## Part B—Recognised hospitals: determination of fees for admitted patients

### 1—Interpretation

In this Part, unless the contrary intention appears—

**day** means calendar day;

**inlier patient** means an admitted patient whose length of stay in a recognised hospital lies between the upper and lower trim points (or equals the upper or lower trim point) shown in the third and fourth columns of the table in this Part corresponding to the AN-DRG applicable to the patient (except where the upper trim point is zero, in which case an inlier patient is one whose length of stay is greater than the upper trim point);

**leave day** means a day on which an admitted patient is on leave from a hospital without being discharged from that hospital—

- (a) counting the day on which the patient goes on leave as one day; and

- (b) excluding the day on which the patient returns (unless it is also the day on which the patient goes on leave);

**length of stay**, in relation to an admitted patient in a recognised hospital, means the number of days between the day of admission of the patient into the hospital and the day of discharge of the patient from the hospital—

- (a) counting the day of admission as one day; and
- (b) excluding the day of discharge (unless it is also the day of admission); and
- (c) excluding any leave days;

**long stay outlier patient** means an admitted patient whose length of stay in a recognised hospital is, where the upper trim point shown in the third column of the table in this Part corresponding to the AN-DRG applicable to the patient is more than zero, greater than that upper trim point;

**short stay outlier patient** means an admitted patient whose length of stay in a recognised hospital is less than the lower trim point shown in the fourth column of the table in this Part corresponding to the AN-DRG applicable to the patient.

## 2—Inlier patients

Subject to this Part, the fee to be charged by a recognised hospital for a period of treatment, care and accommodation of an admitted patient to whom an AN-DRG specified in the first and second columns of the table in this Part is applicable must, where the patient is an inlier patient, be calculated as follows:

$$\text{Fee} = \text{Benchmark Price} \times \text{Inlier Cost Weight} \times \text{Severity Index}$$

where—

- (a) the **Benchmark Price** is—
  - (i) in the case of a public patient: \$2 776;
  - (ii) in the case of a private patient: \$2 096;
- (b) the **Inlier Cost Weight** is the inlier cost weight for that recognised hospital shown in the fifth or sixth columns of the table in this Part corresponding to the AN-DRG applicable to the patient;
- (c) the **Severity Index** is—
  - (i) **1.1** in the case of a metropolitan teaching hospital;
  - (ii) **1.05** in the case of—
    - (A) a metropolitan hospital other than a metropolitan teaching hospital; or
    - (B) a country regional hospital;
  - (iii) **1.0** in the case of any other hospital.

### 3—Short stay outlier patients

Subject to this Part, the fee to be charged by a recognised hospital for a period of treatment, care and accommodation of an admitted patient to whom an AN-DRG specified in the first and second columns of the table in this Part is applicable must, where the patient is a short stay outlier patient, be calculated as follows:

$$\text{Fee} = (\text{Benchmark Price} \times \text{LOS} \times \text{OBD Cost Weight}) \\ + (\text{Benchmark Theatre Price} \times \text{Theatre Cost Weight})$$

where—

- (a) the **Benchmark Price** is—
  - (i) in the case of a short stay outlier patient who is a public patient—\$532;
  - (ii) in the case of a short stay outlier patient who is a private patient—\$426;
- (b) **LOS** is the length of stay of the patient in the recognised hospital;
- (c) the **OBD Cost Weight** is the OBD (occupied bed day) cost weight shown in the seventh column of the table in this Part corresponding to the AN-DRG applicable to the patient;
- (d) the **Benchmark Theatre Price** is—
  - (i) in the case of a short stay outlier patient who is a public patient—\$1 038;
  - (ii) in the case of a short stay outlier patient who is a private patient—\$692;
- (e) the **Theatre Cost Weight** is the theatre cost weight shown in the eighth column of the table in this Part corresponding to the AN-DRG applicable to the patient.

### 4—Long stay outlier patients

- (1) Subject to this Part, the fee to be charged by a recognised hospital for a period of treatment, care and accommodation of an admitted patient to whom an AN-DRG specified in the first and second columns of the table in this Part is applicable must, where the patient is a long stay outlier patient, be calculated as follows:

- (a) if the length of stay of the patient in the recognised hospital is less than or equal to 90 days—

$$\text{Fee} = (\text{Inlier Price}) + (\text{Benchmark Price A}) \\ \times (\text{LOS} - \text{Upper Trim Point}) \times \text{OBD Cost Weight}$$

- (b) if—
  - (i) the length of stay of the patient in the recognised hospital is greater than 90 days; and
  - (ii) the upper trim point for the AN-DRG applicable to the patient is less than 90 days—

$$\text{Fee} = (\text{Inlier Price}) + (\text{Benchmark Price A} \times (90 - \text{Upper Trim Point}) \\ \times \text{OBD Cost Weight}) + (\text{Benchmark Price B} \times (\text{LOS} - 90))$$

(c) if—

- (i) the length of stay of the patient is greater than 90 days; and
- (ii) the upper trim point for the AN-DRG applicable to the patient is greater than 90 days—

$$\text{Fee} = (\text{Inlier Price}) + (\text{Benchmark Price B} \times (\text{LOS} - \text{Upper Trim Point}))$$

(2) For the purposes of subclause (1):

- (a) **Inlier Price** is the fee that would have been chargeable by the recognised hospital under this Part in respect of that patient for the relevant period of treatment, care and accommodation had the patient been an inlier patient;
- (b) **Benchmark Price A** is—

- (c) **LOS** is the length of stay of the patient in the recognised hospital;
- (d) **OBD Cost Weight** is the OBD (occupied bed day) cost weight shown in the seventh column of the table in this Part corresponding to the AN-DRG applicable to the patient;
- (e) **Benchmark Price B** is \$149;
- (f) **Upper Trim Point** is the upper trim point shown in the third column of the table in this Part corresponding to the AN-DRG applicable to the patient.

## 5—Rehabilitation fee, Hampstead Centre

- (1) Despite clauses 2, 3 and 4, the fee to be charged by the Hampstead Centre of the Royal Adelaide Hospital for a period of treatment, care and accommodation of an admitted patient for whom the applicable AN-DRG is AN-DRG 931 rehabilitation services is as follows:
  - (a) in the case of a public patient \$ 623 per day;
  - (b) in the case of a private patient \$ 561 per day.
- (2) For the purposes of this clause—

**day** includes the day of admission, but does not include—

  - (a) a leave day; or
  - (b) the day of discharge (unless it is also the day of admission).

## **6—Medical or diagnostic services for private patients**

In the case of a private patient, a fee determined in accordance with this Part does not include a fee for the cost of medical or diagnostic services provided by a medical practitioner selected by the patient.

## **7—Transportation fee**

Where, in addition to providing a service referred to in this Part, a recognised hospital transports, or arranges for the transportation of, a patient to or from (or between different campuses of) the hospital, the hospital may charge an additional fee equal to the cost to the hospital of providing, or arranging for the provision of, that transportation.
