4—Constitution of fisheries

- (1) The following fisheries are constituted:
- (a) the Marine Scalefish Fishery;
 - (b) the Restricted Marine Scalefish Fishery.
- (2) The Marine Scalefish Fishery and the Restricted Marine Scalefish Fishery each consist of—
- (a) the taking of aquatic resources specified in Schedule 1 in coastal waters; and
 - (b) the taking of Razorfish (*Pinna bicolor*) in coastal waters for the purpose of bait.
- (3) The holder of a licence in respect of a marine scalefish fishery must not, for a commercial purpose, take blue crab in a blue crab fishing zone unless the licence is subject to a condition fixing a blue crab quota entitlement in relation to that zone.
- Maximum penalty: \$5 000.

5—Maximum number of licences that may be in force

- (1) The maximum number of licences that may be in force in respect of the Marine Scalefish Fishery is the number of licences in force in respect of that fishery immediately before the commencement of this regulation.
- (2) The maximum number of licences that may be in force in respect of the Restricted Marine Scalefish Fishery is the number of licences in force in respect of that fishery immediately before the commencement of this regulation.

9—Transfer of licences

- (1) In this regulation—
- authorised amalgamation scheme transfer* means a transfer of a licence that is authorised under regulation 11;
- authorised family transfer* means a transfer of a licence that is authorised under regulation 10.
- (2) Subject to these regulations, licences in respect of a marine scalefish fishery are transferable.
- (3) A licence in respect of the Restricted Marine Scalefish Fishery cannot be transferred to the holder of another licence in respect of that fishery.
- (4) An application for consent to the transfer of a licence must be accompanied by—
- (a) the licence to be transferred; and
 - (b) a form of return as required by regulation 27 completed by the holder of the licence up to the date of application.
- (5) The Minister may only consent to the transfer of a licence if satisfied as to the following:
- (a) that the transfer is—
 - (i) an authorised family transfer; or
 - (ii) an authorised amalgamation scheme transfer;
 - (b) that any fees or other amounts payable in relation to the licence under the Act or the repealed Act have been paid in full;
 - (c) that the licence to be transferred has not been suspended;
 - (d) that the transfer is to 1 person only;
 - (e) that no proceedings alleging an offence against the Act or the repealed Act are pending or likely to be commenced in the State against the holder of the licence;
 - (f) that the transferee is a natural person of at least 15 years of age and is a fit and proper person to hold a licence in respect of a marine scalefish fishery;
 - (g) if a boat registered for use under the licence is the subject of, is registered for use under, or is otherwise referred to in, a licence, permit, authority or other entitlement to take aquatic resources granted under a law of the Commonwealth or a corresponding law—
 - (i) that the entitlement is either to be transferred together with the licence to the transferee or to be surrendered on or before the transfer of the licence; or
 - (ii) that—
 - (A) the transfer of the licence separately from the entitlement is not likely to result in fishing activities that over-exploit or endanger the aquatic resources of the State; and

- (B) the person or body that granted the entitlement concurs with the separate transfer of the licence.

10—Transfer of licences between family members

Subject to regulation 9, a licence in respect of the Marine Scalefish Fishery may be transferred if the transferee is—

- (a) the spouse or domestic partner of the licensee; or
- (b) a parent or grandparent of the licensee; or
- (c) a brother or sister, or half-brother or half-sister, of the licensee; or
- (d) a child or grandchild of the licensee; or
- (e) a child or grandchild of the spouse or domestic partner of the licensee.

11—Transfer of licences under amalgamation scheme

- (1) In this regulation—

aggregate fishing points value, in relation to 2 or more licences, means the sum of the fishing points values endorsed on the licences under this regulation;

aggregate gear entitlement, in relation to 2 or more licences, means the aggregate of the gear entitlements under the licences;

licence means a licence in respect of a marine scalefish fishery;

line licence means a licence other than a net licence;

net means a fish net as defined in the *Fisheries Management (General) Regulations 2007* but does not include a bait net as defined in those regulations;

net licence means a licence under which there is a gear entitlement that authorises the use of 1 or more nets (whether or not the entitlement authorises the use of other devices).

