10) The Commission must—
- (a) notify a person who made a written submission under subsection (5) of the availability of the Assessment Report; and
  - (b) by public notice, give notice of the place or places at which copies of the Assessment Report are available for inspection and purchase; and
  - (c) ensure that a copy of the Assessment Report is published on the SA planning portal.
- (11) Copies of the EIS, the proponent's response under subsection (8), and the Assessment Report must be kept available for inspection and purchase at a place determined by the Commission for a period determined by the Commission.
- (12) If a proposed development to which an EIS relates will, if the development proceeds, be situated wholly or partly within the area of a council, the Commission must give a copy of the EIS, the proponent's response under subsection (8) and the Assessment Report to the council.

### **114—Amendment of EIS**

- (1) An EIS, and the relevant Assessment Report, may be amended at any time in order to—
- (a) correct an error; or
  - (b) take account of more accurate or complete data or technological or other developments not contemplated when the document was prepared; or
  - (c) take account of an alteration to the original proposal; or
  - (d) update the document on account of the length of time that has passed since the document was prepared (or last updated); or

- (e) make such other provision as may be necessary or appropriate given the content or purpose of an EIS or Assessment Report.
- (2) However—
- (a) the Minister cannot amend an EIS prepared by a proponent but the proponent must, at the direction of the Minister, undertake a review of an EIS prepared by the proponent (and then make any appropriate amendments); and
  - (b) if a proposed amendment would in the opinion of the Minister significantly affect the substance of the EIS, the amendment must not be made before interested persons have been invited, in accordance with the practice direction published by the Commission in connection with this Subdivision, to make written submissions on the amendment and the Minister has considered the submissions (if any) received in response to that invitation.
- (3) If an EIS or Assessment Report is amended under this section, the Commission must give notice of the place or places at which copies of the relevant document or documents (with the amendments) are available for inspection and purchase.
- (4) An amendment under this section may include the addition, variation, substitution or deletion of material.

### **115—Decision by Minister**

- (1) This section applies to a proposed development that is classified as impact assessed development (other than restricted development).
- (2) The Minister may, in relation to a development to which this section applies—
- (a) indicate (at any time) that he or she will not grant a development authorisation for the development; or
  - (b) on due application—
    - (i) grant a development authorisation required under this Act, subject to conditions (if any) determined by the Minister; or
    - (ii) refuse approval to the development.
- (3) However, the Minister must not grant a development authorisation under this section unless—
- (a) an EIS, and an Assessment Report, have been prepared in relation to the development in accordance with the requirements of this Subdivision (as appropriate); or
  - (b) the Minister is satisfied that an appropriate EIS, and an Assessment Report, that encompass the development have previously been prepared.
- (4) If more than 5 years have elapsed since an EIS that relates to a development to which this section applies was completed and placed on public exhibition, the document cannot be used for the purposes of subsection (3) unless or until it has been reviewed in order to see whether it should be amended (and, if amendment is found to be necessary, unless or until it is amended).
- (5) The Minister must, before the Minister approves a development to which this section applies, have regard to—
- (a) any relevant state planning policy; and

- (b) the relevant regional plan; and
- (c) the provisions of the Planning Rules and the regulations (so far as they are relevant); and
- (d) the Building Rules (so far as they are relevant); and
- (e) if the development involves, or is for the purposes of, a prescribed activity of environmental significance as defined by the *Environment Protection Act 1993*—
  - (i) the objects of the *Environment Protection Act 1993*; and
  - (ii) the general environmental duty under the *Environment Protection Act 1993*; and
  - (iii) any relevant environment protection policies under the *Environment Protection Act 1993*; and
- (f) if the development is to be within an area of the State that is specifically subject to a special legislative scheme—the views of the Minister who is responsible for the administration of the Act in question; and
- (g) any relevant EIS, and the relevant Assessment Report,

and may, in making a decision, take into account other matters considered relevant by the Minister.

- (6) The Minister may grant a provisional development authorisation under this section, reserving a decision on a specified matter—
  - (a) until further assessment of the relevant development under this Act; or
  - (b) until further assessment or consideration of the proposed development under another Act; or
  - (c) until a consent, approval, licence, permit or other authorisation is granted, or not granted (by the decision of another authority), under another Act.
- (7) The Minister may—
  - (a) when determining what conditions should be attached to a development authorisation under this section, attach conditions that must be complied with in the future;
  - (b) —
    - (i) in relation to matters specified by the Minister when granting a development authorisation under this section; or
    - (ii) on application of a person who has the benefit of a development authorisation under this section; or
    - (iii) in relation to a matter that is relevant to the variation of a development authorisation under this section,
 

vary or revoke conditions to which the development authorisation is subject or attach new conditions to the development authorisation.
- (8) The Minister may, on the application of a person who has the benefit of the development authorisation under this section, vary a development authorisation that has been given under this section.

- (9) If—
- (a) the Minister gives a development authorisation under this section; but
  - (b) the development to which the development authorisation relates is not commenced by substantial work on the site of the development within the time specified by the regulations or, if a time is specified by the Minister as part of the development authorisation, within that time,

the Minister may, by notice in writing to any owner or occupier of the relevant land, cancel the development authorisation.

- (10) No appeal lies against a decision under this section.

- (11) A person—

- (a) who undertakes development to which this section applies without the consent of the Minister; or
- (b) who undertakes development contrary to a development authorisation under this section; or
- (c) who contravenes, or fails to comply with, a condition on which a development authorisation was granted,

is guilty of an offence.

Maximum penalty: \$120 000.

Additional penalty.

Default penalty: \$1 000.

- (12) A person who has the benefit of a development must ensure that the development is used, maintained and operated in accordance with—

- (a) any development authorisation under this section; and
- (b) documents submitted for the purposes of this Division that are relevant to such development authorisation.

Maximum penalty: \$120 000.

Default penalty: \$500.

## **116—Costs**

The Minister may recover, as a debt due from the proponent, reasonable costs incurred in relation to—

- (a) the preparation and publication of material relating to an EIS and an Assessment Report; and
- (b) the making of a decision under section 115.

## **117—Testing and monitoring**

- (1) This section applies to a development that has been subject to assessment as impact assessed development.
- (2) The Minister may—
  - (a) by notice in writing to a person—
    - (i) who is undertaking a development to which this section applies; or

- (ii) who has the benefit of a development to which this section applies, require the person to do either or both of the following:
    - (iii) to carry out specified tests and monitoring relevant to the development and to make specified reports to the Minister on the results of the tests and monitoring;
    - (iv) to comply with the requirements of an audit program specified by the Minister to the satisfaction of the Minister;
  - (b) after giving notice in writing to a person—
    - (i) who is undertaking a development to which this section applies; or
    - (ii) who has the benefit of a development to which this section applies, cause to be carried out specified tests and monitoring relevant to the development.
  - (3) A person to whom a notice is directed under subsection (2) must—
    - (a) in the case of a notice under subsection (2)(a)—comply with the terms of the notice; or
    - (b) in the case of a notice under subsection (2)(b)—provide reasonable assistance to facilitate the testing or monitoring specified in the notice.
- Maximum penalty: \$15 000.
- (4) The Minister may recover, as a debt due from a person who receives a notice under subsection (2)(b), reasonable costs incurred in carrying out tests and monitoring specified by that notice.

## Division 3—Building consent

### 118—Building consent

- (1) If the regulations provide that a form of building work complies with the Building Rules, any such building work must be granted a building consent (subject to such conditions or exceptions as may be prescribed by the regulations).
- (2) Subject to subsection (6), a development that is at variance with the Building Rules must not be granted a building consent unless—
  - (a) the variance is with the performance requirements of the Building Code or a Ministerial building standard and the Commission concurs in the granting of the consent; or
  - (b) the variance is with a part of the Building Rules other than the Building Code or a Ministerial building standard and the relevant authority determines that it is appropriate to grant the consent despite the variance on the basis that it is satisfied—
    - (i) that—
      - (A) the provisions of the Building Rules are inappropriate to the particular building or building work, or the proposed building work fails to conform with the Building Rules only in minor respects; and

- (B) the variance is justifiable having regard to the objects of the Planning and Design Code or the performance requirements of the Building Code or a Ministerial building standard (as the case may be) and would achieve the objects of this Act as effectively, or more effectively, than if the variance were not to be allowed; or
    - (ii) in a case where the consent is being sought after the development has occurred—that the variance is justifiable in the circumstances of the particular case.
- (3) No appeal lies against—
  - (a) a refusal of concurrence by the Commission under subsection (2)(a); or
  - (b) a refusal of building consent by a relevant authority if the Commission has refused its concurrence under subsection (2)(a); or
  - (c) a condition attached to a consent or approval that is expressed to apply by virtue of a variance with the performance requirements of the Building Code or a Ministerial building standard.
- (4) A relevant authority may, at the request or with the agreement of the applicant, refer proposed building work to the Commission for an opinion on whether or not it complies with the performance requirements of the Building Code or a Ministerial building standard.
- (5) In addition, regulations made for purposes of this subsection may provide that building work of a prescribed class must not be granted a building consent unless the Commission concurs in the granting of the consent.
- (6) If an inconsistency exists between the Building Rules and the Planning Rules in relation to a State heritage place or a local heritage place—
  - (a) the Planning Rules prevail and the Building Rules do not apply to the extent of the inconsistency; but
  - (b) the relevant authority must, in determining an application for building rules consent, ensure, so far as is reasonably practicable, that standards of building soundness, occupant safety and amenity are achieved in respect of the development that are as good as can reasonably be achieved in the circumstances.
- (7) A relevant authority must seek and consider the advice of the Commission before imposing or agreeing to a requirement under subsection (6) that would be at variance with the performance requirements of the Building Code or a Ministerial building standard.
- (8) Subject to this Act, a relevant authority must accept that proposed building work complies with the Building Rules to the extent that—
  - (a) such compliance is certified by the provision of technical details, particulars, plans, drawings or specifications prepared and certified in accordance with the regulations; or
  - (b) such compliance is certified by a building certifier.

- (9) No act or omission by a relevant authority in good faith in connection with the operation of subsections (6) or (8)(a) (other than where a certificate under subsection (8)(a) is given by a building certifier) subjects the relevant authority to any liability.
- (10) The relevant authority may refuse to grant a consent in relation to any development if, as a result of that development, the type or standard of construction of a building of a particular classification would cease to conform with the requirements of the Building Rules for a building of that classification.
- (11) If a relevant authority decides to grant building consent in relation to a development that is at variance with the Building Rules, the relevant authority must, subject to the regulations, in giving notice of its decision on the application for that consent, specify (in the notice or in an accompanying document)—
  - (a) the variance; and
  - (b) the grounds on which the decision is being made.

## **Division 4—Procedural matters and assessment facilitation**

### **119—Application and provision of information**

- (1) An application to a relevant authority for the purposes of this Part must—
  - (a) be in a form determined by the Minister for the purposes of this Act; and
  - (b) include any information reasonably required by the relevant authority; and
  - (c) be lodged in the manner and accompanied by such plans, drawings, specifications or other documents as may be prescribed; and
  - (d) be accompanied by the appropriate fee.
- (2) No fee is payable under this section in relation to an application made by the owner or occupier of land (the *relevant land*) in order to remove or cut back a part of a regulated tree that is located on adjoining land but is encroaching on to the relevant land.
- (3) A relevant authority may request an applicant—
  - (a) to provide such additional documents, assessments or information (including calculations and technical details) as the relevant authority may reasonably require to assess the application;
  - (b) to remedy any defect or deficiency in any application or accompanying document or information required by or under this Act;
  - (c) to consult with an authority or body prescribed by the regulations;
  - (d) to comply with any other requirement prescribed by the regulations.
- (4) If—
  - (a) a development is of a kind that is classified by the Planning and Design Code as deemed-to-satisfy development; and
  - (b) the development falls within a class of development prescribed by the regulations for the purposes of this subsection; and

- (c) the applicant has complied with the requirements of subsection (1)(a), (c) and (d),

then the relevant authority must, in making an assessment as to planning consent, assess the application without requesting the applicant to provide additional documents or information.

- (5) If—

- (a) a development falls within a class of development prescribed by the regulations for the purposes of this subsection; and
- (b) the applicant has complied with the requirements of subsection (1)(a), (c) and (d),

then—

- (c) the relevant authority may, in making an assessment as to planning consent, only request the applicant to provide additional documents or information in relation to the application on 1 occasion; and
- (d) the relevant authority must make that request within a period prescribed by the regulations.

- (6) If a request is made under subsection (3)—

- (a) any period between the date of the request and the date of compliance is not to be included in the time within which the relevant authority is required to decide the application; and
- (b) if the request is not complied with within the time specified by the regulations, the relevant authority—
  - (i) may, subject to subparagraph (ii), refuse the application; and
  - (ii) must refuse the application in prescribed circumstances (including, if the regulations so provide, in a case involving development that is deemed-to-satisfy development).

- (7) A relevant authority should, in dealing with an application that relates to a regulated tree, unless the relevant authority considers that special circumstances apply, seek to make any assessment as to whether the tree is a significant tree without requesting the applicant to provide an expert or technical report relating to the tree.

- (8) A relevant authority should, in dealing with an application that relates to a regulated tree that is not a significant tree, unless the relevant authority considers that special circumstances apply, seek to assess the application without requesting the applicant to provide an expert or technical report relating to the tree.

