(a) the Marine Scalefish Fishery;

and

(b) the Restricted Marine Scalefish Fishery.

(2) The Marine Scalefish Fishery and the Restricted Marine Scalefish Fishery each consist of—

(3) The holder of a licence in respect of a marine scalefish fishery must not, for the purpose of trade or business, take blue crab in the waters of a blue crab fishing zone unless the licence is endorsed with a condition fixing a blue crab quota on the licence in relation to that zone.

Penalty: Division 6 fine.

### **No further licences to be granted**

**6.** (1) The licences in respect of the Marine Scale Fishery in force under the revoked regulations immediately before the commencement of these regulations continue in force as licences in respect of the Marine Scalefish Fishery subject to the provisions of the Act and these regulations, and no other licence may be granted in respect of the fishery.

(2) The licences in respect of the Restricted Marine Scale Fishery in force under the revoked regulations immediately before the commencement of these regulations continue in force as licences in respect of the Restricted Marine Scalefish Fishery subject to the provisions of the Act and these regulations, and no other licence may be granted in respect of the fishery.

### **Expiry of licences**

**7.** A licence in respect of a marine scalefish fishery expires on 30 June following the date of its last renewal.

### **Renewal of licences**

**8.** (1) A licence in respect of a marine scalefish fishery may be renewed by the Director on application made before or within 12 months after the expiry of the licence.

5.

(2) An application to renew a licence in respect of a marine scalefish fishery must—

(a) be made by the holder of the licence or, if the licence has expired, by the person who last held the licence;

and

(b) be made in writing in a form approved by the Director and signed by the applicant.

(3) Where an application to renew a licence is made before the expiry of the licence, the renewal of the licence takes effect from the expiry of the licence.

(4) Where an application to renew a licence is made after the expiry of the licence, the renewal of the licence takes effect from the date on which the application is granted.

(5) The Director may not renew a licence unless the applicant has paid—

(a) —

(i) the renewal fee specified in Schedule 2 less \$90; or

(ii) the first instalment of the renewal fee specified in Schedule 2, in accordance with subregulation (6); and

(b) the amount of any previous renewal fee remaining payable in respect of the licence, together with any additional amount payable for late payment of an instalment of the renewal fee.

(6) Where an application to renew a licence is made before or within three months after the expiry of the licence, the renewal fee may be paid by four equal instalments payable on or before the date of renewal of the licence and 1 October, 1 January and 1 April following the date of renewal.

(7) If an instalment of a renewal fee is not paid in full within 21 days after the due date for payment, an additional amount equal to 10 per cent of the amount of the instalment is payable.

(8) Where—

(a) an instalment of a renewal fee for a licence is not paid in full on or before the due date;

or

(b) an additional amount is required to be paid for late payment of an instalment of a renewal fee,

the amount unpaid may be recovered from the holder of the licence or the person who last held the licence as a debt due to the Crown.

**Refund on surrender of licence**

9. Where a licence in respect of a marine scalefish fishery is surrendered otherwise than as part of a process under regulation 10B, the Director must, on application by the former licensee, refund an amount that bears to the renewal fee last paid in respect of the licence the same proportion as the number of complete months from the date of surrender to the following 1 July bears to 12.

**Transfer of licences**

10. (a1) In this regulation—

"**authorised family transfer**" means a transfer of a licence that is authorised under regulation 10A;

"**authorised amalgamation scheme transfer**" means a transfer of a licence that is authorised under regulation 10B.

(1) A licence in respect of the Restricted Marine Scalefish Fishery is non-transferable.

(2) A licence in respect of the Marine Scalefish Fishery may be transferred with the consent of the Director.

\* \* \* \* \*

(3) An application for consent to the transfer of a licence must be a joint application made by the holder of the licence and the transferee.

(4) The application—

(a) must be made in writing in a form approved by the Director;

(b) must contain the information specified in schedule 3;

(c) must contain a nomination by the holder of the licence of the person to whom the licence is to be transferred;

and

(d) must be verified by the applicants by statutory declaration.

(5) The application must be lodged with the Director together with—

(a) the licence to be transferred;

(b) a form of return as required by these regulations completed by the holder of the licence up to the date of application;

and

(c) the application fee specified in schedule 2.

7.