- (2) For the purposes of this regulation, the Minister must adopt and implement a system for ranking net licences in respect of the Marine Scalefish Fishery and a system for ranking line licences in respect of that fishery under which—
- (a) points are allotted to every net licence or line licence, as the case may be, based on—
 - (i) the quantities of each species of aquatic resources taken under the licence during a specified period (as recorded on returns lodged in respect of the licence under regulation 27 or the corresponding regulation previously in force); and
 - (ii) values (reflecting market values) applied in relation to those recorded quantities of each species,so that the greater the resulting total value the greater the points allotted to the licence; and
 - (b) all net licences are arranged in ascending order of allotted points and then divided into 10 approximately equal groups and all line licences are similarly arranged and divided into groups; and

- (c) the licences in each group are each given a value (a *fishing points value*) starting with 11 for the group with the lowest range of allotted points, 12 for the next group and so on through to 18 so that the value 18 is given to the licences in the groups with the 3 highest ranges of allotted points.
- (3) The Minister must then endorse on each licence in respect of the Marine Scalefish Fishery the fishing points value given to the licence under the system for ranking net licences or the system for ranking line licences (as the case may be) under subregulation (2).
- (4) The Minister must endorse on each licence in respect of the Restricted Marine Scalefish Fishery a fishing points value of 7.
- (5) The fishing points value endorsed on a licence under this regulation may be varied only—
 - (a) to reflect a change of the licence from a net licence to a line licence; or
 - (b) as otherwise required under this regulation; or
 - (c) in order to correct an error.
- (6) Subject to regulation 9, a licence may then be transferred as authorised under the following provisions:
 - (a) a net licence in respect of the Marine Scalefish Fishery may be transferred to the holder of another net licence in respect of that fishery;
 - (b) a line licence in respect of the Marine Scalefish Fishery may be transferred to the holder of another line licence in respect of that fishery;
 - (c) 1 or 2 licences in respect of the Restricted Marine Scalefish Fishery may be transferred to the holder of a licence in respect of the Marine Scalefish Fishery;
 - (d) if a transfer of a kind referred to in a preceding paragraph has effect, the transferee must surrender to the Minister 1 of the 2 licences, or 2 of the 3 licences, as the case may be, then held by the transferee;
 - (e) if 1 or more of the licences held by the transferee has recorded on it under section 56 of the repealed Act a conviction for an offence committed within the preceding period of 3 years, the licence or licences surrendered must be—
 - (i) the licence or licences without such a conviction, or as the case may require, the licence or licences with the lesser number of such convictions, recorded on the licence or licences; or
 - (ii) if the same number of such convictions is recorded on each licence— the licence or licences other than the licence with a conviction recorded on it for the most recently committed offence;
 - (f) if 1 or more licences are to be surrendered but any fees or other amounts payable under the Act or the repealed Act in respect of those licences have not been paid in full, the fees or amounts still owing must be paid on or before the surrender of those licences;
 - (g) on the surrender of a licence and payment of any amount required to be paid under paragraph (f) in respect of the licence, the Minister must—

- (i) replace the gear endorsement of the remaining licence held by the transferee with a gear endorsement that makes provision for the aggregate gear entitlement in relation to that licence and the surrendered licence or licences; and
 - (ii) vary the fishing points value endorsed on the remaining licence under this regulation so that it equals the aggregate fishing points value in relation to that licence and the surrendered licence or licences;
- (h) when, as a result of the process referred to in paragraphs (a) to (g), the fishing points value endorsed on a licence under this regulation equals or exceeds 24, the licence may be transferred without complying with those paragraphs;
- (i) replace the gear entitlement under the remaining licence held by the transferee with a gear entitlement that makes provision for the aggregate gear entitlement under that licence and the surrendered licence or licences.

12—Registration

- (1) An application by the holder of a licence in respect of a marine scalefish fishery—
- (a) to register a boat or device for use under the licence; or
 - (b) to register a person as a master of a boat that may be used under the licence,
- must be accompanied by the documents specified in the application form.
- (2) A person other than the holder of a licence in respect of a marine scalefish fishery (the *licensee*) cannot be registered as the master of a boat used under the licence unless the licensee is already registered as the master of a boat used under another licence in respect of a marine scalefish fishery held by the licensee.

13—Revocation of registration

- (1) The Minister may, on application by the holder of a licence in respect of a marine scalefish fishery, revoke the registration of—
- (a) a boat or device used under the licence; or
 - (b) a person as a master of a boat that may be used under the licence.
- (2) An application for revocation of registration must—

 - (c) be accompanied by the documents specified in the application form.

14—Registered master may be assisted by only 1 agent

Maximum penalty: \$5 000.

Expiation fee: \$315.