- (9) A relevant authority may—

- (a) permit an applicant—
  - (i) to vary an application;
  - (ii) to vary any plans, drawings, specifications or other documents that accompanied an application,

(provided that the essential nature of the proposed development is not changed);

- (b) permit an applicant to lodge an application without the provision of any information or document required by the regulations;
  - (c) to the extent that the fee is payable to that relevant authority waive payment of whole or part of the application fee, or refund an application fee (in whole or in part);
  - (d) if there is an inconsistency between any documents lodged with the relevant authority for the purposes of this Part (whether by an applicant or any other person), or between any such document and a development authorisation that has already been given that is relevant in the circumstances, return or forward any document to the applicant or to any other person and determine not to finalise the matter until any specified matter is resolved, rectified or addressed.
- (10) A relevant authority may grant a permission under subsection (9) unconditionally or subject to such conditions as the relevant authority thinks fit.
- (11) Without limiting subsection (6), if—
- (a) an applicant requests time to address any issue related to the application (including so as to prepare and submit any variation); or
  - (b) an applicant requires time to respond to any matter raised by a person or body in connection with the application under this Act,
- then, subject to the regulations, the time required by the applicant is not to be included in the time within which the relevant authority is required to decide the application.
- (12) An application, or a consent, may provide for, or envisage the undertaking of development in stages, with separate consents or approvals for the various stages.
- (13) To avoid doubt, a person may apply for the approval of a proposed development even if the person is not the owner or occupier of the land constituting the site of the proposed development.
- (14) An applicant may withdraw an application (but, unless the relevant authority otherwise determines, the applicant is not entitled to a refund of the application fee in such a case).

## 120—Outline consent

- (1) Subject to this section, a relevant authority may, on application, grant a consent in the nature of an *outline consent*.
- (2) An outline consent may be granted in circumstances specified by a practice direction.
- (3) If an outline consent is granted and a subsequent application is made with respect to the same development (subject to any variations allowed by a practice direction), a relevant authority—
  - (a) must grant any consent contemplated by the outline consent; and
  - (b) must not impose a requirement that is inconsistent with the outline consent.
- (4) However, if—
  - (a) there has been a material change to 1 or more elements of the development; or

- (b) a new or additional matter requires assessment (subject to any variations allowed by a practice direction),

then—

- (c) further notification and consultation may be required in accordance with any provision made by a practice direction; and
- (d) subsection (3) will not apply to the extent that a new assessment must be made in the circumstances.

- (5) An outline consent remains operative for a period specified by a practice direction.

### **121—Design review**

- (1) This section applies in relation to development of a class specified by the Planning and Design Code.
- (2) A person who is considering the undertaking of development to which this section applies may apply to a design panel for advice.
- (3) An application under this section must—
  - (a) be in a form determined by the Commission; and
  - (b) include any information specified by the Commission; and
  - (c) be accompanied by the prescribed fee.
- (4) If an application is made, a design panel will be established under a scheme determined by the Minister for the purposes of this section.
- (5) The design panel may provide advice about 1 or more of the following:
  - (a) the form or content of the proposed development; and
  - (b) how the proposed development might be changed or improved; and
  - (c) other matters that may assist with the assessment of the development; and
  - (d) such other matters as the design panel thinks fit.
- (6) A design panel may, in acting under this section, adopt such procedures as it thinks fit.
- (7) A relevant authority must, in acting under this Act, take into account any advice provided by a design panel (insofar as may be relevant to the assessment of proposed development by the relevant authority).
- (8) No action may be brought against a member of a design panel on the basis of any advice or other action given or taken by a design panel under this section.

### **122—Referrals to other authorities or agencies**

- (1) The regulations may provide, subject to this section, that where an application for consent to, or approval of, a proposed development of a prescribed class is to be assessed by a relevant authority—
  - (a) the relevant authority must refer the application, together with a copy of any relevant information provided by the applicant, to a body prescribed by the regulations (including, if so prescribed, the Commission); and

- (b) the relevant authority must not make its decision until it has received a response from that prescribed body in relation to the matter or matters for which the referral was made (but if a response is not received from the body within a period prescribed by the regulations, it will be presumed, unless the body notifies the relevant authority within that period that the body requires an extension of time because of subsection (4) (being an extension equal to that period of time that the applicant takes to comply with a request under subsection (3)), that the body does not desire to make a response, or concurs (as the case requires)).
- (2) The Governor must not prescribe a body (other than the Commission) under subsection (1)(a) unless—
  - (a) the Governor is satisfied that provisions about the policy or policies that the body will seek to apply in connection with the operation of this section have been included in the Planning and Design Code (recognising that a policy may not apply in all cases, or that a policy may need to be varied, adjusted or reconsidered in particular cases); or
  - (b) the Minister has indicated that the Minister is satisfied that a policy envisaged by paragraph (a) is not necessary or is not appropriate.
- (3) A prescribed body may, before it gives a response under this section, request the applicant—
  - (a) to provide such additional documents or information (including calculations and technical details) as the prescribed body may reasonably require to assess the application; and
  - (b) to comply with any other requirements or procedures of a prescribed kind.
- (4) If a request is made under subsection (3)—
  - (a) the prescribed body may specify a time within which the request must be complied with; and
  - (b) the prescribed body may, if it thinks fit, grant an extension of the time specified under paragraph (a).
- (5) The regulations may, in relation to the operation of subsection (1)—
  - (a) provide that the relevant authority cannot consent to or approve the development without the concurrence of the prescribed body (which concurrence may be given by the prescribed body on such conditions as it thinks fit);
  - (b) empower the prescribed body to direct the relevant authority—
    - (i) to refuse the application; or
    - (ii) if the relevant authority decides to consent to or approve the development—subject to any specific limitation under another Act as to the conditions that may be imposed by the prescribed body, to impose such conditions as the prescribed body thinks fit,(and the relevant authority must comply with any such direction).

- (6) If a relevant authority acting by direction of a prescribed body refuses an application or imposes conditions in respect of a development authorisation—
  - (a) the relevant authority must notify the applicant that the application was refused, or the conditions imposed, by direction under this section; and
  - (b) if the regulations so provide, no appeal lies against that refusal or those conditions.
- (7) If a relevant authority is directed by a prescribed body to refuse an application and the refusal is the subject of an appeal under this Act, the prescribed body is a respondent to the appeal and the relevant authority may, on application, be joined as a party to the proceedings.
- (8) If a relevant authority is directed by a prescribed body to impose a condition in respect of a development authorisation and the condition is the subject of an appeal under this Act, both the prescribed body and the relevant authority are respondents to the appeal.
- (9) A prescribed body acting under this section is only to deal with the matter or matters for which a referral was made to the extent that is relevant to the purpose of the referral and so as only to consider matters that are within its relevant field of expertise or operation.
- (10) An applicant may request a relevant authority to defer a referral under this section to a particular stage in the process of assessment and, in such a case, the relevant authority must comply with the request.
- (11) However, a request under subsection (10) may not be made if it is inconsistent with any provision made by the regulations for the purposes of this subsection.
- (12) A relevant authority must ensure that a response from a prescribed body under this section is published on the SA planning portal and available for inspection and downloading without charge as soon as is reasonably practicable after the response is received by the relevant authority.

### **123—Preliminary advice and agreement**

- (1) A person may seek the opinion of a prescribed body under section 122 in relation to proposed development before lodging an application for planning consent with respect to the development.
- (2) If—
  - (a) a proposed development is referred to a prescribed body under subsection (1); and
  - (b) the prescribed body agrees to consider the matter under this section after taking into account any matter prescribed by the regulations; and
  - (c) the prescribed body agrees, in the manner prescribed by the regulations, that the development meets the requirements (if any) of the prescribed body (including on the basis of the imposition of conditions),then, subject to subsection (4)—
  - (d) if an application for planning consent with respect to the development is lodged with the relevant authority within the prescribed period after the prescribed body has indicated its agreement under paragraph (c); and

- (e) if the relevant authority is satisfied that the application accords with the agreement indicated by the prescribed body (taking into account the terms or elements of that agreement and any relevant plans and other documentation), the application will not be referred to the prescribed body under section 122.
- (3) A prescribed body under section 122 may, in connection with the operation of subsections (1) and (2)—
- (a) require the payment of a fee prescribed by the regulations (if the prescribed body agrees to consider the matter under subsection (2)(b)); and
  - (b) in relation to the proposed development—exercise any power (including the power to impose conditions) that it would be able to exercise if the development were to be referred to it under section 122.
- (4) Any agreement under this section will cease to have effect (and an application will need to be referred to a prescribed body under section 122 despite the operation of subsection (2)) if the relevant authority determines that the agreement is no longer appropriate due to the operation of section 132.
- (5) If—
- (a) a prescribed body had indicated its agreement under this section; and
  - (b) an application is not referred to the prescribed body under section 122 by virtue of the operation of subsection (2) of this section,
- the process established by this section will be taken to be a referral under section 122 for the purposes of any other Act.

#### **124—Proposed development involving creation of fortifications**

- (1) If a relevant authority has reason to believe that a proposed development may involve the creation of fortifications, the relevant authority must refer the application for consent to, or approval of, the proposed development to the Commissioner of Police (the *Commissioner*).
- (2) Subject to subsection (3), the Commissioner must, as soon as possible after receipt of a referral under subsection (1)—
- (a) assess the application to determine whether or not the proposed development involves the creation of fortifications; and
  - (b) advise the relevant authority in writing of the Commissioner's determination.
- (3) The Commissioner may, before making a determination under this section, request the applicant to provide such additional documents or information (including calculations and technical details) as the Commissioner may reasonably require to assess the application.
- (4) If a request is made under subsection (3)—
- (a) the Commissioner may specify a time within which the request must be complied with; and
  - (b) the Commissioner may, if he or she thinks fit, grant an extension of the time specified under paragraph (a).

- (5) If the Commissioner determines that the proposed development involves the creation of fortification, the relevant authority must—
  - (a) if the proposed development consists only of the creation fortifications—refuse the application; or
  - (b) in any other case—impose conditions in respect of any consent to or approval of the proposed development prohibiting the creation of the fortifications.
- (6) If a relevant authority acting on the basis of a determination of the Commissioner under subsection (2) refuses an application or imposes conditions in respect of a development authorisation, the relevant authority must notify the applicant that the application was refused, or the conditions imposed, on the basis of a determination of the Commissioner under this section.
- (7) If a refusal or condition referred to in subsection (5) is the subject of an appeal under this Act—
  - (a) the Commissioner will be the respondent to the appeal; and
  - (b) the relevant authority may, if the Court permits, be joined as a party to the appeal.

### **125—Time within which decision must be made**

- (1) A relevant authority should deal with an application as expeditiously as possible and within the time prescribed by the regulations.
- (2) If a relevant authority does not decide an application within the time prescribed under subsection (1) in respect of the provision of planning consent, the applicant may, before the application is decided, give the relevant authority a notice in the prescribed manner and form (a *deemed consent notice*) that states that planning consent should be granted.
- (3) On the day that the relevant authority receives the deemed consent notice, the relevant authority is, subject to this section, taken to have granted the planning consent (a *deemed planning consent*).
- (4) The relevant authority may, within 10 business days after receiving the deemed consent notice—
  - (a) grant the planning consent itself; or
  - (b) grant the planning consent subject to conditions.
- (5) The deemed planning consent is taken to include—
  - (a) any conditions that a relevant authority imposes under subsection (4)(b); or
  - (b) if the relevant authority does not grant a planning consent under subsection (4)—any standard condition specified by a practice direction issued by the Commission for the purposes of this subsection.
- (6) If—
  - (a) a deemed planning consent is taken to have been granted under subsection (3); and
  - (b) a relevant authority considers that the relevant application for planning consent should have been refused,

the relevant authority may apply to the Court for an order quashing the consent.

- (7) An application under subsection (6) must be made within 1 month after the deemed planning consent is taken to have been granted unless the Court, in its discretion, allows an extension of time (and then the Court will determine the matter under section 205).
- (8) If a relevant authority does not decide an application within the time prescribed under subsection (1) in respect of the provision of a development authorisation other than planning consent, the applicant may, after giving the relevant authority 14 days notice in accordance with the regulations, apply to the Court for an order requiring the relevant authority to make its determination within a time fixed by the Court.
- (9) If the Court makes an order under subsection (8), the Court should also order the relevant authority to pay the applicant's costs of the proceedings unless the Court is satisfied—
  - (a) that the delay is not attributable to an act or omission of the relevant authority; or
  - (b) that the delay is attributable to a decision of the relevant authority not to deal with the application within the relevant time because—
    - (i) it appeared to the relevant authority that there had been a failure to comply with a requirement prescribed by or under this Act; or
    - (ii) the relevant authority was not provided with appropriate documentation or information relevant to making a decision under this Act; or
    - (iii) the relevant authority believed, on other reasonable grounds, that it was not appropriate to decide the matter in the particular circumstances; or
  - (c) that an order for costs should not be made for some other reason.
- (10) This section does not apply to or in relation to impact assessed development where the Minister is the relevant authority.

## **126—Determination of application**

- (1) A relevant authority must, on making a decision on an application under this Part, give notice of the decision in accordance with the regulations (and, in the case of a refusal, the notice must include the reasons for the refusal and any appeal rights that exist under this Act).
- (2) A development authorisation under this Part remains operative for a period prescribed by the regulations.
- (3) A relevant authority may, on its own initiative or on the application of a person who has the benefit of any relevant development authorisation, extend a period prescribed under subsection (2).
- (4) A court may, on the application of a person who is a party to proceedings before the court which relate to any matter arising under this Act, extend a period prescribed under subsection (2).

