## **Part 2—Boston Bay and Lincoln Offshore aquaculture zone**

### **5—Identification of aquaculture zone**

The Boston Bay and Lincoln Offshore aquaculture zone (consisting of the Bicker Isles, Boston Bay, Boston Island East and Lincoln Offshore sectors) comprises the State waters described in Schedule 1 clause 1.

### **6—Class of permitted aquaculture**

The classes of aquaculture permitted in the Boston Bay and Lincoln Offshore aquaculture zone are—

- (a) the farming of aquatic animals in a manner that involves regular feeding; and
- (b) the farming of bivalve molluscs; and
- (c) the farming of algae.

### **7—Prescribed criteria**

- (1) In the determination of applications for licences and in the making of other decisions under the Act in relation to the Boston Bay and Lincoln Offshore aquaculture zone, the following prescribed criteria must be taken into account:
  - (a) the biomass of the aquatic animals (other than prescribed wild caught tuna) being farmed in the Boston Bay, Boston Island East and Bicker Isles sectors in a manner that involves regular feeding must not exceed—
    - (i) an amount that would, in the opinion of the Minister, have an environmental impact on the zone equivalent to the environmental impact that 1 750 tonnes of finfish would have on the zone; or
    - (ii) if some other amount is specified by the Minister by notice in the Gazette, that other amount;
  - (b) the leased area in the Boston Bay and Boston Island East sectors (when combined) must not exceed 283 hectares;

- (c) in the Boston Bay sector—
  - (i) prescribed wild caught tuna must not be farmed other than for the purposes of—
    - (A) research; or
    - (B) trade, or a business, established for educational purposes; or

  - (iii) the area for the farming of bivalve molluscs must not exceed 149 hectares or, if some other area is specified by the Minister by notice in the Gazette, that other area; and
  - (iv) the biomass of bivalve molluscs being farmed must not exceed 2 980 tonnes or, if some other amount is specified by the Minister by notice in the Gazette, that other amount;
- (d) in the Boston Island East sector—
  - (i) the biomass of prescribed wild caught tuna being farmed must not exceed 360 tonnes or, if some other amount is specified by the Minister by notice in the Gazette, that other amount; and
  - (ii) the area for the farming of bivalve molluscs must not exceed 20 hectares or, if some other area is specified by the Minister by notice in the Gazette, that other area; and
  - (iii) the biomass of bivalve molluscs being farmed must not exceed 400 tonnes, or, if some other amount is specified by the Minister by notice in the Gazette, that other amount;
- (e) in the Bicker Isles sector—
  - (i) the leased area must not exceed 60 hectares; and
  - (ii) the area for the farming of bivalve molluscs must not exceed 20 hectares or, if some other area is specified by the Minister by notice in the Gazette, that other area; and
  - (iii) the biomass of bivalve molluscs being farmed must not exceed 400 tonnes, or, if some other amount is specified by the Minister by notice in the Gazette, that other amount; and
  - (iv) prescribed wild caught tuna must not be farmed;
- (f) in the Lincoln Offshore sector—
  - (i) the leased area must not exceed 1 850 hectares; and
  - (ii) there must be no aquaculture other than the farming of prescribed wild caught tuna; and
  - (iii) the biomass of prescribed wild caught tuna being farmed must not exceed 10 500 tonnes, or, if some other amount is specified by the Minister by notice in the Gazette, that other amount.

- (2) However, a notice under subclause (1) must not increase the biomass of bivalve molluscs that may be farmed in a sector unless the Minister is satisfied that the increase would not compromise the overall productivity of the bivalve mollusc industry being carried on in the sector.