15—Carriage of crab nets on boats

The Minister may impose conditions on licences in respect of a marine scalefish fishery limiting the number of crab nets that may be carried on boats and otherwise regulating the carrying of crab nets used for fishing activities engaged in under the licences.

16—Individual cockle catch quota system

- (1) In this regulation—

cockle quota entitlement or **quota entitlement**, in relation to a licence in respect of a marine scalefish fishery or an eligible rock lobster fishery licence and a cockle fishing zone, means the maximum number of kilograms of cockles that may be lawfully taken by the holder of the licence in that zone during a quota period, being the product of—

- (a) the unit entitlement under that licence in respect of that zone; and
- (b) the unit value for that zone and quota period,

subject to any variation applying during that quota period;

eligible marine scalefish fishery licence means a licence in respect of a marine scalefish fishery held on the commencement of this regulation by a person who lawfully took cockles under the licence in a cockle fishing zone during the period that commenced on 1 January 1997 and ended on 30 June 2006 (as recorded on completed returns lodged under the relevant regulations);

eligible rock lobster fishery licence means a licence in respect of the Northern Zone Rock Lobster Fishery under which the holder may lawfully take aquatic resources specified in Schedule 1 of the *Fisheries Management (Rock Lobster Fisheries) Regulations 2006*;

unit entitlement means the number of cockle units for the time being allocated to a licence;

unit value means the number of kilograms of cockles determined by the Minister to be the value of a cockle unit for a cockle fishing zone and a quota period.

- (2) In this regulation, a reference to a **quota period** is a reference to—
- (a) the period commencing on the day on which this regulation comes into operation and ending on 30 June 2009; or
 - (b) a period of 12 months commencing on 1 July 2009 or 1 July in any subsequent year.
- (3) The Minister must determine the number of kilograms of cockles that is to be the value of a cockle unit for a cockle fishing zone and a quota period.
- (4) The Minister may impose conditions on eligible marine scalefish fishery licences fixing cockle quota entitlements as follows:
- (a) the Minister must determine the total number of cockle units to be allocated in respect of each cockle fishing zone;

- (b) each licence may be allocated a share of the total number of cockle units in respect of a cockle fishing zone, being—
 - (i) a number of cockle units equal to 0.5% of the total number of cockle units to be allocated in respect of that zone; and
 - (ii) if, during the period that commenced on 1 July 2001 and ended on 30 June 2006, cockles were lawfully taken in that zone under a licence by the person who holds the licence on the commencement of this regulation, additional cockle units based on the total number of kilograms of cockles taken by the person in that zone during that period proportionate to the total number of kilograms taken under all eligible marine scalefish fishery licences and eligible rock lobster fishery licences in that zone during that period (as recorded on completed returns lodged under the relevant regulations).
- (5) The Minister may impose or vary conditions of licences in respect of a marine scalefish fishery or eligible rock lobster fishery licences fixing cockle quota entitlements as follows:
 - (a) on joint application made to the Minister by the holders of any 2 licences in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement in respect of the same cockle fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement under 1 of the licences in respect of that zone and decrease the unit entitlement under the other licence in respect of that zone by a corresponding number of units;
 - (b) on joint application made to the Minister by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement in respect of a particular cockle fishing zone and the holder of an eligible rock lobster fishery licence subject to a condition fixing a cockle quota entitlement in respect of that zone, the conditions of the licences may be varied so as to increase the unit entitlement under 1 of the licences in respect of that zone and decrease the unit entitlement under the other licence in respect of that zone by a corresponding number of units;
 - (c) on joint application made to the Minister by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement in respect of a particular cockle fishing zone (the **first licence**) and the holder of a licence in respect of a marine scalefish fishery not subject to a condition fixing a cockle quota entitlement in respect of that zone (the **second licence**)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone; and
 - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a cockle quota entitlement in respect of that zone may be imposed on that licence;