## Division 5—Conditions

### 127—Conditions

- (1) A decision under this Part is subject to such conditions (if any)—
  - (a) as a relevant authority thinks fit to impose in relation to the development; or
  - (b) as may be specified by any practice direction or otherwise imposed under another provision of this Act.
- (2) Any such condition—
  - (a) in the case of a condition under subsection (1)(a)—must be consistent with any practice direction published by the Commission for the purposes of this section (and, for the purposes of this paragraph, a practice direction may prohibit certain conditions or classes of condition); and
  - (b) is binding on, and enforceable against—
    - (i) the person by whom the development is undertaken; and
    - (ii) any person who acquires the benefit of the decision or the development; and
    - (iii) the owners and occupiers of the land on which the development is undertaken; and
  - (c) may continue to apply in relation to the development unless or until it is varied or revoked by the relevant authority in accordance with an application under this Part.
- (3) Subject to a preceding subsection, a relevant authority may, for example, approve a development subject to a condition—
  - (a) that regulates or restricts the use of any land or building subject to development; or
  - (b) that provides for the management, preservation or conservation of any land or building subject to development; or
  - (c) that regulates maintenance of any land or building subject to development; or
  - (d) if the applicant is seeking approval for a temporary development—that provides that, at a future time specified in the condition—
    - (i) the previous use of the land will revive, or a use of the land will cease; and
    - (ii) any person who has the benefit of the development will restore the land to the state in which it existed immediately before the development.

- (4) Subject to subsections (6) and (8), if a development authorisation provides for the killing, destruction or removal of a regulated tree or a significant tree, the relevant authority must apply the principle that the development authorisation be subject to a condition that the prescribed number of trees (of a kind determined by the relevant authority) must be planted and maintained to replace the tree (with the cost of planting to be the responsibility of the applicant or any person who acquires the benefit of the consent and the cost of maintenance to be the responsibility of the owner of the land).
- (5) A tree planted under subsection (4) must satisfy any criteria prescribed by the regulations (which may include criteria that require that any such tree not be of a species prescribed by the regulations).
- (6) The relevant authority may, on the application of the applicant, determine that a payment of an amount calculated in accordance with the regulations be made into the relevant fund in lieu of planting 1 or more replacement trees under subsection (4) (and the requirements under subsection (4) will then be adjusted accordingly).
- (7) For the purposes of subsection (6), the *relevant fund* is—
- (a) unless paragraph (b) applies—an urban trees fund for the area where the relevant tree is situated;
  - (b) if—
    - (i) an urban trees fund has not been established for the area where the relevant tree is situated; or
    - (ii) the relevant authority is the Commission or an assessment panel appointment by the Minister or a joint planning board,the Planning and Development Fund.
- (8) Subsections (4) and (6) do not apply if—
- (a) the relevant tree is of a class excluded from the operation of those subsections by the regulations; or
  - (b) the relevant authority determines that it is appropriate to grant an exemption under this subsection in a particular case after taking into account any criteria prescribed by the regulations and the Minister concurs in the granting of the exemption.

## **Division 6—Variation of authorisation**

### **128—Variation of authorisation**

- (1) Subject to subsection (2), a person may seek the variation of a development authorisation previously given under this Act (including by seeking the variation of a condition imposed with respect to the development authorisation).
- (2) An application to which subsection (1) applies—
- (a) may only be made if the relevant authorisation is still operative; and

- (b) will, for the purposes of this Part, but subject to any exclusion or modification prescribed by the regulations and any other provision made by the regulations, to the extent of the proposed variation (and not so as to provide for the consideration of other elements or aspects of the development or the authorisation), be treated as a new application for development authorisation; and
- (c) in a case where the development to which the development authorisation previously given was classified by the Planning and Design Code as restricted development—must also be dealt with as restricted development if any representations were made under section 110(2)(b), unless the Commission (as the relevant authority) determines that no such representation related to any aspect of the development that is now under consideration on account of the application for variation and that, in the circumstances, the level of notification and consultation envisaged by section 110 is not required; and
- (d) unless otherwise approved by the relevant authority, cannot seek to extend the period for which the relevant authorisation remains operative.

## Part 8—Development assessment—essential infrastructure

### Division 1—Development assessment—standard designs

#### 129—Development assessment—standard designs

- (1) In this section—

*infrastructure reserve* means—

- (a) land identified in the Planning and Design Code as having a land use that is specified as being suitable for infrastructure; or
- (b) land that is subject to a statutory easement;

*statutory easement* means an easement under an Act that is brought within the ambit of this definition by the regulations.

- (2) For the purposes of this section, the Minister may, on the recommendation of the Commission, adopt a design standard relating to any infrastructure or class of infrastructure (a *standard infrastructure design*).
- (3) The following provisions may apply in relation to proposed development to be undertaken for the purposes of essential infrastructure—
- (a) if the proposed development is to be undertaken within an infrastructure reserve—an assessment against the Planning Rules, and planning consent, are not required; and
  - (b) if the proposed development is consistent with a standard infrastructure design and to be undertaken within an infrastructure reserve where that design is recognised as being permitted within that reserve—an accredited professional may (if qualified under this Act) act as a relevant authority for the purposes of granting any relevant development authorisation.
- (4) This section does not apply to any development within the Adelaide Park Lands, within the meaning of the *Adelaide Park Lands Act 2005* (and any such development must be assessed under Part 7).

### Division 2—Essential infrastructure—alternative assessment process

#### 130—Essential infrastructure—alternative assessment process

- (1) This section applies to essential infrastructure of a prescribed class.
- (2) A person who proposes to undertake development with respect to the provision of essential infrastructure to which this section applies (a *proponent*) may apply to the Commission for an approval under this section.
- (3) The application must contain the prescribed particulars.
- (4) The Commission may request the proponent to provide additional documents or information (including calculations and technical details) in relation to the application.
- (5) If an application relates to development within the area of a council, the Commission must give notice containing prescribed particulars of the development to the council in accordance with the regulations.

- (6) A council may report to the Commission on any matters contained in a notice under subsection (5).
- (7) Where a notice is given to a council under subsection (6), and a report from the council is not received by the Commission within 4 weeks of the date of the notice, it will be conclusively presumed that the council does not intend to report on the matter.
- (8) The Commission must assess an application lodged with it under this section.
- (9) The regulations may provide that where an application relates to a proposed development of a prescribed class, the Commission must refer the application, together with a copy of any relevant information provided by the proponent, to a body prescribed by the regulations for comment and report within the time prescribed by the regulations.
- (10) A prescribed body may, before it provides a report under subsection (9), request the proponent—
  - (a) to provide additional documents or information (including calculations and technical details) in relation to the application; and
  - (b) to comply with any other requirements or procedures of a prescribed kind.
- (11) If an application is referred to a prescribed body under subsection (9) and a report from the prescribed body is not received by the Commission within a period determined under the regulations, it will be conclusively presumed that the prescribed body does not intend to report on the matter.
- (12) If an application is for a development that involves construction work where the total amount to be applied to the work will, when all stages are complete, exceed \$10 000 000, other than an application for a variation to an approved development that, in the opinion of the Commission, is of a minor nature, the Commission must—
  - (a) by public advertisement, invite interested persons to make written submissions to it on the proposal within a period of at least 15 business days; and
  - (b) allow a person who has made a written submission to it within that period and who, as part of that submission, has indicated an interest in appearing before it, a reasonable opportunity to appear personally or by representative before the Commission to be heard in support of his or her submission; and
  - (c) give due consideration in its assessment of the application to any submissions made by interested persons as referred to in paragraph (a) or (b).
- (13) The Commission will then prepare a report to the Minister on the matter.
- (14) If a council has, in relation to any matters referred to the council under subsection (5), expressed opposition to the proposed development in its report under subsection (6), a copy of the report must be attached to the Commission's report (unless the council has, since providing its report, withdrawn its opposition).
- (15) If a prescribed body has provided a report under subsection (9), a copy of the report must also be attached to the Commission's report.
- (16) The Commission must, unless the Minister grants an extension of time, furnish its report within the time prescribed by the regulations.

- (17) If a request is made under subsection (4), any period between the date of request and the date of compliance is not to be included in the calculation of the period under subsection (16).
- (18) The Minister may, after receipt of the report of the Commission under this section (and after taking such action (if any) as the Minister thinks fit)—
- (a) approve the development; or
  - (b) refuse to approve the development.
- (19) An approval may be given—
- (a) for the whole or part of a proposed development;
  - (b) subject to such conditions as the Minister thinks fit.
- (20) An approval under this section will be taken to be given subject to the condition that, before any building work is undertaken, the building work be certified by a building certifier, or by some person determined by the Minister for the purposes of this provision, as complying with the provisions of the Building Rules to the extent that is appropriate in the circumstances.
- (21) A person acting under subsection (20) must—
- (a) seek and consider the advice of the Commission before giving a certificate in respect of building work that would be at variance with the performance requirements of the Building Code; and
  - (b) take into account the criteria, and comply with any requirement, prescribed by the regulations before giving a certificate in respect of building work that would otherwise involve a variance with the Building Rules,
- and if the person gives a certificate that involves building work that is at variance with the Building Rules then the person must, subject to the regulations, specify the variance in the certificate.
- (22) A person engaged to perform building work for a development approved under this section must—
- (a) ensure that the building work is performed in accordance with technical details, particulars, plans, drawings and specifications certified for the purposes of subsection (20); and
  - (b) comply with the Building Rules (subject to any certificate under subsection (20) that provides for a variance with the Building Rules), and any other requirements imposed under this section.

Maximum penalty: \$120 000.

Default penalty: \$500.

- (23) A person must not contravene, or fail to comply with, a condition of an approval under this section.

Maximum penalty: \$120 000.

Additional penalty.

Default penalty: \$500.

- (24) If the Minister approves a development under this section, no other procedure or requirement relating to the assessment of the development under this Act applies and no other development authorisation (including a certificate or approval under Part 11) is required under this Act, although the Minister may, if necessary for the purposes of any other Act, issue any other development authorisation under this Act (which will then be taken, for the purposes of that other Act, to have been issued by a relevant authority under this Act).
- (25) Despite a preceding subsection, if the Minister directs that an EIS be prepared with respect to a development otherwise within the ambit of this section then—
- (a) this section ceases to apply to the development; and
  - (b) the proponent must not undertake the development without the approval of the Minister under section 115 (as if the development were classified as impact assessed development); and
  - (c) unless section 115(2)(a) applies, the development becomes subject to the processes and procedures under this Act with respect to the preparation and consideration of an EIS.
- (26) No appeal lies against a decision of the Minister under this section.
- (27) This section does not limit—
- (a) the ability of a person to apply for the assessment and approval of essential infrastructure under Part 7; or
  - (b) the ability of a person to proceed under Division 1 of the Part.
- (28) This section does not apply to any development within the Adelaide Park Lands, within the meaning of the *Adelaide Park Lands Act 2005* (and any such development must be assessed under Part 7).

## Part 9—Development assessment—Crown development

### 131—Development assessment—Crown development

- (1) In this section—

*the Crown* means the Crown in right of the State;

*State agency* means—

- (a) the Crown or a Minister of the Crown;
- (b) an agency or instrumentality of the Crown (including a Department or administrative unit of the State);
- (c) any other prescribed person or prescribed body acting under the express authority of the Crown,

but does not include a person or body excluded from the ambit of this definition by regulation.

- (b) a State agency proposes to undertake development for the purposes of the provision of essential infrastructure (whether or not in partnership or joint venture with a person or body that is not a State agency); or
- (c) a person proposes to undertake development initiated or supported by a State agency for the purposes of the provision of essential infrastructure and specifically endorsed by the State agency for the purposes of this section,

the State agency must lodge an application for approval containing prescribed particulars with the Commission.

- (3) Subject to subsection (4), this section does not apply to or in relation to proposed development if—

- (a) the development is accepted development or deemed-to-satisfy development under Part 7 Division 2; and
- (b) the relevant State agency determines to proceed with the assessment and approval of the development under Part 7 or Part 8 Division 1 (and any other related provisions of this Act).

- (4) No application for approval is required (either under this section or any other provision of this Act), and no notice to a council is required under subsection (6), if the development is of a kind excluded from the provisions of this section by regulation.
- (5) The Commission may request the State agency to provide additional documents or information (including calculations and technical details) in relation to the application.
- (6) If an application relates to development within the area of a council, the Commission must give notice containing prescribed particulars of the development to the council in accordance with the regulations.

- (7) A council may report to the Commission on any matters contained in a notice under subsection (6).
- (8) Where a notice is given to a council under subsection (6), and a report from the council is not received by the Commission within 4 weeks of the date of the notice, it will be conclusively presumed that the council does not intend to report on the matter.
- (9) The Commission must assess an application lodged with it under this section.
- (10) The regulations may provide that where an application relates to a proposed development of a prescribed class, the Commission must refer the application, together with a copy of any relevant information provided by the State agency, to a body prescribed by the regulations for comment and report within the time prescribed by the regulations.
- (11) A prescribed body may, before it provides a report under subsection (10), request the State agency—
  - (a) to provide additional documents or information (including calculations and technical details) in relation to the application; and
  - (b) to comply with any other requirements or procedures of a prescribed kind.
- (12) If an application is referred to a prescribed body under subsection (10) and a report from the prescribed body is not received by the Commission within a period determined under the regulations, it will be conclusively presumed that the prescribed body does not intend to report on the matter.
- (13) If an application is for a development that involves construction work where the total amount to be applied to the work will, when all stages are completed, exceed \$10 000 000, other than an application for a variation to an approved development that, in the opinion of the Commission, is of a minor nature, the Commission must—
  - (a) by public notice, invite interested persons to make written submissions to it on the proposal within a period of at least 15 business days; and
  - (b) allow a person who has made a written submission to it within that period and who, as part of that submission, has indicated an interest in appearing before it, a reasonable opportunity to appear personally or by representative before the Commission to be heard in support of his or her submission; and
  - (c) give due consideration in its assessment of the application to any submissions made by interested persons as referred to in paragraph (a) or (b).
- (14) The Commission will then prepare a report to the Minister on the matter.
- (15) If a council has, in relation to any matters referred to the council under subsection (6), expressed opposition to the proposed development in its report under subsection (7), a copy of the report must be attached to the Commission's report (unless the council has, since providing its report, withdrawn its opposition).
- (16) If a prescribed body has provided a report under subsection (10), a copy of the report must also be attached to the Commission's report.
- (17) The Commission must, unless the Minister grants an extension of time, furnish its report within the time prescribed by the regulations.