(6) Before consenting to the transfer of a licence, the Director must be satisfied—

(a) that the transfer is—

(i) an authorised family transfer;

or

(ii) an authorised amalgamation scheme transfer;

and

(b) as to the following matters:

(i) that the licence to be transferred has not been suspended;

(ii) that no proceedings alleging an offence under the Act are pending or likely to be commenced in the State against the holder of the licence;

(iii) that the transfer is to one person only;

(iv) that the transferee is a natural person who—

(A) is at least 15 years of age;

and

(B) has not, within the period of three years preceding the date of the application, been convicted in the State or elsewhere in Australia of an offence involving a breach of any legislation relating to fishing;

(v) that no proceedings alleging an offence involving a breach of any legislation relating to fishing are pending or likely to be commenced in the State or elsewhere in Australia against the transferee;

(vi) that, in the case of an authorised family transfer, the transferee—

(A) does not already hold a licence in respect of the fishery or any other fishery;

and

(B) is not an associate of a person who holds such a licence;

and

8.

(vii) if any boat registered by endorsement of the licence is the subject of, is registered by endorsement of, or is otherwise referred to in, a licence, permit, authority or other entitlement to take fish granted under the Commonwealth Act or the laws of another State or Territory—

(A) that the entitlement is either to be transferred together with the fishery licence to the transferee or to be surrendered on or before the transfer of the fishery licence;

or

(B) that—

- the transfer of the fishery licence separately from the entitlement is not likely to result in fishing activities that endanger or overexploit fishery resources;

and

- the person or body that granted the entitlement concurs with the separate transfer of the licence.

#### **Transfer of licences between family members**

**10A.** Subject to regulation 10, a licence in respect of the Marine Scalefish Fishery may be transferred if the transferee is—

- (a) the spouse of the licensee;
- (b) a parent or grandparent of the licensee;
- (c) a brother or sister, or half-brother or half-sister, of the licensee;
- (d) a child or grandchild of the licensee;

or

- (e) a child or grandchild of the spouse of the licensee.

#### **Transfer of licences under amalgamation scheme**

**10B.** (1) In this regulation—

"**aggregate fishing points value**", in relation to two licences, means the sum of the fishing points values endorsed on the licences under this regulation;

"**aggregate gear entitlement**", in relation to two licences, means the aggregate of the numbers and kinds of devices the use of which is authorised by the gear endorsements of the licences (subject to any applicable limitations on the use of devices imposed by the *Fisheries (General) Regulations 2000*);

"**gear endorsement**" of a licence means the conditions endorsed on the licence under the Act specifying the numbers and kinds of devices that may be used for the purpose of taking fish pursuant to the licence;

"**licence**" means a licence in respect of the Marine Scalefish Fishery;

"**line licence**" means a licence other than a net licence;

"**net**" does not include a bait net;

"**net licence**" means a licence with a gear endorsement authorising the use of one or more nets (whether or not the endorsement authorises the use of other devices).

(2) For the purposes of this regulation, the Director must adopt and implement a system for ranking net licences and a system for ranking line licences under which—

- (a) points are allotted to every net licence or line licence, as the case may be, based on—
- (i) the quantities of each fish species taken pursuant to the licence during a specified period (as recorded on returns lodged in respect of the licence under regulation 16 or the corresponding regulation previously in force);

and

- (ii) values (reflecting market values) applied in relation to those recorded quantities of each fish species,

so that the greater the resulting total value the greater the points allotted to the licence;

- (b) all net licences are arranged in ascending order of allotted points and then divided into 10 approximately equal groups and all line licences are similarly arranged and divided into groups;

and

- (c) the licences in each group are each given a value (a "**fishing points value**") starting with 11 for the group with the lowest range of allotted points, 12 for the next group and so on through to 18 so that the value 18 is given to the licences in the groups with the three highest ranges of allotted points.

(3) The Director must then endorse on each licence the fishing points value given to the licence under the system for ranking net licences or the system for ranking line licences (as the case may be) under subregulation (2).

(4) The fishing points value endorsed on a licence under subregulation (3) may be varied only—

- (a) to reflect a change of the licence from a net licence to a line licence;
- (b) as otherwise required under this regulation;

10.

or

(c) in order to correct an error.