- (d) on joint application made to the Minister by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement in respect of a particular cockle fishing zone (the *first licence*) and the holder of an eligible rock lobster fishery licence not subject to a condition fixing a cockle quota entitlement in respect of that zone (the *second licence*)—
- (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone; and
 - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a cockle quota entitlement in respect of that zone may be imposed on that licence;
- (e) if the total catch of cockles taken during a quota period by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement exceeded the cockle quota entitlement under the licence for that quota period, the conditions of the licence may be varied so as to decrease the cockle quota entitlement—
- (i) if the catch exceeded the quota entitlement by not more than 50 kilograms—by 1 kilogram for each kilogram taken in excess of the quota entitlement; or
 - (ii) if the catch exceeded the quota entitlement by more than 50 kilograms but not more than 250 kilograms—by 2 kilograms for each kilogram taken in excess of the quota entitlement;
- (f) if—
- (i) the holder of a licence in respect of a marine scalefish fishery is convicted of an offence of contravening a condition of the licence fixing a cockle quota entitlement; and
 - (ii) the conduct constituting the offence involved the taking of more than 250 kilograms of cockles in excess of the cockle quota entitlement,
- the conditions of the licence may be varied so as to decrease the cockle quota entitlement under the licence for 3 quota periods following the conviction by 1 kilogram for each kilogram taken in excess of the quota entitlement for the quota period during which the offence was committed;
- (g) if—
- (i) the holder of a licence in respect of a marine scalefish fishery licence subject to a condition fixing a cockle quota entitlement has assisted in the carrying out of research work under the Act in relation to the fishery; and
 - (ii) the Minister considers that it is appropriate to compensate or reward the holder of the licence for the time spent in providing that assistance,
- the conditions of the licence may be varied so as to increase the cockle quota entitlement under the licence.

- (6) If a variation of a unit entitlement is to have effect only for the balance of the quota period during which the variation is made, the variation must be expressed to have such effect.
- (7) An application to vary unit entitlements must—
- (a) be made in a manner and form approved by the Minister; and
 - (b) be signed by the applicants and completed in accordance with the instructions contained in the form; and
 - (c) be accompanied by the appropriate fee fixed in the *Fisheries Management (Fees) Regulations 2007*.
- (8) If a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement is transferred to the holder of another such licence and 1 of those licences is surrendered, the conditions of the remaining licence may be varied so as to increase the unit entitlement under that licence by the number of cockle units allocated to the surrendered licence immediately before its surrender.
- (9) Subject to subregulations (10) and (11), the holder of a licence in respect of a marine scalefish fishery must not take cockles for a commercial purpose in a cockle fishing zone unless the licence is subject to a condition fixing a cockle quota entitlement in respect of that zone.
- Maximum penalty: \$5 000.
- (10) The holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a cockle quota entitlement in respect of a cockle fishing zone may take cockles in another cockle fishing zone if—
- (a) the holder of the licence is unable to lawfully take cockles in the cockle fishing zone to which the condition relates because—
 - (i) as a result of a variation in the conditions of the licence under subregulation (5), the number of cockle units allocated to the licence for the time being is zero; or
 - (ii) the total number of kilograms of cockles taken under the licence in that zone equals the quota entitlement under the licence in respect of that zone; and
 - (b) the cockles are taken solely for the purpose of bait to be used to take aquatic resources under the licence; and
 - (c) the number of cockles taken for that purpose on any 1 day does not exceed the number fixed by condition of the licence as the maximum number of cockles that may be taken in any 1 day for that purpose.
- (11) The holder of a licence in respect of a marine scalefish fishery that is not subject to a condition fixing a cockle quota entitlement may take cockles in a cockle fishing zone if—
- (a) the cockles are taken solely for the purpose of bait to be used to take aquatic resources under the licence; and
 - (b) the number of cockles taken for that purpose on any 1 day does not exceed the number fixed by condition of the licence as the maximum number of cockles that may be taken in any 1 day for that purpose.

 - (a) on joint application made to the Minister by the holders of any 2 licences in respect of a marine scalefish fishery subject to conditions fixing blue crab quota entitlements in relation to the same blue crab fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement under 1 of the licences in respect of that zone and decrease the unit entitlement under the other licence in respect of that zone by a corresponding number of units;
 - (b) on joint application made to the Minister by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a blue crab quota entitlement in relation to a particular blue crab fishing zone (the **first licence**) and the holder of another licence in respect of a marine scalefish fishery, being a licence not subject to a condition fixing a blue crab quota entitlement (whether at all or in relation to that zone) (the **second licence**)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone; and
 - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a blue crab quota entitlement in respect of that zone may be imposed on that licence;

- (c) on joint application made to the Minister by the holder of a licence in respect of a marine scalefish fishery subject to a condition fixing a blue crab quota entitlement in relation to a particular blue crab fishing zone (the *first licence*) and the holder of a licence in respect of the Blue Crab Fishery subject to a condition fixing a blue crab quota entitlement in respect of the same zone (the *second licence*)—