- (18) If a request is made under subsection (5), any period between the date of request and the date of compliance is not to be included in the calculation of the period under subsection (17).
- (19) The Minister may, after receipt of the report of the Commission under this section (and after taking such action (if any) as the Minister thinks fit)—
- (a) approve the development; or
  - (b) refuse to approve the development.
- (20) An approval may be given—
- (a) for the whole or part of a proposed development;
  - (b) subject to such conditions as the Minister thinks fit.
- (21) An approval under this section will be taken to be given subject to the condition that, before any building work is undertaken, the building work be certified by a building certifier, or by some person determined by the Minister for the purposes of this provision, as complying with the provisions of the Building Rules to the extent that is appropriate in the circumstances.
- (22) A person acting under subsection (21) must—
- (a) seek and consider the advice of the Commission before giving a certificate in respect of building work that would be at variance with the performance requirements of the Building Code; and
  - (b) take into account the criteria, and comply with any requirement, prescribed by the regulations before giving a certificate in respect of building work that would otherwise involve a variance with the Building Rules,
- and if the person gives a certificate that involves building work that is at variance with the Building Rules then the person must, subject to the regulations, specify the variance in the certificate.
- (23) A person engaged to perform building work for a development approved under this section must—
- (a) ensure that the building work is performed in accordance with technical details, particulars, plans, drawings and specifications certified for the purposes of subsection (21); and
  - (b) comply with the Building Rules (subject to any certificate under subsection (21) that provides for a variance with the Building Rules), and any other requirements imposed under this section.

Maximum penalty: \$30 000.

Default penalty: \$500.

- (24) If the Minister approves a development under this section, no other procedure or requirement relating to the assessment of the development under this Act applies and no other development authorisation (including a certificate or approval under Part 11) is required under this Act, although the Minister may, if necessary for the purposes of any other Act, issue any other development authorisation under this Act (which will then be taken, for the purposes of that other Act, to have been issued by a relevant authority under this Act).

- (25) Despite a preceding subsection, if the Minister directs that an EIS be prepared with respect to a development otherwise within the ambit of this section, then—
- (a) this section ceases to apply to the development; and
  - (b) the State agency must not undertake the development without the approval of the Minister under section 115 (as if the development were classified as impact assessed development); and
  - (c) unless section 115(2)(a) applies, the development becomes subject to the procedures under this Act with respect to the preparation and consideration of an EIS.
- (26) No appeal lies against a decision of the Minister under this section.
- (27) Subject to subsection (28), this section does not apply to any development within the Adelaide Park Lands, within the meaning of the *Adelaide Park Lands Act 2005* (and any such development must be assessed under Part 7).
- (28) Subsection (27) does not apply—
- (a) so as to exclude the Governor making a regulation under subsection (4) with respect to minor works of a prescribed kind; or
  - (b) so as to exclude from the operation of this section development within any part of the *Institutional District* of the City of Adelaide that has been identified by regulations made for the purposes of this paragraph by the Governor on the recommendation of the Minister.
- (29) Before making a recommendation to the Governor to make a regulation identifying a part of the *Institutional District* of the City of Adelaide for the purposes of subsection (28)(b), the Minister must take reasonable steps to consult with the Adelaide Park Lands Authority.
- (30) A regulation under subsection (28)(b) cannot apply with respect to any part of the *Institutional District* of the City of Adelaide that is under the care, control or management of The Corporation of the City of Adelaide.
- (31) For the purposes of this section, the *Institutional District* of the City of Adelaide is constituted by those parts of the area of The Corporation of the City of Adelaide that are identified and defined as—
- (a) the Riverbank Zone; and
  - (b) the Institutional (Government House) Zone; and
  - (c) the Institutional (University/Hospital) Zone,
- by the Development Plan that relates to the area of that Council, as that Development Plan existed on 24 September 2015.

## **Part 10—Development assessment and approval—related provisions**

### **Division 1—General principles**

#### **132—Law governing proceedings under this Act**

- (1) If an application is made for a development authorisation under this Act, the law to be applied in deciding the application and the law to be applied in resolving any issues arising from the decision in any proceedings (whether brought under this Act or not) is the law in force as at the time the application was made.
- (2) The provisions of the Planning and Design Code that are relevant to the consideration of an application for a planning consent and to the resolution of issues arising in subsequent proceedings based on that application (whether brought under this Act or not) are the provisions of the Planning and Design Code as in force at the time the application was made.

## **Division 5—Emergency orders**

### **155—Emergency orders**

  - (a) because of a threat to safety arising out of the condition or use of a building or an excavation; or
  - (b) because of a threat to any State heritage place or local heritage place.
- (2) However, the power conferred by subsection (1)(a) may only be exercised by an authorised officer who holds prescribed qualifications.

- (6) The reasonable costs and expenses incurred by the council (or any person acting on behalf of the council) under this section may be recovered by the council as a debt due from the owner.

- (7) If an amount is recoverable from a person by the council under this section—
- (a) the council may, by notice in writing to the person, fix a period, being not less than 28 days from the date of the notice, within which the amount must be paid by the person, and, if the amount is not paid by the person within that period, the person is liable to pay interest charged at the prescribed rate on the amount unpaid; and
  - (b) the amount together with any interest charge so payable is, until paid, a charge in favour of the council on any land owned by the person.
- (8) On completion of any work required to be carried out by an emergency order, the owner must notify the authorised officer in writing.  
Maximum penalty: \$2 000.

- (10) If the direction is given orally under subsection (9), the authorised officer who gave the direction must confirm the direction by notice in writing by 5 pm on the next business day.
- (11) An appeal against an order under this section must be commenced within 14 days after the order is given to the appellant unless the Court allows a longer time for the commencement of the appeal.

- (14) It is a defence to a prosecution under subsection (13) if the defendant satisfies the Court that he or she was unaware of the fact that an activity in respect of which the offence arose was the subject of an order under this section.
- (15) In this section—  
*building* includes a building in the course of construction;  
*excavation* includes a well or hole.

## Division 6—Swimming pool and building safety

### 156—Designated safety requirements

- (1) In this section—  
*designated owner* means—
- (a) in relation to a swimming pool—
    - (i) if the swimming pool is a fixture to, or forms part of, land—the owner of the land;
    - (ii) in any other case—the owner of the structure that constitutes the swimming pool; and

(b) in relation to a building—the owner of the building;

***prescribed event*** means an event or circumstance prescribed by the regulations as constituting a prescribed event for the purposes of this section.

- (2) Without limiting any provision of the Building Code or a Ministerial building standard, the regulations may specify requirements that are to apply in relation to designated safety features for swimming pools or buildings.
- (3) In particular, the regulations may—
  - (a) require a designated owner of a swimming pool or building to ensure that designated safety features are installed and maintained in accordance with prescribed requirements; and
  - (b) require the owner of an existing swimming pool or building—
    - (i) to ensure that designated safety features are installed, replaced or upgraded before, or on the occurrence of, a prescribed event; or
    - (ii) to install, replace or upgrade designated safety features within a prescribed period.
- (4) A person who contravenes, or fails to comply with, a requirement under this section (including a requirement prescribed by the regulations) is guilty of an offence.  
Maximum penalty: \$15 000.
- (5) The Commission may issue a practice direction that requires councils to carry out inspections of swimming pools and buildings to ascertain compliance with this section.
- (6) A practice direction may make different provision in relation to different councils (or groups of councils).
- (7) A council must comply with the requirements of a practice direction as it relates to the council.
- (8) Nothing in this section limits a power under another section to take action in relation to the safety of any place or building.

### **157—Fire safety**

- (1) An authorised officer who holds prescribed qualifications or a member of an appropriate authority may, at any reasonable time, enter and inspect any building for the purpose of determining whether the fire safety of a building is adequate.
- (2) An authorised officer who holds prescribed qualifications must conduct an inspection of a building under subsection (1) at the request of an appropriate authority or a fire authority.
- (3) If an appropriate authority is satisfied that the fire safety of a building is not adequate, the appropriate authority may cause a notice to be served on the owner of the building.
- (4) A notice under subsection (3) may—
  - (a) require the owner to report to the appropriate authority on the work or other measures necessary to ensure that the fire safety of the building is adequate; or
  - (b) in the case of an emergency—

- (i) require the owner to carry out a program of work, or to take any other measure, to overcome any fire hazard; or
  - (ii) require the evacuation of the building; or
  - (iii) prohibit the occupation or use of the building or a part of the building until the appropriate authority is satisfied that the fire hazard no longer exists; or
  - (iv) require the owner to take such other action prescribed by the regulations.
- (5) A report under subsection (4)(a) must be provided to the appropriate authority within 2 months, or within such longer period as the appropriate authority may allow.  
Maximum penalty: \$2 500.
- (6) The owner may, during the period referred to in subsection (5), make representations to the appropriate authority about the fire safety of the building and the work or other measures to be carried out or taken.
- (7) An appropriate authority may, after receiving a report under subsection (4) (or, in the event of a failure to provide a report in accordance with this section), by notice given to the owner of the building—
  - (a) require the owner to seek an appropriate development authorisation under this Act and, if granted, to carry out a program of work or to take other measures to ensure that the fire safety of the building is adequate; or
  - (b) prohibit the occupation or use of the building or a part of the building until the appropriate authority is satisfied that any fire hazard no longer exists; or
  - (c) require the owner to take such other action prescribed by the regulations.
- (8) On completion of any work required to be carried out by a notice under this section, the owner must notify the appropriate authority in writing.  
Maximum penalty: \$2 500.
- (9) An appropriate authority may, at the request of the owner, vary a notice under this section or may, on its own initiative, revoke a notice if satisfied that it is appropriate to do so.
- (10) An appeal against a notice under this section must be commenced within 14 days after the notice is given unless the Court allows longer time for the commencement of the appeal.
- (11) Subject to any order of the Court to the contrary, the operation of a notice under this section is not suspended pending the determination of an appeal.
- (12) A person who contravenes or fails to comply with a notice under subsection (4)(b) or (7) is guilty of an offence.  
Maximum penalty: \$20 000.  
Default penalty: \$200.
- (13) This section does not authorise any action inconsistent with the *Heritage Places Act 1993* or a provision of the Planning and Design Code that relates to heritage.

- (14) Any action taken under this section should seek to achieve (in the following order of priority)—
- (a) firstly, a reasonable standard of fire safety for the occupiers of the relevant building;
  - (b) secondly, the minimal spread of fire and smoke;
  - (c) thirdly, an acceptable fire fighting environment.
- (15) No matter or thing done or omitted to be done by an appropriate authority in good faith in connection with the operation of this section subjects the authority to any liability.
- (16) For the purposes of this section, an **appropriate authority** is a body established by a council, or by 2 or more councils, under subsection (17) and designated by the council or councils as an appropriate authority under this section.
- (17) The following provisions apply with respect to the establishment of an appropriate authority:

    - (i) a person who holds prescribed qualifications in building surveying appointed by the council or councils; and
    - (ii) an authorised officer under Part 3 Division 5 or section 86 of the *Fire and Emergency Services Act 2005* who, depending on the location of the council area or areas, has been approved by the Chief Officer of the relevant fire authority to participate as a member of the appropriate authority; and
    - (iii) a person with expertise in the area of fire safety appointed by the council or councils; and
    - (iv) if so determined by the council or councils—a person selected by the council or councils;

  - (c) the office of a member of the appropriate authority (other than a member under paragraph (a)(ii)) will become vacant if the member—
    - (i) dies; or
    - (ii) completes a term of office and is not reappointed; or
    - (iii) resigns by written notice addressed to the council or councils; or
    - (iv) is removed from office by the council or councils for any reasonable cause;
  - (d) deputy members may be appointed;
  - (e) subject to a determination of the council or councils—the appropriate authority may determine its own procedures (including as to quorum).

- (18) A member of an appropriate authority who has a personal interest or a direct or indirect pecuniary interest in any matter before the appropriate authority (other than an indirect interest that exists in common with a substantial class of persons) must not take part in any deliberations or decision of the authority in relation to that matter.

## **Division 7—Liability**

### **158—Negation of joint and several liability in certain cases**

- (1) If—
- (a) building work is defective; and
  - (b) the defect or defects arise from the wrongful acts or defaults of 2 or more persons; and
  - (c) those persons would, apart from this section, be jointly and severally liable for damage or loss resulting from the defective work; and
  - (d) an action is brought against any 1 or more of those persons to recover damages for that damage or loss,

the court may only give judgment against a defendant, or each defendant, for such amount as may be just and equitable having regard to the extent to which the act or default of that defendant contributed to the damage or loss.

- (2) An act or default for which a person is vicariously liable will be taken to be an act or default of that person for the purposes of this section.

### **159—Limitation on time when action may be taken**

- (1) Despite the *Limitation of Actions Act 1936*, or any other Act or law, no action for damages for economic loss or rectification costs resulting from defective building work (including an action for damages for breach of statutory duty) can be commenced more than 10 years after completion of the building work.
- (2) This section does not affect an action to recover damages for death or personal injury resulting from defective building work.
- (3) The period prescribed by subsection (1) cannot be extended.