(5) Subject to regulation 10, a licence may then be transferred as authorised under the following provisions:

- (a) a net licence may be transferred to the holder of another net licence;
- (b) a line licence may be transferred to the holder of another line licence;
- (c) in either case, the transferee must, when the transfer has effect, surrender to the Director one of the two licences then held by the transferee;
- (d) if one or both of the licences held by the transferee has recorded on it under section 56 of the Act a conviction for an offence committed within the preceding period of three years, the licence surrendered must be—
  - (i) the licence without such a conviction, or as the case may require, the licence with the lesser number of such convictions, recorded on it;

or

- (ii) if the same number of such convictions is recorded on each licence—the licence other than the licence with a conviction recorded on it for the most recently committed offence;
- (e) where a licence is to be surrendered but—
  - (i) the last renewal fee for the licence has not been paid in full;

or

- (ii) an additional amount is required to be paid for late payment of an instalment of the renewal fee,

the balance of the renewal fee and any such additional amount must be paid before or when the licence is surrendered;

- (f) on the surrender of the licence and payment of any amount required to be paid under paragraph (e) in respect of the licence, the Director must—
  - (i) replace the gear endorsement of the remaining licence held by the transferee with a gear endorsement that makes provision for the aggregate gear entitlement in relation to that licence and the surrendered licence;

and

- (ii) vary the fishing points value endorsed on the remaining licence under this regulation so that it equals the aggregate fishing points value in relation to that licence and the surrendered licence;

- (g) when, as a result of the process referred to above, the fishing points value endorsed on a licence under this regulation equals or exceeds 26, the licence may be transferred to a person who is not—
- (i) the holder of a licence in respect of the Fishery or any other fishery;
- or
- (ii) an associate of a person who holds such a licence;
- (h) paragraph (g) does not prevent the holder of a licence with a fishing points value that equals or exceeds 26 from transferring the licence under the process referred to in paragraphs (a) to (f).

**Certain licence conditions subject to variation only as part of licence amalgamation scheme**

**10C.** The conditions endorsed on a licence in respect of the Marine Scalefish Fishery governing the use of devices (other than crab nets) for the purpose of taking fish pursuant to the licence may be varied only—

- (a) with the consent of the licensee so as to further restrict the devices (other than crab nets) that may be used;
  - (b) as required under regulation 10B;
- or
- (c) in order to correct an error.

**Registration of boats**

**11.** (1) An application to register a boat to be used in a marine scalefish fishery must be made in writing in a form approved by the Director and be accompanied by the applicant's licence in respect of the fishery.

(2) Before granting registration of the boat the Director must be satisfied that the applicant is the holder of a licence in respect of the fishery.

**Registration as master**

**12.** (1) An application to be registered as the master of a boat must be made in writing in a form approved by the Director and be accompanied by the applicant's licence in respect of the fishery.

(2) No person other than the holder of the licence may be registered as the master of a boat used pursuant to a licence in respect of a marine scalefish fishery.

**Revocation of registration**

**13.** (1) The Director may, on application by the holder of a licence in respect of a marine scalefish fishery, revoke any registration effected by endorsement of the licence.

(2) An application for revocation of any registration must be made in writing in a form approved by the Director and be accompanied by the licence on which the registration is endorsed.

**Registered master may only be assisted by one agent**

**14.** The registered master of a boat registered by endorsement of a licence in respect of the Restricted Marine Scalefish Fishery must not, when using the boat for the purpose of engaging in a fishing activity of a class that constitutes the fishery, cause or permit more than one other person to assist him or her in that activity.

Penalty: Division 6 fine.

**Carriage of crab nets on boats**

**14A.** The Director may impose conditions on licences in respect of a marine scalefish fishery limiting the number of crab nets that may be carried on boats and otherwise regulating the carrying of crab nets used for fishing activities pursuant to the licences.

**Individual blue crab catch quota system**

**14B.** (1) In this regulation—

"**blue crab quota**", in relation to a licence in respect of a marine scalefish fishery or the Blue Crab Fishery and a blue crab fishing zone, means the maximum number of kilograms of blue crab that may be lawfully taken by the holder of the licence in that zone during a licence period, being the product of—

- (a) the unit entitlement of that licence in respect of that zone; and
- (b) the unit value for that zone and that licence period,

subject to any variation of the blue crab quota of the licence applying during that licence period;

"**licence period**" means—

- (a) the period commencing on 17 September 2001 and ending on 30 June 2002; or
- (b) the period of 12 months commencing on 1 July 2002 or on 1 July in any subsequent year;

"**unit entitlement**", in relation to a licence in respect of a marine scalefish fishery or the Blue Crab Fishery and a blue crab fishing zone, means the number of blue crab units for the time being allocated to the licence in respect of that zone;

"**unit value**" means the number of kilograms of blue crab determined by the Director to be the value of a blue crab unit for a blue crab fishing zone and a licence period.

