- (3) For the purposes of subregulation (2), the formula for calculating the blue crab pot entitlement of a licence is as follows:

A is the blue crab pot entitlement expressed as a whole number (a number having a fraction of half or more being rounded up to the next whole number);

B is the unit entitlement of the licence;

C is the conversion value for the blue crab fishing zone to which the unit entitlement of the licence relates.

- (4) The Director may impose conditions on licences in respect of the fishery limiting the number of crab pots that may be carried on boats and otherwise regulating the carrying of crab pots used for fishing activities pursuant to the licences.

- (b) on renewal of a licence in respect of the Blue Crab Fishery referred to in the left column of the table in Schedule 4 for a term expiring on 30 June 2002, the licence must be allocated the number of blue crab units specified opposite in the middle column in respect of the blue crab fishing zone specified opposite in the right column;
- (c) during the licence period ending on 30 June 2002, the conditions of each licence in respect of the Blue Crab Fishery referred to in Schedule 4 must be varied so as to reduce the blue crab quota of the licence for that licence period by one kilogram for each kilogram of blue crab taken pursuant to the licence during the period commencing on 1 July 2001 and ending on 16 September 2001 (as recorded on completed CDR books delivered to the Director under regulation 16);
- (d) on the commencement of each licence period, the Director must determine the number of kilograms of blue crab that is to be the value of a blue crab unit for a blue crab fishing zone and the licence period;
- (e) on application made to the Director by the holders of any two licences in respect of the Blue Crab Fishery endorsed with conditions fixing blue crab quotas on the licences in relation to the same blue crab fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement of one of the licences in respect of that zone and decrease the unit entitlement of the other licence in respect of that zone by a corresponding number of units;
- (f) on application made to the Director by the holder of a licence in respect of the Blue Crab Fishery endorsed with a condition fixing a blue crab quota on the licence in relation to a particular blue crab fishing zone (the *first licence*) and the holder of a licence in respect of a marine scalefish fishery licence endorsed with a condition fixing a blue crab quota on the licence in relation to the same zone (the *second licence*)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to increase the unit entitlement under that licence in respect of that zone by a corresponding number of units; or
 - (ii) the conditions of the first licence may be varied so as to increase the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone by a corresponding number of units;
- (g) on application made to the Director by the holder of a licence in respect of the Blue Crab Fishery endorsed with a condition fixing a blue crab quota on the licence in relation to a particular blue crab fishing zone (the *first licence*) and the holder of a licence in respect of a marine scalefish fishery not endorsed with a condition fixing a blue crab quota on the licence (the *second licence*)—
 - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement of that licence in respect of that zone; and

- (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a blue crab quota on that licence in relation to that zone may be imposed;
 - (h) the Director may, if the total blue crab catch taken pursuant to a licence in respect of the fishery during a licence period exceeded the blue crab quota of the licence for that licence period, vary the conditions of the licence so as to decrease the quota—
 - (i) if the catch exceeded the quota by not more than 20 kilograms of blue crab—by one kilogram for each kilogram in excess of the quota; or
 - (ii) if the catch exceeded the quota by more than 20 kilograms but not more than 50 kilograms of blue crab—by two kilograms for each kilogram in excess of the quota;
 - (i) any variation of a blue crab quota made under paragraph (h) must be expressed to apply only for the licence period during which the variation is made;
 - (j) unit entitlements and blue crab quotas must not be varied except as provided by this regulation or the *Scheme of Management (Marine Scalefish Fisheries) Regulations 1991*.
- (2) If—
- (a) a court convicts the holder of a licence in respect of the Blue Crab Fishery of an offence of contravening a condition of the licence imposing a blue crab quota on the licence; and
 - (b) the conduct constituting the offence involved the taking of more than 50 kilograms of blue crab in excess of the quota,
- the court must make an order requiring the Director to vary the conditions of the licence so as to reduce the blue crab quota of the licence for three licence periods following the conviction by one kilogram for each kilogram in excess of the quota for the licence period during which the offence was committed.