## Part 12—Mining—special provisions

### 160—Mining tenements to be referred in certain cases to Minister

- (1) In this section—
- appropriate Authority* or *Authority* means the Minister of the Crown for the time being administering the Mining Acts;
- designated mining matter* means—
- (a) an application for a mining production tenement; or
  - (b) a proposed statement of environmental objectives under the *Petroleum and Geothermal Energy Act 2000*.
- (2) The appropriate Authority may refer a designated mining matter to the Minister for advice and, if the designated mining matter is such that it is required by the regulations to be so referred to the Minister, the appropriate Authority must refer the designated mining matter to the Minister for advice.
- (3) Copies of any submissions received under the Mining Acts as a result of public consultation on the designated mining matter must be forwarded to the Minister for the purposes of subsection (2).
- (4) If, in the opinion of the Minister or of the appropriate Authority, operations to be conducted in pursuance of a mining production tenement are of major social, economic or environmental importance—
- (a) the Minister or the Authority may determine that the operations are to be subject to the processes and procedures prescribed by Part 7 Division 2 Subdivision 4 with respect to the preparation of an EIS; and
  - (b) in the case of such a determination, that Subdivision will then apply in relation to the preparation of an EIS, and a related Assessment Report—
    - (i) subject to the qualification that any reference under that Subdivision to the Commission is to have effect as if it were a reference to the Minister or the Authority, depending on who has made the determination, but the EIS will cover matters determined by the Minister after consultation with the Authority; and
    - (ii) subject to any other modifications as may be prescribed by the regulations.
- (5) The Minister, after obtaining and considering a report of a prescribed kind on a designated mining matter referred for advice under this section and after considering the terms of any relevant EIS, must advise the appropriate Authority on the steps that should be taken (including, in relation to an application for a mining production tenement, whether the application should or should not be granted or, as relevant, what conditions or requirements should be included in a mining production tenement or a statement of environmental objectives) in order to recognise and address actual or potential adverse effects on the environment.

- (6) If the appropriate Authority does not agree with advice tendered under subsection (5), it must refer the matter to the Governor and the Governor will determine whether the Authority should adhere to the advice (after considering the terms of any relevant EIS).
- (7) The appropriate Authority may, with the concurrence of the Minister, determine that it is appropriate that proposed development associated with mining operations within the ambit of subsection (4)(a) also be assessed under this section and, if the Authority makes such a determination, the Authority may, by notice published in the Gazette, combine the assessment of the proposed development with the assessment of the relevant mining operations and, in such a case—
  - (a) the proposed development associated with the mining operations must also be considered under the relevant EIS; and
  - (b) the Minister may deal with the development under section 115 as if the development had been declared to be impact assessed development.

### **161—Related matters**

- (1) This Part does not limit the ability of the Minister to make a declaration under section 108(1)(c) in respect of a proposal that involves—
  - (a) proposed mining operations on a mining tenement; and
  - (b) proposed development associated with the mining operations.
- (2) For the avoidance of doubt, a determination under this Part with respect to the preparation of an EIS does not bring the relevant mining operations within the ambit of Part 7 Division 2 Subdivision 4 (but may bring an associated development within the ambit of that Subdivision by virtue of the operation of section 160(7)).
- (3) Except as provided in this Part, this Act does not prevent, or otherwise affect, operations carried on in pursuance of any of the Mining Acts.
- (4) This Act does not prevent, or otherwise affect, the operation of a private mine.
- (5) The operation of subsections (3) and (4) is subject to any provision made by the regulations as to the application of the Building Rules to any building work carried out in connection with operations carried on in pursuance of any of the Mining Acts.

## Part 13—Infrastructure frameworks

### Division 1—Infrastructure delivery schemes

#### Subdivision 1—Interpretation

##### 162—Interpretation

(1) In this Division—

*basic infrastructure* means—

- (a) infrastructure within the ambit of paragraph (a), (b) or (h) of the definition of *essential infrastructure* under section 3(1); or
  - (b) roads or causeways, bridges or culverts associated with roads; or
  - (c) stormwater management infrastructure; or
  - (d) embankments, wells, channels, drains, drainage holes or other forms of works or earthworks connected with the provision of infrastructure under a preceding paragraph.
- (2) For the purposes of this Division, a *designated growth area* is an area which is to be developed in 1 or more of the following ways:
- (a) by the division of land and the sale (or proposed future sale) of all or some of the resulting allotments;
  - (b) by rezoning to increase development potential;
  - (c) by undertaking urban in-fill, consolidation or renewal.

#### Subdivision 2—Establishment of schemes—basic infrastructure

##### 163—Initiation of scheme

- (1) The Minister may initiate a scheme under this Subdivision in relation to the provision of basic infrastructure in, or in connection with, a designated growth area.
- (2) A scheme under this Subdivision should be limited to—
  - (a) the provision of basic infrastructure; and
  - (b) funding arrangements for the provision of that basic infrastructure,in 1 or more of the following situations:
  - (c) the basic infrastructure is reasonably necessary for the purposes of development that is proposed or to be undertaken within the designated growth area (including on account of rezoning that has occurred, or is expected to occur, in relation to the whole or a significant part of the development that is to occur within the designated growth area);
  - (d) the basic infrastructure will support, service or promote significant development that is proposed or to be undertaken within the designated growth area;

- (e) it is reasonably necessary or efficient to coordinate the design, construction and funding of basic infrastructure under a scheme because of the scale of—
  - (i) development that is proposed or to be undertaken within the designated growth area; or
  - (ii) the basic infrastructure that is to be provided,(or both).
- (3) Subject to subsection (4), a proposal to proceed under this section may be initiated—
  - (a) on the Minister's own initiative; or
  - (b) at the request of another person or body interested in the provision or delivery of infrastructure.
- (4) The Minister may only act under this section on the advice of the Commission.
- (5) The Commission must, in providing advice under this section, take into account any relevant state planning policy and regional plan, and the relevant provisions of the Planning and Design Code (subject to any relevant amendments that might be made in connection with potential or proposed development that is to be undertaken within the designated growth area).
- (6) The Minister will initiate a scheme by preparing a draft outline of the scheme that—
  - (a) provides detailed information about—
    - (i) the nature and intended scope of the basic infrastructure; and
    - (ii) any related development that is proposed to be undertaken as part of the scheme; and
  - (b) identifies the proposed designated growth area; and
  - (c) provides information about the proposed timing or staging of the various elements of the scheme; and
  - (d) assesses the costs and benefits of the scheme; and
  - (e) outlines a funding arrangement for the scheme, including whether it is proposed to impose a charge under Subdivision 7; and
  - (f) provides information about the person or body that will be carrying out the work envisaged by the scheme (to the extent that is known); and
  - (g) identifies any basic infrastructure or other assets that might be expected to be transferred to another entity when the scheme has been completed; and
  - (h) provides such other information as the Minister thinks fit after consultation with the Commission.
- (7) In giving consideration to the nature and intended scope of basic infrastructure under a scheme, the Minister must seek to facilitate the provision of infrastructure that is—
  - (a) fit for purpose; and
  - (b) capable of adaptation as standards or technology change over time (insofar as is reasonably practicable or appropriate in the circumstances); and

- (c) capable of augmentation or extension to accommodate growth or changing circumstances over time (insofar as is reasonably practicable or appropriate in the circumstances); and
  - (d) where appropriate, designed to build capacity for the future, including by allowing for connections, extensions or augmentation by others who are able to leverage off the initial investment in the basic infrastructure; and
  - (e) designed and built to a standard that is appropriate taking into account the nature and extent of development that is proposed to be undertaken within the relevant designated growth area; and
  - (f) capable of being procured and delivered in a timely manner to facilitate and promote orderly and economic development.
- (8) In giving consideration to the constitution of a designated growth area under subsection (6)(b), consideration must be given to—
- (a) the area or areas which will benefit from any basic infrastructure to be provided under the proposed scheme; and
  - (b) the extent to which it is possible to establish an area that will provide fair and sufficient funds over time with respect to the provision of the basic infrastructure under the proposed scheme; and
  - (c) the extent to which the designated growth area may overlap with a contribution area under Subdivision 3.
- (9) In giving consideration to whether or not to include a proposal for the imposition of a charge under Subdivision 7, the Minister must take into account—
- (a) the extent that it is reasonable that other sources of funding be used instead; and
  - (b) any schemes or arrangements (including with respect to the imposition of separate or other rates or charges) that are already in place, or already planned (and known to the Minister) with respect to the provision of basic infrastructure or the undertaking of works in the designated growth area (or in an adjacent or related area).
- (10) The Minister, in preparing the draft outline, must—
- (a) take reasonable steps to consult with—
    - (i) the owners of land within the proposed designated growth area; and
    - (ii) the person or persons who are intending to undertake any relevant development within the proposed designated growth area; and
  - (b) take reasonable steps to consult with the council within whose area the proposed designated growth area is situated,
- and may consult with any other person or body as the Minister thinks fit.
- (11) The Minister will then publish the draft outline—
- (a) in the Gazette; and
  - (b) on the SA planning portal.

- (12) In addition, the Minister must, as soon as is reasonably practicable after acting under this section on the advice of the Commission, publish the advice on the SA planning portal subject to any qualifications or redactions that are necessary to prevent the disclosure of confidential or commercially sensitive information provided by or relating to—
- (a) an owner or occupier of land; or
  - (b) a proponent of development relating to the provision of infrastructure; or
  - (c) a provider of infrastructure.
- (13) The Minister will then (at a time determined by the Minister) refer the proposed scheme to the Chief Executive for the appointment of a scheme coordinator.

### ***Subdivision 3—Establishment of general schemes***

#### ***164—Initiation of scheme***

- (1) *The Minister may initiate a scheme under this Division in relation to the provision of essential infrastructure (and the undertaking of any related development).*
- (2) *A scheme under this Division should relate to 1 or more of the following purposes:*
- (a) *to facilitate development or urban renewal of a significant nature by providing a scheme that supports and advances the provision of infrastructure;*
  - (b) *to provide a mechanism for the equitable distribution and apportionment of the costs of essential infrastructure;*
  - (c) *to assist in the augmentation of capital available to fund essential infrastructure;*
  - (d) *to provide an incentive for the provision of essential infrastructure (including through private sector investment) by providing certainty through the establishment of the scheme.*
- (3) *Subject to subsection (4), a proposal to proceed under this section may be initiated—*
- (a) *on the Minister's own initiative; or*
  - (b) *at the request of another person or body interested in the provision or delivery of infrastructure.*
- (4) *The Minister may only act under this section on the advice of the Commission.*
- (5) *The Commission must, in providing advice under this section, take into account any relevant state planning policy and regional plan, and the relevant provisions of the Planning and Design Code (subject to any relevant amendments that might be made in connection with potential or proposed development that is to be undertaken as part of, or in connection with, the scheme).*
- (6) *The Minister will initiate a scheme by preparing a draft outline of the scheme that—*
- (a) *provides detailed information about—*
    - (i) *the nature and intended scope of the infrastructure; and*
    - (ii) *any related development that is proposed to be undertaken as part of the scheme; and*

- (b) *identifies the location in relation to which it is proposed that the scheme will be established; and*
  - (c) *provides information about the proposed timing or staging of the various elements of the scheme; and*
  - (d) *assesses the costs and benefits of the scheme; and*
  - (e) *outlines a funding arrangement for the scheme; and*
  - (f) *if a funding arrangement includes a proposal for the collection of contributions under Subdivision 8—specifies the area or areas (to be called a **contribution area**) in relation to which it is proposed that the contributions are to be imposed; and*
  - (g) *provides information about the person or body that will be carrying out the work envisaged by the scheme (to the extent that this is known); and*
  - (h) *identifies any infrastructure or other assets that might be expected to be transferred to another entity when the scheme has been completed; and*
  - (i) *provides such other information as the Minister thinks fit.*
- (7) *In giving consideration to the nature and intended scope of infrastructure under a scheme, the Minister must seek to facilitate the provision of infrastructure that is—*
- (a) *fit for purpose; and*
  - (b) *capable of adaptation as standards or technology change over time (insofar as is reasonably practicable or appropriate in the circumstances); and*
  - (c) *capable of augmentation or extension to accommodate growth or changing circumstances over time (insofar as is reasonably practicable or appropriate in the circumstances); and*
  - (d) *where appropriate, designed to build capacity for the future, including by allowing for connections, extensions or augmentation by others who are able to leverage off the initial investments in the infrastructure; and*
  - (e) *designed and built to a standard that is appropriate taking into account the nature and extent of development that is proposed to be undertaken as part of, or in connection with, the scheme; and*
  - (f) *capable of being procured and delivered in a timely manner to facilitate and promote orderly and economic development.*
- (8) *In giving consideration to whether to include a proposal for the collection of contributions under Subdivision 8, the Minister must take into account—*
- (a) *the extent to which it is reasonable that other sources of funding be used instead; and*
  - (b) *the extent to which the implementation of the scheme will have an impact on any council (including on account of any infrastructure or other assets that might be transferred to the council when the scheme has been completed) after taking into account any submissions made by the council under subsection (12); and*
  - (c) *the extent to which the relevant infrastructure will provide a direct benefit to—*

- (i) *the development potential, capacity, use, value or amenity of the land that would be expected to be included within a relevant contribution area; and*
  - (ii) *without limiting subparagraph (i), people who might be required to make contributions through the imposition of a charge under Subdivision 8 by the relevant council; and*
  - (d) *any schemes or arrangements (including with respect to the imposition of separate or other rates or charges) that are already in place, or are already planned (and known to the Minister), with respect to the provision of infrastructure or the undertaking of works in the area (or in an adjacent or related area).*
- (9) *In giving consideration to the establishment of a contribution area under subsection (6)(f), consideration must be given to—*
  - (a) *the area or areas which will benefit from any infrastructure or works to be provided or undertaken under the proposed scheme; and*
  - (b) *the extent to which it may be possible for contributions towards the costs of the scheme to be equitably proportioned between potential beneficiaries; and*
  - (c) *the extent to which the contribution area may overlap with another contribution area under another scheme (or proposed scheme).*
- (10) *The Minister must, in considering a scheme under this Subdivision, apply the principle that a scheme that relates to, or includes, basic infrastructure and is more suited to a scheme under Subdivision 2 should not be initiated under this Subdivision.*
- (11) *However, nothing in subsection (10) (or Subdivision 2) prevents a contribution being sought with respect to basic infrastructure under Subdivision 8 insofar as it is considered by the Minister to be reasonable that owners of land within a contribution area (and outside a designated growth area) should make a contribution towards the cost of that basic infrastructure.*
- (12) *The Minister, in preparing the draft outline, must—*
  - (a) *take reasonable steps to consult with the council within whose area the scheme is proposed to be undertaken and, if relevant, any council whose area may include the whole or any part of a proposed contribution area; and*
  - (b) *take reasonable steps to consult with the owners of any land that would be directly affected by any infrastructure or works to be provided or undertaken under the proposed scheme,*