(2) The Director may impose or vary conditions on licences in respect of a marine scalefish fishery fixing or varying blue crab quotas (and may vary conditions on licences in respect of the Blue Crab Fishery varying blue crab quotas) as follows:

- (a) on renewal of a licence in respect of a marine scalefish fishery referred to in the left column of the table in Schedule 4 for a term expiring on 30 June 2002, the licence must be allocated the number of blue crab units specified opposite in the middle column in respect of the blue crab fishing zone specified opposite in the right column;

- (b) during the licence period ending on 30 June 2002, the conditions of each licence in respect of a marine scalefish fishery referred to in Schedule 4 must be varied so as to reduce the blue crab quota of the licence for that licence period by one kilogram for each kilogram of blue crab taken pursuant to the licence during the period commencing on 1 July 2001 and ending on 16 September 2001 (as recorded on completed CDR books delivered to the Director under regulation 15A);
- (c) on the commencement of each licence period, the Director must determine the number of kilograms of blue crab that is to be the value of a blue crab unit for a blue crab fishing zone and the licence period;
- (d) on application made to the Director by the holders of any two licences in respect of a marine scalefish fishery endorsed with conditions fixing blue crab quotas on the licences in relation to the same blue crab fishing zone, the conditions of the licences may be varied so as to increase the unit entitlement of one of the licences in respect of that zone and decrease the unit entitlement of the other licence in respect of that zone by a corresponding number of units;
- (e) on application made to the Director by the holder of a licence in respect of a marine scalefish fishery endorsed with a condition fixing a blue crab quota on the licence in relation to a particular blue crab fishing zone (the "first licence") and the holder of another licence in respect of a marine scalefish fishery (being a licence not endorsed with a condition fixing a blue crab quota on the licence (whether at all or in relation to that zone) (the "second licence")—
  - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement of that licence in respect of that zone; and
  - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a blue crab quota on that licence in respect of that zone may be imposed;
- (f) on application made to the Director by the holder of a licence in respect of a marine scalefish fishery endorsed with a condition fixing a blue crab quota on the licence in relation to a particular blue crab fishing zone (the "first licence") and the holder of a licence in respect of the Blue Crab Fishery endorsed with a condition fixing a blue crab quota on the licence in respect of the same zone (the "second licence")—
  - (i) the conditions of the first licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to increase the unit entitlement under that licence in respect of that zone by a corresponding number of units; or
  - (ii) the conditions of the first licence may be varied so as to increase the unit entitlement under that licence in respect of that zone and the conditions of the second licence may be varied so as to decrease the unit entitlement under that licence in respect of that zone by a corresponding number of units;

- (g) on application made to the Director by the holder of a licence in respect of the Blue Crab Fishery endorsed with a condition fixing a blue crab quota in respect of a particular blue crab fishing zone (the "first licence") and the holder of a licence in respect of a marine scalefish fishery not endorsed with a condition fixing a blue crab quota on the licence (whether at all or in relation to the same zone) (the "second licence")—
- (i) the conditions of the first licence may be varied so as to decrease the unit entitlement of that licence in respect of that zone; and
  - (ii) a corresponding number of units may be allocated to the second licence and a condition fixing a blue crab quota on that licence in respect of that zone may be imposed;
- (h) the Director may, if the total blue crab catch taken pursuant to a licence in respect of a marine scalefish fishery during a licence period exceeded the blue crab quota of the licence for that licence period, vary the conditions of the licence so as to decrease the quota—
- (i) if the catch exceeded the quota by not more than 20 kilograms of blue crab—by one kilogram for each kilogram in excess of the quota; or
  - (ii) if the catch exceeded the quota by more than 20 kilograms but not more than 50 kilograms of blue crab—by two kilograms for each kilogram in excess of the quota;
- (i) any variation of a blue crab quota made under paragraph (h) must be expressed to apply only for the licence period during which the variation is made;
- (j) unit entitlements and blue crab quotas must not be varied except as provided by this regulation or the *Scheme of Management (Blue Crab Fishery) Regulations 1998*.

(3) If—

- (a) a court convicts the holder of a licence in respect of a marine scalefish fishery of an offence of contravening a condition of the licence imposing a blue crab quota on the licence; and
- (b) the conduct constituting the offence involved the taking of more than 50 kilograms of blue crab in excess of the quota,

the court must make an order requiring the Director to vary the conditions of the licence so as to reduce the blue crab quota of the licence for three licence periods following the conviction by one kilogram for each kilogram in excess of the quota for the licence period during which the offence was committed.

(4) An application under subregulation (2)(d), (e), (f) or (g) must be made in a manner and form approved by the Director.