*and may consult with any other person or body as the Minister thinks fit.*
- (13) *The Minister will then publish the draft outline—*
  - (a) *in the Gazette; and*
  - (b) *on the SA planning portal.*

- (14) *In addition, the Minister must, as soon as is reasonably practicable after acting under this section on the advice of the Commission, publish the advice on the SA planning portal subject to any qualifications or redactions that are necessary to prevent the disclosure of confidential or commercially sensitive information provided by or relating to—*
- (a) *an owner or occupier of land; or*
  - (b) *a proponent of development relating to the provision of infrastructure; or*
  - (c) *a provider of infrastructure.*
- (15) *The Minister will then (at a time determined by the Minister) refer the proposed scheme to the Chief Executive for the appointment of a scheme coordinator.*

  - (d) if it is proposed that a funding arrangement should be established under this Division—to develop the funding arrangement;

- (e) such other functions assigned by the Minister after consultation with the Chief Executive.
- (2) In addition to the other provisions of this Division, in developing a funding arrangement that includes a proposal for the imposition of a charge made under Subdivision 7, the scheme coordinator should seek to act consistently with the following principles:
- (a) the charge should be limited to recovering the reasonable capital costs of the basic infrastructure based only on infrastructure that is not excessive and that is not produced or delivered at a cost or price that is unreasonable in the circumstances; and
  - (b) the charge should not have an excessively adverse impact on—
    - (i) the development of a designated growth area; or
    - (ii) housing or living affordability within a designated growth area; or
    - (iii) employment, investment or economic viability associated with a designated growth area; and
  - (c) the charge must be based on a scheme under which a payment or payments under the charge become payable (or commence to become payable) on a specified event or events; and
  - (d) funding under the scheme should recognise the need to provide value for money in connection with funding arrangements including, as appropriate, through contestable provision of basic infrastructure; and
  - (e) rebates for charges should be available in appropriate circumstances; and
  - (f) exemptions from the imposition of a charge should be considered depending on the circumstances of the case.
- (3) In connection with subsection (2)(c), an event or events that trigger the requirement to make, or to begin to make, a payment under a charge must be related to when development is undertaken being—
- (a) the depositing of a plan for the division of land under Part 19AB of the *Real Property Act 1886*; or
  - (b) undertaking of approved development.
- (4) In addition to subsection (2)(f), exemptions from the imposition of a charge under Subdivision 7 will apply in any circumstances prescribed by the regulations.
- (5) In addition to the other provisions of this Division, in developing a funding arrangement that includes a proposal for the collection of contributions under Subdivision 8, the scheme coordinator should seek to act consistently with the following principles:
- (a) the contributions should be limited to recovering the reasonable capital costs of the scheme based only on infrastructure that is not excessive and that is not produced or delivered at a cost or price that is unreasonable in the circumstances;
  - (b) the contributions should not have an excessively adverse impact on—
    - (i) housing or living affordability within a contribution area; or

- (ii) employment, investment or economic viability associated with a contribution area;
  - (c) the timing of the collection of contributions under the scheme should be connected to the production or delivery of infrastructure to which the contributions relate, such that the scheme should not involve the collection of an excessive amount of contributions before the relevant infrastructure is produced or delivered; and
  - (d) funding under the scheme—
    - (i) may, as appropriate—
      - (A) seek to attribute costs over the lifetime of the relevant infrastructure (or over some other appropriate period); or
      - (B) be based on contributions that become payable on a specified event or events; and
    - (ii) should recognise the need to provide value for money in connection with funding arrangements including, as appropriate, through the contestable provision of infrastructure;
  - (e) augmentation charges should be shared between beneficiaries in proportion to the benefits that they receive;
  - (f) rebates for charges imposed under Subdivision 8 should be available in appropriate circumstances;
  - (g) exemptions from the imposition of charges imposed under Subdivision 8 should be considered depending on the circumstances of the case.
- (6) In connection with subsection (5)(d)(i)(B), an event or events that trigger the requirement to make, or to begin to make, contributions should be related to when a benefit will begin to accrue, or is intended to accrue—
- (a) in relation to land; or
  - (b) to the persons who will be subject to charges within a contribution area under Subdivision 8,  
being (for example)—
    - (c) the division of land; or
    - (d) a change to Planning and Design Code; or
    - (e) an approval or the undertaking of development (including development involving the provision of infrastructure).
- (7) In addition to subsection (5)(g), exemptions from the imposition of a charge imposed under Subdivision 8 will apply in any circumstances prescribed by the regulations.
- (8) The scheme coordinator will, after taking the steps set out in subsection (1), prepare a report on the outcome of its activities and furnish a copy of the report to the Minister.

- (9) The Minister must publish a copy of a report furnished under subsection (8) on the SA planning portal as soon as is reasonably practicable after determining whether or not to proceed with the scheme to which the report relates, subject to any qualifications or redactions that are necessary to prevent the disclosure of confidential or commercially sensitive information provided by or relating to—
- (a) an owner or occupier of land; or
  - (b) a proponent of development relating to the provision of infrastructure; or
  - (c) a provider of infrastructure.

## **Subdivision 5—Adoption of proposed scheme and related operational matters**

### **167—Adoption of scheme**

- (1) The Minister may, on the receipt of a report on a proposed scheme furnished by a scheme coordinator—
- (a) determine to proceed with the scheme with any variations, exclusions or inclusions as the Minister thinks fit; or
  - (b) determine not to proceed with the scheme.
- (2) However, the Minister must, before making a variation, exclusion or inclusion under subsection (1)(a) that will involve a significant change to the scheme, refer the scheme (including the proposed variation, exclusion or inclusion) to the scheme coordinator for the scheme coordinator to consider and report to the Minister on the scheme in accordance with section 166 as if it were a proposed scheme under that section.
- (3) If the Minister decides to proceed under subsection (1)(a), the Minister must cause a final outline of the scheme to be—
- (a) notified in the Gazette; and
  - (b) published on the SA planning portal.
- (4) A funding arrangement that forms part of a scheme takes effect subject to obtaining an approval under Subdivision 6.
- (5) The Minister may, if the Minister considers it necessary or appropriate to do so, vary an outline of the scheme at any time.
- (6) A variation under subsection (5) may include a proposal to vary a funding arrangement that has been approved under Subdivision 6.
- (7) The Minister must, before making a variation that will involve a significant change to the scheme—
- (a) if the scheme provides for the imposition of a charge under Subdivision 7, give consideration to whether or not such a charge should be included in the scheme, taking into account the variation and the matters referred to in section 163(9); and
  - (b) seek the advice of the Commission; and
  - (c) take reasonable steps to consult with the council within whose area the scheme is proposed to be undertaken and, if relevant, any council whose area may include the whole or any part of a proposed contribution area; and

- (d) take reasonable steps to consult with the owners of any land that would be directly affected by any infrastructure or works to be provided or undertaken under the proposed scheme; and
  - (e) consult with any other person or body as the Minister thinks fit,
- and the Minister must then refer the scheme (as proposed to be varied) to the scheme coordinator.
- (8) The scheme coordinator must, on a referral under subsection (7), consider and report to the Minister on the scheme in accordance with section 166 as if it were a proposed scheme under that section.
  - (9) A variation under subsection (5) will be made by the Minister by instrument—
    - (a) notified in the Gazette; and
    - (b) published on the SA planning portal.
  - (10) The Minister may, in constituting a scheme, include or address any other matter as the Minister thinks fit.
  - (11) To avoid doubt, the liabilities of a scheme will accrue under the terms of the scheme (and, if relevant, against a fund established under Subdivision 9 and not against a council that is required to make contributions under Subdivision 8).
  - (12) Once a scheme has been adopted by the Minister, the Chief Executive must ensure that the Commission is kept informed about the operation of the scheme (and any significant changes to the scheme) under an arrangement established by the Chief Executive in consultation with the Commission.

### **168—Role of scheme coordinator in relation to delivery of scheme**

- (1) The scheme coordinator has the following functions in relation to a scheme established under this Division:
  - (a) to oversee the delivery of any infrastructure or works that form part of the scheme;
  - (b) if a funding arrangement is approved under this Division—to administer the funding arrangement and to provide advice to the Minister about the enforcement of any charge under Subdivision 7 or the levels and amounts of any contributions that are to be recovered under Subdivision 8;
  - (c) to provide advice to the Minister about what should happen on the completion of the works associated with the scheme;
  - (d) to provide advice on any other matter at the request of the Minister or as the scheme coordinator thinks fit;
  - (e) such other functions assigned by the Minister after consultation with the Chief Executive.
- (2) Without limiting subsection (1), the scheme coordinator should seek to ensure that essential infrastructure is procured and delivered in a timely manner and at reasonable cost and, in so doing, apply and act in accordance with the following principles:
  - (a) the cost of essential infrastructure should be open and transparent;

- (b) the design of, and procurement processes for, essential infrastructure should be dynamic, flexible and adaptable to the changes in circumstances, especially changes within a designated growth area or contribution area;
  - (c) essential infrastructure should be delivered in a way that facilitates and promotes orderly and economic development, economic growth and employment.
- (3) In addition, the scheme coordinator should, insofar as is reasonable, seek out and bring to the attention of the Chief Executive any additional or alternative funding sources that could ensure that charges and contributions under any funding arrangement for infrastructure under the relevant scheme are kept as low as possible.

## **Subdivision 6—Funding arrangements**

### **169—Funding arrangements**

- (1) A funding arrangement established under this Division may—
- (a) include 1 or more of the following:
    - (i) the provision of funds from public or private sources (including by the Treasurer providing guarantees if the Treasurer thinks fit);
    - (ii) exemptions from 1 or more taxes, levies or local government rates imposed under a law of the State;
    - (iii) the imposition of a charge under Subdivision 7, including by establishing a designated growth area;
    - (iv) the collection of contributions under Subdivision 8, including by designating the relevant contribution area or areas; and
  - (b) include a scheme for rebates and other adjustments in relation to contributions that would be otherwise payable under Subdivision 7 or Subdivision 8 (and any such scheme will have effect according to its terms); and
  - (c) provide for any charge or other amount to be imposed, collected, rebated or adjusted according to a determination of ESCOSA, or of some other specified person or body (including a determination that is made after the scheme has been approved under this section); and
  - (d) include a scheme for other works to be undertaken on an "in kind" basis; and
  - (e) provide for other matters determined by the Minister.
- (2) In connection with subsection (1)—
- (a) a scheme that provides for the imposition of a charge under Subdivision 7—
    - (i) may provide for the indexing of the charge under an index, or at a rate, determined or approved by the ESCOSA, or by some other prescribed person or body; and
    - (ii) must specify arrangements for the periodic review of the charge under the relevant scheme and, as part of such a review, may provide for any matter to be considered or determined by ESCOSA, or by some other prescribed person or body; and

- (b) a scheme that provides for the collection of contributions under Subdivision 8 must specify arrangements for the periodic review of the levels and amounts of those contributions and, as part of such a review, may provide for any matter to be considered or determined by ESCOSA, or by some other prescribed person or body, on application by the Minister or a council; and
  - (c) ESCOSA has (in addition to ESCOSA's functions and powers under the *Essential Services Commission Act 2002*)—
    - (i) the ability to make a determination for the purposes of subsection (1)(c); and
    - (ii) the ability to act on an application under paragraph (a) or (b); and
    - (iii) any other functions and powers conferred by regulations made under this Act; and
  - (d) if ESCOSA is to act under this section, the *Essential Services Commission Act 2002* may apply subject to such modifications as may be prescribed by regulations made on the recommendation of the Minister after consultation with ESCOSA.
- (3) Despite paragraph (a) of subsection (2), ESCOSA, or another prescribed person or body acting in accordance with that paragraph, may not make a determination in relation to a scheme that provides for the imposition of a charge under Subdivision 7 that results in the charge being payable over a longer period of time than the period applying under the funding arrangement established by the scheme.
  - (4) Despite the preceding subsections, a funding arrangement under a scheme that provides for the imposition of a charge under Subdivision 7 must provide that the liability to make a payment or payments under the charge after the occurrence of an event or events that trigger the requirement to make, or to begin to make, such payments cannot be transferred to a purchaser of any land or dwelling to which the scheme relates who intends to occupy the land or dwelling for residential purposes.
  - (5) A funding arrangement has no force or effect unless or until it has been approved by the Governor by notice published in the Gazette.
  - (6) The Governor may vary or revoke a funding arrangement approved under subsection (5) by further notice published in the Gazette.
  - (7) If the Governor approves or varies a funding arrangement under this section, the Minister must—
    - (a) prepare a report that sets out the funding arrangement and information about any contribution that is to be collected under Subdivision 8 or charge that is to be imposed under Subdivision 7 or, if relevant, the extent of a variation; and
    - (b) furnish a copy of the report to the ERD Committee; and
    - (c) publish a copy of the report on the SA planning portal.

- (8) A funding arrangement that provides for or includes the collection of contributions under Subdivision 8 in relation to prescribed infrastructure cannot be approved under subsection (5) unless (in relation to the component that relates to the imposition of those contributions)—
- (a) the Minister has made a recommendation for the purposes of this subsection to the Governor that the funding arrangement be approved; and
  - (b) the funding arrangement has been approved by all of the persons who, at the time that the Minister is submitting the funding arrangement for approval of the Governor under subsection (5), own land within the relevant contribution area or areas, other than—
    - (i) community land under the *Local Government Act 1999*; or
    - (ii) a public road under the *Local Government Act 1999*; or
    - (iii) dedicated land under the *Crown Land Management Act 2009*; or
    - (iv) land held by, or under the care, control or management of, the Urban Renewal Authority under the *Urban Renewal Act 1995*; or
    - (v) other land held for a public purpose excluded from the ambit of this definition by the regulations.
- (9) In connection with subsection (8)—
- (a) the Minister must not make a recommendation under subsection (8)(a) unless or until—
    - (i) the Commission has taken reasonable steps to consult with—
      - (A) an entity or entities that, in the opinion of the Minister, represent the interests of persons who are directly involved in providing infrastructure or developing land that may be subject to a scheme of the relevant kind under this Division; and
      - (B) if the funding arrangement is specifically relevant to a particular council or councils—that council or those councils; and
      - (C) the LGA; and
      - (D) any other person or body specified by the Minister; and
    - (ii) the Commission has furnished a report to the Minister—
      - (A) setting out the outcome of the consultation required under subparagraph (i); and
      - (B) recommending that the Minister make the recommendation under subsection (8)(a);
  - (b) the approval of any person under subsection (8)(b) will be obtained or ascertained in a manner determined by the Minister for the purposes of that subsection.

- 
- (10) The Commission may only make a recommendation to the Minister under subsection (9)(a)(ii)(B) if the Commission is satisfied, having regard to any consultation on the scheme undertaken by the scheme coordinator, that the scheme provides for contributions under Subdivision 8, and rebates and other adjustments in relation to the contributions, in a manner that—
- (a) is fair and equitable; and
  - (b) would not unreasonably disadvantage persons who own small areas of land within the relevant contribution area or areas; and
  - (c) is reasonable taking into account the matters referred to in section 164(8) and the principles referred to in section 166(5).
- (11) If a report furnished to the ERD Committee under subsection (7) relates to the approval of a scheme for the collection of contributions under Subdivision 8 (a **contributions scheme**) or the approval or variation of a funding arrangement under a scheme that provides for the imposition of a charge under Subdivision 7 (a **charge scheme**), the ERD Committee must, after receiving the report—
- (a) resolve that it does not object to the contributions scheme or charge scheme (as the case requires); or
  - (b) resolve to suggest amendments to the contributions scheme or charge scheme (as the case requires); or
  - (c) resolve to object to the contributions scheme or charge scheme (as the case requires).
- (12) Subject to subsection (14), if, at the expiration of 28 days from the day on which the report was referred to the ERD Committee under subsection (7), the ERD Committee has not made a resolution under subsection (11), it will be conclusively presumed that the ERD Committee does not object to the contributions scheme or charge scheme (as the case requires) and does not propose to suggest any amendments.
- (13) Subject to subsection (14), if the period of 28 days referred to in subsection (12) would, but for this subsection, expire in a particular case between 15 December in 1 year and 15 January in the next year (both days inclusive), the period applying for the purposes of subsection (12) will be extended on the basis that any days falling on or between those 2 dates will not be taken into account for the purposes of calculating the period that applies under subsection (12).
- (14) If the period applying under subsection (12), including by virtue of subsection (13), would, but for this subsection, expire in a particular case sometime between the day on which the House of Assembly is dissolved for the purposes of a general election and the day on which the ERD Committee is reconstituted at the beginning of the first session of the new Parliament after that election (both days inclusive), the period will be extended by force of this subsection so as to expire 28 days from the day on which the ERD Committee is so reconstituted.
- (15) If an amendment is suggested under subsection (11)—
- (a) the Minister may proceed to make such an amendment; or
  - (b) the Minister may report back to the ERD Committee that the Minister is unwilling to make the amendment suggested by the ERD Committee and, in such a case, the ERD Committee may—

- (i) resolve that it does not object to the contributions scheme or charge scheme (as the case requires); or
  - (ii) resolve to object to the contributions scheme or charge scheme (as the case requires).
- (16) If the ERD Committee resolves to object to the contributions scheme or charge scheme (as the case requires), copies of the report furnished to the ERD Committee under subsection (7) must be laid before both Houses of Parliament.
- (17) If either House of Parliament passes a resolution disallowing the contributions scheme or charge scheme (as the case requires) after a report has been laid before it under subsection (16), then the contributions scheme or charge scheme (as the case requires) will cease to have effect.
- (18) A resolution is not effective for the purposes of subsection (17) unless passed in pursuance of a notice of motion given within 14 sitting days (which need not fall within the same session of Parliament) after the day on which the relevant report was laid before the House.
- (19) If a resolution is passed under subsection (18), notice of that resolution must immediately be published in the Gazette.
- (20) Subsections (11) to (19) (inclusive) do not apply in a particular case if—
  - (a) the Minister has consulted with the ERD Committee before the contributions scheme or charge scheme (as the case requires) has been finalised; and
  - (b) the ERD Committee has resolved, on account of that consultation, that the scheme need not be subject to the processes set out in those subsections if or when it has been approved by the Governor as part of the relevant funding arrangement under subsection (5).
- (21) In this section—

*prescribed infrastructure* means—

  - (a) infrastructure within the ambit of paragraph (i), (j) or (k) of the definition of *essential infrastructure* under section 3(1); or
  - (b) without limiting paragraph (a), infrastructure that relates to the provision of public transport; or
  - (c) other infrastructure brought within the ambit of this definition by the regulations.

### **170—Government guarantees**

A liability of the Crown arising by virtue of a guarantee under an approved funding arrangement is to be paid out of the Consolidated Account (which is appropriated to the necessary extent).

### **171—Exemptions from taxes and levies**

An exemption from a tax, levy or local government rate under an approved funding arrangement will have effect by force of this section (and despite any other Act).

## Subdivision 7—Charges on land

### 172—Application of Subdivision

This Subdivision applies with respect to charges for the purposes of a scheme initiated under Subdivision 2.

### 173—Creation of charge

- (1) The Minister may impose a charge under this Subdivision over land within a designated growth area.
- (2) The Minister may impose a charge over land with or without the agreement of the owner of the land.
- (3) For the purpose of the imposition of a charge, the Minister may deliver to the Registrar-General a notice, in a form determined by the Registrar-General—
  - (a) setting out or incorporating the terms of the charge; and
  - (b) setting out the real property over which it exists; and
  - (c) requesting the Registrar-General to note the charge against the relevant instrument of title or, in the case of land not under the provisions of the *Real Property Act 1886*, against the land.
- (4) The Registrar-General must, on receipt of a notice under subsection (3), in relation to the real property referred to in the notice, enter an appropriate notation in accordance with the notice.
- (5) When an entry is made under subsection (4), a charge over the real property is created.
- (6) The terms and conditions of the charge may be varied—
  - (a) by the Minister after consultation with the owner of the land to which the charge relates (and with or without the agreement of the owner of the land); or
  - (b) on account of a periodic review under section 169(2)(a); or
  - (c) in circumstances prescribed by the regulations.
- (7) A variation under subsection (6) will be effected in a manner determined by the Minister after consultation with the Registrar-General.
- (8) The Minister must, when payments under a charge have been made and paid in full, by further notice to the Registrar-General under this section, cancel the charge.

### 174—Ranking of charge

- (1) While a charge exists over real property, the Registrar-General must not register an instrument affecting the property unless—
  - (a) the instrument was executed before the charge was created or relates to an instrument registered before the charge was created; or
  - (b) the instrument is an instrument of a prescribed class; or
  - (c) the Minister consents to the registration in writing; or
  - (d) the instrument—

- (i) is expressed to be subject to the charge; and
    - (ii) is not a conveyance that relates to the transfer or sale of the real property to a purchaser who intends to occupy the real property for residential purposes; or
  - (e) the instrument is a duly stamped conveyance that relates to the transfer or sale of the real property under section 175.
- (2) An instrument registered under subsection (1)(a), (b) or (c) has effect, in relation to the charge, as if it had been registered before the charge was created.
- (3) If an instrument is registered under subsection (1)(e), the charge will be taken to be cancelled and the Registrar-General must make the appropriate entries to give effect to the cancellation.

### **175—Enforcement of charge**

- (1) If a person fails to comply with the terms and conditions of a charge, the charge may be enforced as follows:
- (a) the Minister must, by notice in the Gazette, inform the person of the breach and give the person at least 1 month to remedy the breach;
  - (b) if the person does not remedy the breach within the time allowed in a notice under paragraph (a), the Minister may proceed to have the land to which the charge relates sold.
- (2) The sale will be by public auction (and the Minister may set a reserve price for the purposes of the sale).
- (3) If, before the date of such an auction, the outstanding amount of the charge and the costs incurred by the Minister in proceeding under this section are paid to the Minister, the Minister must call off the auction.
- (4) The requirement to sell at auction does not apply in any circumstances prescribed by the regulations.
- (5) If—
- (a) an auction fails; or
  - (b) an auction is not required under subsection (4),
- the Minister may sell the land by private contract for the best price that the Minister may reasonably obtain.
- (6) Any money required by the Minister in respect of the sale of land under this section will be applied as follows:
- (a) firstly—in paying the costs of the sale and any other costs of a prescribed kind;
  - (b) secondly—in discharging any liabilities secured by instrument registered before the charge was created, or that is taken to have such effect by virtue of section 174;
  - (c) thirdly—in discharging the amount or amounts secured by the charge;
  - (d) fourthly—in discharging any other liabilities secured by registered instruments;

- (e) fifthly—in discharging any other liabilities that exist in relation to the land of which the Minister has notice;
  - (f) sixthly—in payment to the owner of the land.
- (7) The title obtained under the sale of the land will be free of—
- (a) any charge under this Subdivision; and
  - (b) all other liabilities discharged under subsection (6); and
  - (c) any other liability that may exist on account of any mortgage, charge or encumbrance.
- (8) If land is sold, an instrument of transfer or conveyance in pursuance of the sale executed by the Minister will, on registration or enrolment, operate to vest title to the land in the person named in the transfer or conveyance.
- (9) If it is not reasonably practicable to obtain the duplicate certificate of title to land that is sold in pursuance of this section (or other relevant instrument), the Registrar-General may register a transfer or conveyance despite the non-production of the duplicate (or instrument), but in that event will cancel the existing certificate of title for the land and issue a new certificate in the name of the transferee.

## Subdivision 8—Scheme contributions

### 176—Application of Subdivision

- (1) This Subdivision applies in order to raise contributions for the purposes of a scheme that is undertaken under this Division.
- (2) The contributions will apply in relation to an area of the State designated as a contribution area by the relevant funding arrangement established under Subdivision 6.
- (3) To avoid doubt, a contribution area under a scheme may overlap with a contribution area under another scheme.
- (4) In a case where subsection (3) applies, the relevant contributions will be collected separately and the succeeding provisions of this Subdivision will apply accordingly.

### 177—Contributions by constituent councils

- (1) If this Subdivision applies in relation to a contribution area, the council or councils whose areas or parts of whose areas fall within the contribution area (the *constituent councils*) are responsible to make a contribution under this Subdivision based on an amount specified by the Minister in accordance with this Subdivision in respect of each financial year with respect to which this Subdivision applies.
- (2) Subject to this section, liability for the amount to be contributed by constituent councils will be shared between them—
  - (a) if the charge under section 180 is based on the value of rateable land—
    - (i) unless subparagraph (ii) or (iii) applies, in the proportions that the capital value of the rateable land in the contribution area is distributed amongst the areas of the councils (and this subparagraph applies despite the fact that an individual council uses a different basis to impose the charge);

- (ii) if all of the constituent councils base their general rates on the site value of land—in the proportions that the site value of the rateable land in the contribution area is distributed amongst the areas of the councils;
    - (iii) if all of the constituent councils base their general rates on the annual value of land—in the proportions that the annual value of the rateable land in the contribution area is distributed amongst the areas of the councils;
  - (b) if the charge is a fixed amount on all rateable land—in proportion to the number of rateable properties situated in the area of each council (being properties also situated in the contribution area);
  - (c) if the charge is a fixed amount that depends on the purpose for which rateable land is used—in proportion to the number of rateable properties used for each relevant purpose that are in the area of each council and also in the contribution area;
  - (d) if the charge is based on the area of rateable land—in the proportions that the area of the rateable land in the contribution area is distributed amongst the areas of the councils;
  - (e) if the charge is based on the purpose for which rateable land is used and the area of rateable land—in the proportions that the area of the rateable land in the contribution area that is used for each purpose is distributed amongst the areas of the councils;
  - (f) if the charge is based on the location of rateable land—in proportion to the number of rateable properties situated within the location or locations in the area of each council (being properties also situated in the contribution area).
- (3) The Minister may, in connection with the operation of subsection (2), determine that there should be differentiating factors applied with respect to the calculation of the respective shares of the constituent councils taking into account any matter prescribed by the regulations and make adjustments to the shares that the constituent councils would otherwise contribute on the basis of these factors.
- (4) The share of each council will be determined by the Minister after consultation with the council and the scheme coordinator.
- (5) A council must, at the request of the Minister, supply the Minister with information in the possession of the council to enable the Minister to determine shares under subsections (2) and (3).
- (6) The Minister must cause notice of the determination of a council's share to be given to the council and to be published in the Gazette.
- (7) A regulation cannot be made for the purposes of this section unless the Minister has given the LGA notice of the proposal to make a regulation under this section and given consideration to any submission made by the LGA within a period (of at least 21 days) specified by the Minister.
- (8) In this section—

***rateable land*** means rateable land under the *Local Government Act 1999*.

**178—Payment of contributions**

- (1) A council's share of the amount to be contributed by the constituent councils is payable by the council in approximately equal instalments on 30 September, 31 December, 31 March and 30 June in the year to which the contribution relates in accordance with a determination of the Minister and interest accrues on any amount unpaid at the rate and in the manner prescribed by regulation.
- (2) An amount payable by a council under this section and any interest that accrues in respect of that amount is recoverable as a debt in accordance with a scheme prescribed by the regulations.

**179—Funds may be expended in subsequent years**

To avoid doubt, if an amount paid by a council under this Subdivision is not spent in the financial year in respect of which it was paid, it may be spent in a subsequent financial year.

**180—Imposition of charge by councils**

- (1) In order to reimburse itself for the amounts contributed (or to be contributed) under this Subdivision, a council must impose a charge on rateable land in the contribution area.
- (2) A charge must be consistent with—
  - (a) the funding arrangement established under Subdivision 6; and
  - (b) any determination or direction of the Minister.
- (3) Except to the extent that the contrary intention appears, Chapter 10 of the *Local Government Act 1999* applies to and in relation to a charge as if it were a separate rate under that Chapter.
- (4) Without limiting the operation of any other provision of this Act, the following provisions apply with respect to the application of Chapter 10 of the *Local Government Act 1999* to and in relation to a charge:
  - (a) section 154(1), (2) and (4) of that Act will not apply in relation to the charge and the basis for the charge will be chosen from the following (as set out in the relevant funding arrangement):

- may require—
- (c) that up to 12.5% in area of the relevant area be vested in the council or the Crown (as the case requires) to be held as open space; or
  - (d) that the applicant make the contribution prescribed by the regulations in accordance with the requirements of this section; or
  - (e) that land be vested in the council or the Crown under paragraph (c) and that the applicant make a contribution determined in accordance with subsection (8),

according to the determination and specification of the council or the Commission and, in so acting, the council or the Commission must have regard to any relevant provision of the Planning and Design Code that designates any land as open space and, in the case of a council, must not take any action that is at variance with the Planning and Design Code without the concurrence of the Commission.

- (2) Where an application under this Part provides for—
- (a) the division of land into 20 allotments or less, and 1 or more allotments is less than 1 hectare in area; or
  - (b) the division of land under the *Community Titles Act 1996* or the *Strata Titles Act 1988*,

then, unless the division is of a kind excluded from the operation of this section by the regulations—

- (c) the Commission may require the applicant to pay to the Commission the contribution prescribed by the regulations in accordance with the requirements of this section; or
  - (d) the Commission may enter into an agreement with the applicant under which—
    - (i) certain land described by the relevant plan will be vested (as a separate allotment) in the council in whose area the land is situated or, where the land is not situated within the area of a council, in the Crown, to be held as open space; and
    - (ii) the applicant will make a contribution under this section.
- (3) Where land referred to in subsection (2) is in the area of a council, the council must be a party to an agreement referred to in subsection (2)(d).
- (4) Where an application for a development authorisation provides for the undertaking of development of a prescribed class in prescribed circumstances (being development that does not fall within the ambit of subsection (1) or (2)), the Commission may require—
- (a) that an area not exceeding the prescribed percentage of the total area of the site of the development be kept as open space or in some other form that allows for active or passive recreation (as determined by the Commission), with some or all of this area to be vested in the Crown or, with the concurrence of the council, a council; or
  - (b) that the applicant pay the contribution prescribed by the regulations to the Commission; or
  - (c) that certain land be kept in the manner contemplated by paragraph (a) and that the applicant will make a contribution to the Commission under this section.
- (5) The percentage prescribed under subsection (4)(a) must not exceed 12.5%.
- (6) The council and the Commission must ensure that there is consistency between—
- (a) a requirement imposed under subsection (1), (2) or (4), or an agreement entered into under subsection (2); and
  - (b) the terms of any development authorisation given under this Act.

- (7) Without limiting the operation of any other provision of this Act, the regulations prescribing rates of contribution for the purposes of this section may make different provisions according to designated parts of the State delineated by zone maps in the Planning and Design Code.
- (8) The contribution that may be required under subsection (1)(e) will be determined in accordance with the following formula:

$$P = PC \left[ \frac{(12.5 - OS)}{12.5} \times NA \right]$$

where—

*P* = the contribution payable

*PC* = the rate of contribution prescribed by the regulations for each new allotment or strata lot within the relevant part of the State that do not exceed 1 hectare in area

*OS* = the area of land (expressed as a percentage of the relevant area) to be vested in the council or the Crown as open space

*NA* = the number of new allotments or strata lots delineated on the plan that do not exceed 1 hectare in area.

- (9) For the purposes of this section, if a plan divides a number of existing allotments or strata lots into an equal or lesser number of allotments or strata lots, the allotments or strata lots into which the land is divided will not be regarded as being new allotments or strata lots, and if a plan divides a number of existing allotments or strata lots into a greater number of allotments or strata lots, the number by which the greater number of allotments or strata lots exceeds the existing number of allotments or strata lots will be taken to be the number of new allotments or strata lots created by the plan and, for the purpose of determining the area of the new allotments or strata lots, the smallest allotment or strata lot delineated on the plan will be regarded as the first of the new allotments or strata lots, the next to smallest will be regarded as the second, and so on.
- (10) Payment by the applicant under subsection (1) must be made—
- (a) to the council in whose area the land is situated;
  - (b) if the land is not situated within the area of a council—to the Commission.
- (11) Money received under this section—
- (a) in the case of money received by a council—must be immediately paid into a fund established for the purposes of this section and applied by the council for the purpose of acquiring or developing land as open space;
  - (b) in the case of money received by the Commission—must be paid into the Planning and Development Fund or, in the case of money received under subsection (4), dealt with in any other manner prescribed by the regulations.
- (12) If a council or the Commission is satisfied that the division of land is being undertaken in stages, this section does not apply to an application for development authorisation to the extent that an earlier application in respect of the same development has addressed the requirements of this section in respect of the area of land as a whole.

- (13) In this section, unless the contrary intention appears—

**allotment** has the same meaning as in Part 19AB of the *Real Property Act 1886* and in addition includes a community lot (not being a strata lot) and a development lot within the meaning of the *Community Titles Act 1996* but does not include—

- (a) a strata lot within the meaning of the *Community Titles Act 1996* or a unit within the meaning of the *Strata Titles Act 1988* or common property within the meaning of either of those Acts; or
- (b) a road, street, thoroughfare, reserve or other similar open space delineated on the relevant plan;

**strata lot** means a strata lot within the meaning of the *Community Titles Act 1996* and includes a unit created by a strata plan under the *Strata Titles Act 1988*;

**relevant area** means the area of land delineated on the relevant plan, excluding any allotment that exceeds 1 hectare in area other than a road, street, thoroughfare, reserve or similar open space delineated on the relevant plan.

- (7) In this section—

**apartment** means a self-contained apartment, unit or other residential place that is proposed to be contained in a prescribed building and that is suitable for use for residential purposes, including on a short-term basis after applying any principle prescribed by the regulations for the purposes of this definition, but does not include any premises of a class excluded by the regulations from the ambit of this definition;

- (3) A designated entity may not make an application to the Court under this section to recover an amount from a person as a civil penalty in respect of a contravention—

## **Part 6—Existing applications**

### **18—Continuation of processes**

- (1) *Except as otherwise provided by this Schedule, an application made to a relevant authority under section 39 of the repealed Act that has not been finally determined before the designated day may be continued and completed under the provisions of the repealed Act, except that the relevant authority for the purposes of the application will be, from the designated day, a relevant authority under this Act determined in accordance with a scheme prescribed by the regulations.*
- (2) *A relevant authority under this Act acting under subclause (1) may—*
  - (a) *adopt any findings or determinations of a relevant authority under the repealed Act that may be relevant to an application to which that subclause applies; and*
  - (b) *adopt or make any decision (including a decision in the nature of a determination), direction or order in relation to an application to which that subclause applies; and*
  - (c) *deal with any matter that is subject to a reserved decision under the repealed Act before the designated day; and*
  - (d) *deal with any requirement or grant any variation imposed or proposed in connection with an application to which that subclause applies; and*
  - (e) *take any other step or make any other determination authorised by the regulations, or that is reasonably necessary to promote or ensure a smooth transition on account of the transfer of functions, powers or duties under this clause.*
- (3) *Nothing in subclause (1) or (2) limits or affects the operation of Part 5 of this Schedule to the extent that an assessment panel under this Act is already acting under the repealed Act by virtue of the operation of the provisions of that Part.*

- (4) *A notice of a decision on an application to which this clause applies will be in the form that applies under section 126 of this Act rather than the form that applies under section 40 of the repealed Act.*
- (5) *Despite subclauses (1) and (2), section 127 of this Act will apply in relation to an application to which this clause applies rather than section 42 of the repealed Act.*
- (6) *A decision on an application to which this clause applies will, once given under the preceding subclauses, be taken to be a decision given under this Act (and this Act will apply in relation to the relevant development authorisation subject to any provision made by this Schedule).*
- (7) *To avoid doubt, section 125 of this Act, insofar as it provides for a deemed consent notice or a deemed planning consent, does not apply in relation to an application to which this clause applies.*

### **19—Appeals**

*To avoid doubt, a right of appeal under sections 38 and 86(1)(b) of the repealed Act may be exercised in relation to an application made to a relevant authority under section 39 of the repealed Act that has not been finally determined before the designated day even if the process under section 38 of the repealed Act had not been commenced (or completed) before the designated day.*

### **20—Major development or projects**

- (1) *The repealed Act will continue to apply to and in relation to a proposed development or project that is the subject of a declaration under section 46 of the repealed Act before the designated day (and that has not been the subject of a decision of the Governor under section 48 of the repealed Act before the designated day) except that section 48 of the repealed Act will, on and after the designated day, apply as if a reference to the Governor were a reference to the Minister.*
- (2) *A decision of the Minister in relation to a development or project under subclause (1) that is made on or after the designated day will have effect as if it were a decision of the Minister under section 115 of this Act.*

### **21—Crown and infrastructure development**

- (1) *Except as otherwise provided by this Schedule, an application lodged under section 49 or 49A of the repealed Act that has not been finally determined before the designated day may be continued and completed under the provisions of the repealed Act.*
- (2) *A decision on an application to which this clause applies will, once given under subclause (1), be taken to be a decision given under this Act (and this Act will apply in relation to the relevant development authorisation subject to any provision made by this Schedule).*
- (3) *Section 131(29) of this Act does not apply to or in relation to a regulation made under section 131(28)(b) of this Act if the Governor, at the time the regulation is made, declares that the Governor is satisfied that the regulation is the same as, or substantially the same as, the regulation applying under section 49(19)(b) of the repealed Act immediately before the regulation under the repealed Act is revoked and substituted by the regulation under this Act.*

## **22—Building work**

- (1) Subject to subclause (2), section 139 of this Act will extend to a development approval given before the designated day.
- (2) Subclause (1) does not apply if a notice relating to the relevant building work has been served on the owner of the affected site under section 60 of the repealed Act before the designated day.
- (3) In a case applying under subclause (2), section 60 of the repealed Act will continue to apply in such a case until the matter has been finally determined under the repealed Act.
- (4) Section 140 of this Act will extend to building work in relation to which a development approval has been given before the designated day.
- (5) To avoid doubt, nothing in this Act affects the operation of a notice given under section 61 of the repealed Act before the designated day or any right under section 62, 63 or 64 of the repealed Act insofar as those sections relate to any action commenced or completed before the relevant day.

## ***Part 7—Development Plans relevant to assessments under this Act***

### **23—Application of Part**

*This Part applies to and in relation to an application for planning consent made under this Act after the designated day if the provisions of a Development Plan are still relevant to the assessment of that application.*

### **24—Complying development**

*If proposed development that is the subject of an application to which this Part applies is of a kind described as complying development under the Development Plan, the development will be taken to be classified as deemed-to-satisfy development under this Act.*

### **25—Non-complying development**

- (1) *If proposed development that is the subject of an application to which this Part applies is of a kind described as non-complying development under the Development Plan—*
  - (a) *the development will be taken to be classified as restricted development; but*
  - (b) *unless the proposed development is within the ambit of section 94(1) (other than paragraph (d) of section 94(1))—the relevant authority in relation to the development will be taken to be the assessment panel appointed by the council in respect of the area where the development is to be undertaken.*
- (2) *In a case where an assessment panel is a relevant authority by virtue of the operation of subclause (1)(b)—*
  - (a) *the assessment panel must comply with the practice direction published under section 109(1)(a) and the requirement of section 109(2)(a); and*
  - (b) *any reference in section 110 to the State Planning Commission will be taken to include a reference to the assessment panel; and*

- (c) *the assessment panel must comply with any other practice direction published by the Commission in relation to the operation of this clause.*
- (3) *This clause does not apply to or in relation to any proposed development that is classified or declared to be impact assessed development under Part 7 Division 2 Subdivision 4 of this Act.*
- (4) *This clause expires on 1 July 2020.*
- (5) *An application being considered by an assessment panel under this clause on 1 July 2020 may be continued and completed by the State Planning Commission as a relevant authority on and after that date.*
- (6) *The State Planning Commission acting under subclause (5) may—*
- (a) *adopt any findings or determinations of an assessment panel that may be relevant to an application to which that subclause applies; and*
  - (b) *adopt or make any decision (including a decision in the nature of a determination), direction or order in relation to an application to which that subclause applies; and*
  - (c) *deal with any matter that is subject to a reserved decision before 1 July 2020; and*
  - (d) *deal with any requirement or grant any variation imposed or proposed in connection with an application to which that subclause applies; and*
  - (e) *take any other step or make any other determination authorised by the regulations, or that is reasonably necessary to promote or ensure a smooth transition on account of the transfer of functions, powers or duties under this clause.*
